FINANCIAL REPORT **2016**

RHB Bank Berhad

DRIVING SUSTAINABLE PERFORMANCE

TOGETHER WE PROGRESS

STATUTORY FINANCIAL STATEMENTS

RESPONSIBILITY STATEMENT BY THE BOARD OF DIRECTORS

In the course of preparing the annual audited financial statements of the Group and the Bank, the Directors are collectively responsible in ensuring that the audited financial statements are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards, the provisions of the Companies Act, 1965 in Malaysia and the Listing Requirements of Bursa Malaysia Securities Berhad.

It is the responsibility of the Directors to ensure that the annual audited financial statements of the Group and the Bank present a true and fair view of the state of affairs of the Group and the Bank as at 31 December 2016 and of the financial results and cash flows of the Group and the Bank for the financial year ended 31 December 2016.

The audited financial statements are prepared on the going concern basis and the Directors have ensured that proper accounting records are kept, appropriate accounting policies are applied on a consistent basis and accounting estimates made are reasonable and fair so as to enable the preparation of the financial statements of the Group and the Bank with reasonable accuracy.

The Directors have also taken the necessary steps to ensure that appropriate systems are in place for the assets of the Group and the Bank to be properly safeguarded for the prevention and detection of fraud and other irregularities. The systems, by their nature, can only provide reasonable and not absolute assurance against material misstatements, whether due to fraud or error.

The Statement by Directors pursuant to Section 169 of the Companies Act, 1965 is set out in page 223 of the financial statements.

DIRECTORS' REPORT

The Directors submit herewith their report together with the audited financial statements of the Group and the Bank for the financial year ended 31 December 2016.

PRINCIPAL ACTIVITIES

The principal activities of the Bank are commercial banking and finance related business and the provision of related services. The Group is involved in commercial banking and finance related business, Islamic banking, investment banking, stock broking, leasing, offshore banking, offshore trust services, property investment, general insurance, unit trust management, asset management, nominee and custodian services.

There have been significant changes in the principal activities of the Group during the financial year, which involve the acquisition of the subsidiaries/assets and liabilities by the Bank under the group internal reorganisation as disclosed in Note 53(1) to the financial statements. These subsidiaries are mainly involved in the investment banking, stock broking, general insurance, unit trust management and asset management business.

FINANCIAL RESULTS

	Group RM'000	Bank RM'000
Profit before taxation	2,231,841	1,576,756
Taxation	(544,253)	(351,073)
Net profit for the financial year	1,687,588	1,225,683

DIVIDENDS

The dividends paid by the Bank since 31 December 2015 were as follows:

	RM'000
In respect of the financial year ended 31 December 2015:	
– Single-tier interim dividend of 16.3267 sen per RM1.00 share, paid on 7 April 2016	565,000
In respect of the financial year ended 31 December 2016:	
– Single-tier interim dividend of 5.00 sen per RM1.00 share, paid on 30 September 2016	200,502
	765,502

At the forthcoming Annual General Meeting, a single-tier final cash dividend in respect of the current financial year of 7.00 sen per RM1.00 share amounting to RM280,703,000 will be proposed for shareholders' approval. The single-tier final dividend was approved by the Board of Directors on 25 January 2017.

The financial statements for the current financial year do not reflect this single-tier final dividend. This dividend payment will be accounted for in the shareholders' equity as an appropriation of retained profits in the financial year ending 31 December 2017.

RESERVES AND PROVISIONS

All material transfers to or from reserves and provisions during the financial year are disclosed in the financial statements.

ISSUE OF SHARES

On 18 February 2016, the Bank has undertaken a consolidation of two (2) ordinary shares of RM0.50 each into one (1) ordinary share of RM1.00 each. As a result, the number of issued and paid up ordinary shares of the Bank has reduced from 6,921,170,061 to 3,460,585,030.

During the financial year, the Bank increased its issued and paid up share capital from:

(a) RM3,460,585,030 to RM3,562,203,735 via the issuance of rights issue of 101,618,705 new ordinary shares of RM1.00 each at an issue price of RM5.56 per share on 7 April 2016 pursuant to the recapitalisation of the interim dividend for the financial year ended 31 December 2015 as disclosed in Note 30 to the financial statements; and

(b) RM3,562,203,735 to RM4,010,045,621 via the issuance of 447,841,886 new ordinary shares of RM1.00 each at an issue price of RM5.56 per share on 14 April 2016 pursuant to the capital injection by the former holding company, RHB Capital Berhad ('RHB Capital') of RM2.49 billion as disclosed in Note 30 to the financial statements.

The new ordinary shares issued during the financial year rank *pari passu* in all respects with the existing shares of the Bank.

BAD AND DOUBTFUL DEBTS AND FINANCING

Before the financial statements of the Group and the Bank were made out, the Directors took reasonable steps to ascertain that proper actions have been taken in relation to the writing off of bad debts and financing and the making of allowance for impaired debts and financing, and satisfied themselves that all known bad debts and financing have been written off and that adequate allowance had been made for impaired debts and financing.

At the date of this report, the Directors are not aware of any circumstances which would render the amount written off for bad debts or the amount of allowance for impaired debts and financing in the financial statements of the Group and the Bank inadequate to any substantial extent.

CURRENT ASSETS

Before the financial statements of the Group and the Bank were made out, the Directors took reasonable steps to ensure that any current assets, other than debts and financing, which were unlikely to realise in the ordinary course of business, their values as shown in the accounting records of the Group and the Bank, had been written down to an amount which they might be expected to realise.

At the date of this report, the Directors are not aware of any circumstances which would render the values attributed to the current assets in the financial statements of the Group and the Bank misleading.

VALUATION METHOD

At the date of this report, the Directors are not aware of any circumstances which have arisen which render adherence to the existing methods of valuation of assets or liabilities of the Group and the Bank misleading or inappropriate.

CONTINGENT AND OTHER LIABILITIES

At the date of this report, there does not exist:

(a) any charge on the assets of the Group and the Bank which has arisen since the end of the financial year which secures the liabilities of any other person; or

(b) any contingent liability of the Group and the Bank which has arisen since the end of the financial year other than in the ordinary course of business.

No contingent or other liability of the Group and the Bank has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group and the Bank to meet their obligations as and when they fall due.

CHANGE OF CIRCUMSTANCES

At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Group and the Bank which would render any amount stated in the financial statements misleading or inappropriate.

ITEMS OF AN UNUSUAL NATURE

The results of the operations of the Group and the Bank for the financial year were not, in the opinion of the Directors, substantially affected by any item, transaction or event of a material and unusual nature.

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect substantially the results of the operations of the Group or the Bank for the financial year in which this report is made.

SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR

Significant events during the financial year are disclosed in Note 53 to the financial statements.

EVENTS SUBSEQUENT TO THE BALANCE SHEET DATE

Events subsequent to the balance sheet date are disclosed in Note 54 to the financial statements.

DIRECTORS' REPORT

DIRECTORS

The Directors of the Bank in office since the date of the last report and at the date of this report are:

Tan Sri Azlan Zainol	
Tan Sri Saw Choo Boon	(Appointed on 15 June 2016)
Ong Seng Pheow	
Abdul Aziz Peru Mohamed	
Tan Sri Ong Leong Huat @ Wong Joo Hwa	
Mohamed Ali Ismaeil Ali Alfahim	
Dato' Sri Haji Syed Zainal Abidin Syed Mohamed Tahir	
Tan Sri Dr Rebecca Fatima Sta Maria	(Appointed on 1 August 2016)
Dato' Khairussaleh Ramli	
Dato' Abdul Rahman Ahmad	(Appointed on 15 June 2016, Resigned with effect from 30 September 2016)
Chin Yoong Kheong	(Retired on 31 July 2016)
Dato' Mohamed Khadar Merican	(Retired on 11 May 2016)
Haji Khairuddin Ahmad	(Retired on 11 May 2016)

Pursuant to Article 92 of the Bank's Articles of Association, Tan Sri Azlan Zainol and Ong Seng Pheow retire at the forthcoming Annual General Meeting of the Bank and being eligible, offer themselves for re-election.

Pursuant to Article 96 of the Bank's Articles of Association, Tan Sri Saw Choo Boon and Tan Sri Dr Rebecca Fatima Sta Maria retire at the forthcoming Annual General Meeting of the Bank and being eligible, offer themselves for re-election.

Pursuant to the Guidelines on Tenure of Appointment/Re-appointment of Non-Executive Directors for RHB Banking Group ('Internal Guidelines'), Ong Seng Pheow also retires at the forthcoming Annual General Meeting of the Bank in view that he has attained the maximum Non-Executive Director's tenure stipulated therein. The Board will seek shareholders' approval at the forthcoming Annual General Meeting to retain Ong Seng Pheow as an Independent Non-Executive Director of the Bank.

DIRECTORS' INTERESTS

According to the register of Directors' shareholdings, the Directors in office at the end of the financial year holding securities of the Bank and its related corporations are as follows:

	Number of ordinary shares of RM1.00 each				
	As at 1.1.2016	Distribution and Capital Repayment+	Bought	Sold	As at 31.12.2016
The Bank					
Tan Sri Ong Leong Huat @ Wong Joo Hwa:					
– Indirect*	–	31,431	–	–	**31,431**
– Indirect^	–	406,171,518	–	–	**406,171,518**

Notes:

+ Arising from distribution of the entire shareholding of the former holding company, RHB Capital in the Bank by way of distribution-in-specie via a reduction of the entire share premium account of RHB Capital and the par value of all the existing ordinary shares of RM1.00 each in RHB Capital from RM1.00 to RM0.05 in accordance with Sections 60(2) and 64 of the Companies Act, 1965 as well as via RHB Capital's retained earnings.

* The interest is held through family members.

^ Deemed interested pursuant to Section 6A of the Companies Act, 1965 by virtue of shares held through OSK Holdings Berhad ('OSK').

Prior to 13 June 2016, RHB Capital is still the holding company of the Bank. The interest of Tan Sri Ong Leong Huat @ Wong Joo Hwa in RHB Capital was as follows:

	Number of ordinary shares of RM1.00 each			
	As at 1.1.2016	Bought	Sold	As at 12.6.2016#
Former Holding Company, RHB Capital				
Tan Sri Ong Leong Huat @ Wong Joo Hwa:				
– Indirect*	24,100	–	–	**24,100**
– Indirect^	311,429,200	–	–	**311,429,200**

Notes:

* The interest is held through family members.

^ Deemed interested pursuant to Section 6A of the Companies Act, 1965 by virtue of shares held through OSK.

RHB Capital is no longer the holding company of the Bank with effect from 13 June 2016 upon completion of the distribution of its entire shareholding in the Bank by way of distribution-in-specie via a reduction of the entire share premium account of RHB Capital and the par value of all the existing ordinary shares of RM1.00 each in RHB Capital from RM1.00 to RM0.05 in accordance with Sections 60(2) and 64 of the Companies Act, 1965 as well as via RHB Capital's retained earnings.

DIRECTORS' INTERESTS (CONTINUED)

Other than the above, none of the other Directors holding office at the end of the financial year had any interest in the securities of the Bank or its related corporations during the financial year.

DIRECTORS' BENEFITS

Since the end of the previous financial year, no Director of the Bank has received or become entitled to receive any benefit (other than Directors' remuneration and benefits-in-kind as disclosed in Note 38 to the financial statements) by reason of a contract made by the Bank or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

During and at the end of the financial year, no arrangements subsisted to which the Bank or its subsidiaries is a party, being arrangements with the object or objects of enabling the Directors of the Bank to acquire benefits by means of the acquisition of shares in, or debentures of, the Bank or any other body corporate.

AUDITORS

The auditors, PricewaterhouseCoopers, have expressed their willingness to continue in office.

Signed on behalf of the Board in accordance with a resolution of the Board of Directors.

TAN SRI AZLAN ZAINOL
CHAIRMAN

DATO' KHAIRUSSALEH RAMLI
GROUP MANAGING DIRECTOR

Cash and cash equivalents:			
– at the beginning of the financial year		**8,213,683**	11,493,133
– at the end of the financial year		**12,430,270**	8,213,683
Cash and cash equivalents comprise the following:			
– Cash and short term funds	2	**12,430,270**	8,213,683
Note:			
Significant non-cash transaction during the financial year is as follows:			
– Recapitalisation of dividend		**565,000**	437,454

The accompanying accounting policies and notes form an integral part of these financial statements.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements. These accounting policies have been consistently applied to all the years presented, unless otherwise stated.

(1) BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Group and the Bank have been prepared in accordance with Malaysian Financial Reporting Standards (‘MFRS’), International Financial Reporting Standards (‘IFRS’) and the requirements of the Companies Act, 1965.

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial investments AFS, financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The financial statements also incorporate those activities relating to Islamic banking which have been undertaken by the Group. Islamic banking refers generally to the acceptance of deposits, granting of financing and dealing in Islamic securities under the Shariah principles.

The preparation of financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year. It also requires Directors to exercise their judgement in the process of applying the Group and the Bank’s accounting policies. Although these estimates and judgement are based on the Directors’ best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Section (B).

(a) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group and the Bank and are effective

The relevant new accounting standards and amendments to published standards and interpretations to existing accounting standards that are effective for the Group and the Bank’s financial year beginning on or after 1 January 2016 are as follows:

- Annual Improvements to MFRSs 2012 – 2014 Cycle
- Amendments to MFRS 11 ‘Joint Arrangements’ – Accounting for acquisition of interests in joint operations
- Amendments to MFRS 116 ‘Property Plant and Equipment’ and MFRS 138 ‘Intangible Assets’ – Clarification of acceptable methods of depreciation and amortisation
- Amendments to MFRS 127 ‘Separate Financial Statements’ – Equity method
- Amendments to MFRS 10, 12 and 128 ‘Consolidated Financial Statements’ and ‘Investments in Associates’ – Applying the consolidation exception
- Amendments to MFRS 101 ‘Presentation of Financial Statements’ – Disclosure initiative

The adoption of these annual improvements do not give rise to any material financial impact to the Group and the Bank.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(1) BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

(b) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group and the Bank but not yet effective

(i) MFRS 9 'Financial Instruments' (effective from 1 January 2018) will replace MFRS 139 'Financial Instruments: Recognition and Measurement'.

MFRS 9 retains but simplifies the mixed measurement model in MFRS 139 and establishes three primary measurement categories for financial assets: amortised cost, fair value through profit or loss and fair value through other comprehensive income ('OCI'). The basis of classification depends on the entity's business model and the cash flow characteristics of the financial asset. Investments in equity instruments are always measured at fair value through profit or loss with an irrevocable option at inception to present changes in fair value in OCI (provided the instrument is not held for trading). A debt instrument is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest.

For liabilities, the standard retains most of the MFRS 139 requirements. These include amortised cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch.

MFRS 9 introduces an expected credit loss model on impairment for all financial assets that replaces the incurred loss impairment model used in MFRS 139. The expected credit loss model is forward-looking and eliminates the need for a trigger event to have occurred before credit losses are recognised.

(ii) MFRS 15 'Revenue from Contracts with Customers' (effective from 1 January 2018) replaces MFRS 118 'Revenue' and MFRS 111 'Construction Contracts' and related interpretations. The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to the customer in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Revenue is recognised when a customer obtains control of goods or services, i.e. when the customer has the ability to direct the use of and obtain the benefits from the goods or services.

A new five-step process is applied before revenue can be recognised:

- Identify contracts with customers;
- Identify the separate performance obligations;
- Determine the transaction price of the contract;
- Allocate the transaction price to each of the separate performance obligations; and
- Recognise the revenue as each performance obligation is satisfied.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(1) BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

(b) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group and the Bank but not yet effective (continued)

(ii) MFRS 15 'Revenue from Contracts with Customers' (effective from 1 January 2018) replaces MFRS 118 'Revenue' and MFRS 111 'Construction Contracts' and related interpretations. The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to the customer in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. (continued)

Key provisions of the new standard are as follows:

- Any bundled goods or services that are distinct must be separately recognised, and any discounts or rebates on the contract price must generally be allocated to the separate elements.
- If the consideration varies (such as for incentives, rebates, performance fees, royalties, success of an outcome etc), minimum amounts of revenue must be recognised if they are not at significant risk of reversal.
- The point at which revenue is able to be recognised may shift: some revenue which is currently recognised at a point in time at the end of a contract may have to be recognised over the contract term and vice versa.
- There are new specific rules on licenses, warranties, non-refundable upfront fees, and consignment arrangements, to name a few.
- As with any new standard, there are also increased disclosures.

(iii) Amendments to MFRS 112 'Income Taxes' (effective from 1 January 2017). The amendments clarify the requirements for recognising deferred tax assets on unrealised losses where an asset is measured at fair value and that fair value is below the asset's tax base.

In addition, in evaluating whether an entity will have sufficient taxable profits in future periods against which deductible temporary differences can be utilised, the amendments require an entity to compare the deductible temporary differences with future taxable profits that excludes tax deductions resulting from the reversal of those temporary differences.

The amendments shall be applied retrospectively.

(iv) Amendments to MFRS 107 'Statements of Cash Flows' (effective from 1 January 2017). The amendments introduce additional disclosure which require an entity to evaluate changes in liabilities arising from financing activities, including cash flows and non-cash changes.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(1) BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

(b) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group and the Bank but not yet effective (continued)

(v) MFRS 16 'Leases' (effective from 1 January 2019) supersedes MFRS 117 'Leases' and the related interpretations.

Under MFRS 16, a lease is a contract (or part of a contract) that conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

MFRS 16 eliminates the classification of leases by the lessee as either finance leases (on balance sheet) or operating leases (off balance sheet). MFRS 16 requires a lessee to recognise a 'right-of-use' of the underlying asset and a lease liability reflecting future lease payments for most leases.

The right-of-use asset is depreciated in accordance with the principle in MFRS 116 'Property, Plant and Equipment' and the lease liability is accreted over time with interest expense recognised in the income statements.

For lessors, MFRS 16 retains most of the requirements in MFRS 117. Lessors continue to classify all leases as either operating leases or finance leases and account for them differently.

(vi) Annual Improvements to MFRS 2014-2016 Cycle:

- MFRS 1 'First-time Adoption of Malaysian Financial Reporting Standards' effective for annual periods beginning on or after 1 January 2018. The amendment deletes short term exemptions covering transition provisions of MFRS 7, MFRS 10 and MFRS 119. Those reliefs provided were available for entities with reporting periods that had passed and therefore no longer applicable.

- MFRS 12 'Disclosures of Interests in Other Entities' effective for annual periods beginning on or after 1 January 2017. The amendment clarified that:

  (i) when an entity's interest in a subsidiary, a joint venture or an associate classified as held for sale in accordance with MFRS 5, the entity is not required to disclose summarised financial information of these interests.

  (ii) other disclosure requirements in MFRS 12 remain applicable.

- MFRS 128 'Investments in Associates and Joint Ventures' effective for annual periods beginning on or after 1 January 2018. The amendments allow:

  (i) venture capital organisations, mutual funds, unit trusts and similar entities to elect, on an individual basis, measuring their investments in associates and joint ventures at fair value through profit or loss.

  (ii) an entity that is not an investment entity to retain the fair value measurement applied by its associates or joint ventures (that are investment entities) when applying equity method.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(1) BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

(b) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group and the Bank but not yet effective (continued)

(vi) Annual Improvements to MFRS 2014-2016 Cycle: (continued)

- Amendments to MFRS 4 – Applying MFRS 9 'Financial Instruments' with MFRS 4 'Insurance Contracts' effective for annual periods beginning on or after 1 January 2018. The amendments allow entities to avoid temporary volatility in profit or loss that might result from adopting MFRS 9 'Financial Instruments' before the forthcoming new insurance contracts standard. This is because certain financial assets have to be measured at fair value through profit or loss under MFRS 9; whereas, under MFRS 4 'Insurance Contracts', the related liabilities from insurance contracts are often measured on amortised cost basis.

  The amendments provide 2 different approaches for entities: (i) a temporary exemption from MFRS 9 for entities that meet specific requirements; and (ii) the overlay approach. Both approaches are optional.

- IC Interpretation 22 'Foreign Currency Transactions and Advance Consideration' effective for annual periods beginning on or after 1 January 2018. This interpretation applies when an entity recognises a non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration. MFRS 121 requires an entity to use the exchange rate at the 'date of the transaction' to record foreign currency transactions.

The adoption of the above accounting standards, amendments to published standards and interpretations are not expected to give rise to any material financial impact to the Group and the Bank except for enhanced disclosures. The Group and the Bank is in the process of reviewing the financial impact arising from the requirements of MFRS 9 to identify critical issues and to design robust methodologies arising from the adoption of this standard. The Group and the Bank expects this process to be completed prior to the effective date.

(c) Changes in regulatory requirements

(i) Companies Act 2016

The Companies Act 2016 ('New Act') was enacted to replace the Companies Act 1965 with the objectives to create a legal and regulatory structure that will facilitate business, and promote accountability as well as protection of corporate directors and shareholders, taking into consideration the interest of other stakeholders. The New Act was passed on 4 April 2016 by the Dewan Rakyat (House of Representative) and gazetted on 15 September 2016. On 26 January 2017, the Minister of Domestic Trade, Co-operatives and Consumerism announced that the date on which the New Act comes into operation, except Section 241 and Division 8 of Part III of the New Act, would be 31 January 2017.

Amongst the key changes introduced in the New Act which will affect the financial statements of the Group and the Bank upon the commencement of the New Act on 31 January 2017 are:

(i) removal of the authorised share capital;
(ii) shares of the Bank will cease to have par or nominal value; and
(iii) the Bank's share premium account will become part of the Bank's share capital.

The adoption of the New Act is not expected to have any financial impact on the Group and the Bank for the current financial year as any accounting implications will only be applied prospectively, if applicable, and the effect of adoption mainly will be on disclosures to the annual report and financial statements for the financial year ending 31 December 2017.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(2) BASIS OF CONSOLIDATION

(a) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group and are de-consolidated from the date that control ceases.

(i) Acquisition accounting

The Group applies the acquisition method to account for business combination. The consideration transferred for acquisition of a subsidiary is the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

Non-controlling interest is the equity in a subsidiary not attributable, directly or indirectly, to the Group or Bank. Non-controlling interest is measured either at fair value or proportionate share of the acquiree's identifiable net assets at the acquisition date, determined on a case by case basis. At the end of a reporting period, non-controlling interest consists of the amount calculated on the date of combination and its share of changes in the subsidiary's equity since the date of combination.

Acquisition-related costs are expensed as incurred.

In a business combination achieved in stages, the previously held equity interest in the acquiree is re-measured at its acquisition date fair value and the resulting gain or loss is recognised in income statements.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with MFRS 139 in income statements or as a change to other comprehensive income. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

The excess of the aggregate of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets of the subsidiary acquired, the gain is recognised in income statements. Refer to accounting policy Note 7 on goodwill.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(2) BASIS OF CONSOLIDATION (CONTINUED)

(a) Subsidiaries (continued)

(ii) Predecessor accounting

The Group and the Bank apply predecessor accounting to account for business combinations under common control. Under the predecessor accounting, assets and liabilities acquired are not restated to their respective fair values but at the carrying amounts from the consolidated financial statements of the ultimate holding company of the Group and adjusted to ensure uniform accounting policies of the Group. The difference between any consideration given and the aggregate carrying amounts of the assets and liabilities (as of the date of the transaction) of the acquired entity is recorded as an adjustment to retained earnings. No additional goodwill is recognised.

The acquired entity's results, assets and liabilities are consolidated from the date on which the business combination between entities under common control occurred. Consequently, the consolidated financial statements reflect both entities' full year results. The corresponding amounts for the previous year are restated to reflect the combined results of both entities.

All earnings and losses of the subsidiary are attributed to the parent and the non-controlling interest, even if the attribution of losses to the non-controlling interest results in a debit balance in the shareholders' equity. Profit or loss attributed to non-controlling interest for prior years is not restated.

All material inter-company and intra-group transactions and balances are eliminated on consolidation. Where necessary, adjustments are made to the financial statements of subsidiaries to ensure consistency of accounting policies with those of the Group.

(b) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity attributable to owners of the Group.

(c) Disposal of subsidiaries

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

Gain or loss on disposal of subsidiaries included the carrying amount of goodwill relating to subsidiaries sold.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(2) BASIS OF CONSOLIDATION (CONTINUED)

(d) Joint ventures

A joint venture is a joint arrangement whereby the joint ventures have rights to the net assets of the arrangement. The Group's interest in a joint venture is accounted for in the financial statements by the equity method of accounting. Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses and movements in other comprehensive income. When the Group's share of losses in a joint venture equals or exceeds its interests in the joint ventures (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

When the Group ceases to equity account its joint venture because of a loss of joint control, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amount previously recognised in other comprehensive income in respect of the entity is accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture is reduced but joint control is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

Where necessary, in applying the equity method, adjustments are made to the financial statements of joint ventures to ensure consistency of accounting policies with those of the Group.

(e) Associates

Associates are those corporations or other entities in which the Group exercises significant influence, but which it does not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Significant influence is the power to participate in the financial and operating policies through representation on the Board but not power to exercise control over those policies.

Investments in associates are accounted for in the consolidated financial statements using the equity method of accounting and are initially recognised at cost. Equity accounting involves recognising the Group's share of its associates' post-acquisition profits or losses in income statements, and its share of post-acquisition movements in reserves is recognised in other comprehensive income. The cumulative post-acquisition changes are adjusted against the cost of investment and include goodwill on acquisition, less accumulated impairment loss.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(2) BASIS OF CONSOLIDATION (CONTINUED)

(e) Associates (continued)

When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group discontinues recognising its shares of further losses. After the Group's interest is reduced to zero, additional losses are provided for, and a liability is recognised, only to the extent that the investor has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

Dilution gains and losses arising in investments in associates are recognised in the income statements.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates; unrealised losses are also eliminated unless the transaction provides evidence on impairment of the asset transferred. Where necessary, in applying the equity method of accounting, adjustments are made to the financial statements of associates to ensure consistency of accounting policies with those of the Group.

(3) INVESTMENTS IN SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

In the Bank's separate financial statements, investments in subsidiaries, associates and joint ventures are stated at cost less accumulated impairment losses. At the end of each reporting period, the Group and the Bank assess whether there is any indication of impairment. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. Refer to accounting policy Note 21 on impairment of non-financial assets.

On disposal of investments in subsidiaries, associates and joint ventures, the difference between disposal proceeds and the carrying amount of the investments is recognised in income statements.

(4) FINANCIAL ASSETS

(a) Classification

The Group and the Bank classify their financial assets in the following categories: at fair value through profit or loss, loans and receivables, financial investments AFS and HTM. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification at initial recognition.

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held-for-trading. A financial asset is classified in this category if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term. Derivatives are also classified in this category unless they are designated as hedges. Refer to accounting policy Note 6 on hedge accounting.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(4) FINANCIAL ASSETS (CONTINUED)

(a) Classification (continued)

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

(iii) Financial investments AFS

Financial investments AFS are non-derivatives that are either designated in this category or not classified in any of the other categories.

(iv) Financial investments HTM

Financial investments HTM are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group and the Bank's management has the positive intention and ability to hold to maturity. If the Group and the Bank were to sell other than an insignificant amount of financial investments HTM, the whole category would be tainted and reclassified as financial investments AFS.

(b) Recognition and initial measurement

Regular purchases and sales of financial assets are recognised on the settlement date on which the Group and the Bank commit to purchase or sell the asset.

Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in income statements.

(c) Subsequent measurement – gain and loss

Financial investments AFS and financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables and financial investments HTM are subsequently carried at amortised cost using the effective interest method.

Changes in the fair values of financial assets at fair value through profit or loss, including the effects of currency translation, interest and dividend income are recognised in non-interest income in income statements in the period in which the changes arise.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(4) FINANCIAL ASSETS (CONTINUED)

(c) Subsequent measurement – gain and loss (continued)

Changes in the fair value of financial investments AFS are recognised in other comprehensive income, except for impairment losses (refer to accounting policy Note 20 on impairment of financial assets) and foreign exchange gains and losses on monetary assets. The exchange differences on monetary assets are recognised in income statements, whereas exchange differences on non-monetary assets are recognised in other comprehensive income as part of fair value change.

Interest and dividend income on financial investments AFS are recognised separately in income statements. Interest on financial investments AFS calculated using the effective interest method is recognised in income statements. Dividend income on financial investments AFS is recognised in non-interest income in income statements when the Group and the Bank's right to receive payment is established.

(d) De-recognition

Financial assets are de-recognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group and the Bank have transferred substantially all risks and rewards of ownership.

Loans and receivables that are factored out to banks and other financial institutions with recourse to the Group and the Bank are not de-recognised until the recourse period has expired and the risks and rewards of the loans and receivables have been fully transferred. The corresponding cash received from the financial institutions is recorded as borrowings.

When financial investments AFS are sold, the accumulated fair value adjustments recognised in other comprehensive income are reclassified to income statements.

(e) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount will be presented in the statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(5) REPURCHASE AGREEMENTS

Securities purchased under resale agreements are securities which the Group and the Bank have purchased with a commitment to resell at future dates. The commitment to resell the securities is reflected as an asset on the statements of financial position.

Conversely, obligations on securities sold under repurchase agreements are securities which the Group and the Bank have sold from its portfolio, with a commitment to repurchase at future dates. Such financing and the obligation to repurchase the securities is reflected as a liability on the statements of financial position.

The difference between sale and repurchase price as well as purchase and resale price are amortised as interest income and interest expense respectively on an effective yield method.

(6) DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGE ACCOUNTING

Derivatives are initially recognised at fair value on the date on which derivative contracts are entered into and are subsequently re-measured at their fair values. Fair values are obtained from quoted market prices in active markets, including recent market transactions, and valuation techniques, including discounted cash flow models and option pricing models, as appropriate. All derivatives are carried as assets when fair values are positive and as liabilities when fair values are negative. Cash collateral held in relation to derivative transactions are carried at amortised cost.

The best evidence of the fair value of a derivative at initial recognition is the transaction price (i.e. the fair value of the consideration given or received) unless the fair value of that instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When such evidence exists, the Group and the Bank recognise profits on day one.

The method of recognising the resulting fair value gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group and the Bank designate certain derivatives as either: (1) hedges of the fair value of recognised assets or liabilities or firm commitments (fair value hedge); or (2) hedges of highly probable future cash flows attributable to a recognised asset or liability, or a forecasted transaction (cash flow hedge); or (3) net investment hedge. Hedge accounting is used for derivatives designated in this way provided certain criteria are met.

The Group and the Bank document, at the inception of the transaction, the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group and the Bank also document their assessment, both at hedge inception and on an on-going basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(6) DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGE ACCOUNTING (CONTINUED)

(a) Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statements, together with any changes in the fair value of the hedged assets or liabilities that are attributable to the hedged risk.

If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to the income statements over the period to maturity.

(b) Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated in reserves within equity. The gain or loss relating to the ineffective portion is recognised immediately in the income statements.

Amounts accumulated in equity are recycled to the income statements in the periods when the hedged item affects profit or loss (for example, when the forecast sale that is hedged takes place).

When a hedging instrument expires or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the income statements. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the income statements.

(c) Net investment hedge

Net investment hedge is a hedge against the exposure to exchange rate fluctuations on the net assets of the Group's foreign operations/subsidiaries. Any gain or loss on the hedging instrument relating to the effective portion of the hedge is recognised directly in the foreign currency translation reserve in equity via other comprehensive income while any gain or loss relating to the ineffective portion is recognised directly in the income statements. On disposal of the foreign operations/subsidiaries, the cumulative value of any such gains or losses recognised in equity is transferred to the income statements.

(d) Derivatives that do not qualify for hedge accounting

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in the income statements.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(7) GOODWILL

Goodwill arising on the acquisition of subsidiaries represents the excess of consideration transferred over the Group's interest in the net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquiree and the fair value of non-controlling interest in the acquiree.

Goodwill is stated at cost less accumulated impairment loss and is tested at least annually for impairment. Impairment loss on goodwill (inclusive of impairment losses recognised in a previous interim period) is not reversed. Gains and losses on the disposal of a subsidiary include the carrying amount of goodwill relating to the subsidiary sold. Refer to accounting policy Note 21 on impairment of non-financial assets.

Goodwill is allocated to Cash-Generating-Units ('CGUs') for the purpose of impairment testing. The allocation is made to those CGUs or groups of CGUs that are expected to benefit from the synergies of the business combination in which the goodwill arose, identified according to operating segment.

(8) INTANGIBLE ASSETS

Intangible assets comprise separately identifiable intangible items arising from business combinations, computer software licenses and other intangible assets. Intangible assets are recognised at cost. The cost of an intangible asset acquired in a business combination is its fair value at the date of acquisition. Intangible assets with a definite useful life are amortised using the straight-line method over their estimated useful economic life. Intangible assets with an indefinite useful life are not amortised. Generally, the identified intangible assets of the Group and the Bank have a definite useful life. At each date of the consolidated statement of financial position, intangible assets are reviewed for indications of impairment or changes in estimated future economic benefits. If such indications exists, the intangible assets are analysed to assess whether their carrying amount is fully recoverable. An impairment loss is recognised if the carrying amount exceeds the recoverable amount. Intangible assets with indefinite useful life are annually tested for impairment and whenever there is an indication that the asset may be impaired. Refer to accounting policy Note 21 on impairment of non-financial assets.

(a) Computer software licenses

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. Computer software licenses are subsequently carried at cost less accumulated amortisation and impairment losses. These costs are amortised over the estimated useful lives of 3 to 10 years.

(b) Other intangible assets

Other intangible assets consist of customer relationship, brands, trading rights and membership. Other intangible assets are initially recognised when they are separable or arose from contractual or other legal rights, and when the cost can be measured reliably and, in the case of intangible assets not acquired in a business combination, it is recognised where it is probable that future economic benefits attributable to the assets will flow from their use. The value of intangible assets which are acquired in a business combination is generally determined using income approach methodologies such as the discounted cash flow method.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(8) INTANGIBLE ASSETS (CONTINUED)

(b) Other intangible assets (continued)

Other intangible assets with definite life are stated at cost less amortisation and allowance for impairment, if any, plus reversals of impairment, if any. They are amortised over their useful lives in a manner that reflects the pattern to which they contribute to future cash flows, generally over the following useful lives:

Customer relationship	10 years
Brand	3-10 years

(9) PROPERTY, PLANT AND EQUIPMENT AND DEPRECIATION

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repair and maintenance costs are recognised as expense in income statements during the financial period in which they are incurred.

Freehold land, buildings in progress and renovations in progress are not depreciated. Other property, plant and equipment are depreciated on a straight-line basis to write down their costs to their residual values over their estimated useful lives. The principal annual depreciation rates are as follows:

Leasehold land	Amortised over the period of the lease*
Buildings	2% to 3.33%
Renovations and improvements	10% to 11%
Computer equipment	14.28% to 33.33%
Furniture, fittings and equipment	10% to 20%
Motor vehicles	20%
Computer software	10% to 33.33%

* The remaining period of the lease ranges from 3 to 868 years.

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. There are no material adjustments arising from the review that would require disclosure in the financial statements.

Gains or losses on disposals are determined by comparing proceeds with carrying amounts and are included in non-interest income in income statements.

At the end of the reporting period, the Group and the Bank assesses whether there is any indication of impairment. Where an indication of impairment exists, the carrying amount of the asset is written down to its recoverable amount. Refer to accounting policy Note 21 on impairment of non-financial assets.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(10) FINANCIAL LIABILITIES

Financial liabilities are measured at amortised cost, except for trading liabilities designated at fair value, which are held at fair value through profit or loss. Financial liabilities are initially recognised at fair value plus transaction costs for all financial liabilities not carried at fair value through profit or loss. Financial liabilities at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in income statements. Financial liabilities are de-recognised when extinguished.

(a) Financial liabilities at fair value through profit or loss

This category comprises two sub-categories: financial liabilities as held-for-trading, and financial liabilities designated at fair value through profit or loss upon initial recognition.

A financial liability is classified as held-for-trading if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit-taking. Derivatives are also categorised as held-for-trading unless they are designated as hedges. Refer to accounting policy Note 6 on hedge accounting.

(b) Other financial liabilities measured at amortised cost

Other financial liabilities are initially recognised at fair value plus transaction costs. Subsequently, other financial liabilities are re-measured at amortised cost using the effective interest rate.

Other financial liabilities measured at amortised cost are deposits from customers, deposits and placements of banks and other financial institutions, obligations on securities sold under repurchase agreements, obligations on securities borrowed, bills and acceptances payable, clients' and brokers' balances, recourse obligation on loans sold to Cagamas and other financial liabilities.

(c) Borrowings measured at amortised cost

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost, any difference between initial recognised amount and the redemption value is recognised in income statements over the period of the borrowings using the effective interest method.

All other borrowing costs are recognised in income statements in the period in which they are incurred.

Borrowings measured at amortised cost are long term and short term borrowings from financial institutions, subordinated obligations, senior debt securities and Hybrid Tier-1 Capital Securities.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(11) RECOURSE OBLIGATION ON LOANS SOLD TO CAGAMAS

In the normal course of banking operations, the Group and the Bank sell loans to Cagamas but undertake to administer the loans on behalf of Cagamas and to buy back any loans which are regarded as defective. Such financing transactions and the obligation to buy back the loans are reflected as a liability on the statements of financial position.

(12) LEASES – WHERE THE GROUP IS LESSEE

(a) Operating lease

Leases of assets where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to income statements on a straight-line basis over the period of the lease.

The up-front payments made for leasehold land represent prepaid lease rentals and are amortised on straight-line basis over the lease term.

Where an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period when termination takes place.

(b) Finance lease

Leases of assets where the Group and the Bank assume substantially all the risks and rewards of ownership of the assets are classified as finance leases. The assets are capitalised under property, plant and equipment and subject to depreciation consistent with that of depreciable assets which are owned. The assets and the corresponding lease obligations are recorded at the lower of present value of the minimum lease payments and the fair value of the leased assets at the beginning of the lease term. Each lease payment is allocated between the liability and finance charges using effective yield basis. The corresponding rental obligations, net of finance charges, are included in liabilities. The interest element of the finance charges is charged to income statements over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Property, plant and equipment acquired under finance leases are depreciated over the shorter of the estimated useful life of the asset and the lease term.

(13) LEASES – WHERE THE GROUP IS LESSOR

(a) Operating lease

When assets are leased out under an operating lease, the asset is included in the statements of financial position based on the nature of the asset. Lease income is recognised over the term of the lease on a straight-line basis.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(13) LEASES – WHERE THE GROUP IS LESSOR (CONTINUED)

(b) Finance lease

When assets are leased out under a finance lease, the present value of the lease payment is recognised as a receivable. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income. Lease income is recognised over the term of the lease using the 'net investment' method so as to reflect a constant periodic rate of return.

(14) PROVISIONS

Provisions are recognised when the Group and the Bank have a present legal or constructive obligation, as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount of obligation can be made.

Where the Group and the Bank expect a provision to be reimbursed (for example, under an insurance contract), the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditure expected to be required to settle the obligation using a pre-tax rate that reflects current market assessment of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as finance cost expense.

(15) FINANCIAL GUARANTEE CONTRACTS

Financial guarantee contracts are contracts that require the Group or the Bank to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to financial institutions and other bodies on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The fair value of a financial guarantee at the time of issuance is zero because all guarantees are agreed on arm's length terms and the value of the premium agreed corresponds to the value of the guarantee obligation. No receivable for the future premium is recognised.

The fair value of financial guarantee is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(15) FINANCIAL GUARANTEE CONTRACTS (CONTINUED)

Where financial guarantees in relation to loans or payables of subsidiaries are provided by the Group and the Bank for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of investment in subsidiaries.

(16) CONTINGENT LIABILITIES AND CONTINGENT ASSETS

The Group and the Bank do not recognise contingent assets and liabilities other than those arising from business combinations, but disclose their existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or the Bank or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in the extremely rare case where there is a liability that cannot be recognised because it cannot be measured reliably. However, contingent liabilities do not include financial guarantee contracts.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group and the Bank. The Group and the Bank do not recognise contingent assets but disclose their existence where inflows of economic benefits are probable, but not virtually certain.

Subsequent to the initial recognition, the Group and the Bank measure the contingent liabilities that are recognised separately at the date of acquisition at the higher of the amount that would be recognised in accordance with the provision of MFRS 137 ‘Provision, Contingent Liabilities and Contingent Assets’ and the amount initially recognised as profit or loss, less, when appropriate, cumulative amortisation recognised in accordance with MFRS 118 ‘Revenue’.

(17) SHARE CAPITAL

(a) Classification

Ordinary shares are classified as equity. Other shares, if issued, are classified as equity and/or liability according to the economic substance of the particular instrument.

(b) Share issue cost

Incremental costs directly attributable to the issue of new shares or options are deducted against share premium account.

(c) Dividend distribution

Distributions to holders of an equity instrument are debited directly to equity, and the corresponding liability is recognised in the period in which the shareholders’ right to receive the dividends are established or the dividends are approved.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(18) CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash and bank balances and short term deposits maturing within one month.

(19) REVENUE RECOGNITION

(a) Interest income is recognised using the effective interest method. The effective interest rate is the rate that discounts estimated future cash receipts or payments through the expected life of the financial instrument or, when appropriate, a shorter period to its carrying amount. The calculation includes significant fees and transaction costs that are integral to the effective interest rate, as well as premiums or discounts.

When a loan and receivable is impaired, the Group and the Bank reduce the carrying amount to its recoverable amount, being the estimated future cash flows discounted at the original effective interest rate of the instrument, and continue unwinding the discount as interest income. Interest income on impaired loans and receivables is recognised using the original effective interest rate.

(b) Loan arrangement fees, commissions and placement fees are recognised as income when all conditions precedent are fulfilled.

(c) Guarantee fees are recognised as income upon issuance of guarantees.

(d) Commitment fees are recognised as income based on time apportionment.

(e) Income from Islamic Banking business is recognised on accrual basis and in accordance with the principles of Shariah.

(f) Brokerage commission is recognised when services are rendered. Interest income from margin financing, clients' overdue outstanding purposes and contra losses are recognised using effective interest method.

(g) Premium income from general insurance business (net of all reinsurance) is recognised on the date of assumption of risks. Premium in respect of risk incepted, for which policies have not been raised as at the date of statements of financial position, is accrued at that date.

(h) Corporate advisory fees are recognised as income on completion of each stage of the engagement and issuance of invoice.

(i) Management fees of the unit trust and asset management company are recognised on accrual basis.

(j) Dividends from all investments are recognised when the shareholders' right to receive payment is established. This applies even if they are paid out of the pre-acquisition profits. However, the investment may need to be tested for impairment as a consequence.

(k) Income from bancassurance/bancatakaful agreements are amortised on a straight-line basis throughout the exclusive services agreement period.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(20) IMPAIRMENT OF FINANCIAL ASSETS

(a) Assets carried at amortised cost

The Group and the Bank assess at the end of the reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

The criteria that the Group and the Bank use to determine whether there is objective evidence of an impairment loss include:

- Significant financial difficulty of the issuer or obligor;
- A breach of contract, such as a default or delinquency in interest or principal payments;
- The Group, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
- Disappearance of an active market for that financial asset because of financial difficulties; or
- Observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
  - (i) Adverse changes in the payment status of borrowers in the portfolio; and
  - (ii) National or local economic conditions that correlate with defaults on the assets in the portfolio.

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The asset's carrying amount is reduced and the amount of the loss is recognised in income statements. If 'loans and receivables' or a 'HTM investment' have a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in income statements.

When an asset is uncollectible, it is written off against the related allowance account. Such assets are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(20) IMPAIRMENT OF FINANCIAL ASSETS (CONTINUED)

(a) Assets carried at amortised cost (continued)

For loans, advances and financing, the Group and the Bank first assesses whether objective evidence of impairment exists individually for loans, advances and financing that are individually significant, and individually or collectively for loans, advances and financing that are not individually significant. If the Group and the Bank determine that no objective evidence of impairment exists for individually assessed loans, advances and financing, whether significant or not, it includes the asset in a group of loans, advances and financing with similar credit risk characteristics and collectively assess them for impairment.

The Group and the Bank address impairment for loans, advances and financing via either individually assessed allowance or collectively assessed allowance.

(i) Individual impairment allowance

The Group and the Bank determine the allowance appropriate for each individual significant loans, advances and financing on an individual basis. The allowances are established based primarily on estimates of the realisable value of the collateral to secure the loans, advances and financing and are measured as the difference between the carrying amount of the loans, advances and financing and the present value of the expected future cash flows discounted at the original effective interest rate of the loans, advances and financing. All other loans, advances and financing that have been individually evaluated, but not considered to be individually impaired, are assessed collectively for impairment.

(ii) Collective impairment allowance

Loans which are not individually significant and loans that have been individually assessed with no evidence of impairment loss are grouped together for collective impairment assessment. These loans are grouped within similar credit risk characteristics for collective assessment, whereby data from the loan portfolio (such as credit quality, levels of arrears, credit utilisation, loan to collateral ratios etc.) and concentrations of risks (such as the performance of different individual groups) are taken into consideration.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated based on the historical loss experience of the Group and the Bank. Historical loss experience is adjusted on the basis of current observable data to reflect current conditions on which the historical loss experience is based on and to remove the effects of conditions in the historical period that do not exist currently. Estimates of changes in future cash flows reflect, and are directionally consistent with, changes in related observable data from year to year. The methodology and assumptions used for estimating future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

(iii) Regulatory reserve

The Group has adopted the requirement to maintain, in aggregate, the collective impairment allowances and regulatory reserves of no less than 1.2% of total outstanding loans/financing, net of individual impairment allowances. The regulatory reserve is debited against retained earnings.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(20) IMPAIRMENT OF FINANCIAL ASSETS (CONTINUED)

(b) Assets classified as AFS

The Group and the Bank assess at the end of the reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired.

For debt securities, the Group and the Bank use criteria and measurement of impairment loss applicable for 'assets carried at amortised cost' above. If, in a subsequent period, the fair value of a debt instrument classified as AFS increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in income statements, the impairment loss is reversed through income statements.

In the case of equity securities classified as AFS, in addition to the criteria for 'assets carried at amortised cost' above, a significant or prolonged decline in the fair value of the security below its cost is also considered as an indicator that the assets are impaired. If any such evidence exists for AFS financial assets, the cumulative loss that had been recognised directly in equity is removed from equity and recognised in income statements. The amount of cumulative loss that is reclassified to income statements is the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in income statements. Impairment losses recognised in income statements on equity instruments classified as AFS are not reversed through income statements.

(21) IMPAIRMENT OF NON-FINANCIAL ASSETS

Non-financial assets that have an indefinite useful life, for example goodwill, are not subject to amortisation and are tested annually for impairment. Non-financial assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the non-financial assets exceeds its recoverable amount.

The recoverable amount is the higher of a non-financial assets' fair value less costs to sell and value in use. For the purpose of assessing impairment, non-financial assets are grouped at the lowest levels for which there is separately identifiable cash flows or CGU. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting period.

The impairment loss is charged to income statements. Impairment losses on goodwill are not reversed. In respect of other non-financial assets, any subsequent increase in recoverable amount is recognised in income statements.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(22) GENERAL INSURANCE

Insurance contracts are those contracts that transfer significant insurance risk. An insurance contract is a contract under which the insurance subsidiary (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. As a general guideline, the Group determines whether it has significant insurance risk, by comparing benefits paid with benefits payable if the insured event did not occur.

The general insurance underwriting results are determined for each class of business after taking into account, reinsurances, commissions, unearned premiums and claims incurred.

(a) Premium income

Premium income is recognised on the date of assumption of risk. Premium in respect of risks incepted for which policies have not been raised as of the date of statements of financial position are accrued.

Premiums, claims and other transactions of inward treaty business are accounted for in the income statements as and when the statements of account are received.

Outward reinsurance premium are recognised in the same accounting period as the original policies to which the reinsurance relate.

(b) Premium liabilities

Premium liabilities refer to the higher of:

(i) The aggregate of the unearned premium reserves; or

(ii) The best estimate value of the insurer’s unexpired risk reserves at the valuation date and the Provision of Risk Margin for Adverse Deviation (‘PRAD’) calculated at the overall insurance subsidiary level. The best estimate value is a prospective estimate of the expected future payments arising from future events insured under policies in force as at the valuation date and also includes allowance for the insurer’s expense including overheads and cost of reinsurance, expected to be incurred during the unexpired period in administering these policies and settling the relevant claims, and shall allow for expected future premium refunds.

Unearned premium reserves (‘UPR’) represent the portion of premium income not yet earned at the date of statements of financial position. UPR is computed with reference to the month of accounting for the premium on the following basis:

(i) 25% method for marine and aviation cargo, and transit business;

(ii) (1/24th method for all other classes of general business except for non-annual policies in respect of Malaysian policies, reduced by the percentage of accounted gross direct business commission to the corresponding premium, not exceeding limits specified by Bank Negara Malaysia (‘BNM’); and

(iii) Time apportionment method for non-annual policies (including long term inwards treaty business) reduced by the percentage of accounted gross direct business commission to the corresponding premium, not exceeding limits specified by BNM.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(22) GENERAL INSURANCE (CONTINUED)

(c) Claim liabilities

A liability for outstanding claims is recognised in respect of both direct insurance and inward reinsurance. The amount of claims liabilities is the best estimate of the expenditure required together with related expenses less recoveries to settle the present obligations at the date of statements of financial position. These include provision for claims reported, claims incurred but not reported, claims incurred but not enough reserved and direct and indirect claims-related expenses such as investigation fees, loss adjustment fees, legal fees, sue and labour charges and the expected internal costs that the insurer expects to incur when settling these claims.

(d) Acquisition costs

The cost of acquiring and renewing insurance policies net of income derived from ceding reinsurance premium is recognised as incurred and properly allocated to the periods in which it is probable they give rise to income.

(e) Reinsurance

The insurance subsidiary cedes insurance risk in the normal course of business for all of its businesses. Reinsurance assets represent balances due from reinsurance companies. Amounts recoverable from reinsurers are estimated in a manner consistent with the outstanding claims provision or settled claims associated with the reinsurer's policies and are in accordance with the related reinsurance contracts.

Ceded reinsurance arrangements do not relieve the insurance subsidiary from its obligations to policyholders. Premiums and claims are presented on a gross basis for both ceded and assumed reinsurance.

Reinsurance assets are reviewed for impairment at each reporting date or more frequently when an indication of impairment arises during the reporting period. Impairment occurs when there is objective evidence as a result of an event that occurred after initial recognition of the reinsurance asset that the insurance subsidiary may not receive all outstanding amounts due under the terms of the contract and the event has a reliably measurable impact on the amounts that the Company insurer will receive from the reinsurer. The impairment loss is recorded in the income statements.

Gains or losses on buying reinsurance are recognised in the income statements immediately at the date of purchase and are not amortised.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(22) GENERAL INSURANCE (CONTINUED)

(e) Reinsurance (continued)

The Group also assumes reinsurance risk in the normal course of business for general insurance contracts when applicable.

Premiums and claims on assumed reinsurance are recognised as revenue or expenses in the same manner as they would be if the reinsurance were considered direct business, taking into account the product classification of the reinsured business. Reinsurance liabilities represent balances due to reinsurance companies. Amounts payable are estimated in a manner consistent with the related reinsurance contract.

Reinsurance assets or liabilities are derecognised when the contractual rights are extinguished or expired or when the contract is transferred to another party.

Reinsurance contracts that do not transfer significant insurance risk are accounted for directly through the statements of financial position. These are deposit assets or financial liabilities that are recognised based on the consideration paid or received less any explicit identified premiums or fees to be retained by the reinsured. Investment income on these contracts is accounted for using the effective yield method when accrued.

(f) Insurance contract liabilities

General insurance contract liabilities are recognised when contracts are entered into and premiums are charged.

These liabilities comprise claims liabilities and premium liabilities.

Outstanding claims provision are based on the estimated ultimate cost of all claims incurred but not settled at the date of statements of financial position, whether reported or not, together with related claims handling costs and reduction for the expected value of salvage and other recoveries. Delays can be experienced in the notification and settlement of certain types of claims, therefore, the ultimate cost of these claims cannot be known with certainty at the date of statements of financial position. The liability is calculated at the reporting date using a range of standard actuarial claim projection techniques based on empirical data and current assumptions that may include a margin for adverse deviation. The liability is not discounted for the time value of money. No provision for equalisation or catastrophe reserves is recognised. The liabilities are derecognised when the contract expires, is discharged or is cancelled. The provision for unearned premiums represents premiums received for risks that have not yet expired. Generally, the reserve is released over the term of the contract and is recognised as premium income.

At each reporting date, the Group reviews its unexpired risks and a liability adequacy test is performed to determine whether there is any overall excess of expected claims and deferred acquisition costs over unearned premiums. This calculation uses current estimates of future contractual cash flows (taking into consideration current loss ratios) after taking account of the investment return expected to arise on assets relating to the relevant general insurance technical provisions. If these estimates show that the carrying amount of the unearned premiums less related deferred acquisition costs is inadequate, the deficiency is recognised in income statements by setting up a provision for liability adequacy.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(23) EMPLOYEE BENEFITS

(a) Short term employee benefits

The Group and the Bank recognise a liability and an expense for bonuses. The Group and the Bank recognise a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

Wages, salaries, paid annual leave and sick leave, bonuses and non-monetary benefits are accrued in the period in which the associated services are rendered by employees of the Group and the Bank.

(b) Defined contribution plans

A defined contribution plan is a pension plan under which the Group and the Bank pay fixed contributions to the national pension scheme, the Employees' Provident Fund. The Group's and the Bank's contributions to defined contribution plans are charged to income statements in the period to which they relate. Once the contributions have been paid, the Group and the Bank have no further legal or constructive obligations.

(c) Termination benefits

Termination benefits are payable whenever an employee's employment is terminated before the normal retirement date or whenever an employee accepts voluntary redundancy in exchange for these benefits.

(24) CURRENT AND DEFERRED INCOME TAXES

The tax expense for the period comprises current and deferred tax. Tax is recognised in income statements, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is recognised in other comprehensive income or directly in equity, respectively.

Current tax expense is determined according to the tax laws of each jurisdiction in which the Group and the Bank operate and include all taxes based upon the taxable profits, including withholding taxes payable by foreign subsidiaries, associates and joint ventures and arising from distributions of retained profits to companies in the Group.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences or unused tax losses can be utilised.

Deferred tax is recognised on temporary differences arising on investments in subsidiaries, associates and joint ventures except where the timing of the reversal of the temporary differences can be controlled by the Group and it is probable that the temporary differences will not reverse in the foreseeable future.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(24) CURRENT AND DEFERRED INCOME TAXES (CONTINUED)

Deferred tax is determined using tax rates (and tax laws) that have been enacted or substantially enacted by the date of statements of financial position and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred and income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(25) CURRENCY CONVERSION AND TRANSLATION

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the 'functional currency'). The financial statements are presented in Ringgit Malaysia, which is the Bank's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statements, except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges. Foreign exchange gains and losses are presented in income statements within other operating income.

Changes in the fair value of monetary securities denominated in foreign currency classified as AFS are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in income statements, and other changes in carrying amount are recognised in other comprehensive income.

Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in income statements as part of the fair value gain or loss. Translation differences on non-monetary financial assets, such as equities classified as AFS, are included in other comprehensive income.

(A) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(25) CURRENCY CONVERSION AND TRANSLATION (CONTINUED)

(c) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

(i) Assets and liabilities for each statements of financial position presented are translated at the closing rate at the date of that statements of financial position;

(ii) Income and expenses for each statements of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of transactions); and

(iii) All resulting exchange differences are recognised as a separate component of other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign operations, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is partially disposed of or sold, a proportionate share of such exchange differences is recognised in income statements as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

(26) SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who is responsible for allocating resources to and assessing performance of the operating segments of an entity. The Group has determined its Group Management Committee as its chief operating decision-maker.

(B) CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The Group and the Bank make estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets within the next financial year are outlined below:

(a) Allowance for impairment of financial assets

In determining impairment of financial assets, management considers objective evidence of impairment and exercises judgement in estimating cash flow and collateral value.

The Group and the Bank make allowance for losses based on assessment of recoverability. Management's judgement is made in estimation of the amount and timing of future cash flows in assessing allowance for impairment of financial assets. Among the factors considered are the Group's and the Bank's aggregate exposure to the borrower, the net realisable value of the underlying collateral value, the viability of the customer's business model, the capacity to generate sufficient cash flows to service debt obligations and the aggregate amount and ranking of all other creditor claims. The actual amount of the future cash flows and their timing may differ from the estimates used by management and consequently may cause actual losses to differ from the impairment made.

(b) Goodwill impairment

Goodwill is tested at least annually for impairment. Testing of goodwill for impairment involves a significant amount of estimation. This includes the identification of independent CGUs and the allocation of goodwill to these units based on which units are expected to benefit from the acquisition. Estimating the value in use requires the Group and the Bank to make an estimate of the expected future cash flows from the CGU. Determining both the expected pre-tax cash flows and the risk adjusted discount rate appropriate to the CGU also require the exercise of judgement. The variables are subject to fluctuations in external market rates and economic conditions beyond management control and are subject to uncertainty and require the exercise of significant judgement. The detailed disclosures on the assessment of impairment of goodwill is disclosed in Note 17 to the financial statements.

1 GENERAL INFORMATION

RHB Bank Berhad is a public limited company, incorporated and domiciled in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

The principal activities of the Bank are commercial banking and finance related business and the provision of related services. The Group is involved in commercial banking and finance related business, Islamic banking, investment banking, stock broking, leasing, offshore banking, offshore trust services, property investment, general insurance, unit trust management, asset management, nominee and custodian services.

There have been significant changes in the principal activities of the Group during the financial year, which involve the acquisition of the subsidiaries/assets and liabilities by the Bank under the group internal reorganisation as disclosed in Note 53(1). These subsidiaries are mainly involved in the investment banking, stock broking, general insurance, unit trust management and asset management business.

The address of the registered office of the Bank is Level 9, Tower One, RHB Centre, Jalan Tun Razak, 50400 Kuala Lumpur.

The financial statements have been approved for issue in accordance with a resolution of the Board of Directors on 28 February 2017.

4 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS ('FVTPL') (CONTINUED)

In 2008, the Group reclassified a portion of its financial assets FVTPL into financial investments AFS. The reclassification has been accounted for in accordance with BNM's circular on 'Reclassification of Securities under Specific Circumstances' dated 17 October 2008, which is effective from 1 July 2008 until 31 December 2009.

The effects of the reclassification on the income statements for the period from the date of reclassification to 31 December 2016 were as follows:

	Group	
	2016 RM'000	**Restated 2015 RM'000**
Reclassified from financial assets FVTPL to financial investments AFS:		
– Carrying amount	**15,535**	30,188
– Fair value	**15,478**	30,146
Fair value loss that would have been recognised if the financial assets FVTPL had not been reclassified	**(57)**	(42)

(ii) Amounts due from former holding company and subsidiaries are unsecured, interest free and receivable within the normal credit period.

11 DERIVATIVE ASSETS/(LIABILITIES)

Derivative financial instruments are financial instruments whose values change in response to changes in prices or rates (such as foreign exchange rates, interest rates and security prices) of the underlying instruments. These instruments are used by the Group and the Bank for economic hedges and for proprietary trading purposes. The default classification for derivative financial instruments is trading, unless designated in a hedge relationship and are in compliance with the stringent requirements of hedge accounting mentioned in the Group's and Bank's accounting policies.

The table below shows the Group's and the Bank's derivative financial instruments as at the date of statements of financial position. The contractual or underlying principal amounts of these derivative financial instruments and their corresponding gross positive (derivative assets) and gross negative (derivative liabilities) fair values at the date of statements of financial position are analysed below:

		4,096,153	**(3,671,822)**		3,060,699	(2,997,719)

(i) Fair value hedges

Fair value hedging are used by the Group and the Bank for protection against the changes in fair value of financial assets and financial liabilities due to movements in market interest rates. The Group and the Bank use interest rate swaps to hedge against interest rate risk of specific identified fixed rate long term as well as portfolio homogenous pools of loans, advances and financing. Included in other operating income as disclosed in Note 35 is the net gains and losses arising from fair value hedges for the financial year as follows:

	Group 2016 RM'000	Group Restated 2015 RM'000	Bank 2016 RM'000	Bank Restated 2015 RM'000
Loss on hedging instruments	**(18,109)**	(11,959)	**(3,562)**	(2,203)
Gain on the hedged items attributable to the hedged risk	**20,389**	12,639	**3,546**	2,244
	2,280	680	**(16)**	41

11 DERIVATIVE ASSETS/(LIABILITIES) (CONTINUED)

(ii) Net investment hedge

The Group's statements of financial position is affected by gains and losses as a result of the revaluation of net assets of its subsidiaries denominated in currencies other than its functional currency. The Group hedges its exposures to foreign currency risk via the designation of foreign currency denominated deposits and the fair value as at 31 December 2016 amounted to RM347 million (2015: RM498 million). The hedging relationship was fully effective for the total hedging period and as of the reporting date.

12 STATUTORY DEPOSITS

	Note	Group 2016 RM'000	Group Restated 2015 RM'000	Bank 2016 RM'000	Bank Restated 2015 RM'000
Statutory deposits with BNM	(a)	**3,780,944**	4,861,722	**2,649,194**	3,549,070

14 INVESTMENTS IN SUBSIDIARIES (CONTINUED)

Notes:

1 Subsidiaries audited by a member firm of PricewaterhouseCoopers which is a separate and independent legal entity from PricewaterhouseCoopers, Malaysia.

2 Subsidiaries audited by a firm other than member firms of PricewaterhouseCoopers.

3 Subsidiaries acquired during the current financial year pursuant to the group internal reorganisation as disclosed in Note 53(1).

4 Subsidiary not audited pursuant to Companies Act, 2013 in Cayman Islands.

5 The Bank has on 18 November 2016, injected additional capital of RM100 million into RHB Islamic Bank.

6 The fund has been fully redeemed on 12 August 2016.

7 RHB Investment Bank has injected capital amounting to SGD5,000,000 (equivalent to RM15,325,000) on 22 January 2016 and additional capital of SGD15,000,000 (equivalent to RM45,105,000) on 15 March 2016.

8 The company has commenced member's voluntary winding up on 16 February 2011.

9 The company has ceased operations effective from the close of business on 10 December 2001.

10 With effect from 1 July 2001, the company's activities relate primarily to recovery of outstanding debts.

11 The company has commenced member's voluntary winding up on 28 March 2012.

12 The company has been dissolved upon its deregistration on 25 November 2016 pursuant to Section 751(3) of the Hong Kong Companies Ordinance, Chapter 622.

^ The funds are subsidiaries consolidated in the Group as the Group controls the funds in accordance with MFRS 10 'Consolidated Financial Statements'.

15 INVESTMENTS IN ASSOCIATES AND JOINT VENTURES

		Group	
	Note	2016 RM'000	Restated 2015 RM'000
Investments in associates – at cost	(a)	45,000	–
Less: Allowance for impairment losses		(12,500)	–
		32,500	–
Share of net assets of joint ventures	(b)	30,806	29,533
Less: Allowance for impairment losses		(13,769)	(13,769)
		17,037	15,764
		49,537	15,764

(a) Share of net assets of associates

The details of the associates are as follows:

Name of company	Country of incorporation	Paid-up share capital (in RM unless otherwise stated)	Effective equity interest 2016 %	Effective equity interest Restated 2015 %	Principal activities
Prostar Capital (Asia-Pacific) Ltd.[1] ('Prostar')	Cayman Islands	USD60	33.33	33.33	Investment holding with subsidiaries involve in the investment advisory and management of private equity funds
Satin Straits Sdn Bhd[2] ('Satin Straits')	Malaysia	5,000,000	–	–	Investment holding

Notes:

1 Held through RHB Private Equity Management Ltd, a wholly-owned subsidiary of RHB Private Equity Holdings Sdn Bhd ('RHBPE'), which in turn is a wholly-owned subsidiary of RHB Investment Bank.

As at 31 December 2016, the Group's share of cumulative losses in Prostar of RM2,407,000 (2015: RM1,340,000) has exceeded the cost of investment. Accordingly the Group does not recognise further losses in the current financial year.

15 INVESTMENTS IN ASSOCIATES AND JOINT VENTURES (CONTINUED)

(a) Share of net assets of associates (continued)

Notes (continued):

2 Held through RHBPE, a wholly-owned subsidiary of RHB Investment Bank. The effective equity interest in Satin Straits is Nil as RHBPE has only subscribed for RM45 million Redeemable Convertible Preference Shares. RHBPE will only share the profits of the company and is entitled for full principal repayment upon maturity and with upside potential upon the trade sales or listing of the company.

The Group has accounted for this as an associate as the Group is deemed to have significant influence in accordance with MFRS 128 'Investment in Associates and Joint Ventures'.

There are no capital commitments or contingent liabilities relating to the Group's investments in the associates as at 31 December 2016.

(b) Share of net assets of joint ventures

The details of the joint ventures are as follows:

Name of company	Country of incorporation	Paid-up share capital (in RM unless otherwise stated)	Effective equity interest 2016 %	Effective equity interest Restated 2015 %	Principal activities

The recoverable amount of a CGU is determined based on value in use calculations. These calculations use pre-tax cash flow projections based on financial budgets approved by Directors covering a three-year (2015: three-year) period. Cash flows beyond the three-year period are extrapolated using the estimated terminal growth rates and discounted using pre-tax discount rates which reflect the specific risks relating to the CGU. The growth rate does not exceed the long-term average growth rate for the business in which the CGU operates.

The cash flow projections are derived based on a number of key factors including the past performance and the management's expectations of the market developments.

The discount rates used are pre-tax and reflect specific risks relating to the relevant CGUs.

Impairment was not required for goodwill arising from all CGUs. Management believes that any reasonable possible change to the assumptions applied is not likely to cause the recoverable amount of all the CGUs to be lower than its carrying amount.

17 GOODWILL (CONTINUED)

The estimated terminal growth rates and discount rates used for value in use calculation are as follows:

25 RECOURSE OBLIGATION ON LOANS SOLD TO CAGAMAS BERHAD ('CAGAMAS')

Recourse obligation on loans sold to Cagamas represents those acquired from the originators and sold to Cagamas with recourse. Under the agreement, the Group and the Bank undertake to administer the loans on behalf of Cagamas and to buy back any loans which are regarded as defective based on pre-determined and agreed-upon prudential criteria with recourse against the originators. Such financing transactions and the obligation to buy back the loans are reflected as a liability on the statements of financial position. The loans are not de-recognised and are analysed in Note 7.

The THB revolving credit facilities of the Group bears interest at rates ranging from 1.85% to 3.53% (2015: Nil) per annum.

26 BORROWINGS (CONTINUED)

The borrowings of the Group and the Bank are as follows: (continued)

(b) Term loans

(i) USD term loans

(1) On 7 April 2006, the Bank entered into an agreement with Japan Bank for International Cooperation ('JBIC'), to obtain an unsecured Untied Loan facility of USD100 million for a tenure of 11 years. Disbursements of USD50 million and USD30 million were done on 29 June 2006 and 20 October 2006 respectively. Final disbursement of USD20 million was done on 31 January 2007. The said loan is repayable on 8 March and 8 September each year for 20 equal instalments commencing on 8 March 2008 until 8 September 2017 and bears a floating interest rate of British Bankers Association Interest Settlement Rate in USD ('BBA LIBOR') plus 0.395% per annum. The interest rate for the year ranged from 0.72% to 1.65% (2015: 0.72%) per annum.

On 24 March 2008, the Bank entered into another agreement with JBIC to obtain an unsecured Untied Loan facility of USD100 million for a tenure of 10 years. Disbursement of USD100 million was done on 30 May 2008. The said loan is repayable on 8 March and 8 September each year for 20 equal instalments commencing 8 September 2010 to 8 March 2020 and bears a floating interest rate of BBA LIBOR plus 0.315% per annum. The interest rate for the year ranged from 0.64% to 1.57% (2015: 0.64%) per annum.

On 28 May 2009, the Bank entered into a third agreement with JBIC to obtain an unsecured Untied Loan facility of USD100 million for a tenure of 8 years. Disbursement of USD100 million was done on 28 July 2009. The said loan is repayable on 10 April and 10 October each year for 16 equal instalments commencing 10 October 2011 to 10 April 2019 and bears a floating interest rate of BBA LIBOR plus 0.80% per annum. The interest rate for the year ranged from 1.12% to 2.06% (2015: 1.12% to 1.53%) per annum.

(2) The Bank has another USD term loan which bears interest at rates ranging from 1.63% to 2.00% (2015: Nil) per annum.

(ii) SGD term loans

In 2015, the SGD term loans of the Group bears interest at the rate of 1.89% per annum. The loans has been fully settled during the year.

The subordinated obligations comprise unsecured liabilities of the Bank and its investment bank and islamic bank subsidiaries and are subordinated to the senior indebtedness in accordance with their respective terms and conditions of issuance and qualify as Tier II capital as disclosed in Note 50 for the purpose of determining the capital adequacy ratios of the respective subsidiaries.

27 SUBORDINATED OBLIGATIONS (CONTINUED)

(a) 5.50% RM700 million Tier II Subordinated Notes 2007/2022

On 30 November 2007, the Bank issued redeemable unsecured Subordinated Notes amounting to RM700 million in nominal value as follows:

Tranche	Principal RM'million	Maturity date	Interest rate	Interest payment
2007/2022	700	30 November 2022 (callable with step-up in 2017)	5.50% per annum chargeable to 30 November 2017 (but exclusive of payment date), thereafter on step-up coupon rate at 0.5% per annum	Accrued and payable semi-annually in arrears

The RM700 million Subordinated Notes constitute direct unsecured obligations of the Bank, subordinated in right and priority of payment, to the extent and in the manner provided for in the RM700 million Subordinated Notes, to all deposit liabilities and other liabilities of the Bank except all other present and future unsecured and subordinated obligations of the Bank which by their terms rank *pari passu* in right of and priority of payment with or subordinated to the RM700 million Subordinated Notes.

(b) 5.60% RM300 million Tier II Subordinated Notes 2010/2025

On 29 April 2010, the Bank issued RM300 million nominal value of Subordinated Notes, being part of the remaining balance of the issuance of RM3 billion in nominal value of Subordinated Notes and/or Senior Notes under a Medium Term Note Programme.

Tranche	Principal RM'million	Maturity date	Interest rate	Interest payment
2010/2025	300	29 April 2025 (callable with step-up in 2020)	5.60% per annum chargeable to 29 April 2020 (but exclusive of payment date), thereafter on step-up coupon rate of 0.5% per annum	Accrued and payable semi-annually in arrears

27 SUBORDINATED OBLIGATIONS (CONTINUED)

(c) 4.25% RM250 million Tier II Subordinated Notes 2011/2021

On 31 October 2011, the Bank issued RM250 million nominal value of Subordinated Notes, being part of RM3 billion in nominal value of Subordinated Notes and/or Senior Notes under a Multi-Currency Medium Term Note Programme.

Tranche	Principal RM'million	Maturity date	Interest rate	Interest payment
2011/2021	250	29 October 2021 (callable in 2016)	4.25% per annum chargeable to 29 October 2021	Accrued and payable semi-annually in arrears

The Bank had fully redeemed the RM250 million Tier II Subordinated Notes 2011/2021 during the current financial year.

(d) 4.30% RM750 million Tier II Subordinated Notes 2012/2022 and 4.40% RM1,300 million Tier II Subordinated Notes 2012/2022

On 7 May 2012 and 30 November 2012, the Bank issued RM750 million and RM1,300 million nominal value of Subordinated Notes respectively, being part of RM3 billion in nominal value of Subordinated Notes and/or Senior Notes under a Multi-Currency Medium Term Note Programme.

Tranche	Principal RM'million	Maturity date	Interest rate	Interest payment
2012/2022	750	6 May 2022 (callable in 2017)	4.30% per annum chargeable to 6 May 2022	Accrued and payable semi-annually in arrears
2012/2022	1,300	30 November 2022 (callable in 2017)	4.40% per annum chargeable to 30 November 2022	Accrued and payable semi-annually in arrears

(e) 4.40% RM245 million Tier II Subordinated Notes 2012/2022

On 10 December 2012, RHB Investment Bank issued RM245 million nominal value of Subordinated Notes.

Tranche	Principal RM'million	Maturity date	Interest rate	Interest payment
2012/2022	245	9 December 2022 (callable in 2017)	4.40% per annum chargeable to 9 December 2022	Accrued and payable semi-annually in arrears

27 SUBORDINATED OBLIGATIONS (CONTINUED)

(f) 5.20% RM100 million Tier II Subordinated Notes 2011/2021

On 15 April 2011, RHB Investment Bank issued RM100 million of Subordinated Notes via direct placement. The tenure of issue is 10 years maturing on 15 April 2021 and callable after a minimum period of 5 years from the issue date (i.e. on 15 April 2016) and on every semi-annual coupon payment date thereafter. These Subordinated Notes carry a yield to maturity of 5.20% per annum and a coupon rate of 5.20% per annum. There will be a step-up coupon from 5.20% to 5.25% per annum on the 5th year from the issuance date until the date of early redemption in full or final maturity, whichever is earlier.

RHB Investment Bank had fully redeemed the RM100 million Tier II Subordinated Notes 2011/2021 during the current financial year.

(g) 4.95% RM500 million Tier II Subordinated Sukuk Murabahah 2014/2024

On 15 May 2014, RHB Islamic Bank issued RM500 million nominal value of Subordinated Sukuk Murabahah, being part of RM1 billion Subordinated Sukuk Programme.

Tranche	Principal RM'million	Maturity date	Interest rate	Interest payment
2014/2024	500	15 May 2024 (callable in 2019)	4.95% per annum chargeable to 15 May 2024	Accrued and payable semi-annually in arrears

(h) 4.99% RM1 billion Tier II Subordinated Notes 2014/2024

On 8 July 2014, the Bank issued RM1 billion nominal value of Subordinated Notes, being the remaining balance of the issuance of RM3 billion in nominal value of Subordinated Notes and/or Senior Notes under a Medium Term Note Programme.

Tranche	Principal RM'million	Maturity date	Interest rate	Interest payment
2014/2024	1,000	7 July 2024 (callable in 2019)	4.99% per annum chargeable to 7 July 2024	Accrued and payable semi-annually in arrears

(i) 4.95% RM200 million Tier II Subordinated Notes 2015/2025

On 16 April 2015, RHB Investment Bank issued RM200 million nominal value of Subordinated Notes, being part of RM1 billion MCMTN Programme.

Tranche	Principal RM'million	Maturity date	Interest rate	Interest payment
2015/2025	200	16 April 2025 (Callable in 2020)	4.95% per annum chargeable to 16 April 2025	Accrued and payable semi-annually in arrears

27 SUBORDINATED OBLIGATIONS (CONTINUED)

(j) 4.75% RM500 million Tier II Subordinated Notes 2015/2025

On 8 May 2015, the Bank issued RM500 million nominal value of Subordinated Notes, being part of RM5 billion Multi-Currency Medium Term Note Programme.

Tranche	Principal RM'million	Maturity date	Interest rate	Interest payment
2015/2025	500	8 May 2025 (Callable in 2020)	4.75% per annum chargeable to 8 May 2025	Accrued and payable semi-annually in arrears

(i) On 18 February 2016, the Bank has undertaken a consolidation of two (2) existing ordinary shares of RM0.50 each into one (1) ordinary share of RM1.00 each. As a result, the number of authorised ordinary shares of the Bank has reduced from 8,000,000,000 to 4,000,000,000. Simultaneously, the issued and fully paid up ordinary shares reduced from 6,921,170,061 to 3,460,585,030.

On the same day, the Bank has obtained shareholder's approval to reclassify the authorised share capital of the Bank from RM6,000,000,000 divided into 4,000,000,000 ordinary shares of RM1.00 each and 2,000,000,000 preference shares of RM1.00 each to RM6,000,000,000 divided into 6,000,000,000 ordinary shares of RM1.00 each.

During the financial year, the Bank increased its issued and paid up share capital from:

(ii) RM3,460,585,030 to RM3,562,203,735 via the issuance of rights issue of 101,618,705 new ordinary shares of RM1.00 each at an issue price of RM5.56 per share on 7 April 2016 pursuant to the recapitalisation of the interim dividend for the financial year ended 31 December 2015; and

(iii) RM3,562,203,735 to RM4,010,045,621 via the issuance of 447,841,886 new ordinary shares of RM1.00 each at an issue price of RM5.56 per share on 14 April 2016 pursuant to the capital injection by the former holding company, RHB Capital of RM2.49 billion.

30 SHARE CAPITAL (CONTINUED)

In the previous financial year, the Bank increased its issued and paid up share capital from:

(iv) RM3,365,486,335 to RM3,460,585,030 via the issuance of rights issue of 190,197,391 new ordinary shares of RM0.50 each at an issue price of RM2.30 per share on 3 April 2015, pursuant to part recapitalisation of the second interim dividend for the financial year ended 31 December 2014.

The new ordinary shares issued during the financial year rank *pari passu* in all respects with the existing shares of the Bank.

		17,734,733	14,207,284	**14,366,279**	11,388,992

(a) Statutory reserves represents non-distributable profits held by:

(i) The Bank in compliance with Section 47(2)(f) of Financial Services Act, 2013 and Section 18 of the Singapore Finance Companies (Amendment) Act, 1994;

(ii) The investment banking subsidiary in compliance with Section 47(2)(f) of Financial Services Act, 2013;

(iii) The Islamic banking subsidiary in compliance with Section 12 of Islamic Financial Services Act, 2013; and

(iv) The Thailand's stockbroking subsidiary in compliance with Section 116 of the Public Limited Company Act B.E. 2535 in Thailand.

The statutory reserve funds are not distributable as cash dividends.

31 RESERVES (CONTINUED)

(b) Regulatory reserves represent the Group's and the Bank's compliance with BNM's Policy on Classification and Impairment Provisions for Loans/Financing, to maintain, in aggregate, the collective impairment allowances and regulatory reserve of no less than 1.2% of total outstanding loans/financing, net of individual impairment allowances.

(c) AFS reserves arise from a change in the fair value of financial investments classified as AFS. The unrealised gains or losses are transferred to the income statements upon disposal, de-recognition or impairment of such securities.

(d) Translation reserves comprise all foreign exchange differences from the translation of the financial statements of foreign operations, subsidiaries and joint ventures, and the effect of the effective portion of net investment hedges.

(e) Pursuant to the Finance Act, 2007 which was gazetted on 28 November 2007, dividends paid, credited or distributed to shareholders are not tax deductible by the Bank, but are exempted from tax to the shareholders ('single tier system'). As at 31 December 2016, the Bank's retained profits are distributable profits and may be distributed as dividends under the single tier system.

Subject to agreement by the Inland Revenue Board, the Bank has sufficient tax exempt income of RM1,814,693,000 under Section 12 of the Income Tax (Amendment) Act, 1999 to pay dividends out of its retained profits as at 31 December 2016.

42 EARNINGS PER SHARE ('EPS')

(a) Basic earnings per share

Basic EPS is calculated by dividing the net profit attributable to equity holders of the Group by the weighted average number of ordinary shares in issue during the financial year.

	Group	
	2016 RM'000	Restated 2015 RM'000
Net profit attributable to equity holders	**1,681,624**	1,664,972
Weighted average number of ordinary shares in issue ('000)	**3,855,858**	6,873,229
Basic earnings per share (sen)		
– Basic per RM1.00 per share	**43.6**	N/A
– Basic per RM0.50 per share	**N/A**	24.2

(b) Diluted earnings per share

There were no dilutive potential ordinary shares outstanding as at 31 December 2016. As a result, the diluted EPS equal to the basic EPS for financial year ended 31 December 2016.

44 ORDINARY DIVIDENDS

Dividends declared or proposed are as follows:

	Group and Bank			
	2016		2015	
	Dividend per RM1.00 share %	Total dividend RM'000	Dividend per RM1.00 share %	Total dividend RM'000
Ordinary shares:				
Interim dividend	**5.00**	**200,502**	16.3267	565,000
Final dividend	**7.00**	**280,703**	–	–
	12.00	**481,205**	16.3267	565,000

At the forthcoming Annual General Meeting, a single-tier final cash dividend in respect of the current financial year of 7.00 sen per share amounting to RM280,703,000 will be proposed for shareholders' approval. The single-tier final dividend was approved by the Board of Directors on 25 January 2017.

The financial statements for the current financial year do not reflect this single-tier final dividend. This dividend payment will be accounted for in the shareholders' equity as an appropriation of retained profits in the financial year ending 31 December 2017.

Dividends recognised as distribution to ordinary equity holders of the Bank:

	Group and Bank			
	2016		2015

	21.3267	**765,502**	8.665	583,272

45 COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Group and the Bank make various commitments and incurs certain contingent liabilities with legal recourse to its customers. Apart from the allowance for commitments and contingencies already made in the financial statements, no material losses are anticipated as a result of these transactions.

The commitments and contingencies comprise the following:

	Group		Bank	
	2016 RM'000	**Restated 2015 RM'000**	**2016 RM'000**	**Restated 2015 RM'000**

(d) Credit exposures arising from transactions with connected parties

Credit exposures with connected parties as per BNM's revised Guidelines on Credit Transactions and Exposures with Connected Parties are as follows:

	Group		Bank	
	2016	**Restated 2015**	**2016**	**Restated 2015**
Outstanding credit exposure with connected parties (RM'000)	**7,094,156**	7,825,016	**8,472,131**	10,575,048
Percentage of outstanding credit exposures to connected parties as proportion of total credit exposures (%)	**3.78**	4.24	**6.02**	7.63
Percentage of outstanding credit exposures with connected parties which is non-performing or in default (%)	**0.29**	0.05	**0.24**	0.02

The credit exposures above are derived based on BNM's revised Guidelines on Credit Transactions and Exposures with Connected Parties, which are effective on 1 January 2008.

49 SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined its Management Committee as its chief operating decision-maker.

Following the change in the composition of the Group arising from the Internal Reorganisation as disclosed in Note 53(1), two new business groups have been added to the Group, namely the investment banking and insurance business which have been grouped under the Group Corporate Banking and Group Investment Banking ('CBIB') and Group Retail Banking segment respectively.

With effect from 1 July 2016, the Group has further enhanced its organisational structure with the establishment of Group Wholesale Banking ('GWB'), to enable the Group to serve corporate clients better across all products and strengthen its regional footprint. The business pillars under GWB comprise (i) Group Corporate Banking and Group Investment Banking; and (ii) Group Treasury and Global Markets.

Comparative segment information has been restated accordingly in conformity with the changes to the reportable business segments as mentioned above.

The Group's business segments can be organised into the following main segments reflecting the Group's internal reporting structure:

(a) Group Retail Banking

Group Retail Banking focuses on providing products and services to individual customers. The products and services offered to customers include credit facilities (mortgages, non-residential mortgages, hire purchase, purchase of securities, credit cards and other personal loans and financing), remittances, deposits collection, investment related products, and general and takaful insurance products.

(b) Group Business Banking

Group Business Banking caters for funding needs as well as deposit collection from small and medium sized enterprises and wholesale clients.

(c) Group Wholesale Banking

(i) Group Corporate Banking and Group Investment Banking

Group Corporate Banking caters to funding or lending needs of corporate customers including public listed corporations and its related entities, multinational corporations (including Japanese), financial institutions and Government and state owned enterprises. Included under Group Corporate Banking are offshore banking activities carried out by RHB Bank (L) Ltd whose borrowings and lending facilities are offered in major currencies mainly to corporate customers.

49 SEGMENT REPORTING (CONTINUED)

The Group's business segments can be organised into the following main segments reflecting the Group's internal reporting structure: (continued)

(c) Group Wholesale Banking (continued)

(i) Group Corporate Banking and Group Investment Banking (continued)

Group Investment Banking provides services for advisory, fund raising in the structuring and issuance of debt securities and capital market instruments, corporate and debt restructuring, mergers and acquisitions, private placements, underwriting and structuring of bilateral lending, project financing, loans syndication, infrastructure financing, initial public offerings of equity related instruments, private placements and underwriting. This segment also covers facilities for equity share trading in local and foreign markets, share margin financing, futures broking products and services, custodian and nominee services, investment cash management and unit trust funds.

This segment also offers stockbroking and investment banking products and services to the Group's regional customers in Singapore, Hong Kong, Indonesia, and Thailand.

(ii) Group Treasury and Global Markets

Group Treasury and Global Markets operations are involved in proprietary and non-proprietary trading in fixed income securities and foreign exchange, derivatives trading and structuring, managing customer-based foreign exchange and money market transactions, funding and investments in ringgit and foreign currencies for the Group, as well as funding center.

(d) Group International Business

Group International Business primarily focuses on providing commercial banking related products and services tailored to the specific needs of the customers in foreign countries in which the Group has operations. The Group currently has foreign presences in Singapore, Thailand, Brunei, Cambodia and Lao.

(e) Support Center and Others

Support Center and Others comprise results from other business segments in the Group (nominee services, property investment and rental of premises and other related financial services). The results of these other businesses are not material to the Group and therefore do not render a separate disclosure and are reported in aggregate in the financial statements.

The business segment results are prepared based on the Group's internal management reporting, which reflects the organisation's management reporting structure. Internal allocation of costs, for example, back office support, centralised cost, funding center and the application of transfer pricing, where appropriate, has been used in preparing the segmental reporting.

During the financial year, no one group of related customers accounted for more than 10% of the Group's revenue.

50 CAPITAL ADEQUACY RATIO

BNM Guidelines on capital adequacy requires the Group, the Bank and the banking subsidiaries to maintain an adequate level of capital to withstand any losses which may result from credit and other risks associated with financing operations. The capital adequacy ratio is computed based on the eligible capital in relation to the total risk-weighted assets as determined by BNM.

RHB Indochina Bank, a wholly owned subsidiary of the Bank is subject to National Bank of Cambodia's capital adequacy requirements.

(a) The capital adequacy ratios of the Group and the Bank are as follows:

	Group		Bank@

[@] The capital adequacy ratios of the Bank consist of capital base and risk-weighted assets derived from the Bank and its wholly-owned offshore banking subsidiary, RHB Bank (L) Ltd.

The total risk-weighted assets of the Bank are computed based on BNM's Guideline on Risk Weighted Capital Adequacy Framework: IRB Approach for Credit Risk, Standardised Approach for Market Risk and Basic Indicator Approach for Operational Risk (Basel II).

The total risk-weighted assets of RHB Islamic Bank are computed based on BNM's Capital Adequacy Framework for Islamic Banks ('CAFIB'): Standardised Approach for Credit and Market Risk and Basic Indicator Approach for Operational Risk (Basel II).

The total risk-weighted assets of RHB Investment Bank are computed based on BNM's Guideline on Risk Weighted Capital Adequacy Framework: Standardised Approach for Credit and Market Risk and Basic Indicator Approach for Operational Risk (Basel II).

50 CAPITAL ADEQUACY RATIO (CONTINUED)

(d) The capital adequacy ratios of RHB Indochina Bank are as follows:

	2016	**2015**
Before proposed dividends:		
Core capital ratio	#	#
Solvency ratio	**17.002%**	16.884%
After proposed dividends:		
Core capital ratio	#	#
Solvency ratio	**17.002%**	16.884%

The Solvency Ratio of RHB Indochina Bank is the nearest equivalent regulatory compliance ratio in Cambodia computed in accordance with Prakas B7-00-46, B7-04-206 and B7-07-135 issued by the National Bank of Cambodia. This ratio is derived as RHB Indochina Bank's net worth divided by its risk-weighted assets and off-balance sheet items. The minimum regulatory solvency ratio requirement in Cambodia is 15%.

No equivalent ratio in Cambodia.

51 FINANCIAL RISK MANAGEMENT

(a) Financial Risk Management Objectives and Policies

Risk is inherent in the Group's activities and is managed through a process of on-going identification, measurement and monitoring, subject to limits and other controls. Besides credit risk, the Group is exposed to a range of other risk types such as market, liquidity, operational, legal, Shariah, strategic and cross-border, as well as other forms of risk inherent to its strategy, product range and geographical coverage.

Effective risk management is fundamental to being able to drive sustainable growth and shareholders' value, while maintaining competitive advantage, and is thus a central part of the proactive risk management of the Group's operating environment.

The Group Risk Management Framework governs the management of risks in the Group, as follows:

1. It provides a holistic overview of the risk and control environment of the Group, with risk management aimed towards loss minimisation and protection against losses which may occur through, principally, the failure of effective checks and controls in the organisation.

2. It sets out the strategic progression of risk management towards becoming a value creation enterprise. This is realised through building up capabilities and infrastructure in risk management sophistication, and enhanced risk quantification to optimise risk-adjusted returns.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial Risk Management Objectives and Policies (continued)

The Risk Management Framework contains five fundamental principles that drive the philosophy of risk management in the Group. They are:

1. Risk governance from the Boards of Directors of various operating entities within the Group

   The ultimate responsibility of the Boards of Directors in the Group is to ensure that an effective risk management strategy is in place and uniformly understood across the Group. The Group has a structured framework to support the Board's oversight responsibilities.

   The Board Risk Committee ('BRC') is the principal Board Committee that provides oversight over risk management for the Group to ensure that the Group's risk management process is in place and functional. The BRC assists the Board to review the Group's overall risk management philosophy, framework, policies and models. An Islamic Risk Management Committee ('IRMC') has also been established to assist the Board of Directors of RHB Islamic Bank on issues relevant and unique to Islamic finance.

   The responsibility for the supervision of the day-to-day management of enterprise risk and capital matters is delegated to the Group Capital and Risk Committee ('GCRC') comprising Senior Management of the Group and which reports to the BRC/IRMC and the Group Management Committee ('GMC'). There are other committees set up to manage specific areas of risks in the Group.

2. Clear understanding of risk management ownership

   Proactive risk ownership is important for effective management of risk. This promotes a risk awareness culture throughout the Group. The Strategic Business Groups ('SBGs') and Strategic Functional Groups ('SFGs') of the respective operating entities in the Group are collectively responsible for identifying, managing and reporting risks. The business units manage certain defined risks supported by the services provided by the functional units, including the risk management function.

3. Institutionalisation of a risk-focused organisation

   In addition to risk ownership, a risk-focused culture is promoted throughout the Group through strengthening of the central risk management functions and continuous reinforcement of a risk and control environment within the Group.

   Group Risk and Credit Management is independent of the business function to ensure that the necessary balance in risk/return decisions is not compromised by short term pressures to generate revenues. The said function is headed by the Group Chief Risk Officer.

   The business and functional heads are accountable for risk management in their businesses and functions, and for overseas operations where they have governance responsibilities. The business and functional units have clear segregation of duties to ensure that business processes are functioning effectively. There is accountability delegated to the appropriate authority to enable them to execute their respective authorities in meeting the business strategies without compromising the risk management process.

   The primary responsibility for managing risks, therefore, rests with the business managers who are best equipped to ensure that risk management and control are continuously focused on the way business is conducted. There is a continuous review of business activities and processes to identify significant risk areas and implement control procedures to operate within established corporate policies and limits.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial Risk Management Objectives and Policies (continued)

The Risk Management Framework contains five fundamental principles that drive the philosophy of risk management in the Group. They are (continued):

4. Alignment of risk management to business strategies

   The Group Risk Management Framework serves to align the Group's business strategy to risk strategy, and vice-versa. This is articulated through the risk appetite setting and the Group's annual business and financial budgetary plan, which is facilitated by the integration of risk measures in capital management.

   Risk appetite is set by the Board and reported through various metrics that enable the Group and the Bank to manage capital constraints and shareholders' expectations. The risk appetite is a key component of the management of risks and describes the types and level of risk that the Group and the Bank are prepared to accept in delivering its strategy.

5. Optimisation of risk-adjusted return

   One of the objectives of capital management is to reflect a risk-adjusted return assumed by the businesses throughout the Group. By linking risk to capital, the risk-adjusted return measure contributes to the creation of shareholder value by facilitating the allocation of capital to the businesses.

   The medium to long-term strategy and principle of risk management of the Group is to intensify the integration of capital management within the Group. The Group is progressively implementing a risk-adjusted return based framework for allocation of capital to business units and for performance measurement and management.

Major Areas of Risk

As a banking institution with key activities covering retail, business banking, corporate banking and advisory services, treasury products and services, and securities and futures related business, the Group is subject to business risks which are inherent in the financial services industry. Generally, these business risks can be broadly classified as follows:

(i) Market risk – the risk of loss arising from adverse movements in market indicators, such as interest/profit rates, credit spreads, equity prices, currency exchange rates and commodity prices.

(ii) Liquidity risk – the risk of the Group and the Bank being unable to maintain sufficient liquid assets to meet its financial commitments and obligations when they fall due and transact at a reasonable cost. Liquidity risk also arises from the inability to manage unplanned decreases or changes in funding sources.

(iii) Credit risk – the risk of loss arising from customers' or counterparties' failure to fulfil their financial and contractual obligations in accordance to the agreed terms. It stems primarily from the Group's the Bank's lending/financing, trade finance and its funding, investment and trading activities from both on- and off-balance sheet transactions.

(iv) Operational risk – the risk of loss resulting from inadequate or failed internal processes, people, systems and/or external events, which also includes IT, legal and Shariah non-compliance risk but excludes strategic and reputational risk.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial Risk Management Objectives and Policies (continued)

To mitigate the various business risks of the Group and the Bank, the following has been put in place:

Market Risk

- A framework of risk policies, measurement methodologies and limits, as approved by the Board, which controls the Group's and the Bank's financial market activities as well as to identify potential risk areas early in order to mitigate against any adverse effects arising from market volatility.
- The Group Asset and Liability Committee ('Group ALCO') performs a critical role in the oversight of the management of market risk and supports the IRMC and BRC in the overall market risk management.
- The Group Risk Management function forms a centralised function to support Senior Management to operationalise the processes and methods, to ensure adequate risk control and oversight are in place.
- The Group and the Bank apply risk monitoring and assessment tools to measure trading book positions and market risk factors. Statistical and non-statistical risk assessment tools applied include Value-at-Risk ('VaR'), sensitivity analysis and stress testing.
- Market risk is primarily monitored and controlled via a structure of limits and triggers i.e. cut loss, VaR, trading and notional limit set in accordance with the size of positions and risk tolerance appetites.
- Periodic stress testing are applied to ascertain market risk under abnormal market conditions.

Liquidity Risk

- The Group ALCO plays a fundamental role in the asset and liability management of the Group and the Bank, and establishes strategies to assist in controlling and reducing any potential exposures to liquidity risk.
- The liquidity risk management process involves establishing liquidity risk management policies and limits, regular monitoring against liquidity risk limits, regular stress testing, and establishing contingency funding plans. These processes are subject to regular reviews to ensure that they remain relevant in the context of prevailing market conditions.
- Limits on the minimum portion of maturing funds available to meet obligations and the minimum level of inter-bank and other borrowing facilities are set to ensure adequate cover for withdrawals arising from unexpected levels of demand.
- Defined liquidity management ratios are maintained and monitored.
- The Group and the Bank have established a Liquidity Incident Management Procedure to manage any potential adverse liquidity incidences, and which can be implemented on a timely basis so that appropriate actions can be taken to mitigate against any unexpected market developments.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial Risk Management Objectives and Policies (continued)

Credit Risk

- The Group and the Bank abide to the Board approved credit policy which supports the development of a strong credit culture and with the objective of maintaining a well-diversified portfolio that addresses credit risk, and mitigates concern for unexpected losses.

- International best practices are incorporated into this policy.

- Group Credit Committee ('GCC') is responsible for ensuring adherence to the Board approved credit risk appetite as well as the effectiveness of credit risk management. GCC also approves and renews financing facilities and submits to the Board Credit Committee ('BCC') for affirmation or veto if the financing facilities exceed a pre-defined threshold.

- The Group and the Bank also ensure that internal processes and credit underwriting standards are adhered to before credit proposals are approved. All credit proposals are first evaluated by the originating business units before being evaluated prior to submission to the relevant committees for approval. Financing applications within a specified limit may be jointly approved by the approving authority in business units and Group Credit Management.

- Internal credit rating models are an integral part of the Group's and the Bank's credit risk management, decision-making process, and regulatory capital calculations.

- Clients' accounts are reviewed at regular intervals and weakening credits are transferred to Loan Recovery for more effective management.

- Counterparty, industry and product exposure limits/directions are set and risk reward relationship are mapped with the aim of maintaining a diverse credit profile and track the changing risk concentrations in response to market changes and external events.

- The Bank has obtained BNM's approval to apply the Internal Ratings-Based ('IRB') approach for credit risk, whereby more advanced Basel II approaches and key program components are implemented, which includes (i) enhancing the returns of the Bank using established credit risk framework and methodologies, (ii) implementing and using empirical credit scoring models for consumer financing and credit grading models for business loans/financing, and (iii) designing and implementing modelling of expected and unexpected losses.

- Plans are underway to migrate other material portfolios to the IRB approach for credit risk.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial Risk Management Objectives and Policies (continued)

Operational Risk

- The Group Risk Management function is responsible for the development of group-wide operational risk policies, framework and methodologies, and providing guidance and information to the business units on operational risk areas. The respective business units are primarily responsible for managing operational risk on a day-to-day basis. Some of the operational risk tools used include Risk and Control Self-Assessment, Key Risk Indicators, Incident and Loss Management.

- The Group's and the Bank's operational risk management system has integrated applications to support the operational risk management process. This system facilitates the Group's and the Bank's capabilities for the Advanced Measurement Approach of the Basel II Framework in the future.

- The Group and the Bank have Business Continuity Planning ('BCP') programmes for the major critical business operations and activities at the Head Office, data centre, and branch locations. The BCP programmes are subject to regular testing to ensure efficacy, reliability and functionality.

- There is continuous refinement of existing policies, procedures and internal control measures; and regular internal review, compliance monitoring, and audits are performed to prevent and/or minimise unexpected losses.

- Regular operational risk reporting is made to senior management, relevant committees and board to facilitate the identification of adverse operational lapses, taking of prompt corrective actions, and ensuring appropriate risk mitigation decision making and action plans.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(c) Market Risk

Market risk sensitivity assessment is based on the changes in key variables, such as interest/profit rates and foreign currency rates, while all other variables remain unchanged. The sensitivity factors used are assumptions based on parallel shifts in the key variables to project the impact on the assets and liabilities position of the Group and the Bank.

The scenarios used are based on the assumption that all key variables for all maturities move at the same time and by the same magnitude and do not incorporate actions that would be otherwise taken by the business units and risk management to mitigate the effect of this movement in key variables. The Group and the Bank seek to ensure that the interest/profit rate risk profile is managed to minimise losses and optimise net revenues.

(i) Interest/profit rate sensitivity analysis

The interest/profit rate sensitivity results below shows the impact on profit after tax and equity of financial assets and financial liabilities bearing floating interest/profit rates and fixed rate financial assets and financial liabilities:

	Group		Bank	
	Impact on profit after tax RM'000	Impact on equity RM'000	Impact on profit after tax RM'000	Impact on equity RM'000
2016				
+100 bps	**76,127**	**(672,597)**	**76,564**	**(505,792)**
–100 bps	**(70,309)**	**726,242**	**(70,900)**	**545,113**
Restated				
2015				
+100 bps	35,019	(611,605)	58,745	(432,254)
–100 bps	(32,872)	655,263	(56,654)	461,549

The results above represent financial assets and liabilities that have been prepared on the following basis:

(a) Impact on the profit after tax is the sum of valuation changes on fixed income instruments held in the trading portfolio and earnings movement for all short term interest/profit rate sensitive assets and liabilities (with maturity or re-pricing tenure of up to one year) that is not held in the trading portfolio. Earnings movement for the short term interest/profit rate sensitive assets and liabilities uses a set of risk weights with its respective time band to simulate the 100 bps (2015: 100 bps) interest/profit rate change impact. For assets and liabilities with non-fixed maturity e.g. current and savings accounts, certain assumptions are made to reflect the actual sensitivity behaviour of these interest/profit bearing assets and liabilities.

(b) Impact on equity represents the changes in fair values of fixed income instruments held in the AFS portfolio arising from the shift in the interest/profit rate.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(c) Market Risk (continued)

(ii) Foreign currency sensitivity analysis

The foreign currency sensitivity represents the effect of the appreciation or depreciation of the foreign currency rates (mainly consists of USD and SGD) on the consolidated currency position, while other variables remain constant.

	Group	Bank
	Impact on profit after tax RM'000	Impact on profit after tax RM'000
2016		
+10%	**8,372**	**(29,402)**
–10%	**(8,372)**	**29,402**
Restated		
2015		
+10%	**(8,266)**	(15,268)
–10%	**8,266**	15,268

Impact on the profit after tax is estimated on the assumption that foreign exchange move by the same amount and all other variables are held constant and are based on a constant reporting date position.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(d) Liquidity Risk

Liquidity obligations arise from withdrawals of deposits, repayments of purchased funds upon maturity, extensions of credit and working capital needs.

The Group and the Bank have adopted the BNM's liquidity standard on Liquidity Coverage Ratio, to ensure maintenance of adequate stock of unencumbered high-quality liquid assets to survive the liquidity needs for 30 calendar day under liquidity stress condition. The Group and the Bank continue to report Net Stable Funding Ratio under the Basel III observation reporting to BNM.

The Group and the Bank seek to project, monitor and manage its liquidity needs under normal as well as adverse circumstances.

The table below analyses the carrying amount of assets and liabilities (includes non-financial instruments) based on the remaining contractual maturity:

Group 2016	Up to 1 week RM'000	1 week to 1 month RM'000	1 to 3 months RM'000	3 to 6 months RM'000	6 to 12 months RM'000	Over 1 year RM'000	No specific maturity RM'000	Total RM'000

Restated			
2015			
Direct credit substitutes	288,362	2,036,920	2,325,282
Transaction-related contingent items	682,863	3,883,478	4,566,341
Short term self-liquidating trade-related contingencies	702,278	1,055,355	1,757,633
Lending of banking subsidiaries' securities or the posting of securities as collateral by banks, including instances where these arise out of repo-style transactions	5,017,446	–	5,017,446
Irrevocable commitments to extend credit	1,034,773	24,504,613	25,539,386
Any commitments that are unconditionally cancelled at any time by the banks, without prior notice or that effectively provide for automatic cancellation due to deterioration in a borrower's creditworthiness	406,423	13,696,429	14,102,852
TOTAL COMMITMENTS AND CONTINGENCIES	8,132,145	45,176,795	53,308,940

Undrawn loans/financing commitments are recognised at activation stage and include commitments which are unconditionally cancellable by the Group and the Bank. The Group and the Bank expect that not all of the contingent liabilities and undrawn loan/financing commitments will be drawn before expiry.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(e) Credit Risk

(i) Maximum exposure to credit risk

The maximum exposure to credit risk at the statements of financial position is the amounts on the statements of financial position as well as off-balance sheet financial instruments, without taking into account of any collateral held or other credit enhancements. For contingent liabilities, the maximum exposure to credit risk is the maximum amount that the Group and the Bank would have to pay if the obligations of the instruments issued are called upon. For credit commitments, the maximum exposure to credit risk is the full amount of the undrawn credit facilities granted to customers. The table below shows the maximum exposure to credit risk for the Group and the Bank:

	Group		Bank	
	2016 RM'000	Restated 2015 RM'000	2016 RM'000	Restated 2015 RM'000
Credit risk exposure relating to on-balance sheet assets:				
Short term funds (exclude cash in hand)	**13,664,950**	11,794,561	**11,455,564**	7,113,822
Securities purchased under resale agreements	**1,303,589**	188,380	**1,289,891**	165,153
Deposits and placements with banks and other financial institutions	**1,362,448**	1,199,032	**9,641,121**	9,782,274
Financial assets and investments portfolio (exclude shares, unit trust and perpetual notes/sukuk):				
– FVTPL	**1,633,748**	1,129,441	**1,095,862**	606,428
– AFS	**24,026,396**	23,735,740	**18,900,866**	17,508,509

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(e) Credit Risk (continued)

(ii) Collaterals

The main types of collateral obtained by the Group and the Bank are as follows:

(a) Fixed deposits, Commodity Murabahah Deposit-i, negotiable instrument of deposits, Islamic negotiable instrument of deposits, foreign currency deposits and cash deposits/margins
(b) Land and/or buildings
(c) Vessels and automobiles
(d) Quoted shares, unit trusts, government bonds and securities and private debt securities
(e) Other tangible business assets, such as inventory and equipment

The Group and the Bank also accept non-tangible securities as support, such as guarantees from individuals, corporates and institutions, bank guarantees, debentures, assignment of contract proceeds, Endowment Life Policies with Cash Surrender Value, which are subject to internal guidelines on eligibility.

The financial effect of collateral (quantification to the extent to which collateral and other credit enhancements mitigate credit risk) held for loans, advances and financing and clients' and brokers' balances as at 31 December 2016 for the Group and the Bank are 71.8% (2015: 57.8%) and 71.2% (2015: 59.4%) respectively. The financial effect of collateral held for the remaining on-balance sheet assets are insignificant.

(iii) Credit quality

The Group and the Bank assess credit quality of loans, advances and financing using internal rating techniques tailored to the various categories of products and counterparties. These techniques have been developed internally and combine statistical analysis with credit officers' judgement.

Credit quality description is summarised as follows:

Credit Quality	Description
Good	Exposures exhibit strong capacity to meet financial commitments with no cause of concern to the Group and the Bank
Fair	Exposures exhibit fairly acceptable capacity to meet financial commitments and may require varying degrees of concern to the Group and the Bank
No Rating	Counterparties which do not satisfy the criteria to be rated based on internal credit grading system

The credit quality of financial assets other than loans, advances and financing are determined based on the ratings of counterparties as defined by Moody's or equivalent ratings of other international rating agencies as defined below:

- AAA to AA3
- A1 to A3
- Baa1 to Baa3
- P1 to P3

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(iii) Credit quality (continued)

(a) Loans, advances and financing

Loans, advances and financing are summarised as follows:

	Group		Bank	
	2016 RM'000	Restated 2015 RM'000	2016 RM'000	Restated 2015 RM'000
Neither past due nor impaired	**141,356,765**	142,015,829	**106,235,214**	104,449,047
Past due but not impaired	**9,375,754**	6,518,186	**4,699,085**	5,707,408
Individually impaired	**3,749,949**	2,841,211	**2,703,321**	2,333,889
Gross loans, advances and financing	**154,482,468**	151,375,226	**113,637,620**	112,490,344
Less:				
Individual impairment allowance	**(999,328)**	(593,147)	**(817,539)**	(545,521)
Collective impairment allowance	**(1,132,836)**	(1,202,106)	**(866,430)**	(953,269)
Net loans, advances and financing	**152,350,304**	149,579,973	**111,953,651**	110,991,554

(i) Loans, advances and financing neither past due nor impaired

Analysis of loans, advances and financing that are neither past due nor impaired analysed based on the Group's and the Bank's internal credit grading system is as follows:

	Group		Bank	
	2016 RM'000	Restated 2015 RM'000	2016 RM'000	Restated 2015 RM'000
Good	**112,926,686**	86,222,908	**82,800,561**	66,872,671
Fair	**20,451,406**	14,529,369	**17,192,917**	14,124,499
No Rating	**7,978,673**	41,263,552	**6,241,736**	23,451,877
Neither past due nor impaired	**141,356,765**	142,015,829	**106,235,214**	104,449,047

Loans, advances and financing classified as non-rated mainly comprise loans/financing under the Standardised Approach for credit risk.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(f) Offsetting Financial Assets and Financial Liabilities

The Group reports financial assets and financial liabilities on a net basis on the balance sheet only if there is a legally enforceable right to set off the recognised amounts and there is intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The following table shows the impact of netting arrangement on:

(i) all financial assets and liabilities that are reported on the balance sheet; and

(ii) all derivative financial instruments and reverse repurchase agreement and borrowing arrangements (offsetting arrangement and financial collateral) but do not qualify for netting.

The following financial assets and liabilities are subject to offsetting, enforceable master netting arrangements and similar agreements:

Group 2016	Gross amounts of recognised financial assets/ financial liabilities RM'000	Related amounts not set off in the statements of financial position: Financial instruments RM'000	Financial collateral RM'000	Net amount RM'000
Financial assets

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(g) Fair Value of Financial Instruments

The Group and the Bank analyses its financial instruments measured at fair value into three categories as described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Valuations derived from valuation techniques in which one or more significant inputs are not based on observable market data.

The table below analyses financial instruments carried at fair value analysed by level within the fair value hierarchy:

Group	Level 1 RM'000	Level 2 RM'000	Level 3 RM'000	Total RM'000

Financial liabilities				
Derivative liabilities	–	2,997,719	–	2,997,719

There were no transfers between Level 1 and 2 during the financial year.

(i) Valuation techniques

Financial instruments are classified as Level 1 if their value is observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted prices is readily available, and the price represents actual and regularly occurring market transactions. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an on-going basis. These would include quoted securities and unit trusts.

Where fair value is determined using unquoted market prices in less active markets or quoted prices for similar assets and liabilities, such instruments are generally classified as Level 2. In cases where quoted prices are generally not available, the Group and the Bank then determines fair value based upon valuation techniques that use market parameters including but not limited to yield curves, volatilities and foreign exchange rates as inputs. The majority of valuation techniques employ only observable market data. These would include certain bonds, government bonds, corporate debt securities and derivatives.

51 FINANCIAL RISK MANAGEMENT (CONTINUED)

(g) Fair Value of Financial Instruments (continued)

(i) Valuation techniques (continued)

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). This category includes unquoted shares held for socio-economic reasons, non-transferable and non-tradable perpetual notes/sukuk, impaired securities and unquoted corporate loan stocks. Fair values for shares held for socio-economic reasons are based on the net tangible assets of the affected companies. For unquoted corporate loan stocks, discounted cash flow analysis has been performed to determine the recoverability of the instruments.

(ii) Reconciliation of fair value measurements in Level 3

The following represents the changes in Level 3 instruments for the Group and the Bank:

	Group

52 FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

(c) The fair values are based on the following methodologies and assumptions:

(i) Cash and short term funds and deposits and placements with financial institutions

For cash and short term funds and deposits and placements with financial institutions with maturities of less than six months, the carrying value is a reasonable estimate of fair value. For deposits and placements with maturities six months and above, estimated fair value is based on discounted cash flows using prevailing money market interest rates at which similar deposits and placements would be made with financial institutions of similar credit risk and remaining period to maturity.

(ii) Securities purchased under resale agreements

The fair values of securities purchased under resale agreements with maturities of less than six months approximate the carrying values. For securities purchased under resale agreements with maturities of six months and above, the estimated fair values are based on discounted cash flows using prevailing market rates for the remaining term to maturity.

(iii) Financial assets FVTPL, financial investments HTM and AFS

The estimated fair value for financial assets FVTPL, financial investments HTM and AFS is based on quoted and observable market prices. Where there is no ready market in certain securities, fair values have been assessed by reference to market indicative yield or net tangible asset backing of the investee. Where discounted cash flow technique is used, the estimated future cash flows are discounted using the prevailing market rates for a similar instrument at the date of statements of financial position.

(iv) Loans, advances and financing

For floating rate loans, the carrying value is generally a reasonable estimate of fair value.

For fixed rate loans, the fair value is estimated by discounting the estimated future cash flows using the prevailing market rates of loans with similar credit risk and maturities.

The fair values of impaired loans are represented by their carrying value, net of impairment allowance.

(v) Other assets and liabilities

The carrying value less any estimated impairment allowance for financial assets and liabilities included in ‘other assets and liabilities’ are assumed to approximate their fair values as these items are not materially sensitive to the shift in market interest rates.

(vi) Deposits from customers

For deposits from customers with maturities of less than six months, the carrying amounts are reasonable estimates of their fair values. For deposits with maturities of six months and above, fair values are estimated using discounted cash flows based on prevailing market rates for similar deposits from customers.

52 FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

(c) The fair values are based on the following methodologies and assumptions: (continued)

(vii) Deposits and placements of banks and other financial institutions, obligations on securities sold under repurchase agreements (‘repos’), obligations on securities borrowed and bills and acceptances payable

The estimated fair values of deposits and placements of banks and other financial institutions, repos, obligations on securities borrowed and bills and acceptances payable with maturities of less than six months approximate the carrying values. For the items with maturities of six months and above, the fair values are estimated based on discounted cash flows using prevailing money market interest rates with similar remaining period to maturity.

(viii) Recourse obligation on loans sold to Cagamas

For amounts due to Cagamas with maturities of less than one year, the carrying amounts are a reasonable estimate of their fair values. For amounts due to Cagamas with maturities of more than one year, fair value is estimated based on discounted cash flows using prevailing money market interest rates with similar remaining period to maturity.

(ix) Borrowings

For floating rate borrowings, the carrying value is generally a reasonable estimate of fair value.

The estimated fair values of other borrowings with maturities of less than six months approximate the carrying values. For other borrowings with maturities of six months or more, the fair values are estimated based on discounted cash flows using prevailing market rates for borrowings with similar risk profile.

(x) Subordinated obligations

The estimated fair value of subordinated obligations is generally based on quoted and observable market prices at the date of statements of financial position.

(xi) Hybrid Tier-1 Capital Securities

The estimated fair value of Hybrid Tier-1 Capital Securities is generally based on quoted and observable market prices at the date of statements of financial position.

(xii) Senior debt securities

The estimated fair value of senior debt securities is generally based on quoted and observable market prices at the date of statements of financial position.

(xiii) Credit related commitments and contingencies

The net fair value of these items was not calculated as estimated fair values are not readily ascertainable. These financial instruments generally relate to credit risks and attract fees in line with market prices for similar arrangements. They are not presently sold nor traded. The fair value may be represented by the present value of fees expected to be received, less associated costs.

(xiv) Foreign exchange and interest rate related contracts

The fair values of foreign exchange and interest rate related contracts are the estimated amounts the Group or the Bank would receive to sell or pay to transfer the contracts at the date of statements of financial position.

53 SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR AND PRIOR FINANCIAL YEAR

Current Year

(1) Group Internal Reorganisation, Rights Issue, Distribution and Capital Repayment and Transfer of Listing Status

(a) Group Internal Reorganisation

On 14 April 2016, the Bank has completed the following acquisitions under the Group Internal Reorganisation:

(i) The entire equity interests in the following subsidiaries, associates and joint ventures ('Identified Assets') from the former holding company, RHB Capital under a Share Sale Agreement dated 6 April 2016, for a total cash consideration of approximately RM3.32 billion:

(i) RHB Investment Bank and all its subsidiaries, associates and joint ventures;
(ii) RHB Insurance Berhad;
(iii) RHB Finexasia.Com Sdn Bhd and its subsidiary, RHB Stock188.Com Sdn Bhd (formerly known as RHB OSK Stock188.Com Sdn Bhd);
(iv) RHB Capital (Jersey) Limited and its subsidiary, RHB (Philippines) Inc.;
(v) RHB Kawal Sdn Bhd;
(vi) RHBF Sdn Bhd;
(vii) RHB Equities Sdn Bhd;
(viii) Malaysian Trustees Berhad; and
(ix) RHB Trustees Berhad.

The consideration was arrived at based on a 'willing-buyer, willing-seller' basis after taking into consideration the audited net assets/net liabilities and/or the audited net book value of the Identified Assets as extracted from the audited financial statements of the respective subsidiaries of RHB Capital as at 31 December 2014.

The Group has adopted predecessor accounting and accordingly, the corresponding amounts for previous year are restated to reflect the combined results of both entities.

(ii) Certain assets and liabilities of RHB Hartanah Sdn Bhd, including its subsidiary, RHB Property Management Sdn Bhd under an Asset Purchase Agreement dated 6 April 2016, for a total cash consideration of approximately RM298.37 million.

The assets and liabilities purchased at the Bank level constitute a business and hence, predecessor accounting is also applied at the Bank level. Accordingly, the corresponding amounts for the previous year are restated to reflect the combined business.

With the completion of the Group Internal Reorganisation, the Bank is effectively the new group holding company which will spearhead the Group's future growth and is expected to achieve greater synergy and efficiency.

Refer to Note 55 for the effect of predecessor accounting.

53 SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR AND PRIOR FINANCIAL YEAR (CONTINUED)

Current Year (continued)

(1) Group Internal Reorganisation, Rights Issue, Distribution and Capital Repayment and Transfer of Listing Status (continued)

(b) Rights Issue

Following the completion of the Group Internal Reorganisation, RHB Capital has injected an aggregate of approximately RM2.49 billion into the Bank ('Capital Injection'), being proceeds raised from its rights issue exercise, proceeds from the redemption of its investment in RHB Liquid Fund as well as excess cash available (after setting aside adequate cash to defray any expenses of RHB Capital), in exchange for approximately 447.84 million new shares of the Bank of RM1.00 each, which were issued at an issue price of RM5.56 per share.

(c) Distribution and Capital Repayment

On 13 June 2016, RHB Capital ceased to be the shareholder of the Bank upon the completion of its Distribution and Capital Repayment, which entails the distribution of its entire shareholding in the Bank after the capital injection in (b) above to entitled shareholders of RHB Capital whose names appear in the Record of Depositors of RHB Capital.

(d) Transfer of Listing Status

The Bank has assumed the listing status of RHB Capital, and has been admitted to the Official List of Bursa Malaysia Securities Berhad ('Bursa Securities') in place of RHB Capital, with the listing of and quotation for the entire issued and paid-up share capital of the Bank on the Main Market of Bursa Securities on 28 June 2016.

The Transfer of Listing Status will enable the shareholders to have a direct participation in the equity and envisaged growth of the Group as well as enable the Group to gain direct access to the capital markets to raise funds for its continued growth, to gain recognition and corporate stature through its listing status and further enhance its corporate reputation and assist the Group in expanding its customer base.

(2) Share Grant Scheme ('Proposed SGS')

The Bank had on 26 August 2016 announced that it proposed to establish and implement a share grant scheme of up to 5% of the issued and paid-up share capital of the Bank (excluding treasury shares, if any) at any point in time during the duration of the Proposed SGS for employees and Executive Directors of the Bank and its subsidiaries (excluding subsidiaries which are dormant) who fulfil the eligibility criteria ('Eligible Employees').

The Proposed SGS is to allow the Bank to award the grant of ordinary shares of RM1.00 each in the Bank ('RHB Bank Share(s)') ('Grant(s)') to be vested in selected Eligible Employees ('Selected Employees') for the attainment of identified performance objectives. The Proposed SGS serves to attract, retain, motivate and reward valuable Eligible Employees.

The Proposed SGS is to be administered by a committee ('SGS Committee') comprising such persons as may be appointed by the Board from time to time. The SGS Committee will have the discretion in administering the Proposed SGS in accordance with the by-laws governing the Proposed SGS ('By-Laws').

The Proposed SGS shall be in force for a period of eight (8) years commencing from the effective date of implementation of the Proposed SGS, being the date of full compliance with all relevant provisions of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ('Bursa Securities') in relation to the Proposed SGS, more particularly set out in the By-Laws.

53 SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR AND PRIOR FINANCIAL YEAR (CONTINUED)

Current Year (continued)

(2) Share Grant Scheme ('Proposed SGS') (continued)

In implementing the Proposed SGS, the SGS Committee may at its discretion decide that the vesting of any RHB Bank Shares comprised in a Grant under the Proposed SGS be satisfied by any of the following methods:

(i) allotment and issuance of new RHB Bank Shares by the Bank to the Selected Employees, who accepted the Grants' offers being made in writing to the Selected Employees ('Offer(s)') ('Grantee(s)');

(ii) acquisition of existing RHB Bank Shares from the Main Market of Bursa Securities by the trustee, followed by the transfer of such RHB Bank Shares purchased by the trustee to the Grantees;

(iii) cash payment in lieu of (i) or (ii) above;

(iv) any other methods as may be permitted by the Companies Act, 1965; or

(v) any combination of any of the above.

The new RHB Bank Shares to be allotted and issued pursuant to the Proposed SGS shall, upon allotment and issuance, rank equally in all respects with the then existing issued RHB Bank Shares.

The Proposed SGS is subject to approvals being obtained from the following:

(i) Bursa Securities, for the listing of the new RHB Bank Shares to be issued pursuant to the Proposed SGS on the Main Market of Bursa Securities;

(ii) Bursa Malaysia Depository Sdn Bhd for the transfer of existing RHB Bank Shares from the Trustee to the Grantees pursuant to the Proposed SGS at any point in time during the duration of the Proposed SGS, if required;

(iii) BNM for the increase in the issued and paid-up share capital of the Bank pursuant to the Proposed SGS;

(iv) shareholders of the Bank at an extraordinary general meeting ('EGM') to be convened; and

(v) any other relevant authorities/parties, if required.

The Proposed SGS is not conditional or inter-conditional upon any other corporate exercise/scheme by the Bank.

BNM has, vide its letter dated 4 October 2016, approved the application by the Bank for the increase of up to 5% of its issued and paid-up ordinary share capital arising from the issuance of new RHB Bank Shares under the Proposed SGS.

Bursa Securities has, vide its letter dated 15 December 2016, approved the listing of and quotation for new RHB Bank Shares to be issued pursuant to the Proposed SGS subject to the following conditions:

(i) RHB Investment Bank, the adviser for the Proposed SGS, is required to submit a confirmation to Bursa Securities of full compliance of the SGS pursuant to paragraph 6.43(1) of the Listing Requirements and stating the effective date of implementation together with a certified true copy of the resolution passed by the shareholders approving the Proposed SGS in a general meeting; and

(ii) RHB Bank is required to furnish Bursa Securities on a quarterly basis a summary of the total number of RHB Bank Shares listed as at the end of each quarter together with a detailed computation of listing fees payable.

Subsequent thereto, Bursa Securities had, vide its letter dated 5 January 2017, granted the Bank an extension of time until 28 April 2017 to comply with Paragraph 9.33(1)(b) of the Main Market Listing Requirements of Bursa Securities.

53 SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR AND PRIOR FINANCIAL YEAR (CONTINUED)

Current Year (continued)

(3) Proposed Subscription in Digital Financial Lab Limited ('DFLL'), by RHB Finex and Silverlake International Capital Market Solution Limited ('Silverlake Capital')

RHB Finex, a company in which the Bank holds a 100% effective equity interest through its 59.95% direct shareholding (following the transfer of the 59.95% shareholding of the former holding company, RHB Capital to the Bank effective 14 April 2016 under the group internal reorganisation) and a 40.05% indirect shareholding through RHB Investment Bank, which in turn is a wholly-owned subsidiary of the Bank, had on 6 August 2015 entered into a subscription agreement ('Agreement') with Silverlake Capital, to each subscribe for 50% redeemable convertible preference shares of USD1.00 each at par in DFLL for RM10 million each. The Agreement is conditional on the fulfilment of certain terms and conditions, including regulatory approval.

Prior Year

(4) Disposal of RHB Indochina Securities Plc. (formerly known as RHB OSK Indochina Securities Limited) ('RHBIS')

On 1 October 2014, RHB Indochina Bank, a wholly owned subsidiary of the Bank has entered into a share sale agreement with RHB Investment Bank, for the disposal of its entire equity interest in RHBIS for a consideration of USD12,500,000.

RHBIS was incorporated in Cambodia and is registered with the Securities and Exchange Commission of Cambodia ('SECC') as a licensed security firm undertaking securities underwriting business.

Approvals from BNM, Securities Commission of Malaysia, SECC (in principle) and National Bank of Cambodia have been obtained on 25 June 2014, 1 July 2014, 2 March 2015 and 7 May 2015 respectively. The share transfer was effected on 9 December 2015 and the entire disposal was completed on 25 December 2015 upon obtaining formal approval from SECC on the share transfer in RHBIS from RHB Indochina Bank to RHB Investment Bank.

The financial position of RHBIS as at the date of disposal is as follows:

	2015 **RM'000**
At carrying value:	
Cash and short term funds	30,446
Deposits and placements with banks and other financial institutions	8,125
Other assets	4,351
Property, plant and equipment	1,178
Other liabilities	(449)
Net assets acquired	43,651
Effect of predecessor accounting	9,730
Total purchase consideration	53,381
Less: Cash and cash equivalents acquired	(30,446)
Net cash inflow on disposal	22,935

The disposal of RHBIS has no material impact to the Group's income statements.

53 SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR AND PRIOR FINANCIAL YEAR (CONTINUED)

Prior Year (continued)

(5) Bancatakaful Service Arrangement between RHB Islamic Bank and Syarikat Takaful Malaysia Berhad ('STMB')

RHB Islamic Bank, a wholly-owned subsidiary of the Bank, had on 26 August 2015 entered into an exclusive bancatakaful service arrangement agreement ('Bancatakaful Service Agreement') with STMB.

Pursuant to the terms of the Bancatakaful Service Agreement, STMB shall pay RHB Islamic Bank a total service fee of RM110 million and in consideration thereof, RHB Islamic Bank shall commit to a 10-year bancatakaful relationship with STMB to distribute Family and General takaful products developed by STMB.

(6) CTS for Employees

As part of the Group's rationalisation exercise, the Group has on 30 September 2015 completed the CTS in Malaysia with a total of 1,812 applications accepted and payout amounting to RM308.8 million, as disclosed in Note 37.

54 EVENTS SUBSEQUENT TO THE BALANCE SHEET DATE

(1) Proposed transfer of certain businesses of RHB Investment Bank to the Bank

The Bank and its wholly-owned subsidiary, RHB Investment Bank are proposing to undertake an internal reorganisation which includes the following:

(i) Proposed Transfer of Treasury Business;
(ii) Proposed Transfer of Structured Lending Business;
(iii) Proposed Transfer of Private Equity Group; and
(iv) Proposed Capital Repayment.

(collectively, to be referred to as the "Proposals")

The Proposed Transfer of Treasury Business and Proposed Transfer of Structured Lending Business entail the transfer of certain portion of the treasury business and all assets and liabilities under the structured lending business of RHB Investment Bank to the Bank by way of a business transfer scheme pursuant to Section 100 of the Financial Services Act, 2013 ('FSA') and the Order of the High Court of Malaya pursuant to Sections 102 and 104 of the FSA.

The Proposed Transfer of Private Equity Group entails the transfer of the entire issued and paid-up share capital of RHB Private Equity Holdings Sdn Bhd ('RHBPE'), a wholly-owned subsidiary of RHB Investment Bank to the Bank via a share sale agreement.

Subject to the completion of the Proposed Transfer of Treasury Business, Proposed Transfer of Structured Lending Business, Proposed Transfer of Private Equity Group and RHB Investment Bank having obtained all requisite approvals, RHB Investment Bank shall undertake a capital repayment exercise via a reduction of the issued and paid-up share capital and share premium account pursuant to Sections 60(2) and 64 of the Companies Act, 1965 ('Act').

54 EVENTS SUBSEQUENT TO THE BALANCE SHEET DATE (CONTINUED)

(1) Proposed transfer of certain businesses of RHB Investment Bank to the Bank (continued)

The rationale for the Proposals are as follows:

(i) The Proposed Transfer of Treasury Business, Proposed Transfer of Structured Lending Business and Proposed Transfer of Private Equity Group will enable the optimisation of operations of RHB Group and are expected to achieve business and operational synergies, economies of scale in resource utilisation and cost savings;

(ii) The Proposed Transfer of Structured Lending Business enables the business unit to leverage on the established clientele base and resources in the Bank to market its services;

(iii) With a larger capital base, the Bank is able to support relatively more capital intensive businesses (i.e. Private Equity). This would provide a greater platform for RHBPE to undertake more investment opportunities in the future; and

(iv) The Proposed Capital Repayment reflects the continuous effort of the Bank to achieve an efficient capital structure.

The Proposed Transfer of Treasury Business, Proposed Transfer of Structured Lending Business and Proposed Transfer of Private Equity Group are not inter-conditional upon each other and are not conditional upon the Proposed Capital Repayment. However, the Proposed Capital Repayment will only be implemented if at least one of the Proposed Transfer of Treasury Business, Proposed Transfer of Structured Lending Business and Proposed Transfer of Private Equity Group is implemented.

Approval from BNM for the Proposals has been obtained on 6 January 2017. The Proposals are now subject to the following approvals being obtained:

(i) sanction of the High Court of Malaya pursuant to Sections 102 and 104 of the FSA for the Proposed Transfer of Treasury Business and Proposed Transfer of Structured Lending Business;

(ii) sanction of the High Court of Malaya pursuant to Sections 60(2) and 64 of the Act for the reduction of RHB Investment Bank's share capital and share premium pursuant to the Proposed Capital Repayment;

(iii) approvals of the lenders of RHB Investment Bank and RHBPE Group, if required; and

(iv) approvals, waivers and/or consents of any other relevant authorities and/or parties, if required.

55 RESTATEMENT OF COMPARATIVES

The Group and the Bank have restated certain comparatives due to the following:

(a) The adoption of the predecessor accounting at both Group and Bank to reflect the acquisition of certain subsidiaries, and assets and liabilities under the Group Internal Reorganisation as disclosed in Note 53(1); and

(b) Following the completion of the Group Internal Reorganisation, the former holding company, RHB Capital had utilised the disposal consideration received to repay its entire bank borrowings outstanding, of which included RM1.5 billion financing from the Bank that had been classified as loans, advances and financing previously. In addition, RHB Capital had uplifted the proceeds from its rights issue of RM2.3 billion in December 2015 and injected this amount into the Bank. The proceeds was previously placed with the Bank and was classified as deposits from customers.

The Bank has now restated the outstanding financing to RHB Capital and the placements from the rights issue in 2015 as part of intercompany balances in order to better reflect the overall intercompany, loans and deposits balances of the Group and the Bank subsequent to the Group Internal Reorganisation.

56 DETERMINATION OF REALISED AND UNREALISED PROFITS OR LOSSES IN THE CONTEXT OF DISCLOSURES PURSUANT TO BURSA SECURITIES LISTING REQUIREMENTS

The following analysis of realised and unrealised profits or losses of the Group and the Bank is prepared in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Securities Listing Requirements, as issued by the Malaysian Institute of Accountants.

The breakdown of retained profits of the Group and the Bank are as follows:

	Group		Bank	
	2016 RM'000	Restated 2015 RM'000	2016 RM'000	Restated 2015 RM'000
Total retained profits of the Bank and its subsidiaries				
– Realised	**8,039,282**	7,950,326	**6,097,608**	6,368,199
– Unrealised	**553,524**	148,004	**520,963**	172,987
	8,592,806	8,098,330	**6,618,571**	6,541,186
Total share of retained profits from associates and joint ventures				
– Realised	**4,232**	3,508	**–**	–
	8,597,038	8,101,838	**6,618,571**	6,541,186
Less: Consolidation adjustments	**(439,853)**	(351,817)	**–**	–
Total retained profits	**8,157,185**	7,750,021	**6,618,571**	6,541,186

The disclosure of realised and unrealised profits or losses above is solely for compliance with the directive issued by the Bursa Securities and should not be used for any other purpose.

On 20 December 2010, the Malaysian Institute of Accountants issued Guidance on Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Securities Listing Requirements. Accordingly, the Group views translation gains or losses on monetary items as realised as it is incurred in the ordinary course of business.

The disclosure above does not affect or alter the existing divisible profit rule in Malaysia. Likewise, this shall not be applied to address or interpret any legal matters regarding the availability of profit for distribution to shareholders. Listed corporations are required to observe the existing requirements in the Malaysian legal framework in dealing with matters related to distribution of profits to shareholders.

STATEMENT BY DIRECTORS

PURSUANT TO SECTION 169 (15) OF THE COMPANIES ACT, 1965

We, Tan Sri Azlan Zainol and Dato' Khairussaleh Ramli, being two of the Directors of RHB Bank Berhad state that, in the opinion of the Directors, the financial statements set out on pages 9 to 222 are drawn up so as to give a true and fair view of the state of affairs of the Group and the Bank as at 31 December 2016 and of the results and cash flows of the Group and of the Bank for the financial year ended on that date in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the provisions of the Companies Act, 1965.

Signed on behalf of the Board in accordance with a resolution of the Board of Directors.

TAN SRI AZLAN ZAINOL
CHAIRMAN

DATO' KHAIRUSSALEH RAMLI
GROUP MANAGING DIRECTOR

STATUTORY DECLARATION

PURSUANT TO SECTION 169 (16) OF THE COMPANIES ACT, 1965

I, Syed Ahmad Taufik Albar, the Officer primarily responsible for the financial management of RHB Bank Berhad, do solemnly and sincerely declare that the accompanying financial statements set out on pages 9 to 222 are, in my opinion correct and I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the Statutory Declarations Act, 1960.

SYED AHMAD TAUFIK ALBAR

Subscribed and solemnly declared by the abovenamed Syed Ahmad Taufik Albar at Kuala Lumpur in Malaysia on 28 February 2017.

COMMISSIONER FOR OATHS

Kuala Lumpur
28 February 2017

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF RHB BANK BERHAD

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of RHB Bank Berhad give a true and fair view of the financial position of the Group and of the Bank as at 31 December 2016, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

What we have audited

We have audited the financial statements of the Group and of the Bank, which comprise the statements of financial position as at 31 December 2016 of the Group and of the Bank, and the income statements, statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Bank for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 9 to 221.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Group and of the Bank in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Our audit approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements of the Group and of the Bank. In particular, we considered where the Directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Group and of the Bank, the accounting processes and controls, and the industry in which the Group and the Bank operate.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Bank for the current year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Bank as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Impairment of loans, advances and financing for the Group and the Bank Refer to accounting policy 20(a), critical accounting estimate (a) and Note 7 and 39 of the Financial Statements. This is an area of focus as the Directors make significant judgements over both timing of recognition of impairment and the estimation of the amount of any such impairment. In Corporate and Business Banking, a material portion of impairment is individually assessed. The Directors focused on how impairment events other than a payment default are identified particularly on the possible effects of the deterioration in global oil and steel prices on the creditworthiness of the borrowers. Judgement is required to determine whether a loss event has occurred, and when loss event has been identified, the amount of the impairment provision. For all other segments, the impairment is assessed collectively for portfolios of loans, advances and financing based on models. The assumptions used in the models require significant judgment by the Directors.	<u>Individual assessment</u> We evaluated the design and operating effectiveness of the controls over the process of identification of loss event and the process of forecasting future cash flows to determine the impairment amount. In addition, we tested a sample of loans selected based on risk, with focus on borrowers related to the oil and gas and steel industry, and formed our judgement whether the Directors' assessment on the occurrence of loss event was appropriate. Where a loss event had been identified, we checked the forecasts of future cash flows prepared by the Directors to calculate the amount of impairment provision. We assessed the reasonableness of the assumptions underlying the forecasted cash flows. In addition, we compared the collateral values assumed in the cash flow forecasts to external valuation reports. <u>Collective assessment</u> We assessed and tested the design and operating effectiveness of the controls over the collection of data which formed the basis of assumptions used in the model and the accuracy of calculation of impairment amount. Furthermore, we assessed the reasonableness of these assumptions based on our industry knowledge and experience. Based on the above procedures, the results of our evaluation of the impairment provision are consistent with the Directors' assessment.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Key audit matters (continued)

<table>
<tr><th>Key audit matter</th><th>How our audit addressed the key audit matter</th></tr>
<tr><td>

Impairment testing of goodwill for the Group

Refer to accounting policy 7, critical accounting estimate (b) and Note 17 of the Financial Statements.

As required by MFRS 136, an annual impairment assessment is performed on the goodwill balance of RM2,694.3 million. The recoverable amount of each cash generating unit ("CGU") with allocated goodwill is determined based on the higher of value in use ("VIU") and fair value less cost of disposal. The Directors have determined VIU to be the recoverable amount of these CGU.

We focused on this area due to the size of the carrying amount of the goodwill, which represented 1.12% of total assets and because the Directors' make significant estimates about the future cash flows of these CGU and the discount rate applied to each CGU.

</td><td>

We tested the Directors' impairment assessment of goodwill by performing the following procedures:

- agreed the cash flow projection of each CGU to the approved budget by the Directors for the respective CGU. We also compared previous projection to actual result of each CGU to assess the reasonableness of assumptions used in the cash flow projections;
- assessed reasonableness of discount rates which reflects the specific risk relating to each CGU based on external information;
- evaluated the reasonableness of growth rates beyond three years ("Terminal Growth Rates") based on historical results, economic outlook and industry forecasts;
- performed sensitivity analysis over Terminal Growth Rates and discount rates used in the determination of the VIU cash flows to assess the potential impact of a reasonable possible change to any of these assumptions on the recoverable amount of each CGU.

Based on the evidence obtained we found that the assumptions used by the Directors in the impairment assessment of goodwill were consistent with our understanding.

</td></tr>
</table>

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Directors of the Bank are responsible for the other information. The other information comprises the Directors' Report and Statement by Directors which we obtained prior to the date of this auditors' report, and the 2016 Annual Report, which is expected to be made available to us after that date. Other information does not include the financial statements of the Group and of the Bank and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Bank does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Bank, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Bank or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the financial statements

The Directors of the Bank are responsible for the preparation of the financial statements of the Group and of the Bank that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Bank that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Bank, the Directors are responsible for assessing the Group's and the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Bank or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Bank as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

(a) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Bank, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Bank's internal control.

(c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

(d) Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Bank or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Bank to cease to continue as a going concern.

(e) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Bank, including the disclosures, and whether the financial statements of the Group and of the Bank represent the underlying transactions and events in a manner that achieves fair presentation.

(f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Bank for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

(a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Bank and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.

(b) We have considered the financial statements and the auditors' reports of all the subsidiaries of which we have not acted as auditors, which are indicated in Note 14 to the financial statements.

(c) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the Bank's financial statements are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.

(d) The auditors' reports on the financial statements of the subsidiaries did not contain any qualification or any adverse comment made under Section 174(3) of the Act.

OTHER REPORTING RESPONSIBILITIES

The supplementary information set out in Note 56 is disclosed to meet the requirement of Bursa Malaysia Securities Berhad and is not part of the financial statements. The Directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ("MIA Guidance") and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.

OTHER MATTERS

This report is made solely to the members of the Bank, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

BASEL II PILLAR 3 DISCLOSURES

CONTENTS

LIST OF TABLES

STATEMENT BY MANAGING DIRECTOR

In accordance with the requirements of Bank Negara Malaysia's Guideline on Risk-Weighted Capital Adequacy Framework (Basel II) – Disclosure Requirements (Pillar 3), and on behalf of the Board of Directors and Senior Management of RHB Bank Berhad, I am pleased to provide an attestation that the Basel II Pillar 3 disclosures of RHB Bank Berhad for the year ended 31 December 2016 is accurate and complete.

DATO' KHAIRUSSALEH BIN RAMLI
Group Managing Director

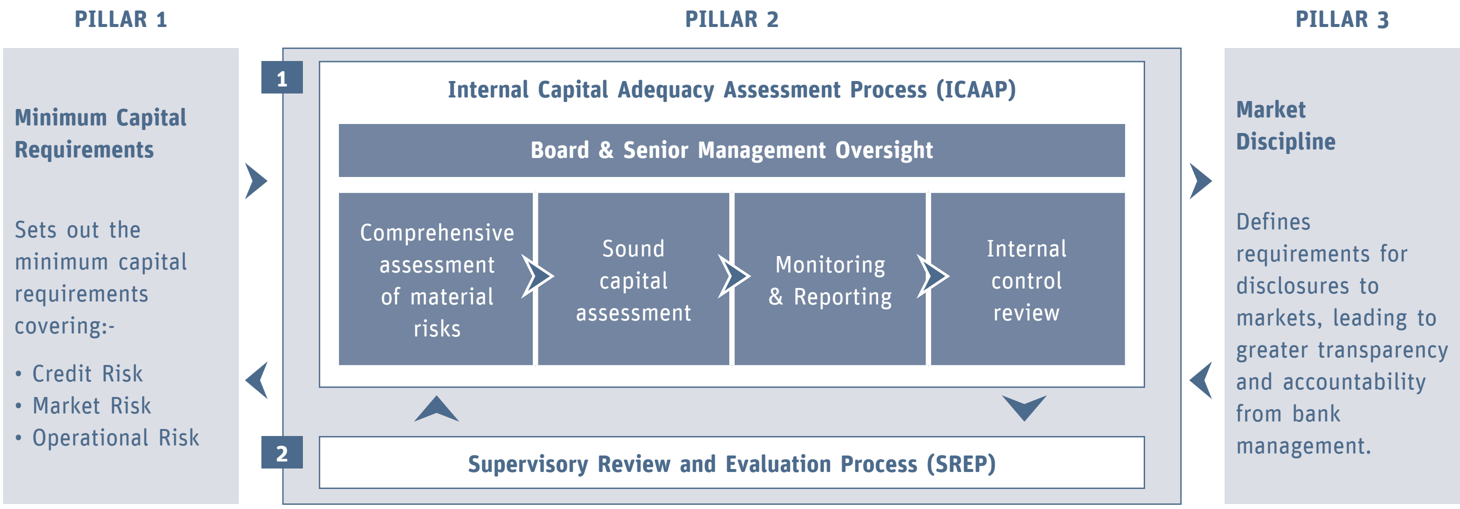
1.0 INTRODUCTION

This document describes RHB Bank Berhad's risk profile, risk management practices and capital adequacy position in accordance with the disclosure requirements as outlined in the Risk-Weighted Capital Adequacy Framework (Basel II) – Disclosure Requirements (Pillar 3) issued by Bank Negara Malaysia (BNM).

BNM's guidelines on Capital Adequacy Framework (Basel II – Risk-Weighted Assets) and the Capital Adequacy Framework for Islamic Banks (Risk-Weighted Assets) provide and specify the approaches for quantifying the risk-weighted assets for credit risk, market risk and operational risk.

Basel II introduces a more risk-based approach to regulatory capital with a distinct charge for operational risk in addition to the existing credit and market risk capital charges. Basel II is designed to be a catalyst for more advanced risk management techniques, enterprise-wide culture of risk management and improved corporate governance and public disclosure.

The Basel II approach based on the three pillars can be diagrammatically depicted as below:



Pillar 1 provides guidelines for calculation of risk-weighted assets for credit risk, market risk and operational risk, and the minimum amount of regulatory capital that banks must hold against the risks they assume.

For the purpose of complying with regulatory requirements under Basel II Pillar 1, the approaches adopted by the respective banking entities within the Group are as follows:

<table>
<tr><th>Entity</th><th>Credit Risk</th><th>Market Risk</th><th>Operational Risk</th></tr>
<tr><td>RHB Bank Berhad</td><td>Internal Ratings-Based Approach</td><td rowspan="3">Standardised Approach</td><td rowspan="3">Basic Indicator Approach</td></tr>

1.0 INTRODUCTION (CONTINUED)

Pillar 2 comprises two components as follows:

- Placing obligations on banks to develop an Internal Capital Adequacy Assessment Process, and setting capital targets that commensurate with the banking institution's risk profile and control environment; and
- Placing obligations on the supervisory authority to evaluate how well banking institutions are assessing their capital needs relative to their risks and to intervene, where appropriate.

Pillar 3 covers external communication of risk and capital information by banks. The purpose of the Pillar 3 disclosures is to complement the minimum capital requirements under Pillar 1 and the supervisory review process under Pillar 2 by encouraging market efficiency through a set of disclosure requirements that will allow market participants to assess information on banking institutions' capital structures, risk exposures, risk management processes, and hence, their overall capital adequacy.

The annual Pillar 3 disclosure report is published in accordance with the Pillar 3 Guideline issued by BNM. This disclosure report has been verified and approved internally in line with the RHB Banking Group: Basel II Pillar 3 Disclosure Policy.

This document covers the qualitative and quantitative information for financial year ended 31 December 2016 with comparative quantitative information of the preceding financial year 2015.

The Group's Pillar 3 disclosure report is made available under the Investor Relations section of the Group's website at www.rhbgroup.com as a separate report in the Group's annual report 2016, after the notes to the Financial Statements.

2.0 SCOPE OF APPLICATION

In this Pillar 3 document, RHB Bank Berhad's information is presented on a consolidated basis, ie RHB Bank Berhad with its overseas operations and its subsidiaries, and is referred to as "RHB Bank Group" or "the Group".

In April 2016, RHB Capital Berhad completed an internal reorganisation which entailed the transfer by RHB Capital Berhad of its entire equity interests in, and certain assets and liabilities of its subsidiaries to its wholly-owned subsidiary, RHB Bank which resulted in RHB Bank being the new holding company of the Group. For purposes of this disclosure, the Group has re-presented the Risk-Weighted Assets of the Group which now includes RHB Investment Bank Berhad (RHB Investment Bank), its overseas operations and subsidiaries for the year ended 31 December 2015 to provide better representation on comparative information.

In accordance with the accounting standards for financial reporting, all subsidiaries of the RHB Bank Group are fully consolidated from the date it obtains control until the date such control ceases. Refer to Note 14 to the financial statements for list of consolidated entities.

2.0 SCOPE OF APPLICATION (CONTINUED)

The Group's capital requirements are generally based on the principles of consolidation adopted in the preparation of its financial statements, except where the types of investment to be deducted from eligible capital are required under Part C of BNM's Guideline on Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework for Islamic Banks (Capital Components).

RHB Bank Group offers Islamic banking financial services via its wholly-owned subsidiary company, RHB Islamic Bank Berhad (RHB Islamic Bank).

The transfer of funds or regulatory capital within RHB Bank Group is subject to shareholders' and regulatory approval.

During the financial year 2016, there were no capital deficiencies in RHB Bank Berhad or any of its subsidiaries.

3.0 CAPITAL MANAGEMENT

The overall capital management objective is to manage capital prudently to maintain a strong capital position to drive sustainable business growth and seek strategic opportunities to enhance shareholders' value, and be in line with its risk appetite. Capital adequacy is the extent to which capital resources on the Group's balance sheet are sufficient to cover the business capital requirements now and in the foreseeable future. It also indicates the ability of the Group to provide financing across the business cycles and in meeting any contingency without compromising the interest of the depositors and investors. The Group aims to maintain a strong capital position to drive sustainable business growth through an optimal capital structure while meeting regulatory requirements.

With a comprehensive capital management, the Group aims to have a sound capital management practice that is aligned to BNM's ICAAP requirements.

The management of capital involves capital strategy, capital planning and capital allocation/structuring/optimisation.

- **Capital Strategy**

  Capital strategy includes the determination of target capital under both normal and stressed market conditions and considers the business risk and strategic objectives, external credit ratings, and capital adequacy requirements. A comprehensive capital adequacy assessment is conducted at least annually to ensure that the target capital level is appropriate.

3.0 CAPITAL MANAGEMENT (CONTINUED)

- **Capital Planning**

Based on strategic direction and regulatory requirements, the Group formulates a comprehensive and forward looking capital plan to:

(i) support its overall risk profile and forecast the capital demand for material risks for which capital held is deemed appropriate and aligned with the Group's risk appetite;

(ii) provide adequate capital for business growth, changes in asset mix or to cover unanticipated losses.

The capital plan describes the actions required to raise capital in a timely manner in both normal and stressed conditions as assumed in the stress scenarios. For capital planning purposes, capital adequacy is assessed in the multi-year financial projection under both normal and stressed scenarios, the objective of which is to ensure that the Group maintains adequate capital on a forward-looking basis. The Group also establishes a capital contingency funding plan that forms part of the capital plan. The capital plan, together with the analysis and proposed actions, are reviewed by the Group Chief Financial Officer and deliberated at the Group Capital and Risk Committee (GCRC) for endorsement, and submitted to Board Risk Committee (BRC) and the Board for approval.

- **Capital Allocation/Structuring/Optimisation**

The Group determines the amount of capital allocated to each entity and business line based on capital performance target and available funding. An efficient allocation of capital drives returns for the Group's shareholders.

Capital structuring affects the Group through its impact on cash flow and cost of capital. The Group adopts capital structuring that maximises value and minimises overall cost of capital. In order to achieve optimum capital structure, the Group determines the levels, mix and structure of internal and regulatory capital in line with its current and planned levels of business activities, risk appetite and desired level of capital adequacy.

The Group optimises its capital by integrating risk-based capital into strategy and aligning this with performance measurement.

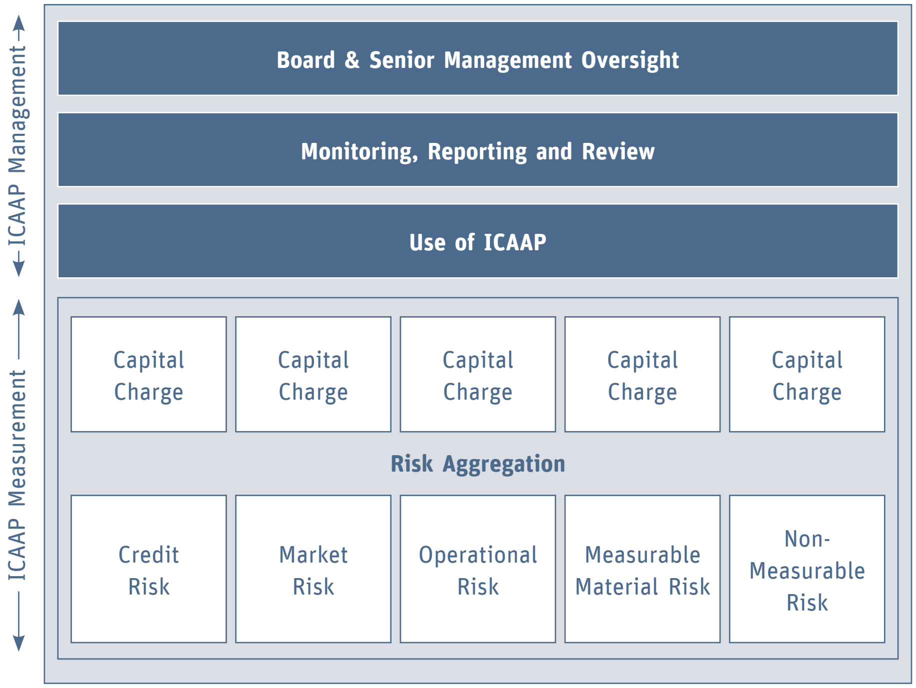
The Group also aims to achieve a balance between dividend pay-out and the need to retain earnings in order to be consistent with its capital strength and to support business expansion. The Board reviews the dividend pay-out recommendation on an annual basis.

3.0 CAPITAL MANAGEMENT (CONTINUED)

3.1 Internal Capital Adequacy Assessment Process (ICAAP)

In line with BNM's Guideline on ICAAP under the Risk-Weighted Capital Adequacy Framework (Basel II) – Internal Capital Adequacy Assessment Process (Pillar 2) and Capital Adequacy Framework for Islamic Banks (CAFIB) – Internal Capital Adequacy Assessment Process (Pillar 2), the Group has implemented ICAAP with the objective to forge a strong alignment between risk and capital. Capital adequacy is assessed in relation to the Group's risk profile, and strategies are in place to maintain appropriate capital levels.

The ICAAP Framework developed and adopted across the Group summarises the key ICAAP requirements into two functional categories, namely; ICAAP Measurement and ICAAP Management as depicted below:



Key Requirements

- Establish rigorous corporate governance and senior management oversight.
- Establish risk-based strategy including defining and setting the Bank's appetite and tolerance for risk.
- Access and measure all material risks inherent in the Group's business.
- Review, monitor, control and report on all material risks.
- Demonstrate that ICAAP forms and integral part of day-to-day management process and decision making culture of the Group.
- Relate capital to level of risk and ensure capital adequacy using scenario analysis and stress testing methods.

3.2 Basel III Implementation

The implementation of Basel III for capital components by BNM in Malaysia has commenced with effect from 1 January 2013. Under the Basel III rules, banking institutions are required to strengthen the quality of their capital by maintaining higher minimum capital requirements and holding capital buffers namely the capital conservation buffer and the countercyclical capital buffer. However, the requirements are subject to a series of transitional arrangements with a gradual phase-in commencing 2013.

The Group has implemented BNM's liquidity standards on Liquidity Coverage Ratio (LCR) effective from 1 June 2015 after reporting the LCR under observation since June 2012. BNM has adopted the phase-in arrangement for Malaysian banking institutions to comply with the minimum requirement of 60% in 2015 with incremental of 10% each year thereafter until 100% from 1 January 2019 onwards. Banking institutions continue to report on Net Stable Funding Ratio (NSFR) under observation. The result produced during the observation period facilitates the Group's strategy in managing the appropriate balance sheet structure for achieving optimal NSFR.

3.0 CAPITAL MANAGEMENT (CONTINUED)

3.3 Capital Adequacy Ratios

BNM's Guideline on Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework for Islamic Banks (Capital Components) sets out the general requirements concerning regulatory capital adequacy and the components of eligible regulatory capital. Banking institutions are required to maintain, at all times, the following minimum capital adequacy ratios:

Calendar Year	Common Equity Tier I (CET I) Capital Ratio	Tier I Capital Ratio	Total Capital Ratio
2013	3.50%	4.50%	8.00%
2014	4.00%	5.50%	8.00%
2015 onwards	4.50%	6.00%	8.00%

In addition, the Group is required to maintain additional capital buffers in the form of CET I Capital above the minimum CET I, Tier I and Total Capital Ratios set out above. The capital buffers shall comprise of capital conservation buffer (CCB) and countercyclical capital buffer (CCyB). The CCB is intended to enable the banking system to withstand future periods of stress and will be phased-in as follows:

Calendar Year	CCB
2016	0.625%
2017	1.250%
2018	1.875%
2019 onwards	2.500%

CCyB is determined based on the weighted average of the prevailing CCyB rates applied in the jurisdictions in which the Group has credit exposures. This buffer is intended to protect the banking sector as a whole from the build-up of systemic risk during an economic upswing when aggregate credit growth tends to be excessive. Application of CCyB above the minimum capital ratios is in the range of 0.0% to 2.5%. BNM will communicate any decision on the CCyB rate by up to 12 months before the date from which the rate applies.

The capital ratios of RHB Bank Berhad on consolidated basis (RHB Bank Group), RHB Bank Berhad on global basis (RHB Bank), RHB Islamic Bank and RHB Investment Bank as at 31 December 2016 and 31 December 2015 are as follows:

3.0 CAPITAL MANAGEMENT (CONTINUED)

3.4 Minimum Capital Requirements and Risk-Weighted Assets ('RWA') (continued)

The following tables show the breakdown of RWA by risk types and the corresponding capital requirement as at 31 December 2016 and 31 December 2015: (continued)

Table 3b: Risk-Weighted Assets by Risk Types and Minimum Capital Requirements as at 31 December 2015

	RWA				Minimum Capital Requirements			
Risk Types	**RHB Bank Group RM'000**	**RHB Bank RM'000**	**RHB Islamic Bank RM'000**	**RHB Investment Bank RM'000**	**RHB Bank Group RM'000**	**RHB Bank RM'000**	**RHB Islamic Bank RM'000**	**RHB Investment Bank RM'000**
Credit Risk, of which	113,854,996	96,035,586	19,895,738	2,640,434	9,108,400	7,682,847	1,591,659	211,235
Under Foundation Internal Rating Based ('F-IRB') Approach	*43,048,029*	*43,131,221*	–	–	*3,443,843*	*3,450,498*	–	–
Under Advanced Internal Rating Based ('A-IRB') Approach	*22,439,400*	*18,297,687*	–	–	*1,795,152*	*1,463,815*	–	–
Under Standardised Approach	*48,367,567*	*34,606,678*	*25,655,098*	*2,640,434*	*3,869,405*	*2,768,534*	*2,052,408*	*211,235*
Absorbed by PSIA under Standardised Approach	–	–	*(5,759,360)*	–	–	–	*(460,749)*	–
Market Risk								
Under Standardised Approach	3,614,236	3,086,116	61,645	469,440	289,139	246,889	4,932	37,555
Operational Risk								
Under Basic Indicator Approach	10,076,575	8,233,562	1,032,842	1,204,734	806,126	658,685	82,627	96,379
Total	**127,545,807**	**107,355,264**	**20,990,225**	**4,314,608**	**10,203,665**	**8,588,421**	**1,679,218**	**345,169**

Capital requirement for the three risk types is derived by multiplying the risk-weighted assets by 8%.

The marginal increase in Credit RWA was mainly due to asset growth but was offset by the migration of three retail portfolios from the Standardised Approach to Advanced IRB Approach ie Retail Personal Financing, Commercial Property Financing and Amanah Saham Bumiputera Financing. During the year, RHB Bank Group has also received approval from BNM to treat its Islamic Credit Card and Commercial Property Financing portfolios under the Advanced IRB Approach for consolidated reporting of regulatory capital requirement at the RHB Bank Group level. RHB Islamic Bank continues to report both portfolios under the Standardised Approach for its regulatory capital requirement purposes.

The increase in Market RWA was contributed by the increase in equity holdings and trading book portfolio.

4.0 CAPITAL STRUCTURE

The constituents of total eligible capital are set out in BNM's Guideline on Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework for Islamic Banks (Capital Components) Parts B and C. These include shareholders' funds, after regulatory-related adjustments, and eligible capital instruments issued by the Group. Tier I capital consists primarily of ordinary share capital, share premium, retained profits, other reserves and hybrid Tier I capital securities. Tier II capital consists of subordinated obligations and collective impairment allowance. Refer to Notes 27 and 28 to the Financial Statements for the terms of these capital instruments.

The following table represents the capital position of RHB Bank Group and RHB Bank as at 31 December 2016 and 31 December 2015:

Table 4: Capital Structure

\# Pursuant to Basel II Market Risk Para 5.19 & 5.20 – Valuation Adjustments, the Capital Adequacy Framework (Basel II – RWA) calculation shall account for the ageing, liquidity and holding back adjustments on its trading portfolio.

* Qualifying subordinated sukuk that are recognised as Tier II capital instruments held by third parties as prescribed under paragraph 17.6 of the BNM's Guideline on Capital Adequacy Framework (Capital Components) which are issued by a fully consolidated subsidiary of the Bank.

** Hybrid Tier I Capital Securities that are recognised as Tier I capital instruments are subject to gradual phase out treatment effective from 1 January 2013 as prescribed under paragraph 37.7 of the BNM's Guideline on Capital Adequacy Framework (Capital Components).

*** Investments in subsidiaries are subject to gradual deduction using the corresponding deduction approach under CET I Capital effective from 1 January 2014 as prescribed under paragraph 37.11 of the BNM's Guideline on Capital Adequacy Framework (Capital Components).

@ Subordinated obligations that are recognised as Tier II capital instruments are subject to gradual phase out treatment effective from 1 January 2013 as prescribed under paragraph 37.7 of the BNM's Guideline on Capital Adequacy Framework (Capital Components).

^ Excludes collective assessment impairment allowance attributable to loans, advances, and financing classified as impaired but not individually assessed for impairment pursuant to BNM's Guideline on Classification and Impairment Provisions for Loans/Financing.

Includes the qualifying regulatory reserves under the standardised approach for loans/financing of the Group and Bank of RM283,467,000 (Restated 31 December 2015: RM250,478,000) and RM165,135,000 (Restated 31 December 2015: RM139,361,000) respectively.

5.0 RISK MANAGEMENT

Risk is inherent in the Group's activities and is managed through a process of on-going identification, measurement and monitoring, subject to limits and other controls. Besides credit risk, the Group is exposed to a range of other risk types such as market, liquidity, operational, legal, Shariah, strategic and cross-border, as well as other forms of risk inherent to its strategy, product range and geographical coverage.

Effective risk management is fundamental to drive sustainable growth and shareholders' value, while maintaining competitive advantage, and is thus a central part of the proactive risk management of the Group's operating environment.

The Group Risk Management Framework governs the management of risks in the RHB Banking Group (the Group), as follows:

- It provides a holistic overview of the risk and control environment of the Group, with risk management aimed towards loss minimisation and protection against losses which may occur through, principally, the failure of effective checks and controls in the organisation.
- It sets out the strategic progression of risk management towards becoming a value creation enterprise. This is realised through building up capabilities and infrastructure in risk management sophistication, and enhanced risk quantification to optimise risk-adjusted returns.

The following sections describe some of these risk management content areas.

OVERARCHING RISK MANAGEMENT PRINCIPLES

The Risk Management Framework contains five fundamental principles that drive the philosophy of risk management in the Group. They are:

- Risk governance from the Boards of Directors of various operating entities within the Group;
- Clear understanding of risk management ownership;
- Institutionalisation of a risk-focused organisation;
- Alignment of risk management to business strategies; and
- Optimisation of risk-adjusted returns.

Principle 1: Risk Governance from the Boards of Directors of various operating entities within the Group

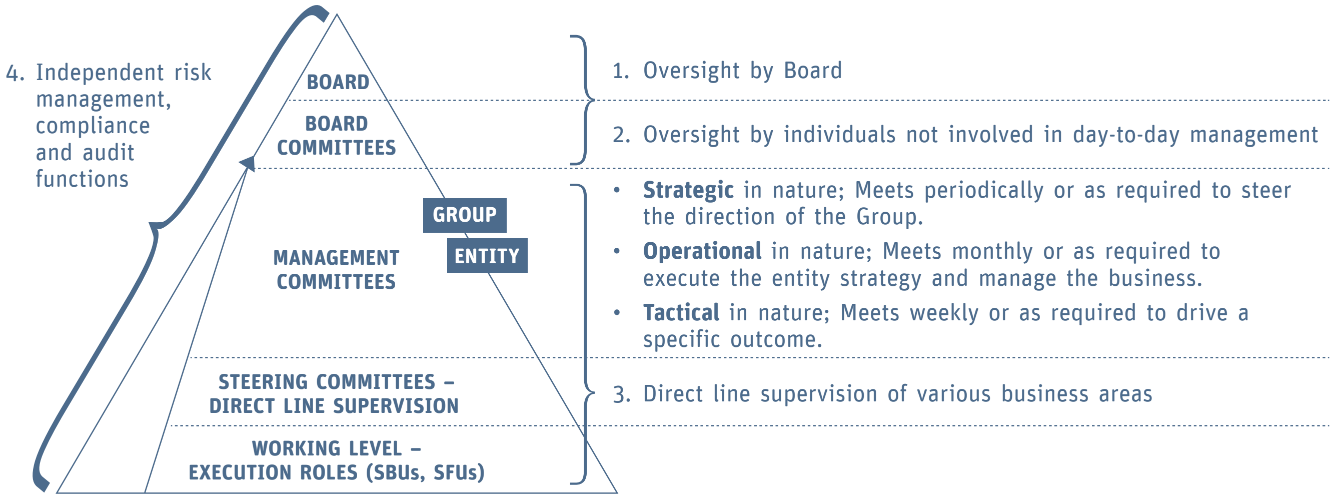
The ultimate responsibility of the Boards of Directors in the Group is to ensure that an effective risk management strategy is in place and uniformly understood across the Group. The Group has a structured framework to support the Board's oversight responsibilities.

5.0 RISK MANAGEMENT (CONTINUED)

RISK GOVERNANCE AND ORGANISATION

The Board of Directors (Board), through the BRC, GCRC and the Group Risk & Credit Management function, establishes the risk appetite and risk principles for the Group and relevant entities. The BRC is the principal Board Committee that provides oversight over risk management activities for the Group to ensure that the Group's risk management process is in place and functional. The BRC assists the Board to review the Group's overall risk management philosophy, frameworks, policies and models. An Islamic Risk Management Committee (IRMC) was established to assist the Board of RHB Islamic Bank on risk issues relevant and unique to RHB Islamic Bank.

The responsibility for the supervision of the day-to-day management of enterprise risk and capital matters is delegated to the GCRC comprising Senior Management of the Group and which reports to the BRC/IRMC and the Group Management Committee (GMC). There are other committees set up to manage specific areas of risks in the Group. An overview of this governance framework at Group level is as below:



Principle 2: Clear Understanding of Risk Management Ownership

Proactive risk ownership is important for effective management of risk. This promotes a risk awareness culture throughout the Group.

The strategic business units (SBUs) and strategic functional units (SFUs) of the respective operating entities in the Group are collectively responsible for identifying, managing and reporting risks. The business units manage certain defined risks supported by the services provided by the functional units, including the risk management function.

Principle 3: Institutionalisation of a Risk-Focused Organisation

In addition to risk ownership, a risk-focused culture is promoted throughout the Group through strengthening of the central risk management functions and continuous reinforcement of a risk and control environment within the Group.

5.0 RISK MANAGEMENT (CONTINUED)

Central Risk Management Function

Group Risk & Credit Management function is independent of the business function to ensure that the necessary balance in risk/return decisions is not compromised by short-term pressures to generate revenues. The said function is headed by the Group Chief Risk Officer.

The roles and responsibilities of the Group Chief Risk Officer include:

- Facilitating the setting of the strategic direction and overall policy on management and control of risk of the Group;
- Ensuring industry best practices in risk management are adopted across the Group, including the setting of risk management parameters and risk models;
- Developing a pro-active, balanced and risk-attuned culture within the Group;
- Advising Senior Management, the GCRC, BRC/IRMC and the Board on risk issues and their possible impact on the Group in the achievement of its objectives and strategies; and
- Administering the delegation of discretionary powers to Management personnel within the Group.

Group Risk & Credit Management consisting of Group Risk Management, Group Credit Management and Group Risk Operations provides independent oversight on business activities and implements the Group Risk Management Framework in order to protect and safeguard the Group's assets, and to prevent and mitigate financial and reputational losses to the Group. Key areas for which Group Risk Management is responsible include the Group's risk policy and framework, day-to-day risk measurement and monitoring, providing timely risk analysis to management, and ensuring compliance to regulatory risk reporting requirements.

Group Credit Management oversees the Group-wide credit evaluation and assessment, approval and credit monitoring functions by providing credit risk assessment assurance on credit proposals, highlighting key risks and potential problematic accounts, and improving credit process efficiency.

Group Risk Operations is responsible for strategising and implementing a comprehensive enterprise-wide risk governance framework, and managing the development of robust risk management infrastructure and tools, aligned with the Group's strategy for growth and keeping pace with the market requirements and competitive business environment. Group Risk Operations drives the operationalisation of the Group's risk transformation initiatives in establishing risk management as a valuable business partner.

5.0 RISK MANAGEMENT (CONTINUED)

Risk and Control Environment

The business and functional heads are accountable for risk management in their businesses and functions, and for overseas operations where they have governance responsibilities. The business and functional units have clear segregation of duties to ensure that business processes are functioning effectively. There is accountability delegated to the appropriate authority to enable them to execute their respective authorities in meeting the business strategies without compromising the risk management process.

The primary responsibility for managing risks, therefore, rests with the business managers who are best equipped to ensure that risk management and control are continuously focused on the way business is conducted. There is a continuous review of business activities and processes to identify significant risk areas and implement control procedures to operate within established corporate policies and limits.

Principle 4: Alignment of Risk Management to Business Strategies

The Group Risk Management Framework serves to align the Group’s business strategy to risk strategy, and vice-versa. This is articulated through the risk appetite setting and the Group’s annual business and financial budgetary plan, which is facilitated by the integration of risk measures in capital management.

Risk appetite is set by the Board and reported through various metrics that enable the Group to manage capital constraints and shareholders’ expectations. The risk appetite is a key component of the management of risks and describes the types and level of risk that the Group is prepared to accept in delivering its strategy.

Principle 5: Optimisation of Risk-Adjusted Returns

One of the objectives of capital management is to reflect a risk-adjusted return assumed by the businesses throughout the Group. By linking risk to capital, the risk-adjusted return measure contributes to the creation of shareholders’ value by facilitating the allocation of capital to the businesses.

The medium to long-term strategy and principle of risk management of the Group is to intensify the integration of capital management within the Group. The Group is progressively implementing a risk-adjusted return based framework for allocation of capital to business units and for performance measurement and management.

6.0 CREDIT RISK

Credit Risk Definition

Credit risk is the risk of loss arising from customers' or counterparties' failure to fulfil their financial and contractual obligations in accordance with the agreed terms. It stems primarily from the Group's lending/financing/underwriting, trade finance and its funding, investment and trading activities from both on and off-balance sheet transactions.

6.1 Credit Risk Management Oversight and Organisation

The Group Credit Committee (GCC) is the senior management committee that has been empowered to approve or reject all financial investments, counterparty credit, financing applications, credit proposals under Credit/Assets Recovery and credit renewals, up to the predefined threshold, subject to affirmation or veto by Board Credit Committee (BCC), if exceed the predefined threshold.

GCC will direct, monitor, review and consider such issues as may materially impact on the present and future quality of the Group's loan/asset book. GCC also act as the body which, through the BRC, recommends to the respective Boards, on matters pertaining to credit risk (such as credit and underwriting evaluation/approval/procedure, and delegated lending/financing authorities).

The Group Investment Underwriting Committee (GIUC) deliberates and approves investment banking related proposals such as equity underwriting, Equity Capital Markets activities and share margin financing cases.

The BCC's main functions are (i) affirming, vetoing or imposing more stringent conditions on credits of the Group which are duly approved by the GCC and/or GIUC, and (ii) overseeing the management of impaired and high risk accounts. BCC also endorses policy loans/financing and loans/financing required by BNM to be referred to the respective Boards for approval.

In line with best practices, financing facilities applications are independently evaluated by credit underwriters in Group Credit Management and Investment Bank Credit Control for margin finance prior to submission to the relevant committees for approval. Financing applications within a specified limit may be jointly approved by the approving authority in business units and Group Credit Management.

Within Group Risk Management, the Group Credit Risk Management has the functional responsibility for credit risk management, portfolio risk monitoring and risk reporting. The Group also conducts regular credit stress tests to assess the credit portfolio's vulnerability to adverse credit risk events.

Regular risk reporting is made to the GCRC, IRMC, BRC and the Board. These reports include various credit risk aspects such as portfolio quality, expected losses, and concentration risk exposures by business portfolio. Such reporting allows Senior Management to identify adverse credit trends, take prompt corrective actions, and ensure appropriate risk-adjusted decision making.

6.0 CREDIT RISK (CONTINUED)

6.2 Credit Risk Management Approach

The Group's credit risk management framework is founded upon BNM's Guideline on Best Practices for the Management of Credit Risk. The Group abides by its Group Credit Policy which supports the development of a strong credit culture with the objective of maintaining a diversified portfolio, and a reliable and satisfactory risk-weighted return. Industry best practices are instilled in the continual updating of the policy and the Group Credit Guidelines.

The Group ensures that internal processes and credit underwriting standards are adhered to before financing proposals are approved. All financing proposals are firstly assessed for its credit worthiness by the originating business units before being evaluated by an independent credit evaluation and decided upon by the management.

All financing exposure limits are approved within a defined credit approval authority framework. Large financing exposures are further subject to post approval credit review by Group Internal Audit.

The Group's credit risk management process is documented in the Group Credit Procedures Manual (GCPM) and Group Credit Guidelines which sets out the operational procedures and guidelines governing the credit processes within the Group.

The GCPM and Group Credit Guidelines have been designed to ensure that:

- The process of credit initiation, administration, supervision and management of loans/financing and advances are carried out consistently and uniformly by the business origination and other credit support functions within the Group.
- Procedures and guidelines governing the credit function are in compliance with the credit policies of the Group.

Lending/Financing to Corporate and Institutional Customers

Loans/financing to corporate and institutional customers are individually evaluated and risk-rated. Credit underwriters identify and assess the credit risk of large corporate or institutional customers, or customer groups, taking into consideration their financial and business profiles, industry and economic factors, collateral, or other credit support.

Credit Risk from Investment or Trading Activities

In the course of its trading or investment activities, the Group is also exposed to credit risks from trading, derivative and debt securities activities. Relevant credit guidelines are established to govern the credit risk via guidance on derivatives, hedging and investment related activities of the different exposures.

Lending/Financing to Consumers and Small Businesses

For the consumer and small business sectors, credit risk is managed on a portfolio basis. Such products include residential mortgages, credit cards, auto loans/financing, commercial property loans/financing, personal financing and business loans/financing. Loans/financing are underwritten under product programmes that clearly define the target market, underwriting criteria, terms of financing, maximum exposure, credit origination guidelines and verification process. Scoring models are used in the credit decision process to enable objective risk evaluation and consistent decisions, cost efficient processing, and behavioural score monitoring of expected portfolio performance.

6.0 CREDIT RISK (CONTINUED)

6.2 Credit Risk Management Approach (continued)

Lending/Financing to Share Margin Financing

Loans/financing to share margin clients are based on credit/financing facilities made available to these clients for trading or redemption of securities that are listed in Bursa Malaysia Berhad in accordance with the Bursa Securities Rules.

For Share Margin Financing, credit risk is mitigated through the establishment of appropriate approving authority structure/matrix for the extension of trading/credit limits. Within clearly defined guidelines approved by the Board and in line with applicable laws and regulations, credit risk management also encompasses the systematic credit assessment, close monitoring of limits, exposures and concentration risk to counterparties or issuer, through timely management reporting procedures.

Credit Risk Measurement

Along with judgement and experience, risk measurement or quantification plays a critical role in making informed risk taking and portfolio management decisions. As the nature of credit risk varies by financing type, the Group applies different credit risk measuring tools, so that the credit risk of each financing type is appropriately reflected. These measurement tools are developed for the material credit exposures, which fall under the IRB approach.

The followings represent the dimensions considered in the credit risk measurement:

1. **Probability of Default (PD)**

   For corporate/non-retail financing, the probability of default is measured from obligor (or customer) rating obtained from the risk rating system to determine obligor's level of default risk. The risk rating of each obligor is regularly reviewed to ensure that it actually reflects the debtor's/customer's updated default risk. For retail exposures/financing, the default risk is measured via different credit scoring or behavioural scoring model.

2. **Loss Given Default (LGD)**

   For corporate financing, LGD is determined via the credit risk mitigation adjustment, in which collateral and security will determine the level of LGD for a specific transaction. For retail financing, LGD is captured at respective segment (or pool) level.

3. **Exposure at Default (EAD)**

   Exposure at default is calculated from the current outstanding balance and availability of committed financing line. In this regard, the key factor is the Group's obligation related to the available financing line. For corporate financing, the EAD is measured at an individual obligor exposure as per BNM's Guideline on Capital Adequacy Framework (Basel II – Risk-Weighted Assets) and the Capital Adequacy Framework for Islamic Banks (Risk-Weighted Assets). For retail financing, the principle of credit risk measurement is similar, but measured on a pooled basis, based on internal models.

6.0 CREDIT RISK (CONTINUED)

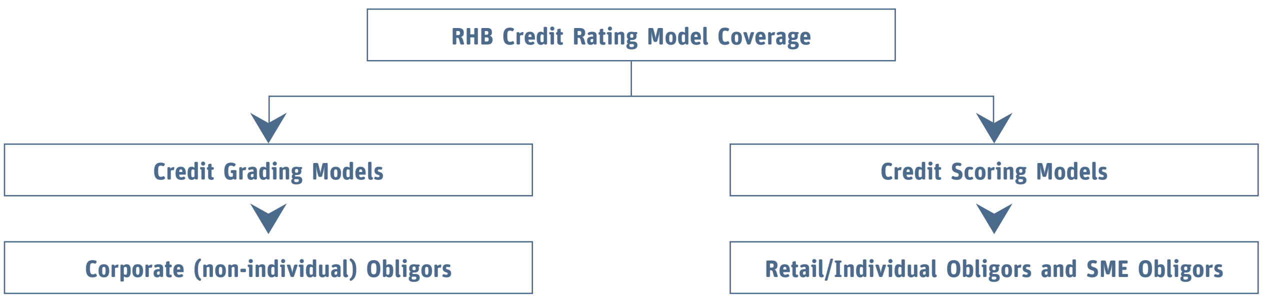
6.3 Internal Credit Rating Models

Internal credit rating models are an integral part of the Group's credit risk management, decision-making process, and regulatory capital calculations. These internal credit rating models are developed by Group Risk Operations with active participation by the relevant credit experts from the Group's functional units and/or business units.

Internal rating model development and implementation process have been established to govern the development and validation of rating models and the application of these models. Specifically, all newly developed models prior to implementation, material changes of the rating systems and validation results must be endorsed by GCRC and approved by BRC. All models are also subject to independent validation by the Model Validation Team before implementation to ensure that all aspects of the model development process have been satisfied. In addition, the models are also subject to annual review and independent validation by the Model Validation Team to ensure that they are performing as expected.

Credit risk/rating models can be broadly classified into:

- Credit Grading Models
- Credit Scoring Models



The credit grading models for corporate (or non-individual) obligors are used to risk rate the creditworthiness of the corporate obligors/ guarantors/debt issuers based on their financial standing (such as gearing, expenses and profit) and qualitative aspects (such as management effectiveness and industry environment). Different rating models will be applied subject to the obligor's asset and sales volume to create further risk differentiation.

The credit scoring models are for large volume of exposures that are managed on a portfolio basis, which includes program lending/ financing for small and medium-sized enterprises (SMEs). These models are developed through statistical modelling and applied onto the portfolio accordingly. For portfolios where data are readily available or when more granular segmentation is required to support business strategy, more models will be developed and deployed.

6.0 CREDIT RISK (CONTINUED)

6.3 Internal Credit Rating Models (continued)

Application of Internal Ratings

The three components of expected loss, the PD, LGD and EAD are used in variety of applications that measure credit risk across the entire portfolio.

- Credit Approval : PD models are used in the credit approval process in both retail and non-retail portfolios. In high-volume retail portfolios, application scorecard and behaviour scorecard are used as one of the risk management tools.
- Policy : Policies are established to govern the use of ratings in credit decisions and monitoring as well impairment.
- Reporting : Reports are generated to Senior Management on a monthly basis on the performance of the rating models to show the distribution of the credit exposures by risk rating and monitoring of their performance.
- Capital Management : The capital management and allocation plan takes into consideration the projected RWA computed based on internal rating.
- Risk Limits : The internal ratings are used in establishing the Group's various internal limits (such as industry risk limit).
- Risk Reward and Pricing : PD, EAD and LGD metrics are used to assess profitability of deals to allow for risk-informed pricing considerations and strategic decisions.

F-IRB for Non-Retail Portfolios

The major non-retail portfolios of the Group are on the Foundation Internal Ratings-Based (F-IRB) approach for regulatory capital requirements. Under this approach, internal rating models are used to estimate the PD for each obligor, while the LGD and EAD parameters are prescribed by BNM. The PD rating model is statistically calibrated, with overlay of qualitative factors and notching guide to arrive at the credit rating.

A-IRB for Retail Portfolios

For regulatory capital requirements, the Group has adopted the Advanced Internal Ratings-Based (A-IRB) approach for the retail portfolios, ie residential mortgages, credit cards, auto loans/financing and program lending/financing. The Group is continuously working on migrating its relevant significant portfolio under the Standardised Approach towards IRB compliance. The risk estimates – PD, LGD and EAD; are calibrated for these retail portfolios/pools. In addition, credit scorecard and behavioural scorecard are developed and implemented for use in credit approval decision support such as limit setting, credit score cut-off and approval, monitoring and reporting.

Total	**438,464**	**977,173**	**197,203**	**831,147**

Actual losses are derived from impairment allowances and write-offs during the year, while expected losses (EL) measures the loss expected from the Group's credit exposures as at 31 December of the preceding year.

A comparison of actual losses and EL provides some insight of the predictive power of the IRB approach models used by the Group; however the two metrics are not directly comparable due to the differences in methodology. In particular, the EL used in this comparison is the forecast credit loss from the counterparty defaults of the Group's exposures over a one-year period and is computed as the product of probability of default (PD), loss given default (LGD) and exposure at default (EAD) for the Group's exposures as at 31 December of the preceding year. For the two years 2015 and 2016, the expected losses are showing higher values as compared to the actual losses.

6.0 CREDIT RISK (CONTINUED)

6.4 Off-Balance Sheet Exposures and Counterparty Credit Risk (CCR)

The management of the following off-balance sheet exposures of the Group is in accordance to the credit risk management approach as set out under Section 6.2 of this document:

- Financial guarantees and standby letters of credit, which represent undertakings that the Group will make payments in the event that its customer cannot meet its obligations to third-parties. These exposures carry the same credit risk as loans/financing even though they are contingent in nature;
- Documentary and commercial letters of credit, which are undertakings by the Group on behalf of its customers. These exposures are usually collateralised by the underlying shipment of goods to which they relate;
- Commitments to extend financing, which includes the unutilised or undrawn portions of financing facilities;
- Unutilised credit card lines; and
- Principal or notional amount of derivative financial instruments.

Counterparty Credit Risk

Counterparty Credit Risk is the risk that the entity with whom one has entered into a financial contract (the counterparty to the contract) will fail to fulfil their side of the contractual agreement (eg they default). Counterparty risk is typically defined as arising from two broad classes of financial products:

- Over-the-counter derivatives such as interest rate/profit rate swaps, FX forwards and credit default swaps.
- Securities financing transactions such as repos and reverse repos; and securities borrowing and lending/financing.

Derivative financial instruments are primarily entered into for hedging purposes. The Group (excluding RHB Islamic Bank) takes trading derivative positions, within pre-set limits, with the expectation to make arbitrage gains from favourable movements in prices or rates.

Any financial loss is calculated based on the cost to replace the defaulted derivative financial instruments with another similar contract in the market. The cost of replacement is equivalent to the difference between the original value of the derivatives at the time of contract with the defaulted counterparty and the current fair value of a similar substitute at current market prices. An economic loss would occur if the transactions or portfolio of transactions with the counterparty has a positive economic value at the time of default.

All outstanding financial derivative positions are marked-to-market on a daily basis. The Group’s Treasury Operations Department monitors counterparties’ positions and promptly escalates any shortfall in the threshold levels to the relevant parties for next course of action.

6.0 CREDIT RISK (CONTINUED)

6.5 Credit Exposures and Risk-Weighted Assets by Portfolio and Approaches

The following tables show the credit exposures or Exposure at Default (EAD) as at 31 December 2016 compared with 31 December 2015, segregated by:

- the various types of asset classes, showing details of the exposures by type of approaches, before and after credit risk mitigation (CRM), the corresponding RWA and capital requirements;
- disclosure on off-balance sheet and counterparty credit risk;
- geographical distribution;
- industry sector; and
- residual maturity.

6.0 CREDIT RISK (CONTINUED)

6.5 Credit Exposures and Risk-Weighted Assets by Portfolio and Approaches (continued)

Standardised Approach for Other Portfolios

The Standardised Approach is applied to portfolios that are classified as permanently exempted from the IRB approach, and those portfolios that are currently in transition to the IRB Approach. Under this Standardised Approach, the risk weights are prescribed by BNM based on the asset class to which the exposure is assigned.

The following tables show RHB Bank Group's credit exposures for its portfolios with the corresponding risk weights and RWA under the Standardised Approach, after credit risk mitigation (CRM):

Table 13a: Portfolios under the Standardised Approach by Risk Weights as at 31 December 2016

RHB Bank Group Exposure Class	Sovereigns & Central Banks RM'000	Public Sector Entities RM'000	Banks, Development Financial Institutions & MDBs RM'000	Insurance/ Takaful Cos, Securities Firms & Fund Managers RM'000	Corporates RM'000	Regulatory Retail RM'000	Residential Mortgages RM'000	Higher Risk Assets RM'000	Other Assets RM'000	Equity Exposures RM'000	Total Exposures after Credit Risk Mitigation RM'000	Total Risk-Weighted Assets RM'000

6.0 CREDIT RISK (CONTINUED)

6.6 Use of External Rating

For sovereigns, corporate and banking institutions, external ratings from approved external credit assessment institutions (ECAIs), where available, are used to calculate the risk-weighted assets and regulatory capital.

The process used to map ECAIs issuer ratings or comparable ECAIs issue ratings, are in accordance to the standards prescribed by BNM. Approved ECAIs are as follows:

- Standard & Poor's (S&P);
- Moody's Investor Services (Moody's);
- Fitch Ratings (Fitch);
- Malaysian Rating Corporation Berhad (MARC);
- Rating Agency Malaysia (RAM); and
- Rating and Investment Information, Inc (R&I).

External ratings for the counterparties are determined as soon as relationship is established and these ratings are tracked and kept updated. Only publicly available credit ratings are used for regulatory risk weighting purpose.

6.0 CREDIT RISK (CONTINUED)

6.6 Use of External Rating (continued)

The following tables show the Group's credit exposures for 31 December 2016 compared with 31 December 2015, according to the ratings by ECAIs:

6.0 CREDIT RISK (CONTINUED)

6.7 Credit Risk Monitoring and Control

Credit Risk Mitigation

The Group generally does not grant credit facilities solely on the basis of collateral provided. All credit facilities are granted based on the credit standing of the borrower/customer, source of repayment and debt/financing servicing ability.

Collateral is taken whenever possible to mitigate the credit risk assumed, subject to the Group's policies that govern the eligibility of collateral used for credit risk mitigation. Reliance on collateral when taken is carefully assessed in the light of issues such as legal certainty and enforceability, market valuation and counterparty risk of the guarantor. Recognised collaterals where relevant, include both financial and physical assets. Financial collaterals include cash deposits, shares and unit trusts, while physical collateral includes land and buildings and vehicles. Apart from financial collateral and physical collateral, the Group has defined standards on the acceptance of guarantors as credit risk mitigants.

Collateral is valued in accordance with the Group's policy on collateral valuation, which prescribes the frequency of valuation for different collateral/securities types, based on liquidity and volatility of the collateral value and the underlying product or risk exposure. The value of collaterals/securities pledged is monitored periodically, analysed and updated concurrently with the annual/periodic renewal of facilities, as well as updated into the Group's collateral system.

The Group also accepts non-tangible securities as support, such as guarantees from individuals, corporates and institutions, bank guarantees, debenture and assignment of contract proceeds, subject to internal guidelines on eligibility. Currently, the Group does not employ the use of derivative credit instruments and on-balance sheet netting to mitigate its financing exposures. Where possible, the Group enters into International Swaps and Derivatives Association (ISDA) Master Agreement with its derivative and swap counterparties as the master agreement provides the legal certainty that the credit exposures between counterparties will be netted.

Equity securities or collaterals acquired arising from debt conversions are accounted for as disposal of the loan/financing and acquisition of equity securities or investment properties. Any further impairment of the assets or business acquired is treated as impairment of the relevant asset or business rather than as impairment of the original instrument. The Group has established mechanism to monitor credit and market concentration within its credit mitigation.

6.0 CREDIT RISK (CONTINUED)

6.7 Credit Risk Monitoring and Control (continued)

Credit Concentration Risk

Risk concentration refers to an exposure with the potential to produce losses that are substantial enough to threaten the financial condition of a banking institution. Risk concentrations can materialise from excessive exposures to a single counterparty or group of connected counterparties, a particular instrument or a particular market segment.

The Group manages the diversification of its portfolio to avoid undue credit concentration risk. Credit concentration risk exists in lending/financing to single customer groups, borrowers/customers engaged in similar activities, or diverse groups of borrowers/customers that could be affected by similar economic or other factors. To manage this concentration risk, exposure limits are established for single borrowing/financing groups and industry segments. Analysis of any single large exposure and group of exposures is regularly conducted and the lending/financing units undertake regular account updates, monitoring and management of these exposures.

Industry and sector-specific analysis are also incorporated within the overall credit risk management regiment. In this respect, the Group seeks to continually update lending or financing guidelines based on periodic reviews and updates of industry and sector risk factors and economic outlook. This facilitates better management of credit concentration risk.

Credit Monitoring and Annual Reviews

The Group regularly monitors credit exposures, portfolio performance, and external trends which may impact risk management outcomes. Internal risk management reports are generated for Senior Management, GCRC, IRMC, BRC and Board, containing information on key environmental, political and economic trends across portfolios and countries, portfolio delinquency with major credit delinquency, and loan/financing impairment performance.

In addition to the on-going qualitative assessment by the account relationship managers, reviews are conducted at least once a year with updated information on the customer's financial position, market position, industry and economic condition and account conduct. Specific loans/financings may be reviewed more frequently under appropriate circumstances. Such circumstances may arise if, for instance, the Group believes that heightened risk exists in a particular industry, or the borrower/customer exhibits early warning signals such as defaulted on obligations to suppliers or other financial institutions or is facing cash flow or other difficulties.

Within Group Risk & Credit Management, there is a mechanism in place for credit monitoring to flag-out problematic loans/financing (watch list accounts) for intensive monitoring under Enhanced Account Management (EAM). These are accounts which may be exhibiting early distress patterns or in the early stages of delinquency but not yet in default.

For these cases, the Group's Credit Monitoring department will work closely with the Area Account Relationship Managers (ARMs) to rehabilitate the accounts after discussion with the borrower/customer to determine the root cause of the problem and this may result in rescheduling, restructuring or "exit relationship" strategies to be applied. For the larger accounts, regular position update meetings are held with ARMs to review or revise these strategies. The EAM guidelines are refined from time to time, to better identify, monitor and resolve such accounts. Dedicated teams are established (at business units as well as credit evaluation) to manage the watch list portfolios. These teams are tasked with identifying and implementing strategies to address lending/business relationships under EAM.

Group Internal Audit conducts independent post-approval reviews on a sampling basis to ensure that the quality of credit appraisals and approval standards is in accordance with the credit underwriting standards and financing policies established by the Group's management, and relevant laws and regulations.

6.0 CREDIT RISK (CONTINUED)

6.8 Impairment Allowances for Loans/Financing

The Group adopts BNM's guidelines on Classification and Impairment Provisions for Loans/Financing. The principles in this guidelines are in line with those applicable under the International Financial Reporting Standards compliant framework, the Malaysia Financial Reporting Standards 139.

The borrower/customer assessed under Impairment Allowances (IA) shall be classified as impaired under any one of the following situations:

1. When the principal or interest/profit or both, of any facility(s) of the borrower/customer is past due for more than 90 days or 3 months.
2. In the case of revolving facilities (eg overdraft facilities), the borrower/customer of the facility shall be classified as impaired where the outstanding amount has remained in excess of the approved limit for a period of more than 90 days or 3 months.
3. Where the amount is past due or the outstanding amount has been in excess of the approved limit for 90 days or 3 months or less, the loan/financing exhibits weaknesses (refer to impairment trigger) that would render it to be classified as impaired.
4. Where repayments of the loans/financing are scheduled on intervals of 3 months or longer, the borrower/customer is classified as impaired as soon as a default occurs, unless the borrower/customer or the loan/financing does not exhibit any weakness (refer to impairment trigger) that would render it to be classified as impaired.
5. Upon occurrence of any one or more Mandatory Status Triggers (MSTs) or any two or more Ancillary Status Triggers (ASTs). These MSTs and ASTs are pre-defined trigger events approved by the Group to facilitate impairment classification.

Note:
For R&R facilities, the borrower/customer shall be classified as impaired in accordance with paras 1 to 4 above based on the revised or restructured terms.

Individual Assessment - Impairment Triggers

For borrowers/customers (with threshold of RM5 million and above per borrower/customer) under individual assessment, the Group performs impairment assessment when any one of the MSTs or any two of the ASTs events occurred. Consequently, these borrowers/customers will be classified as impaired even though no impairment allowance may be required after impairment assessment.

Individual Impairment Allowances

Borrowers/customers under individual assessment and triggered either by any one of the MSTs or any two of the ASTs will be classified as impaired. Consequently, impairment assessment is to be carried out on these impaired borrowers/customers, based on reasonable and well documented estimates of the future cashflows/realisations of collateral that is expected to recover from the impaired borrowers/customers ie net present value of future cashflows are discounted based on original effective interest/profit rates and compared against carrying amount. Any impairment on the shortfalls will be provided in full immediately.

6.0 CREDIT RISK (CONTINUED)

6.8 Impairment Allowances for Loans/Financing (continued)

Collective Impairment Allowances

Collective impairment applies to all other accounts (impaired and non-impaired) that do not fall within the threshold of individual assessment. The impairment assessment for accounts under collective assessment are as follows:

1. Segmentation is applied to group of loans/financing, both impaired and non-impaired, based on similar credit risk characteristics, for the purpose of assessing impairment and computing historical default rates and loss rates.
2. Probability of default (PD) model is established with standard loss identification period (by months) and Point of No Return (by months in arrears). PD model adopted could either be migration analysis model or flow rate model. The approaches to migration analysis model could be either by way of outstanding balances or number of accounts.
3. Loss Given Default (LGD) model establishes loss rate at the point in time when the loss event occurred ie, based on actual incurred loss model.

Re-classification and Recovery of Impaired Borrowers/Customers

An impaired borrower/customer may be re-classified as a non-impaired status under the following situations:

1. When the loan/financing repayment of the impaired borrower/customer has improved with the principal or interest/profit or both of its facilities with the Group being past due by 90 days or 3 months or less.
2. In the case of revolving facilities (eg overdraft facilities), the facility shall be re-classified as non-impaired where the overdue outstanding amount in excess of the approved limit has improved to 90 days or 3 months.
3. Where repayments of the loans are scheduled on intervals of 3 months or longer, the loan/financing is re-classified as non-impaired as soon as the overdue scheduled repayments are settled.

Write-Off of Impaired Loans/Financing

All loans/financing that satisfy any one of the following criteria, may be recommended for write-off:

1. Deemed irrecoverable, worthless and with slim prospect of recovery.
2. Waiver/discount already given under approved composite settlement schemes.
3. Abandoned project with no sign of revival. The definition of abandoned project must be in compliance with the definition stated under valuation for abandoned projects.
4. For retail and scored loans/financing, the write-off may be expedited for those with ageing of 12 months and above, provided legal action has reached at least writ of summon filed.
5. In the case of credit card and unsecured personal financing, aging is 6 months and above and the write-off is automatic.

Partial write-offs of impaired loans/financing is permitted for the shortfall portion in outstanding balance over the security value which is uncollectible and worthless; and the Group is in the final stage of realising the security/collateral; or in the case of approved composite settlement arrangement, the waiver portion. Further shortfall if any, arising from the disposal of all securities and upon receipt of the sale proceeds, shall be written off immediately.

6.0 CREDIT RISK (CONTINUED)

6.8 Impairment Allowances for Loans/Financing (continued)

This policy of impairment loans/financing write-off is intended to provide a timely and consistent methodology for loans/financing to be written-off and to reflect the true value of assets in the Group's books.

The following tables show RHB Bank Group's impaired and past due loans/financing and allowances by industry sector as at 31 December 2016 compared with 31 December 2015:

Exchange differences	**2,084**	12,703
Balance as at the end of financial year	**1,132,836**	**1,202,106**

7.0 SECURITISATION EXPOSURES

In the course of its business, the Group has undertaken securitisations of its own originated assets, as well as its clients on asset securitisation exercises as part of its debt capital markets services for external clients. The Group securitises its own assets primarily for capital management purposes.

The Group undertakes the following roles in the securitisation activities (either singularly or in combination):

- Originator and servicer of securitised assets;
- Asset-backed securities marketing, syndication and trading;
- Structuring of the securitisation transaction;
- Provider of liquidity facilities to self-originated and third-party transactions; and
- Investor of third-party securitisations (where the bank is not originator or sponsor).

Summary of Accounting Policies for Securitisation Activities

The accounting policies governing initial recognition, valuation and recognition of gains and losses governing financial assets are detailed in the Note A 4 (Summary of Significant Accounting Policies/Financial Assets) and A 20 (Summary of Significant Accounting policies/ Impairment of Financial Assets) of the Statutory Financial Statements.

ECAIs Used For Securitisation Process

In general, the Group engages external credit assessment institutions such as RAM and MARC to assign credit ratings for securitisations of its own originated assets.

The table below shows the Securitisation exposures in the Banking Book as at 31 December 2016 compared with 31 December 2015:

Table 21: Disclosure on Securitisation Exposure in the Banking Book

RHB Bank Group	Total Exposures Securitised		Impaired	
Underlying Assets	2016 RM'000	2015 RM'000	2016 RM'000	2015 RM'000
Traditional Securitisation (Banking Book Exposure)				
Originated by the Bank				
Collateralised Loan Obligation (Corporate Loans)	–	–	57,321	57,961
Total	–	–	57,321	57,961

Capital Treatment for Securitisation Exposures

The Group applies the Standardised Approach to calculate the credit risk capital requirements in accordance with BNM's Guideline.

The Group do not have any net exposure after CRM for securitisation in its Banking Book during the financial years 2016 and 2015. The Group also do not have any securitisation exposure in its Trading Book.

8.0 MARKET RISK

Market risk is the risk of loss arising from adverse movements in market indicators, such as interest/profit rates, credit spreads, equity prices, currency exchange rates and commodity prices.

The Group transacts financial instruments such as debt papers and financial derivative instruments. Derivative instruments are contracts whose characteristics and value are derived from the underlying instruments that can be a reference to interest/profit rates, exchange rates, debt paper, or equity and indices. These include futures, forwards, swaps, and options transactions.

The Group has an established Group Trading Book Policy Statement as guidance for market risk management. This is reviewed regularly and/or upon change in significant event that has a material impact on policy compliance or regulatory changes.

The Group Asset and Liability Committee (Group ALCO) performs a critical role in the management of market risk and supports the IRMC and BRC in the overall market risk management. Group ALCO meets regularly and is the forum where strategic and tactical decisions are made for the management of market risk; this includes the development of the Group's market risk strategy, market risk management structure and the policies as well as measurement techniques to be put in place.

The Group Market Risk Management within Group Risk Management is the working level that forms a centralised function to support Senior Management to operationalise the processes and methods, to ensure adequate risk control and oversight are in place.

Market Risk Assessment

The Group applies risk monitoring and assessment tools to measure trading book positions and market risk factors. Statistical and non-statistical risk assessment tools applied include Value-at-Risk (VaR), sensitivity analysis and stress testing.

The Group adopts a systematic approach in managing these risks by types of instruments and nature of exposure. Market risk is primarily monitored and controlled via a structure of limits and triggers ie cut loss, VaR, trading and notional limit set in accordance with the size of positions and risk tolerance appetites.

In addition, the Group conducts periodic stress testing of its respective portfolios to ascertain market risk under abnormal market conditions.

Market Risk Monitoring and Reporting

For effective control of market risk, defined management action triggers and risk limits are established and actively monitored. Only authorised trading activities may be undertaken by the specific business units within the allocated limits. All trading positions are monitored independently on a daily basis and in accordance to the established escalation procedures and the key actions to be undertaken.

Hedging Activities

Hedging activities designated for hedge accounting are governed by the Group's Hedging Policy that prescribes the overall hedge activities that can be executed by the Group and the subsequent control procedures such as effectiveness measurement and reporting to Group ALCO.

Hedging instruments used to mitigate these risks include derivatives such as options, futures, forwards and swaps that are approved by the Board. Execution of the hedging is carried out by the relevant division through the Group's treasury functions with the approval of Group ALCO.

8.0 MARKET RISK (CONTINUED)

Capital Treatment for Market Risk

The Group applies the Standardised Approach to calculate market risk capital requirements in accordance with BNM's Guideline. The market risk-weighted assets and the corresponding capital requirements for RHB Bank Group, RHB Bank, RHB Islamic Bank and RHB Investment Bank as at 31 December 2016 and 31 December 2015 are shown in the tables below:

Table 22a: Market Risk-Weighted Assets and Minimum Capital Requirements as at 31 December 2016

RHB Bank Group

Market Risk	Long Position RM'000	Short Position RM'000	Risk-Weighted Assets RM'000	Minimum Capital Requirements RM'000
Interest Rate Risk/Profit Rate Risk	142,180,722	140,779,256	2,033,609	162,688
Equity Risk	373,008	37,955	814,146	65,132
Foreign Currency Risk	1,936,835	153,374	1,951,364	156,109
Options Risk	123,019	141,405	47,797	3,824
Total			4,846,916	387,753

RHB Bank

Market Risk	Long Position RM'000	Short Position RM'000	Risk-Weighted Assets RM'000	Minimum Capital Requirements RM'000
Interest Rate Risk/Profit Rate Risk	144,831,954	143,419,111	2,060,776	164,862
Equity Risk	–	–	–	–
Foreign Currency Risk	1,648,399	171,431	1,662,928	133,034
Options Risk	91,323	104,980	10,052	804
Total			3,733,756	298,700

8.0 MARKET RISK (CONTINUED)

Capital Treatment for Market Risk (continued)

The Group applies the Standardised Approach to calculate market risk capital requirements in accordance with BNM's Guideline. The market risk-weighted assets and the corresponding capital requirements for RHB Bank Group, RHB Bank, RHB Islamic Bank and RHB Investment Bank as at 31 December 2016 and 31 December 2015 are shown in the tables below: (continued)

Table 22a: Market Risk-Weighted Assets and Minimum Capital Requirements as at 31 December 2016 (continued)

RHB Islamic Bank

Market Risk	Long Position RM'000	Short Position RM'000	Risk-Weighted Assets RM'000	Minimum Capital Requirements RM'000
Profit Rate Risk	248,081	238,572	10,793	863
Equity Risk	–	–	–	–
Foreign Currency Risk	44,311	52,633	52,633	4,211
Options Risk	–	–	–	–
Total			63,426	5,074

RHB Investment Bank

Market Risk	Long Position RM'000	Short Position RM'000	Risk-Weighted Assets RM'000	Minimum Capital Requirements RM'000
Interest Rate Risk	447,062	465,025	2,945	236
Equity Risk	37,490	33,298	14,823	1,186
Foreign Currency Risk	620,666	8,760	620,666	49,653
Options Risk	30,463	33,298	37,798	3,024
Total			676,232	54,099

Note:
As at 31 December 2016, RHB Bank and RHB Islamic Bank did not have any exposure under
- *equity risk, commodity risk, inventory risk and options risk; and*
- *market risk exposure absorbed by PSIA.*

RHB Bank Group did not have exposure under
- *commodity risk and inventory risk; and*
- *market risk exposure absorbed by PSIA.*

RHB Investment Bank did not have any exposure under
- *commodity risk and inventory risk.*
- *for the Equity Risk, the position is computed based on net long and net short position.*

8.0 MARKET RISK (CONTINUED)

Capital Treatment for Market Risk

The Group applies the Standardised Approach to calculate market risk capital requirements in accordance with BNM's Guideline. The market risk-weighted assets and the corresponding capital requirements for RHB Bank Group, RHB Bank, RHB Islamic Bank and RHB Investment Bank as at 31 December 2016 and 31 December 2015 are shown in the tables below: (continued)

Table 22b: Market Risk-Weighted Assets and Minimum Capital Requirements Restated as at 31 December 2015

RHB Bank Group

Market Risk	Long Position RM'000	Short Position RM'000	Risk-Weighted Assets RM'000	Minimum Capital Requirements RM'000

Note:
As at 31 December 2015, RHB Bank and RHB Islamic Bank did not have any exposure under
- *equity risk, commodity risk, inventory risk and options risk; and*
- *market risk exposure absorbed by PSIA.*

RHB Bank Group did not have exposure under
- *commodity risk and inventory risk; and*
- *market risk exposure absorbed by PSIA.*

RHB Investment Bank did not have any exposure under
- *commodity risk and inventory risk.*
- *For the Equity Risk, the position is computed based on net long and net short position.*

9.0 EQUITY EXPOSURES IN THE BANKING BOOK

Equity risk is the risk of decline in the net realisable value of investment assets arising from adverse movements in market prices or factors specific to the investment itself. The Group holds positions as a result of debt equity conversions and for socio-economic and non socio-economic purposes, which are deemed as non-trading instruments.

Holding of publicly traded equity investments comprise quoted shares which are traded actively in the stock exchange. All publicly traded equity exposures are stated at fair value. Privately held equities are unquoted investments and stated at cost-adjusted for impairment loss, if any.

For debt equity conversions, the Group has established a Policy on Debt & Equity Instruments that governs the management of such exposures to ensure that these exposures are effectively managed and accounted for in the Group's books.

For regulatory capital purpose, the Group adopts the Standardised Approach to calculate the risk-weighted exposures.

The risk-weighted assets of equity investments of the Group as at 31 December 2016 and 31 December 2015 are shown in the tables below:

Table 23: Equity Exposures in the Banking Book

RHB Bank Group	**Gross Credit Exposures**		**Risk-Weighted Assets**	
Equity Type	**2016 RM'000**	**Restated 2015 RM'000**	**2016 RM'000**	**Restated 2015 RM'000**
Publicly traded				
Holdings of equity investments	**7,555**	10,962	**7,558**	10,962
Privately held				
For socio-economic purposes	**627,299**	588,000	**641,614**	588,000
For non socio-economic purpose	**2,624**	74,229	**3,881**	74,230
Other equity	**860**	860	**860**	860
Total	**638,338**	**674,051**	**653,913**	**674,052**

	2016 RM'000	**2015 RM'000**
Total Net Unrealised Gains/(Loss)	**428,773**	367,451

10.0 LIQUIDITY RISK

Liquidity risk is the risk of the Group being unable to maintain sufficient liquid assets to meet its financial commitments and obligations when they fall due and transact at a reasonable cost. Liquidity risk also arises from the inability to manage unplanned decreases or changes in funding sources.

There are two types of liquidity risk, namely funding liquidity and market liquidity risk. Funding liquidity risk is the risk that the Group is unable to meet efficiently both expected and unexpected current and future cash flow and collateral needs without affecting either daily operations or the financial condition of the Group. Market liquidity risk is the risk that the Group cannot easily offset or eliminate a position at the market price because of inadequate market depth or market disruption.

The primary role of a bank in terms of financial intermediation is the transformation of short-term deposits into long-term financing. By fulfilling the role of maturity transformation, banks are inherently susceptible to liquidity mismatches and consequently funding and market liquidity risk.

Through the Group's Liquidity Risk Policy, the Group manages the funding and market liquidity risk to ensure that banking operations continue uninterrupted under normal and stressed conditions. The key objective that underpins the Group's Liquidity Risk Policy includes maintaining financial market confidence at all times, protecting key stakeholders' interests and meeting regulatory liquidity requirements.

The Group ALCO supports the IRMC and BRC by performing the critical role in the management of liquidity risk, and is responsible for establishing strategies that assist in controlling and reducing any potential exposure to liquidity risk. The Group ALCO meets regularly and is the forum where strategic and tactical decisions are made for the management of liquidity risk and the Group's balance sheet profile. Global and domestic economic data, information and events are deliberated at the Group ALCO meetings which enables the Group to determine its actions and reactions in the capital markets. The Group ALCO is also the governance body which sets interest/profit rates for liabilities products as well as reference rates for financing products and services. Group ALCO is supported by Group Asset and Liability Management (Group ALM) at the working level. Group ALM monitors liquidity risk limits/Management Action Triggers (MATs) and reports to Group ALCO the liquidity risk profile on monthly basis.

The liquidity management process involves establishing liquidity management policies and limits, regular monitoring against liquidity risk limits, regular stress testing, and establishing contingency funding plans. These processes are subject to regular reviews to ensure that they remain relevant in the context of prevailing market conditions. Some of the key liquidity risk management tools are top depositors' mixture, funding source mixture, maturity profile of funding sources, and contingency funding lines.

The Group has adopted the BNM's liquidity standards on Liquidity Coverage Ratio, to ensure maintenance of adequate stock of unencumbered high-quality liquid assets to survive the liquidity needs for 30 calendar day under liquidity stress condition. The Group continues to report NSFR under the Basel III observation reporting to BNM.

The Group's Liquidity Incident Management Procedure establishes guidelines for managing liquidity crisis, identifying early warning signs of a possible liquidity event and the need for heightened liquidity risk monitoring and reduced liquidity risk exposure. In addition, it also identifies the individuals responsible for formulating and executing the Group's response to a liquidity event. The Group's Liquidity Incident Management Procedure also covers the entire Group's operations including foreign branch operations.

11.0 INTEREST RATE RISK/RATE OF RETURN RISK IN THE BANKING BOOK

Interest rate risk/rate of return risk in the banking book refers to the risk to the Group's earnings and economic value of equity due to the adverse movements in interest rate/benchmark rate. The risk may arise from the mismatches in the timing of repricing of assets and liabilities from both on and off-balance sheet positions in the banking book, changes in slope and shape of the yield curve, basis risk and optionality risk.

Interest rate risk/rate of return risk in the banking book comprises:

- Re-pricing risk (mismatch risk) – Arises from timing differences in the maturity (for fixed-rate) and re-pricing (for floating-rate) of bank assets, liabilities, and off-balance sheet positions. While such re-pricing mismatches are fundamental to the business of banking, they can expose a bank's income and underlying economic value to unanticipated fluctuations as interest/benchmark rates vary;
- Basis risk – Arises from imperfect correlation in the adjustment of the rates earned and paid on different instruments with otherwise similar re-pricing characteristics. When interest/benchmark rates change, these differences can give rise to unexpected changes in the cash flows and earnings spread between assets, liabilities and off-balance sheet instruments of similar maturities or re-pricing frequencies;
- Yield curve risk – Arises when unanticipated shifts of the yield curve have adverse effects on the Group's income or underlying economic value; and
- Embedded optionality – Arises primarily from options that are embedded in many banking book positions (eg some fixed rate mortgage/home financing products give borrowers/customers the option to prepay the loan/financing early without penalty, call deposit, where customers have the option of withdrawing the deposit funds at any time).

Earnings-at-Risk (EaR) and Economic Value of Equity (EVE) are used to assess interest rate risk/rate of return risk in the banking book. They are computed based on the re-pricing gap profile of the banking book using BNM's standard template. Assets and liabilities are bucketed based on their remaining tenure to maturity or next re-price dates. The measurement of EaR and EVE is conducted on a monthly basis.

The Group ALCO supports IRMC and BRC in establishing policies, strategies and limits for the management of balance sheet risk exposure. The Group ALM within Group Risk Management supports the Group ALCO in the monthly monitoring and reporting of the interest rate/rate of return risk profile of the banking book. The primary objective in managing balance sheet risk is to manage the net interest/profit income and economic value of equity, as well as to ensure that interest rate risk/rate of return risk exposures in the banking book are maintained within defined risk tolerances.

In addition, the Group ALM Policy is established to provide the governance of interest rate risk/rate of return risk in the banking book. Interest/benchmark rate sensitivity triggers are applied on earnings for the respective profit centres within the Group. The Group regularly considers the economics and necessity of increasing or reducing its interest rate risk/rate of return risk hedges.

In line with the Group ALM Policy to achieve a balance between profitability from banking activities and minimising risk to earnings and capital from changes in interest/benchmark rates, interest rate risk/rate of return risk to earnings is controlled using MATs and identified escalation procedures.

Stress testing is also performed regularly to determine the adequacy of capital in meeting the impact of extreme interest/benchmark rate movements on the balance sheet. Such tests are also performed to provide early warnings of potential extreme losses, facilitating proactive management of interest rate risk/rate of return risk in the banking book in an environment of rapid financial market changes.

11.0 INTEREST RATE RISK/RATE OF RETURN RISK IN THE BANKING BOOK (CONTINUED)

The impact of changes in interest/benchmark rates to net earnings and economic value as at 31 December 2016 and 31 December 2015 are shown in the following tables:

Table 24a: Interest Rate Risk/Rate of Return Risk in the Banking Book as at 31 December 2016

RHB Bank Group	Impact on Position as at Reporting Period (100 basis points) Parallel Shift			
	Increase/(Decline) in Earnings		Increase/(Decline) in Economic Value	
Currency	Impact based on +100 basis points RM'000	Impact based on -100 basis points RM'000	Impact based on +100 basis points RM'000	Impact based on -100 basis points RM'000
MYR – Malaysian Ringgit	**164,609**	**(164,609)**	**(1,033,504)**	**1,033,504**
USD – US Dollar	**(56,234)**	**56,234**	**103,721**	**(103,721)**
Others[1]	**64,396**	**(64,396)**	**(39,582)**	**39,582**
Total	**172,771**	**(172,771)**	**(969,365)**	**969,365**

Table 24b: Interest Rate Risk/Rate of Return Risk in the Banking Book Restated as at 31 December 2015

RHB Bank Group	Impact on Position as at Reporting Period (100 basis points) Parallel Shift			
	Increase/(Decline) in Earnings		Increase/(Decline) in Economic Value	
Currency	Impact based on +100 basis points RM'000	Impact based on -100 basis points RM'000	Impact based on +100 basis points RM'000	Impact based on -100 basis points RM'000
MYR – Malaysian Ringgit	83,890	(83,890)	(1,160,329)	1,160,329
USD – US Dollar	(25,394)	25,394	70,503	(70,503)
Others[1]	21,326	(21,326)	(64,086)	64,086
Total	**79,822**	**(79,822)**	**(1,153,912)**	**1,153,912**

Note:
1. Inclusive of GBP, EUR, SGD, etc.
2. The EaR and EVE exposures are additive and do not take into account any correlation impact in the aggregation.
3. The earnings and economic values were computed based on the standardised approach adopted by BNM.

11.0 INTEREST RATE RISK/RATE OF RETURN RISK IN THE BANKING BOOK (CONTINUED)

The impact to net earnings above represents financial assets and liabilities that have been prepared on the following basis:

- Interest/benchmark rate sensitive assets and liabilities with residual maturity or re-pricing tenure of up to one year that is not captured in the trading portfolio are slotted into time bands based on the maturity or re-pricing tenure whichever is earlier.
- A set of risk weights with its respective time band is used to project the applicable basis point interest/benchmark rate change impact.
- For assets and liabilities with non-fix maturity, eg, current and savings accounts, certain assumptions are made to reflect the actual sensitivity behaviour of interest/benchmark rate bearing items.

Economic value is characterised by the impact of interest/benchmark rates changes on the value of all net cash flows, ie, the effect on the economic value of the Group's assets, liabilities and off-balance sheet positions. This provides a more comprehensive view of the potential long-term effects of changes in interest/benchmark rates than is offered by the earnings perspective. The scenarios used are based on the assumption that all key variables for all maturities move at the same time and by the same magnitude and do not incorporate actions that would be otherwise taken by the business units and risk management to mitigate the effect of this movement in key variables.

12.0 OPERATIONAL RISK

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people, systems and/or external events, which also includes IT, legal and Shariah non-compliance risk but excludes strategic and reputational risk. Operational risk is inherent in the Group's operations and can never be eliminated entirely. The impact can be in the form of actual financial loss as well as non-financial loss such as loss of reputation, non-compliance and unsatisfactory service level to customers.

One of the Group's primary safeguards against operational risk is the existence of a sound internal control system, based on the principle of dual control checks and balances, segregation of duties, independent checks and verification processes, and a segmented system access control and authorisation process. These controls are documented through a set of policies and procedures at the respective business and operation level.

The Group's Operational Risk Management Framework comprises a wide range of activities and elements, broadly classified into:

- Analysis and Enhancement – The Group has implemented a Basel II compliant operational risk management system to support its workflow and analytical capabilities.
- Education and Awareness – The Group undertakes change management activities to improve risk management knowledge, culture and practices of the Group personnel. This is aligned with the principle and requirement that the front-line business and support units of the Group, are by nature of their direct involvement in interfacing with customers and in operating the business, responsible for managing operational risk and acting as the first line of defence.
- Monitoring and Intervention – This is where the principal head office risk control units, including the risk management function, compliance function and the internal audit function, actively manage operational non-compliances and incidences as a second and third line of defence respectively. The second line of defence also undertakes recovery actions, including business continuity measures in cases of incidents causing disruption to business activities.

12.0 OPERATIONAL RISK (CONTINUED)

Operational Risk Management Function and Organisation

The Group Operational Risk Management within Group Risk Management has functional responsibility for the development of operational risk framework, policy and methodologies, and providing guidance and information to the business units on operational risk areas. Its responsibility also includes generating a broader understanding and awareness of operational risk issues at all levels in the Group. It also ensures that operational risks from new products, processes and systems are adequately managed and mitigated.

The respective business units are primarily responsible for managing operational risk on a day-to-day basis.

Regular operational risk reporting is made to the Senior Management, the GCRC, IRMC, BRC and the Board. These reports include various operational risk information such as risk analysis, risk mitigation action plans, risk tools outcomes, risk appetite breaches, significant operational risk events and control failures, and lessons learnt. In addition, key operational risk incidents are reported to senior management daily. Such reporting enables Senior Management to identify adverse operational lapses, take prompt corrective actions, and ensure appropriate risk mitigation decision making and action plans.

Operational Risk Management Processes and Tools

The Group applies a defined operational risk management process in managing operational risk to enable an institutional and transparent operational risk management practice. The five (5) processes are as follows:

1. Establish the context;
2. Risk identification;
3. Risk analysis;
4. Risk mitigating; and
5. Risk monitoring.

The Group uses relevant operational risk tools and methodologies to support and ensure an effective operational risk management process. The following ORM tools are being used:

- **Risk and Control Self-Assessment (RCSA)**

  RCSA is a methodology to build risk profile for each business and support unit. RCSA sets out a structured process for the identification and assessment of inherent operational risk, the effectiveness of the control environment, and the adequacy of the risk mitigation in place. The RCSA process is facilitated by the business and support units themselves jointly with personnel from Group Operational Risk Management.

- **Key Risk Indicators (KRI)**

  KRI is a measurable indicator utilised to track and monitor key operational risk exposures. KRI serves as an early warning signal; once a risk indicator exceeds the predefined threshold, a warning message is sent to a predefined list of users. Business and support units are required to monitor their risk exposures via KRIs and are required to develop specific and concrete plans to address those where indicators are unfavourable. KRIs are embedded into critical processes to provide early warning signals of increasing risk and/or control failures by flagging up frequencies of events as a mechanism for continuous risk assessment and monitoring.

12.0 OPERATIONAL RISK (CONTINUED)

Operational Risk Management Processes and Tools (continued)

- **Incident Management and Loss Data Collection (IMLDC)**

  IMLDC provides structured process for the management of operational risk incidents that have occurred, from the point of discovery until resolution. Business and functional units are required to report all incidences within defined reporting timeline operational losses for further analysis of root cause to avoid further recurrence. This is also useful for reviewing the effectiveness of the RCSA and KRIs.

Risk Mitigation and Controls

Risk mitigation strategies are used to minimise risk to an acceptable level and aim to decrease the likelihood of an undesirable event and the impact on the business, should it occur. The control tools and techniques, amongst others, are as follows:

- **Business Continuity Management**

  To mitigate the impact of unforeseen operational risk events, the Group has on-going and actively managed Business Continuity Planning (BCP) programmes for its major critical business operations and activities at the Head Office, data centre, and branches' locations. The BCP programmes are subject to regular testing to ensure efficacy, reliability and functionality, and come under the responsibility of the Business Continuity Management Department.

  The Board of Directors has an oversight function through the BRC and GMC. The Group Business Continuity Steering Committee (GBCSC) is the committee that oversees the Group's business continuity framework, policies, budget and plans. The GBCSC reports to the GCRC.

- **Outsourcing**

  With the increasing need to outsource for cost and operational efficiency, the Group's Policy on Outsourcing of Operations and Services ensures that the risk arising from outsourcing activities is adequately identified, assessed and managed prior to entering into any new arrangements and on an on-going basis.

- **Insurance/Takaful Management**

  The Group considers risk transfer by means of insurance/Takaful to mitigate operational risk. The Group has a programme of insurance/Takaful designed to reduce its exposure to liability and to protect its assets. The Group purchases insurance/Takaful from leading insurers/Takaful providers in the market covering fraud, theft, property and casualty, business disruption, liability and other risks for which it may be held responsible. These are provided by third-party insurers/Takaful providers and will financially mitigate the economic consequences of risks.

Technology Risk

Technology risk refers to the business risk associated with the use, ownership, operation, involvement, influence and adoption of IT within an enterprise.

The Group recognises the risk arising from the advancement and reliance upon information technology to support business operations through the deployment of advance technology and online systems to provide customers with convenient and reliable products and services. The Group's Technology Risk Management Framework ensures that a governance structure is in place for the identification, assessment and management of technology risks within existing IT operations as well as prior to deployment of applications and systems for internal as well as external customers.

12.0 OPERATIONAL RISK (CONTINUED)

New Product and Services Approval Process

The Group has established a Policy on Product Development and Approval and Guidelines on Introduction of New/Variation of Products & Services Lifecycle which governs the risk management of new products, services, or significant changes thereto. The responsible units have a duty to assess the operational risk for new product launches and/or significant changes in product features or related processes and working systems, as well as to ensure that operational risk is at an acceptable level at all times.

Legal Risk

Legal risk is part of operational risk. It can arise from unenforceable, unfavourable, defective or unintended contracts; lawsuits or claims; developments in laws and regulations, or non-compliance with applicable laws and regulations. Business units work together with the Group's legal counsel and external legal counsel to ensure that legal risk is effectively managed.

Capital Treatment for Operational Risk

Currently, the Group adopts the Basic Indicator Approach for the calculation of regulatory operational risk capital requirements. The operational risk-weighted assets and the corresponding capital requirements for RHB Bank Group, RHB Bank, RHB Islamic Bank and RHB Investment Bank as at 31 December 2016 and 31 December 2015, are shown below:

Table 25a: Operational Risk-Weighted Assets and Minimum Capital Requirements as at 31 December 2016

Operational Risk	RHB Bank Group RM'000	RHB Bank RM'000	RHB Islamic Bank RM'000	RHB Investment Bank RM'000
Risk-Weighted Assets	**10,828,115**	**8,283,570**	**1,200,381**	**1,151,279**
Minimum Capital Requirements	**866,249**	**662,686**	**96,030**	**92,102**

Table 25b: Operational Risk-Weighted Assets and Minimum Capital Requirements Restated as at 31 December 2015

Operational Risk	RHB Bank Group RM'000	RHB Bank RM'000	RHB Islamic Bank RM'000	RHB Investment Bank RM'000
Risk-Weighted Assets	10,076,575	8,233,562	1,032,842	1,204,734
Minimum Capital Requirements	806,126	658,685	82,627	96,379

13.0 COUNTRY CROSS-BORDER RISK

Country cross-border risk is the risk that the Group will be unable to obtain payment from customers or third-parties on their contractual obligations as a result of certain actions taken by foreign governments.

Cross-border assets comprise loans/financing and advances, interest/profit bearing deposits/placements with other banks, trade and other bills, acceptances, derivatives, certificates of deposit and other negotiable instruments, investment securities and other formal commitments where the counterparty is resident in a country other than where the assets are recorded. Cross-border assets also include exposures to local residents denominated in currencies other than the local currency.

The Group is guided by the Group Guidance on Cross-Border Business, particularly on ethics in business practices, key success factors in managing such business, and the internal control measures which are essential to provide adequate protection to its customers as well as the Group's interest, thus reducing the risks associated with business activities.

14.0 REPUTATIONAL RISK

Reputational risk is the risk that negative publicity regarding the conduct of the Group or any of the entities within the Group, and its business practices or associations, whether true or not, will adversely affect its revenues, operations or customer base, or require costly litigation or other defensive measures. It also undermines public confidence in the Group, affecting the share price.

Reputation, being largely based on people's perception and expectations, is intangible in nature and thus cannot be easily analysed or quantified. Hence, an integral component of reputational risk management is to understand and meet the expectations of stakeholder.

The stakeholders who are critical to the Group are mainly our customers, employees, and shareholders; others may include regulators, strategic partners, suppliers, outsourced service providers, and counterparties. The ability to maintain the expectations of these stakeholders would contribute significantly in the dynamic context of future strategy towards managing competition and achieving corporate goals.

Reputational risk in the Group is managed and controlled through codes of conduct, governance practices and risk management practices, policies, procedures and training. Towards this end, the Group has developed and implemented a Reputational Risk Management Policy.

The key elements for management of reputational risk include:

- Prompt and effective communication with all stakeholders;
- Strong and consistent enforcement of controls relating to governance, business and legal compliance;
- Continuous monitoring of threats to reputation;
- Ensuring ethical practices throughout the Group; and
- Establishing crisis management plans and ensuring these are continuously updated.

For the Group's overseas operations, it is the responsibility of the Country Heads to promote awareness and application of the Group's policy and procedures regarding reputational risk, in all dealings with customers, potential investors and host regulators.

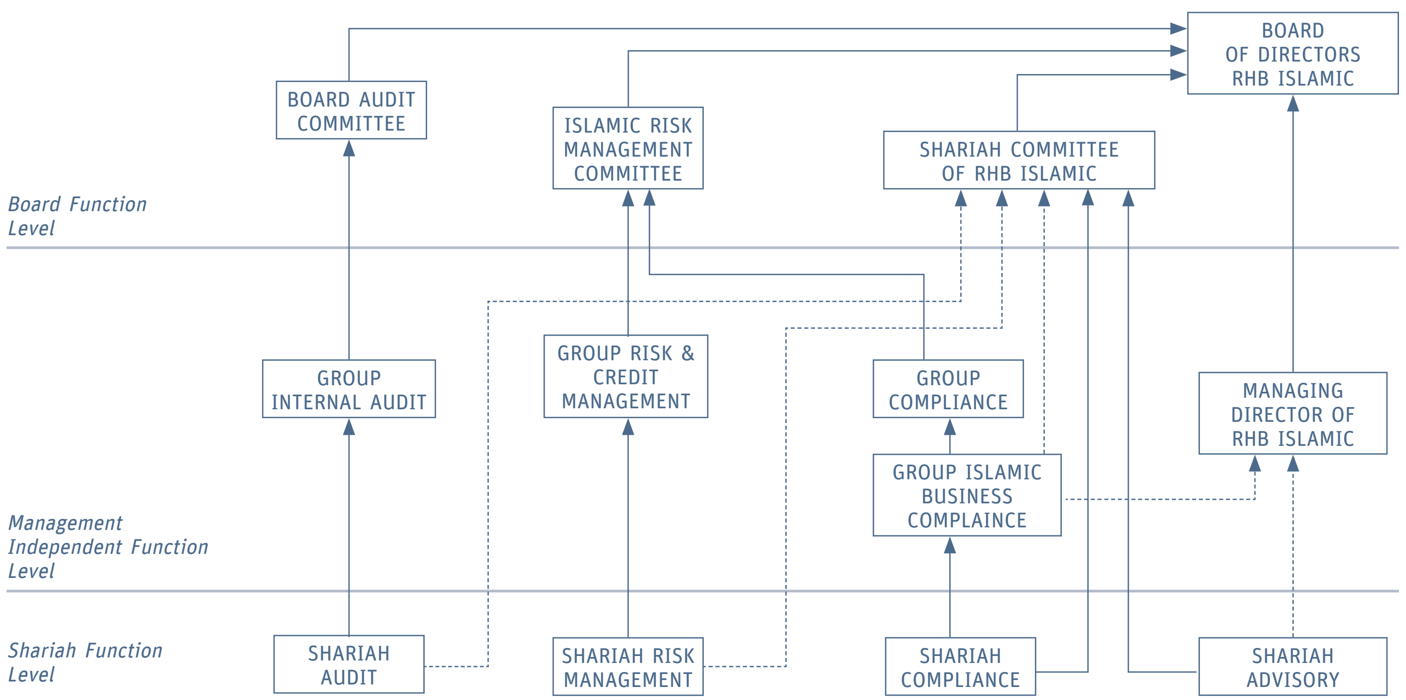
15.0 SHARIAH NON-COMPLIANCE RISK AND GOVERNANCE

Shariah non-compliance risk is the risk of loss arising from the failure to comply with the Shariah rules and principles as determined by the Shariah Committee of RHB Islamic Bank or any other relevant body, such as BNM's Shariah Advisory Council.

A Shariah Governance Framework has been developed with the objective of governing the entire Shariah compliance process within Islamic banking operations, and to:

- Ensure that the planning, development, and implementation of the Islamic Bank's products services and conduct of business are in accordance with Shariah principles;
- Ensure that the Bank's operations do not contravene any of the Shariah principles and authorities' regulations related to the Shariah; and
- Act as a guide on the Bank's expectations to all personnel engaged in the Bank's activities; to ensure that all such functions are based on the Shariah principles, practices and prudence.

The reporting structure of Shariah governance is as follows:



The Shariah Committee of RHB Islamic Bank (SCR) was established under BNM's Shariah Governance Framework.

The main duties and responsibilities of SCR are to advise the Board of Directors on Shariah matters in relation to Islamic Banking business and operations, to endorse Shariah compliance manuals, to endorse and validate relevant documents as well as to provide written Shariah opinion on new products and RHB Islamic Bank's financial statements.

15.0 SHARIAH NON-COMPLIANCE RISK AND GOVERNANCE (CONTINUED)

On a functional basis, RHB Islamic Bank is supported by Shariah Advisory, Group Shariah Risk Management, Shariah Compliance and Shariah Audit.

The Head of Shariah Advisory reports functionally to the SCR and administratively to the Managing Director of RHB Islamic Bank. The key functions of the Shariah Advisory are undertaken by two sub-units, ie Shariah Advisory and Research; and Shariah Governance and Management.

The main duties and responsibilities of Shariah Advisory and Research are to conduct reviews on the Islamic products and services, provide internal Shariah advisory support to the management of RHB Islamic Bank in its daily business and operational matters, assist SCR in elaborating and discussing on pertinent Shariah issues, provide in-depth research on competitive analysis in order to help SCR in making decision and to represent RHB Islamic Bank in any Shariah-related matters. Meanwhile, the main duties and responsibilities of Shariah Governance and Management function are to ensure the internal Shariah governance as well as the internal process flow and policies and Shariah approval process is well managed and maintained in an efficient manner, ensure the Bank is in compliance with the highest standard of Shariah governance as set by BNM, serve as the secretariat of SCR and to act as the mediator between the management and the SCR, oversee the computation and distribution of zakat and fund to be channelled to charity, and conduct Shariah-related training.

The key role and responsibilities of Group Shariah Risk Management is to facilitate the identifying, measuring, monitoring and controlling of Shariah non-compliance risks inherent in the Islamic business and operations to mitigate any potential Shariah non-compliance events. Group Shariah Risk Management also performs independent assessment and provides support relating to Shariah non-compliance risk.

Shariah Compliance conducts review and assists the SCR in providing opinions from Shariah perspective in relation to the status of Shariah compliance of products, services and operations of the Islamic business operations. Shariah Audit provides independent assessment and objective assurance designed to add value and improve the degree of compliance in relation to the Islamic business operations, with the main objective of ensuring a sound and effective internal control system for Shariah compliance.

Any incidences of Shariah non-compliance are reported to the SCR, the IRMC, the Board of Directors of RHB Islamic Bank and BNM. Remedial actions may include the immediate termination of the Shariah non-compliant products or services and de-recognition of Shariah non-compliant income.

There is no major Shariah non-compliant event or income arising from the Islamic products or services during the financial year 2016.

16.0 FORWARD LOOKING STATEMENTS

This document could or may contain forward looking statements that are based on current expectations as well as assumptions or anticipation of future events. These forward looking statements can be identified by the fact that they do not relate only to historical or current facts, and often use words such as anticipate, target, expect, estimate, intend, plan, believe, will, may, should, would, could or other words of similar expressions.

Undue reliance should not be placed on any of such statements. By their nature, forward looking statements are subject to risks and uncertainty because they relate to future events and circumstances, including, but not limited to domestic and global economic and business conditions, the effects of continued volatility in the credit markets, market-related risks such as changes in interest/profit rates and exchange rates, changes in regulation, and future business combinations or dispositions. As a result, the Group's actual future results may differ materially from the plans, goals, and the expectations contained in the forward looking statements.

The Group undertakes no obligation to revise or update any forward looking statements contained in this document, regardless of whether these statements are affected as a result of new information, future events or otherwise.
