* Excludes collective impairment allowance attributable to loans, advances and financing classified as impaired but not individually assessed for impairment pursuant to BNM's Guideline on 'Classification and Impairment Provisions for Loans/Financing'.

* Subordinated obligations that are recognised as Tier II capital instruments are subject to the gradual phase-out treatment effective from 1 January 2013 as prescribed under paragraph 36.10 of the BNM Guidelines Capital Adequacy Framework (Capital Components).

[#] Due to insufficient Tier II Capital to deduct investment in subsidiaries companies, the shortfall is now deducted against CET I Capital, which is the next higher tier of capital as prescribed in paragraph 31.1 of the BNM Guidelines Capital Adequacy Framework (Capital Components).

B1. Review of Group Results

(a) Current Financial Year vs Previous Financial Year

For the financial quarter ended 31 March 2013, the Group reported a net profit of RM357.2 million, 18.0% lower from RM435.6 million recorded a year ago. Pre-tax profit was RM494.3 million, 14.9% lower than the corresponding period in 2012. The year-on year earnings decline was mainly due to a one-off delinquent account impairment as well as higher collective allowance due partially to loan growth.

Year-on-year revenue increased by 18.5% to RM1.4 billion, driven by the full consolidation of OSK Investment Bank Berhad ('OSK Investment Bank') and top line gains in net interest income and net income from Islamic Banking business.

Net interest income rose 9.9% to RM778.9 million, reflecting the effect of consolidation of OSK Investment Bank and higher average lending and deposit balances on a business as usual basis as the Group continues in growing its priority segments. Net interest margin remained relatively stable at 2.34%.

Other operating income recorded a strong growth of 36.2% to RM450.1 million year-on-year. This increase was boosted by robust fee income mainly in brokerage, wealth management and fund management, higher card fees and net foreign exchange gain. This was however partially negated by lower capital market-related income during the first quarter of the year and lower net trading income and investment related gains.

The combined RHB Investment Bank Berhad ("RHB Investment Bank") - OSK Investment Bank franchise and capability has started to bear fruit as evidenced in the higher non-interest income to total income ratio of 33.0% during the quarter under review from 28.7% previously.

Islamic Banking income increased by 20.4% to RM133.7 million, driven mainly by higher net funding income on the back of a 28.1% increase in financing base from a year ago.

Other operating expenses rose 38.1% year-on-year mainly due to the full-period impact of OSK Investment Bank cost base and higher headcount, as well as higher sales commissions and incentive compensation linked to a stronger business volume from wealth management and fund management business segment. Included in other operating expenses during this quarter was also integration related expenses of RM7.7 million. Cost to income ratio was at 52.7%.

Allowance for impairment on loans and financing during the quarter to 31 March 2013 increased to RM154.9 million from RM45.4 million recorded a year ago. This increase was primarily the result of a one-off delinquent account impairment allowance and higher collective allowance for the strong loan growth. Notwithstanding the negative bearing on the earnings for this quarter, income from the new loans is expected to flow through over time to more than offset the overall impact of collective allowance.

Total assets for the Group were marginally lower at RM184.6 billion as at 31 March 2013. Shareholders' equity strengthened to RM15.5 billion with net assets per share improving to RM6.22 against RM6.06 as at 31 December 2012.

The Group's gross loans registered a 1.9% growth during the quarter and an 18.9% growth year-on-year to reach RM113.5 billion, mainly from purchase of securities, working capital and purchase of residential properties. Domestic loans market share stood at 9.5% as at 31 March 2013.

Total CASA (Current and Savings Accounts) recorded a 2.2% growth, highlighting the efforts of the Group's liability management strategy whilst CASA mix improved to 22.3% from 21.3% in December 2012.

Liquidity position of the Group remained healthy with loans to deposits ratio stood at 84.0% compared to 80.6% as at 31 December 2012.

Gross impaired loans ratio declined to 2.95% from 2.99% in December 2012.

Performance by Operating Segment

Corporate and Investment Banking

Segment profit was lower by 69.1% to RM29.7 million. The lower profit was mainly attributable to higher allowances on loans impairment and higher overhead costs. This was partially offset by higher interest income, higher fee income and higher impairment write back on other assets.

Retail Banking

Retail banking segment was higher by 0.1% to RM222.6 million, mainly due to lower allowances on loans impairment. This was partially offset by higher overhead costs, lower underwriting surplus, lower trading income and lower net interest income.

B1. Review of Group Results (continued)

(a) Current Financial Year vs Previous Financial Year (continued)

Performance by Operating Segment

Business Banking

Segment profit was lower by 6.4% to RM92.9 million. The lower profit was mainly attributable to higher allowances on impairment on loans and lower other operating income. This was partially offset by lower overhead costs and higher net interest income.

Group Treasury

Segment profit was lower by 2.0% to RM137.0 million, mainly attributable to lower net gains from disposal of investment securities portfolio, lower fee income, lower impairment losses on other assets and higher overhead costs. This was partially offset by higher net interest income, higher trading income and higher net forex gains.

Islamic Banking business

Segment profit was lower by 40.8% to RM41.5 million, mainly attributable to higher allowances for impairment on financing, higher overhead costs and lower net gain on fair value hedge. This was partially offset by higher net funding income and higher fee income.

Global Financial Banking

Segment profit improved significantly to RM35.7 million, mainly attributable to higher fee income, higher net foreign exchange gains, higher trading and investment income and higher net interest income. This was partially offset by higher overhead costs and higher impairment losses on loans.

B2. Current Quarter vs Previous Quarter

For the first quarter ended 31 March 2013, the Group recorded a pre-tax profit of RM494.3 million, 11.8% lower as compared to RM560.3 million recorded in the preceding quarter ended 31 December 2012. The lower pre-tax profit was mainly due to higher loan loss provisioning by RM57.6 million, lower net income from Islamic Banking business by RM5.9 million, lower impairment write back on other assets by RM3.8 million, lower other operating income by RM2.1 million and higher other operating expenses by RM1.1 million, partially offset by higher net interest income by RM4.6 million.

B3. Prospects for Financial Year 2013

The Malaysian economy is expected to perform well in 2013 with Gross Domestic Product (GDP) projected to grow over 5.0%. This is premised on an improving exports outlook on the back of a stronger global growth and a strong domestic demand brought about by the Economic Transformation Programme (ETP).

The Malaysian banking sector will remain resilient in line with the country's economic growth.

The integration of RHB-OSK Investment Bank on 13 April 2013 has enhanced the Group's geographical footprint and capabilities with presence in seven countries across the Asean region and Hong Kong.

We remained focus to drive our targeted business segments and regions to becoming a leading multinational financial services group. Barring any unforeseen circumstances, the Group expects satisfactory results for the financial year 2013.

B8. Derivative Financial Instruments (continued)

ii) Related accounting policies

Derivative financial instruments and hedge accounting

Derivative financial instruments are initially recognised at fair values on the date on which derivative contracts are entered into and are subsequently remeasured at their fair values. All derivatives are carried as assets when fair values are positive and as liabilities when fair values are negative.

The method of recognising the resulting fair value gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either: (1) hedges of the fair value of recognised assets or liabilities or firm commitments (fair value hedge); or (2) hedges of highly probable future cash flows attributable to a recognised asset or liability, or a forecasted transaction (cash flow hedge).

(a) Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, together with any changes in the fair value of the hedged assets or liabilities that are attributable to the hedged risk.

(b) Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognised in equity. The gain and loss relating to the ineffective portion is recognised immediately in the income statement.

Amounts accumulated in equity are recycled to the income statement in the periods in which the hedged item will affect profit and loss (for example, when the forecast sale that is hedged takes place).

(c) Derivatives that do not qualify for hedge accounting

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in the profit and loss.

B10. Material Litigation

(a) Carta Bintang Sdn Bhd

On 19 October 2001, the Company filed a Writ of Summons at the High Court of Malaya in Kuala Lumpur ('High Court') against CBSB, the vendor of SJ Securities, for the recovery of the deposit of RM32,800,000 ('Deposit') paid by the Company pursuant to the sale of shares agreement dated 7 November 2000 in respect of 60 million shares in SJ Securities ('Sale Shares').

On 26 November 2001, CBSB's solicitors served the Defence and Counterclaim on the Company's solicitors. The overall amount claimed by CBSB in the Counterclaim is RM258,688,153.42 together with interest thereon and costs. The Company filed its reply to the Defence and a Defence to the Counterclaim on 19 December 2001.

On 22 November 2002, the Deputy Registrar of the High Court granted a summary judgment in favour of the Company for CBSB to return the Deposit to the Company and a summary judgment in favour of CBSB for the Company to return the share certificates and transfer forms in respect of the Sale Shares to CBSB. However, CBSB's claim for damages was dismissed.

Both parties had subsequently filed their respective appeals against the decision of the Deputy Registrar and on 7 August 2003, the Learned High Court Judge dismissed the respective appeals of the Company and CBSB and affirmed the Deputy Registrar's decision.

Thereafter, both parties have filed their respective appeals to the Court of Appeal against the decision of the Learned High Court Judge (refer to Note A25(c)(i) 'Other Contingent Liabilities' for the Company's solicitors' opinion on the above suit and counterclaim). On 22 May 2009, the Court of Appeal had dismissed CBSB's appeal against the High Court decision in respect of the return of the Deposit and claim for damages. The Court of Appeal had also dismissed the Company's appeal in respect of the return of share certificates and transfer forms.

Both CBSB and the Company had filed their respective applications for leave to appeal to the Federal Court. The Federal Court had on 12 May 2010 allowed the applications for leave to appeal filed by both parties. During the hearing of the appeals at the Federal Court on 18 January 2011, the Federal Court had directed that the CBSB's appeal against the High Court decision dismissing the summary judgment application on the claim for damages and the Company's appeal against the High Court decision on the return of share certificates and transfer forms be re-heard by the Court of Appeal and further directed that CBSB's appeal to the Federal Court against the Court of Appeal decision on the return of the Deposit to be kept in abeyance until then.

On 22 June 2011, the Court of Appeal recorded the agreement of both the Company and CBSB that the High Court order in respect of the dismissal of CBSB's summary judgment application for their counterclaim and the High Court order on the return of share certificates and transfer forms are set aside. The Court of Appeal also directed that CBSB's counterclaim be referred to the High Court for trial.

On 15 December 2011, the Federal Court had allowed CBSB's appeal against the Court of Appeal's decision on the return of the Deposit. The matter was remitted to the High Court for trial.

On 6 July 2012, the High Court had after full trial allowed the Company's claim for the return of the Deposit with interests and costs of RM100,000.00 ('Judgment Sum') and dismissed CBSB's counterclaim. The High Court had also ordered Messrs Kadir Andri & Partners, being the stakeholder, to return the sum of RM6,688,153.42 (on the account of the Judgment Sum) to the Company and upon receipt of the same, the Company to return the share certificates and transfer forms in respect of the 60 million shares in SJ Securities to CBSB. The stakeholder sum has since been returned to the Company.

CBSB had filed an appeal to the Court of Appeal against the High Court decision. The Court of Appeal had on 17 January 2013 dismissed the appeal with costs of RM50,000.00 and allocatur of 4% of the costs awarded.

CBSB had filed an application for leave to appeal to the Federal Court against the Court of Appeal's decision and the hearing of the same is fixed on 24 June 2013.

The above material litigation is not expected to have any material adverse effect on the financial results of the Group.

The diluted Earning Per Share ('EPS') of the Group is calculated by dividing the net profit attributable to equity holders of the Company for the three months ended 31 March 2013 by the weighted average number of ordinary shares in issue and adjusted for the number of shares that could have been issued under the approved DRP of the Company as detailed in Note B6(c).

In the diluted EPS calculation, it has been assumed that 100% of the electable portion of the proposed final dividend payment under the DRP will be exercised into new ordinary shares of RM1.00 each in the Company. The new shares will be issued at an assumed price which is equivalent to the 5-day volume weighted average market price of the Company's shares as at 31 March 2013 after applying a discount of not more than 10%. These calculations serve to determine the number of dilutive shares to be added to the weighted average ordinary shares in issue for the purpose of computing the dilution. No adjustment has been made to the net profit attributable to the equity holders of the Company for the three months ended 31 March 2013.

The dilution effect on the basic EPS arising from the DRP is estimated to be immaterial. As a result, the diluted EPS is equal to the basic EPS for the three months ended 31 March 2013.

Other than the above, there were no other dilutive potential ordinary shares outstanding as at 31 March 2013.
