## 30 Status of Corporate Proposal

## (a) Cessation of Business Operations of Subsidiaries in Hong Kong

On 5 December 2019, RHB Bank announced that RHB Hong Kong Limited ('RHBHK') and its subsidiaries (collectively known as 'RHB Hong Kong Group’) had on 4 December 2019 decided to cease their business operations ('Cessation’).

With the increasingly challenging operating broking environment in Hong Kong has resulted in losses being recorded for RHB Hong Kong Group. As a result, it is no longer viable for RHB Hong Kong Group to continue its business operations. The Proposed Cessation would allow the Bank to refocus efforts and resources in driving long-term growth in other ASEAN markets in line with the larger RHB Banking Group's FIT22 strategy.

Pursuant to the Cessation, RHB Hong Kong Group has discontinued offering financial services to its existing and potential clients. The Bank being the shareholder of RHB Hong Kong Group has provided the requisite support to ensure an orderly winding down of their business operations.

In relation to this Corporate Proposal, the significant update for the quarter is as disclosed in Note 32(a).
(b) Proposed Disposal by PT RHB Sekuritas Indonesia ('RSI') of Its Entire 99.62\% Equity Interest in PT RHB Asset Management Indonesia ('RAMI') ('Proposed Disposal')

On 26 July 2021, RHB Bank announced that RSI, a 99\% subsidiary of the Bank, had on 23 July 2021, entered into Conditional Share Purchase Agreement ('CSPA') with Allianz Global Investors Asia Pacific Limited ('AllianzGI') and PT Asuransi Allianz Life Indonesia ('Allianz Life Indonesia') in respect of the Proposed Disposal.

RAMI, a company incoporated in Indonesia, is a $99.62 \%$ subsidiary of RSI. The remaining $0.38 \%$ equity interest is held by Daniel Budiman. The principal activity of RAMI is rendering of investment management services in Indonesia.

The Proposed Disposal will entail the disposal by RSI of its entire $98.62 \%$ equity interest and $1.00 \%$ equity interest in RAMI to AllianzGI and Allianz Life Indonesia respectively.

The Proposed Disposal is conditional upon of inter-alia, the approval of the Financial Services Authority of Indonesia or Otoritas Jasa Keuangan for the fit and proper test of AllianzGI as the new controlling shareholder of RAMI and the candidate for new member(s) of Board of Commissioners of RAMI as proposed by AllianzGI. The last date to fulfil all the conditions precedent for the Proposed Disposal is 8 -months from the date of the CSPA which can be mutually extended.

This exercise is part of the Group's strategic plan to reprioritise its overseas businesses to focus on niche markets, leveraging on the key strengths of its investment banking team in order to meet its customers' needs. Accordingly, RHB Bank has decided to exit from the asset management business and to focus on its stock broking and investment business in Indonesia.

Upon completion of the Proposed Disposal, RAMI will cease to be a subsidiary of RSI. Barring unforeseen circumstances and subject to the relevant approvals being obtained, the Proposed Disposal is expected to be completed in the fourth quarter of 2021.

## 36 Prospects for 2021

The Group remains prudent and cautious especially in light of the recent surge in COVID-19 cases seen since the second half of Q2 2021. This, together with the extended MCO in Selangor and Kuala Lumpur are expected to have negative impacts on Malaysia's GDP growth in 2021. Nevertheless, the accelerated pace of vaccination nationwide is a positive development towards opening up of more economic activities, relaxation of MCO measures and the overall economic recovery. The banking sector, overall, is projected to remain resilient, from liquidity and capital perspective, to support growth and provide relief to affected borrowers. On the monetary front, the OPR is expected to remain stable for the rest of the year.

We will stay the course with our FIT22 measures, with continued focus on improving business performance through digitalisation initiatives and AGILE way of working, improving customer experience and enhancing enterprise risk management.

## 38 Fair Value of Financial Instruments (cont'd)

## Valuation techniques and sensitivity analysis

Financial instruments are classified as Level 1 if their value is observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted prices are readily available, and the price represents actual and regularly occurring market transactions. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an on-going basis. These would include quoted securities and unit trusts.

Where fair value is determined using unquoted market prices in less active markets or quoted prices for similar assets and liabilities, such instruments are generally classified as Level 2. In cases where quoted prices are generally not available, the Group and the Bank then determines fair value based upon valuation techniques that use market parameters including but not limited to yield curves, volatilities and foreign exchange rates as inputs. The majority of valuation techniques employ only observable market data. These would include certain bonds, government bonds, corporate debt securities and derivatives.

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). This category includes unquoted shares held for socio economic reasons and private equity funds. Fair values for shares held for socio economic reasons are based on the net tangible assets of the affected companies. Fair value for private equity funds are based on enterprise valuation method where the main input include earnings before interest, taxes, depreciation and amortisation ('EBITA') and adjusted for contingent receivable.
