B1. Review of Group Results

(a) Current Financial Year vs Previous Financial Year

The Group reported a pre-tax profit of RM4,170.8 million for the financial year ended 31 December 2022, 18.2% higher from RM3,528.8 million recorded a year ago. The year-on-year improvement was mainly due to higher net funding income, lower modification loss and lower allowances for credit losses, partly offset by lower non-fund based income and higher operating expenses.

Net fund based income increased by 8.6% to RM6,379.3 million year-on-year on the back of a 18.3% increase in gross fund based income, supported by gross loans and financing growth of 6.9%.

Non-fund based income declined by 10.6% to RM1,929.4 million from a year ago driven by lower fee income, lower net trading and investment income and lower insurance underwriting surplus, partly offset by higher net gain on foreign exchange and derivatives and higher gain on disposal of subsidiary.

Operating expenses increased by 5.5% from a year ago to RM3,716.8 million. Cost-to-income ratio improved to 44.7% compared with 45.2% a year ago.

Allowance for credit losses was at RM421.2 million, 42.9% lower than previous year. Credit charge ratio was at 0.15% compared to 0.29% last year.

Total assets of the Group increased by 7.3% from December 2021 to RM310.8 billion as at 31 December 2022. Net assets per share was at RM6.76, with shareholders' equity at RM28.7 billion as at 31 December 2022.

The Group's gross loans and financing grew by 6.9% year-on-year to RM212.2 billion, mainly supported by growth in mortgage, SME and Singapore. Domestic loans and financing grew 5.3% year-on-year.

Customer deposits increased by 3.9% year-on-year to RM227.2 billion, attributed to growth in fixed and money market time deposits growth of 4.8% and CASA growth of 1.3%. CASA composition stood at 29.2% as at 31 December 2022.

Gross impaired loans was at RM3.3 billion as at 31 December 2022, with gross impaired loans ratio of 1.55% compared with RM3.0 billion and 1.49% at 31 December 2021. Loan loss coverage ratio for the Group, excluding regulatory reserves, remained healthy at 112.8% as at end-December 2022.

B1. Review of Group Results (continued)

(b) Performance by Operating Segment

(i) GCB

GCB reported a pre-tax profit of RM1,836.0 million for the year, 9.6% higher than previous year. This was mainly attributed to higher net fund based income and higher non-fund based income, partially offset by higher allowances for credit losses and higher operating expenses.

Gross loans and financing was at RM133.2 billion, 7.3% higher year-on-year, primarily driven by growth in mortgages, SME and auto finance.

Total deposits increased by 2.1% year-on-year to RM102.3 billion as at 31 December 2022, contributed by growth in fixed deposits.

(ii) GWB

GWB recorded a pre-tax profit of RM1,786.3 million, a decrease of 9.0% from previous year. This is on the back of lower non-fund based income and lower net fund based income, partly offset by lower expected credit losses and lower operating expenses.

Gross loans and financing increased by 0.7% year-on-year to RM50.7 billion. Total deposits increased by 3.4% to RM96.9 billion mainly due to increase in fixed deposits and current account, partly offset by decline in money market time deposits.

(iii) Group International Business

RHB Bank Singapore recorded a pre-tax profit of SGD94.2 million, 385.6% higher year-on-year. This was mainly due to higher net fund based income, higher non-fund based income and higher expected credit losses written back, partially offset by higher operating expenses.

Singapore loans and advances increased by 11.7% year-on-year to SGD7.0 billion, while deposits increased by 8.8% to SGD7.3 billion.

Group International Business excluding Singapore registered a pre-tax profit of RM114.6 million as compared to RM61.6 million recorded in the previous year. This was mainly due to higher profitability recorded in Lao and Thailand.

B2. Current Quarter vs Previous Quarter

Pre-tax profit of the Group increased by 17.6% to RM1,221.1 million from RM1,039.3 million recorded in the preceding quarter ended 30 September 2022. This was primarily due to lower allowances for credit losses and higher net fund based income, partly offset by higher operating expenses and lower non-fund based income.

B3. Prospects for Financial Year 2023

Global economic growth is expected to slow down in 2023 as the outlook remains uncertain on the back of continued monetary policy prudence in the US, inflationary pressure, geopolitical tensions and trade protectionism. Domestically, GDP is still expected to grow, albeit at a moderate pace of 4.5%, supported mainly by resilient domestic demand with private consumption remaining as the primary driver of the economic growth for the year.

For the banking sector, loans growth is projected to sustain at 5% in 2023 in tandem with softer GDP growth, whilst interest rate is expected to normalise further to pre-pandemic level. Nevertheless, the banking industry is anticipated to remain resilient with robust capital and liquidity positions, supported by adequate level of provisioning.

As the operating environment continues to be challenging, the Group remains vigilant and committed to maintaining its strong fundamentals through its TWP24 strategy, focusing on achieving quality growth and driving service excellence.

B4. Variance of Actual Profit from Forecast Profit and Profit Guarantee

There were no profit forecast or profit guarantee issued by the Group and the Bank.

B6. Status of Corporate Proposals

(a) Proposed cessation of business operations of subsidiaries in Hong Kong

RHB Hong Kong Limited ('RHB Hong Kong') and its subsidiaries (collectively, 'RHB Hong Kong Group'), had on 4 December 2019 decided that they will commence to cease their business operations ('Proposed Cessation'). RHB Hong Kong is a wholly-owned subsidiary of RHB Investment Bank, which in turn is wholly-owned by the Bank.

Pursuant to the Proposed Cessation, RHB Hong Kong Group will gradually discontinue offering financial services to its existing and potential clients. RHB Investment Bank, being the shareholder of RHB Hong Kong Group will provide the requisite support to ensure an orderly winding down of their business operations.

The increasingly challenging operating broking environment in Hong Kong has resulted in losses being recorded for RHB Hong Kong Group. As a result, it is no longer viable for RHB Hong Kong Group to continue its business operations. The Proposed Cessation would allow RHB Investment Bank to refocus efforts and resources in driving long-term growth in other ASEAN markets in line with the larger RHB Banking Group's strategy.

(b) Memorandum of understanding ('MOU') with Axiata Group Berhad ('Axiata Group')

On 2 June 2021, the Bank entered into a MOU with Axiata Group to jointly explore the following potential strategic collaboration opportunities:

- (i) to enhance the joint customer ecosystems offering bundled digital solutions;
- (ii) to jointly apply to BNM for a digital banking license; and
- (iii) to jointly explore other potential opportunities deemed suitable.

The term of the MOU shall be for a period of two years from its commencement date on 2 June 2021 and may be extended on terms to be mutually agreed by parties.

Following the signing of the MOU, the Bank had on the same day entered into a heads of agreement with Boost Holdings Sdn Bhd ('Boost Holdings'), a 75.36% subsidiary of Axiata for the purpose of regulating the terms for joint application to BNM for a digital banking license. The joint application for the digital bank license was submitted to BNM on 30 June 2021.

On 29 April 2022, the Bank has received conditional approval from BNM for the joint application for a digital bank license by Boost Holdings and the Bank, subject to the condition that the proposed digital bank shall commence its banking operations within 24 months from 8 April 2022.

Subject to satisfying the operational readiness requirements by BNM and barring any unforeseen circumstances, the proposed digital bank is targeted to be operational in the second half of 2023, and shall focus on the underserved, unserved and/or unbanked segment primarily within Malaysia with the aim of building a more inclusive financial sector in Malaysia.

B8. Derivative Financial Instruments (continued)

(b) Related accounting policies

Derivative financial instruments and hedge accounting

Derivatives are initially recognised at fair value on the date on which derivative contracts are entered into and are subsequently remeasured at their fair values. All derivatives are carried as assets when fair values are positive and as liabilities when fair values are negative.

The method of recognising the resulting fair value gain or loss depends on whether the derivative is designated and qualifies as a hedging instrument, and if so, the nature of the item being hedged. The Group and the Bank designate certain derivatives as either: (1) hedges of the fair value of recognised assets or liabilities or firm commitments (fair value hedge); or (2) net investment hedge. Hedge accounting is used for derivatives designated in this way provided certain criteria are met.

(i) Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statements, together with any changes in the fair value of the hedged assets or liabilities that are attributable to the hedged risk.

The Group and the Bank apply fair value hedge accounting for hedging fixed interest risk on loans, advances and financing and financial assets at FVOCI. The gain or loss relating to the effective portion of interest rate swaps hedging fixed rate loans, advances and financing is recognised in income statements within other operating income. The gain or loss relating to the ineffective portion is recognised in income statements within net gain or loss on fair value hedges.

For fair value hedge of financial assets designated as FVOCI, any changes in fair value of the hedged financial assets FVOCI are recycled from FVOCI reserves to income statements, while the changes in fair value of the derivatives that is related to the effective portion of the hedge is recognised in income statements within other operating income. The ineffective portion of the aforesaid hedging derivatives is recognised in income statements within net gain or loss on fair value changes of derivatives.

For financial instruments measured at amortised cost, if the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to the income statements over the period to maturity and recorded as other operating income. Effective interest rate amortisation may begin as soon as an adjustment exists and no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged. If the hedged item is derecognised, the unamortised fair value adjustment is recognised immediately in the income statements.

(ii) Net investment hedge

Net investment hedge is a hedge against the exposure to exchange rate fluctuations on the net assets of the Group's foreign operations/subsidiaries. Any gain or loss on the hedging instrument relating to the effective portion of the hedge is recognised directly in the foreign currency translation reserve in equity via other comprehensive income while any gain or loss relating to the ineffective portion is recognised directly in the income statements. On disposal of the foreign operations/subsidiaries, the cumulative value of any such gains or losses recognised in equity is transferred to the income statements.

(iii) Derivatives that do not qualify for hedge accounting

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in the income statements.

B9. Fair Value of Financial Instruments

The Group and the Bank analyses its financial instruments measured at fair value into three categories as described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Valuations derived from valuation techniques in which significant inputs are not based on observable market data.

The table below analyses financial instruments carried at fair value analysed by level within the fair value hierarchy:

B9. Fair Value of Financial Instruments (continued)
(i) Valuation techniques

Financial instruments are classified as Level 1 if their value is observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted prices is readily available, and the price represents actual and regularly occurring market transactions. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an on-going basis. These would include quoted securities and unit trusts.

Where fair value is determined using unquoted market prices in less active markets or quoted prices for similar assets and liabilities, such instruments are generally classified as Level 2. In cases where quoted prices are generally not available, the Group and the Bank then determine fair value based upon valuation techniques that use market parameters including but not limited to yield curves, volatilities and foreign exchange rates as inputs. The majority of valuation techniques employ only observable market data. These would include certain bonds, government bonds, corporate debt securities and derivatives.

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). This category includes unquoted shares held for socio-economic reasons, unquoted private equity funds, non-transferable and non-tradable perpetual notes/sukuk, impaired securities and unquoted corporate loan stocks. Fair values for shares held for socio-economic reasons are based on the net tangible assets of the affected companies. Fair values for unquoted private equity funds are based on enterprise valuation method where the main input include earnings before interest, taxes, depreciation and amortisation ('EBITDA'), comparable companies earning multiple and marketable discount. For unquoted corporate loan stocks, discounted cash flow analysis has been performed to determine the recoverability of the instruments.
