Financial Performance

RHB Capital Berhad ("the Group") today reported a 6% increase in pre-tax profit and net profit to RM1,184.0 million and RM889.4 million respectively. The Group's revenue registered an increase of 6.6% to RM2.3 billion from a year ago. Earnings per share rose to 40.3 sen as compared to 38.8 sen recorded in the corresponding period last year. Annualised return on equity and return on assets was at 14.8% and 1.1% respectively.

With effect from 1 January 2012, the Group adopted the retrospective application of Malaysia Financial Reporting Standards ('MFRS') 139, Financial Instruments: Recognition and Measurement. Pre-tax profit and net profit for the corresponding first half 2011 have been restated to RM1,121.4 million and RM839.1 million respectively. Excluding the effect of the restatement, the pre-tax profit and net profit for the Group would be higher by 13.9% and 14.5% respectively.

The higher pre-tax profit was driven by higher net interest income, strong growth in other operating income and income from Islamic banking business and lower allowance for impairment on loans and financing, partially offset by higher other operating expenses.

First half interest income rose by 9.4% to RM2,956.7 million on the back of a 13.6% increase in gross loans year-on-year. Interest expense was higher by 18.1%, attributed mainly to a higher deposit base and diversification of funding mix with the issuance of RM750 million sub-notes under the Multi-Currency Medium Term Note Programme and USD300 million senior notes under the Euro Medium Term Note Programme during the second quarter. Net interest margin stabilised at 2.40% in the second quarter of 2012 as compared to 2.41% reported in the first quarter 2012.

Other operating income increased by 12.1% to RM653.4 million from 2011, underpinned by higher net gains from trading and investment securities, higher fee income and improvement in fair value on derivatives, partially offset by lower foreign exchange gain.

Income from the Islamic Banking business increased to RM223.8 million, up 29.5% compared to the previous year's corresponding period, driven by a higher net profit income and net gains on disposal of trading and investment securities.

Other operating expenses was higher by 15.7% as a result of ongoing investment into people, products and platform.

Allowance for impairment on loans and financing for the first half of 2012 decreased by RM72.9 million or 47.0% against the previous year corresponding period, mainly due to a one-off major bad debt recovery during the period and lower collective allowances, partially offset by higher individual allowances.

On quarter-to-quarter comparison, the Group registered a pre-tax profit of RM603.2 million, 3.9% higher as compared to RM580.7 million achieved in first quarter. The higher profit was mainly attributable to higher net interest income, lower allowance for impairment on loans and financing and a write back of impairment losses on other assets, partially offset by higher other operating expenses.

Continued Strengthening of Financial Position

Total assets of the Group expanded by 3.9% to RM158.5 billion as at 30 June 2012, mainly due to addition in net loans and investment portfolio.

The Company, will resubmit an application to Bursa upon obtaining the necessary regulatory approvals for the Proposed Acquisition, of which are still pending at this juncture, given that the Proposed Rights Issue is conditional upon the Proposed Acquisition.

Prospects For The Year

The Malaysian economy continued to perform although the external economic environment remains challenging. The Economic Transformation Programme is envisaged to further strengthen and support this positive outlook. The Group expects that the Malaysian economy will grow at 4% to 5% in 2012.

"The RHB Group will continue to strengthen our leadership position in targeted markets and product segments, building strong customer relationships as well as leveraging on the Group's infrastructure and multiple distribution network.

Our key focus is to complete the proposed acquisitions of OSK Investment Bank Group and PT Bank Mestika Dharma. This will enhance the Group's geographical footprint and product offerings. In the second half of the year, we foresee a challenging operating environment and pressure on margins apart from the demanding global economic scenario. However, the Group expects to continue the growth momentum in 2012," added Dato' Khadar.
