

ANNOUNCEMENT:

Adoption of new Interest/Profit Rate calculation method for RHB Premier Current Account/-i

3rd January 2024

Dear Valued Customers,

We wish to inform that with effect from 1st February 2024, we will be adopting 'Split Tier' interest/profit calculation method for all existing and new customers holding RHB Premier Current Account and RHB Premier Current Account-i. 'Split Tier' is an interest/profit calculation method that separates the account balance according to the respective rate tier.

The 'Split Tier' shall be calculated based on $(\text{Account balance for each tier}) \times (\text{each interest/profit rate tier}) \times (\text{total number of days}) / (\text{total days of the year})$

The updated Terms and Conditions of Personal Banking will take effect starting from 1st February 2024. It's important to review the updated terms and conditions to understand how these changes may affect your banking services.

Please visit this [link](#) to view the revised Terms and Conditions from 1st February 2024 onwards.

Thank you.
