RHB INVESTMENT LAB WEBINAR SERIES NURTURES RETAIL INVESTORS ON EFFECTIVE WEALTH ACCUMULATION

Kuala Lumpur – RHB Investment Bank Berhad (“RHB Investment Bank”) is providing free access to recordings of its highly successful RHB Investment Lab webinar series to the general public to further promote retail investment activity.

The RHB Investment Lab webinar series comprises a total of 13 sessions, which were specially designed to enable a deep dive into comprehensive and specific investment tools. This includes sharing sessions on technical, fundamental and sector analysis incorporating elements of fund flow study, futures trading, call warrants, seasonal effects, as well as macro study.

“Within a short period, we have observed a notable increase in overall wealth accumulation amongst participants of our RHB Investment Lab webinar series. This underlines the effectiveness of the programme in delivering an ‘investment edge’ in navigating the challenging market environment and making informed investment decisions.

In general, first hand access to the information shared in programmes such as this is limited to selected participants. However, we feel that the investing public would also benefit from viewing the RHB Investment Lab webinar series especially given the proven success of our participants.

RHB Investment Bank is proud to be amongst the few local investment banks to provide free access to information of this nature to the general public. We will continue delivering useful investment tools through various channels to a wide range of investors. This would include the

sharing of knowledge, experience and expert insights to help investors uncover new opportunities and in managing investment risk towards achieving their investment goals,” said Ganesh Sabaratnam, Chief Executive Officer/Managing Director of RHB Investment Bank Berhad.

Coinciding with the free access to the RHB Investment Lab webinar series, RHB Investment Bank is promoting higher retail investor activity through its ‘Electrify Your Trades’ campaign, which is currently ongoing until 31 December 2023. Through this, participants stand a chance in winning a MINI Cooper Electric Vehicle and other prizes worth up to RM250,000.
