MANAGER'S COMMENTS

MARKET REVIEW

In December, MSCI World Index returned 0.6%. MSCI USA Index and MSCI Europe Index returned 0.3% and 1.2% respectively.

China's industrial output slowed to 6.1% due to reduction of production from polluting factories and coal-burning furnaces. Fixed-asset investment grew 7.2% and this is the fifth consecutive month that investment growth fell as infrastructure projects were scaled back. Headline Consumer Price Index ("CPI") inflation came in lower than expected at 1.7% year over year ("YoY") and Producer Price Index ("PPI") inflation slowed to 5.8% YoY. Industrial profit growth rose to 14.9% YoY but declined -6.8% month over month ("MoM"). Indonesia's sovereign credit rating was upgraded from BBB- to BBB with stable outlook. This is the country's second sovereign rating upgrade this year. South Korea Industrial Production expanded 0.2% MoM but declined -1.6% YoY, and this was driven by improvement in autos and machinery equipment. Japan retail sales grew 2.2% YoY, and rose 1.9% MoM. The rebound from October was due to the negative impact in the October sales from unfavorable weather such as typhoons.

MARKET OUTLOOK AND STRATEGY

The US finally enacted its first major tax reform in 30 years with President Trump signing into law on 22 December. Corporate tax rates were reduced to a single rate of 21%, effective on 1 January 2018. Income tax was cut for several tax brackets with the top rate reduced from 39.6% to 37%. In the December Fed meeting, the Fed raised the fed funds target rate to 1.25% - 1.5%, and are expecting three more rate hikes in 2018. It also upgraded its assessment of the labour market and expect it to remain strong.

The Fund is positioned into high quality global stocks in structurally strong markets/sectors and companies with improving earnings and/or dividend.
