MANAGER'S COMMENTS**MARKET OUTLOOK**

The Target Fund Manager's main focus in managing this high-conviction portfolio is on stock selection. The Target Fund Manager seeks to identify high-quality companies with the pricing power to sustain strong returns.

European equities are benefiting from improving corporate profitability and encouraging GDP growth and are also cheap relative to US equities. The UK has embarked on an interest-rate tightening cycle, although any such increases in the eurozone appear some way off. The Target Fund Manager views the current equity-market retracement as a buying opportunity.

It will take time before the full effects of Brexit and Catalonia's bid for independence become clear, and Italy's election has yielded gains for populist eurosceptic parties, which will now need to seek coalition partners. Other risks include global geopolitical tensions, and an increasingly protectionist stance in the US.
