

### RHB GROWTH AND INCOME FOCUS TRUST

This Fund aims to achieve maximum total returns through a combination of long term growth of capital and current income.

#### INVESTOR PROFILE

This Fund is suitable for Investors who:

- seek long term capital appreciation through investments in high growth potential small cap securities whilst requiring the flexibility of a conservative portfolio of fixed income securities in order to capitalise and adapt to prevailing market conditions; and
- are willing to accept slightly higher risk in their investments than that normally associated with a general balanced fund in order to achieve long term capital growth and income.

#### INVESTMENT STRATEGY

- 30% - 70% of NAV: Investments in securities of companies with market capitalization of not more than RM750 million ("small cap securities").
- 30% - 70% of NAV: Investments in fixed income securities, money market instruments, cash and deposits with financial institutions.

## RHB GROWTH AND INCOME FOCUS TRUST

This Fund aims to achieve maximum total returns through a combination of long term growth of capital and current income.

### MANAGER'S COMMENTS

#### MARKET REVIEW

Investor euphoria on global equities in January 2020 was punctured by concerns of global growth slowdown, triggered by the spread of the Coronavirus epidemic. Risk assets plunged with global equities declining 10.5% in the last week of February 2020. As the pandemic rippled across the world, investors sought safety in bonds, bringing down the 10-year US Treasury yield to 1.15%, with the futures market pricing in three potential rate cuts during the year. Developed Markets (“DM”) equities corrected 8.6% in February 2020 (year to date, YTD: -9.2%), led by the US (-8.3%) as it succumbed to the perils of elevated valuations. Emerging Markets equities (-5.3% in February 2020, YTD: -9.8%), which had already taken a hit last month, relatively outperformed DMs in February 2020.

Domestically, amidst the political uncertainty, interim Prime Minister Tun Mahathir announced an economic stimulus package with a headline impact of RM20bn, mainly having three thrusts: 1) mitigating the impact of COVID-19; 2) spurring Rakyat centric economic growth; and 3) promoting quality investments. In a twist of events in Malaysia’s political arena, we saw a new Prime Minister sworn in on 1 March 2020, with the King’s blessing.

#### MARKET OUTLOOK AND STRATEGY

The FBMKLCI is expected to remain volatile in view of concerns over global growth slowdown, and domestic political developments. Monetary policies remains accommodative at this juncture, while the upcoming new policies by the new government will be closely watched as it will provide more clarity towards economic growth and flows of foreign direct investment.

In terms of strategy, the domestic equity market will continue to adjust to external developments especially on the novel corona virus outbreak, global trade tensions, U.S. interest rate movement and domestic political developments. However, with the gradual revival of earnings growth, together with undemanding equity valuation and subsiding foreign selling flows, the market will gradually perform. We will focus on stocks with good earnings growth potential and accumulating good quality stocks during weakness to benefit the fund in the longer term.

#### DISCLAIMER:

Based on the fund’s portfolio returns as at 11 February 2020, the Volatility Factor (VF) for this fund is 8.9 and is classified as “High”. (source: Lipper) “High” includes funds with VF that are above 8.8 but not more than 11.1 (source: Lipper). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund’s portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 31 December 2019 which is calculated once every six months and is valid until its next calculation date, i.e. 30 June 2020.

A Product Highlights Sheet (“PHS”) highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the PHS and the contents of the Master Prospectus dated 3 August 2017 and its supplementary(ies) (if any) (“the Master Prospectus”) before investing. The Master Prospectus has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus. For more details, please call 1-800-88-3175 for a copy of the PHS and the Master Prospectus or collect one from any of our branches or authorised distributors.

The Manager wishes to highlight the specific risks for the Fund are liquidity risk of underlying investments, interest rate risk, credit/default risk, inflation/purchasing power risk, market risk and particular securities risk. These risks and other general risks are elaborated in the Master Prospectus.
