RHB CHINA BOND FUND - RMB CLASS

The Fund aims to maximise total return by investing in one (1) target fund.

MANAGER'S COMMENTS
TARGET FUND'S PORTFOLIO ACTIVITY

Post the sell-off in March, the Target Fund Manager moved away from the onshore RMB credit market, which has significantly outperformed the offshore USD Chinese credit market, into the offshore USD Chinese credit to take advantage of cheap valuations: in IG, government related credits and in HY, property. China USD credit continue to offer attractive valuation compared to US and EM counterparts with spread remains very wide relative to history. The spread differentials between China IG and US counterparts (excluding energy) goes up to 100bps, which continues to suggest China credit, is likely to continue grinding tighter.

This has allowed us to provide strong risk adjusted returns for the Target Fund Manager's investors. To capitalize on the market dislocations in the USD Chinese credit market, the Target Fund Manager has reallocated capital to USD Chinese Credit with a 71% allocation to USD Chinese Credit and a 29% allocation to RMB credit.

TARGET FUND'S POSITIONING

The underlying portfolio remains income-focused with a yield of 7.35% with an average investment grade rating. The Target Fund Manager sees underlying portfolio resilience and credit quality increasing in importance for investments in the coming months. The Target Fund Manager's underlying portfolio has been resilient, exhibiting low drawdowns amidst the volatility associated with the coronavirus given the diversification between the onshore and offshore Chinese bond markets. Expectations of (and room for more) policy easing in China continues to be tailwind for Chinese fixed income markets.

Loose monetary conditions in China onshore, and government effectively postponing the deleveraging agenda are keeping onshore liquidity flush. Most companies have refinanced their 2020 maturities earlier this year, this should lead to lower defaults near term.

- Within HY: The Target Fund Manager is positive on offshore China HY property. The underlying fundamentals of the sector have been improving since the initial lockdown implemented by the Chinese government. China property (the largest sector in Asian HY) is seeing close to 80-90% of construction activities resuming and 90-100% of sales offices reopening outside of Hubei. Most companies under the Target Fund Manager's coverage have pre-funded their USD debt obligations in Jan-Feb 2020 which will help lower refinancing risk. Most importantly, the onshore bond market is functioning for these companies to refinance onshore bonds and the Target Fund Manager has seen yields of new issuances onshore at fair levels. The Target Fund Manager is selective on onshore short-dated industrial names with strong fundamentals for diversification.

- Within IG: The Target Fund Manager is positive on China state owned enterprises (SOEs). The ramping up of fiscal stimulus onshore means infrastructure spending to boost the economy, which should be beneficial for these companies. The Target Fund Manager prefers offshore names given valuations look attractive after the recent selloff. Besides, SOEs are generally price sensitive. They are more likely to go onshore for refinancing given the lower funding costs, and therefore provide technical support to the USD credit market given lack of supply. As the Target Fund Manager goes into local SOEs, LGFVs, the Target Fund Manager has to assess both the systematic importance of the entity and also the fundamentals of the corporate.

DISCLAIMER:

A Product Highlights Sheet ("PHS") highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the PHS and the contents of the Information Memorandum dated 15 May 2019 and its supplementary(ies) (if any) ("the Information Memorandum") before investing. The Information Memorandum has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. This update does not amount to indicate that the SC has recommended or endorsed the Fund. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Information Memorandum relates will only be made on receipt of a form of application referred to in the Information Memorandum. The Fund are only offered to "sophisticated investor" as defined in the Information Memorandum. For more details, please call 1-800-88-3175 for a copy of the PHS and the Information Memorandum or collect one from any of our branches or authorised distributors.
