MANAGER'S COMMENTS

MARKET REVIEW

The FBMKLCI index was struggling to stay above 1500 level during the month of June 2020 due to the absence of positive fresh leads and global negative factors that affected the sentiment of the equity market. With a confluence of negative factors like the uncertain quick global economic recovery, the resurgence of coronavirus infections worldwide, the potential uplifting of short-selling ban domestically post 30 June and possible snap election in 2H20, the index consolidated in June 2020 after touched the high of 1,590. Meanwhile, S&P downgraded Malaysia outlook to negative from stable, with A- rating.

The FBMKLCI Index was led once again by Top Glove and Public Bank. On the flipside, Petronas/oil-related names were the key drags with Petronas Dagangan, Petronas Gas, Dialog and MISC. Foreigners net sold RM2.98 billion worth of equities in June 2020 (similar pace versus May) bringing year-to-date net outflow to RM16.28 billion. Notably, retail participation continued to climb to 35.9% in June (1Q20: 25.7%, 2Q20: 35.0%), while foreigners' participation dwindled to just 15.5% of market activity (1Q20: 25.1%, 2Q20: 18.3%).

MARKET OUTLOOK AND STRATEGY

In the absence of positive news, the equity market is likely to be volatile in the short term and will be driven by macro-economic data and geopolitical tensions. Rising United States (US)-China trade friction, the increase in the coronavirus cases in US and European Union (EU) will be the main focus in charting the direction of the equity performance besides the news of the vaccines. Although, both the drop in manufacturing and export will have an implication on Malaysia's overall economy which expected to experience recession in 2020. We are of the opinion that the worst of the economy and equity market are behind us already.

The equity market is expected to be in favour due to the expectations of prolong low inflation and low interest rate environment. The gradual recovery in the economy will also support the equity market going forward as investors are pricing in lower risks.

The FBKLCI expecting to form a base before we see a sustainable rebound in the equity market later. In addition, we are also expecting a shallow consolidation for the index due to ample liquidity in the economy.

DISCLAIMER:

Based on the fund's portfolio returns as at 10 June 2020, the Volatility Factor (VF) for this fund is 12.1 and is classified as "Moderate". (source: Lipper) "Moderate" includes funds with VF that are above 9.5 but not more than 12.8 (source: Lipper). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 31 December 2019 which is calculated once every six months and is valid until its next calculation date, i.e. 30 June 2020.

A Product Highlights Sheet ("PHS") highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the PHS and the contents of the Master Prospectus dated 3 August 2017 and its supplementary(ies) (if any) ("the Master Prospectus") before investing. The Master Prospectus has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. This update does not amount to indicate that the SC has recommended or endorsed the Fund. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus.
