RHB CHINA BOND FUND - RMB CLASS

The Fund aims to maximise total return by investing in one (1) target fund.

MANAGER'S COMMENTS

TARGET FUND'S PORTFOLIO ACTIVITY

Over the month, the Target Fund Manager continues to trim down their CNY duration from 0.8 years to 0.6 years on back of positive economic outlooks and supply pressures from special CGB and local government bonds. At the meantime, the Target Fund Manager has maintained their offshore USD credit exposure at 75% of the portfolio throughout the month. Subsequently, the search for income with unprecedented easing policies across the globe resulted in strong performance of the USD China credit over the month.

The portfolio remains income-focused with a yield of 6.9% with an average investment grade rating. The Target Fund Manager sees portfolio resilience and credit quality increasing in importance for investments in the coming months. The Target Fund Manager's portfolio has been resilient, exhibiting low drawdowns amidst the volatility associated with the coronavirus given the diversification between the onshore and offshore Chinese bond markets.

TARGET FUND'S POSITIONING

Post the rally of offshore China credit market in Q2, the Target Fund Manager started to see relative valuations for offshore compared to onshore normalized with onshore yield picking up. Moving into Q3, the Target Fund Manager expects to increase their allocation to onshore market given growing concerns of a second wave of Covid-19 which might impact investor sentiment and positioning in the offshore market. Besides, onshore bond market serves as a hedge against rising geopolitical tensions which will likely to persist as the Target Fund Manager is moving closer to US election. The Target Fund Manager expects to reallocate capital onshore when tensions escalate through higher rated IG names which are the likely beneficiaries if monetary policy remain accommodative. The Target Fund Manager's asset allocation towards onshore bonds was key to the Target Fund's success back in 2018 amidst rising trade tensions and in Q1 2019 during pandemic outbreak.

Within HY:

The Target Fund Manager is positive on offshore China HY property. The underlying fundamentals of the sector have been improving since the initial lockdown implemented by the Chinese government. China property (the largest sector in Asian HY) is seeing both construction and sales activities resuming to pre covid-19 level. Most companies under the Target Fund Manager's coverage have pre-funded their USD debt obligations in Jan-Feb 2020 which will help lower refinancing risk. Most importantly, the onshore bond market is functioning for these companies to refinance onshore bonds and the Target Fund Manager has seen yields of new issuances onshore at fair levels. The Target Fund Manager expects financing conditions to be less relaxed in 2H20 with demand technical in the onshore and offshore bond markets remain favourable to developers.

The Target Fund Manager is selective on onshore short-dated industrial names with strong fundamentals for diversification. Valuations also become more attractive compared to offshore space.

Within IG:

The Target Fund Manager is positive on China state owned enterprises (SOEs). The ramping up of fiscal stimulus onshore means infrastructure spending to boost the economy, which should be beneficial for these companies. The Target Fund Manager is selective on central SOEs across both onshore and offshore given valuations are comparable at the moment. The Target Fund Manager prefers offshore LGFV offshore names given valuations still look attractive at the moment. Besides, the NDRC quota control means the supply pressure is limited. As the Target Fund Manager goes into local SOEs, LGFVs, the Target Fund Manager has to assess both the systematic importance of the entity and also the fundamentals of the corporate.

DISCLAIMER:

A Product Highlights Sheet ("PHS") highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the contents of the PHS and Information Memorandum dated 15 May 2019 and its supplementary(ies) (if any) ("collectively known as the Information Memorandum") before investing. The Information Memorandum has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. The SC's approval or authorization, or the registration of the Prospectus should not be taken to indicate that the SC has recommended the fund. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Information Memorandum relates will only be made on receipt of a form of application referred to in the Information Memorandum. The Fund are only offered to "sophisticated investor" as defined in the Information Memorandum. For more details, please call 1-800-88-3175 for a copy of the PHS and the Information Memorandum or collect one from any of our branches or authorised distributors. If in any doubt, consult your banker, lawyer, stockbroker or an independent financial adviser.
