MANAGER'S COMMENTS

MARKET REVIEW

The FBM KLCI fell for the second consecutive month by 1.3% m.o.m in September 2020 due to concerns over political uncertainty, the end of the loan moratorium on 30 September 2020 and rising new COVID-19 cases post-Sabah election. Retail participation share of trades fell m.o.m for the first time since March 2020. Foreign selling pressure continued in September 2020, with a net outflow of RM2.0bn, bringing YTD net foreign selling to a record RM21.9 bn. Market activity pulled back in Sep-2020 as market Average Daily Volume (ADV) traded were down 30% m.o.m to RM4.7bn. Retail ADV also retreated by 42.3% m.o.m to RM1.8 bn. Retail participation fell to 38% in September 2020 from 47% in August 2020.

Malaysia has seen a spike in the number of daily confirmed COVID-19 cases recently, with the seven day average tally reaching 209 as of 4 October 2020 higher than the previous peak of 173 in early April 2020.

MARKET OUTLOOK AND STRATEGY

We expect market to be range-bound as spike up again on COVID-19 cases in Malaysia while US election is coming affecting the sentiment of the market. We remain positive on healthcare, technology and companies which will be benefiting from factory relocation as a result of US-China trade tension.
