

## RHB-OSK INCOME FUND 2 (formerly known as OSK-UOB INCOME FUND)

This Fund aims to provide investors with higher than average income returns compared to fixed deposits over the medium to long term period through investments in a portfolio of predominantly quality fixed income securities with minimum risk to capital invested.

### INVESTOR PROFILE

#### This Fund Is Suitable For Investors Who:

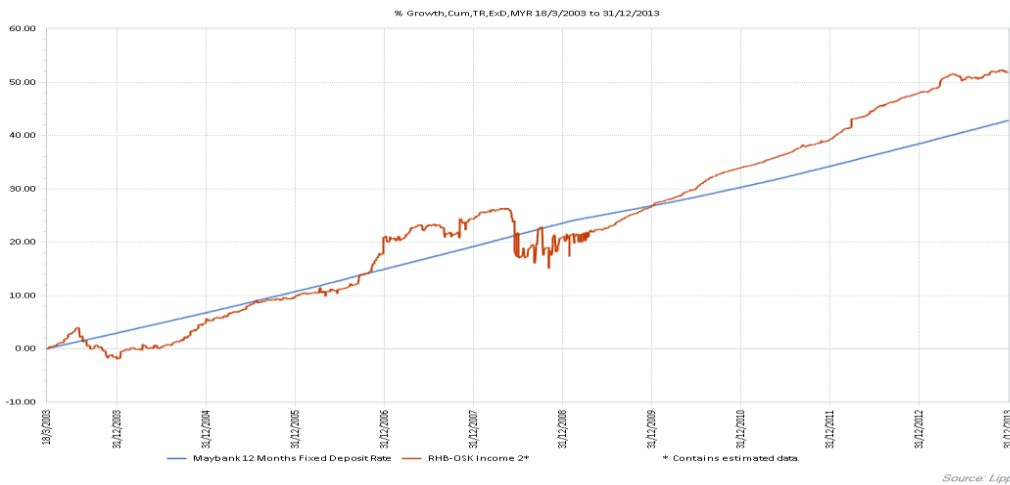

- are conservative;
- seek a steady income stream from their investments; and
- have a low to moderate risk tolerance with a medium to long term investment horizon.

### INVESTMENT STRATEGY

- The Fund seeks to achieve its objective by investing substantially all of its assets in fixed income securities, money market instruments, cash and deposits with financial institutions.

**RHB-OSK INCOME FUND 2 (formerly known as OSK-UOB INCOME FUND)**

This Fund aims to provide investors with higher than average income returns compared to fixed deposits over the medium to long term period through investments in a portfolio of predominantly quality fixed income securities with minimum risk to capital invested.

**MANAGER'S COMMENTS**

Malaysia Government Securities ("MGS") performance in December was mostly bearish bias as investors took profit for the year. At close, the 3-, 5-, 7-, 10-, 15-, 20- and 30-year MGS were traded at 3.33% (November: 3.09%), 3.69% (3.61%), 3.98% (4.04%), 4.08% (4.07%), 4.50% (4.27%), 4.55% (4.45%) and 4.92% (4.75%) respectively. Similarly, the Government Investment Issues ("GII") yields also traded higher with 3-, 5-, 7-, 10-, 15-year and 20-year benchmark yields crossed at 3.38% (November: 3.32%), 3.95% (3.88%), 4.06% (4.18%), 4.41% (4.40%), 4.66% (4.52%) and 4.79% (4.61%). Average daily trading volume for December was RM946 mln, notably lower than RM1.95 bln reported in November.

The final 2 auctions of the year - new issuance of 15-year GII (GII 12/28, RM2.0 bln, average yield 4.943%) and reopening of 3-year MGS (MGS 07/16, RM3.5 bln, 3.286%) - received strong to moderate bid-to-cover ratio of 2.87x and 1.568x respectively. Total issuance for 2013, including SPK, stood at RM96.9 bln, slightly higher than RM90 – 95 bln estimated by most of the research houses in the beginning of the year.

On the domestic economic front, trade surplus narrows slightly as import outpaced exports. October exports accelerated to 9.6% YoY (September: 5.6% YoY) - mainly led by Electrical & Electronics ("E&E") and LNG export - while imports surged 13.9% YoY (Sep: 2.8% YoY). Trade surplus thus narrowed marginally to RM8.23 bln (September: 8.66 bln). October Industrial Production ("IP") also up sequentially to 1.7% YoY (September: 1.0% YoY) on higher manufacturing and mining activities, in line with strong export demand. While it is still too early to be sure, the October data does hint at a pick-up in 4Q2013 GDP. Lastly, November CPI ticks up to 2.9% YoY (October: 2.8%), mainly led by food and non-alcoholic beverages. This comes as no surprise as sugar subsidies was removed in the 2014 Budget announcement.

On the other hand, the much anticipated MGS/GII auction calendar for 2014 was officially released. In the coming 2014, there will be a total of 28 tenders (2013: 27 tender) with 16 being MGS and 12 for GII. In terms of SPK, 4 scheduled tenders will be featured in 2014 (2 in 2013).

**DISCLAIMER:**

Based on the fund's portfolio returns as at 15 December 2013, the Volatility Factor (VF) for this fund is 1.1 and is classified as "Very Low". (source: Lipper) "Very Low" includes funds with VF that are not more than 1.3 (source: Lipper). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 30 June 2013 which is calculated once every six months and is valid until its next calculation date, i.e. 31 December 2013.

Investors are advised to obtain, read and understand the Product Highlights Sheet ("PHS") and the contents of the Master Prospectus dated 1 December 2013 and its supplementary(ies)(if any) ("the Master Prospectus"), which has been registered with the Securities Commission who takes no responsibility for its contents, before investing. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus. For more details, please call 1-800-88-3175 for a copy of the PHS and the Master Prospectus or collect one from any of our branches or authorised distributors.

The Manager wishes to highlight the specific risks of the Fund are higher level of risk than a portfolio diversifying its holdings across several asset classes, interest rate fluctuations, creditworthiness of the debt issuers, liquidity risk and risk of inflation. These risks and other general risks are elaborated in the Master Prospectus.
