**MANAGER'S COMMENTS**

**Fund Review**

The Fund in Oct 2014 decreased 1.03% owing to the volatilities in the period.

**Market Review**

The MSCI Asia ex Japan Index rose by 1.7% following a more than 4% jump in the HK market and Indian bourses. The rest of Asia recorded declines/

**Outlook & Strategy**

Looking to reposition the fund given that the risks that affected EM especially China and Indonesia have troughed. Thailand has rallied as the military junta has been rolling out projects to revive economic activities. Philippines and Taiwan meanwhile are looking expensive again with significant profit taking activities seen.

The position is likely to be tilt towards conservatism.
