MANAGER'S COMMENTS

MARKET REVIEW

Strong UST performance spurred buying interest on Ringgit government bonds. Malaysia Government Securities (“MGS”) mostly bullish flattened in April, with the long term yields compressed more than the short term yields. At close, the 3-, 5-, 7-, 10-, 15-, 20- and 30-year MGS were traded at 3.38% (March: 3.40%), 3.62% (3.57%), 3.94% (4.02%), 4.08% (4.12%), 4.42% (4.49%), 4.60% (4.59%) and 4.89% (4.87%) respectively. Similar to the strong performance of MGS, Government Investment Issues (“GII”) also bullish flatten with 3-, 5-, 7-, 10-, 15-year and 20-year benchmark yields transacted at 3.42% (March: 3.37%), 3.81% (3.85%), 4.08% (4.13%), 4.23% (4.28%), 4.54% (4.65%) and 4.85% (4.85%) respectively.

The 3 auctions in April – new issuance of 7.5-year SPK (SPK 10/21, RM1.6bil, average yield 4.345%), reopening of 15-year GII (GII 12/28, RM1.5bil, 4.547%) and new issuance of 5.5-year MGS (MGS10/19, RM4bil, 3.654%) received strong bid-to-cover ratio of 3.40x, 2.77x and 2.72x respectively.

On the domestic economic front, February trade surplus continues to widen as imports decline more than exports. February exports growth ticked up to 12.3% YoY (Jan: 12.2% YoY), above consensus of 10.6% YoY. Imports rose to 9.5% YoY (Jan: 7.2%), below consensus of 14.2% YoY which resulted in trade surplus widening to RM10.44bil (Jan: RM6.4bil). March CPI inflation was stable at 3.5% YoY, unchanged from February’s reading. In sequential terms, inflation rose by 0.1% MoM (Feb: 0.3% MoM). Lastly, February Industrial Production (“IP”) rise 6.7% YoY (Jan revised: 3.5% YoY), above consensus of 6.2% YoY. The rise was mainly due to increase in Electricity and Manufacturing activities which rose 8.7% YoY and 9.8% YoY respectively. Reading January – February as a whole – to eliminate any distortion effect from Chinese New Year holiday effect, IP data hints at slight slowdown to 1Q2014 GDP (seasonally adjusted IP are 0.4% below 4Q2013 level).

DISCLAIMER:

Based on the fund’s portfolio returns as at 15 April 2014, the Volatility Factor (VF) for this fund is 2.5 and is classified as “Low”. (source: Lipper) “Low” includes funds with VF that are above 1.3 but not more than 7.9 (source: Lipper). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund’s portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 31 December 2013 which is calculated once every six months and is valid until its next calculation date, i.e. 30 June 2014.

A Product Highlights Sheet (“PHS”) highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the PHS and the contents of the Replacement Master Prospectus dated 1 December 2013 and its supplementary(ies) (if any) (“the Master Prospectus”) before investing. The Master Prospectus has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus. For more details, please call 1-800-88-3175 for a copy of the PHS and the Master Prospectus or collect one from any of our branches or authorised distributors.

The Manager wishes to highlight the specific risks of the Fund are interest rate risk, credit / default risk, liquidity risk and issuer risk. These risks and other general risks are elaborated in the Master Prospectus.

This factsheet is prepared for information purposes only. It does not have regard to the specific investment objectives, financial situation and the particular needs of any specific person who may receive it. Past performance is not necessarily a guide to future performance. Returns may vary from year to year.
