RHB-OSK CASH MANAGEMENT FUND 2 (formerly known as OSK-UOB CASH MANAGEMENT FUND)

The Fund aims to provide investors a high level of liquidity while providing reasonable returns by predominantly investing its assets in Malaysian Ringgit deposits with financial institutions in Malaysia.

MANAGER'S COMMENTS

The local bond market bullish flattened across the curve in July despite a 25bps hike in Overnight Policy Rate ("OPR") on 10th July. The increase in OPR was well expected and the market interpreted the subsequent Monetary Policy Committee ("MPC") statement as neutral. As a result, investors were seen adding duration to portfolio which caused the govvy yield curve flattened. At close, the 3-, 5-, 7-, 10-, 15-, 20- and 30-year MGS were traded at 3.47% (June: 3.51%), 3.66% (3.72%), 3.75% (3.91%), 3.89% (4.03%), 4.21% (4.33%), 4.29% (4.40%) and 4.64% (4.74%) respectively. Similar to the strong performance on MGS, Government Investment Issues ("GII") also bullish flattened with 3-, 5-, 7-, 10-, 15-year and 20-year benchmark yields transacted at 3.60% (June: 3.65%), 3.78% (3.88%), 4.01% (4.10%), 4.14% (4.24%), 4.40% (4.53%) and 4.58% (4.70%) respectively.

The 2 auctions in July – reopening of 5-year MGS (MGS 10/19, RM3.0bil, average yield 3.688%) and reopening of 15-year GII (GII 12/28, RM1.5bil, 4.385%) received strong bid-to-cover ratio of 2.184x and 3.813x respectively.

On the domestic economic front, May trade surplus narrowed again to RM5.72bil (April: RM8.89bil) as imports outpaced exports. However, exports to EU expanded by 2.7% MoM in May (April: 4.5% MoM) but exports to US (May: -0.5% MoM, April: 9.7% MoM) and China (May: -2.3% MoM, April: 10.4% MoM) fell. With April-May seasonally adjusted exports 2.3% above 1Q2014, Malaysia's 1H2014 growth has clearly benefited from better demand from developed markets. May IP rose 6.0% YoY (April: 4.9% YoY), led by manufacturing activities. Finally, BNM delivered a 25bps hike in OPR during the MPC meeting to 3.25% as expected. MPC's assessment on inflation is still "above long-run average", though demand pressure is "contained". On this note, investors are taking cue that BNM is likely to pause on rate hike for the remaining of 2014. Lastly, June inflation edged up slightly to 3.3% YoY (May: 3.2% YoY), in line with market consensus.

DISCLAIMER:

Based on the fund's portfolio returns as at 15 July 2014, the Volatility Factor (VF) for this fund is 0.1 and is classified as "Very Low". (source: Lipper) "Very Low" includes funds with VF that are not more than 1.1 (source: Lipper). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 30 June 2014 which is calculated once every six months and is valid until its next calculation date, i.e. 31 December 2014.

A Product Highlights Sheet ("PHS") highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the PHS and the contents of the Master Prospectus dated 1 December 2013 and its supplementary(ies) (if any) ("the Master Prospectus") before investing. The Master Prospectus has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus. For more details, please call 1-800-88-3175 for a copy of the PHS and the Master Prospectus or collect one from any of our branches or authorised distributors.

The Manager wishes to highlight the specific risks of the Fund are credit/default risk, inflation/purchasing power risk and returns are not guaranteed risk. These risks and other general risks are elaborated in the Master Prospectus.
