

RHB-OSK GROWTH AND INCOME FOCUS TRUST (formerly known as OSK-UOB GROWTH AND INCOME FOCUS TRUST)

This Fund aims to achieve maximum total returns through a combination of long term growth of capital and current income.

INVESTOR PROFILE

This Fund Is Suitable For Investors Who:

- seek long term capital appreciation through investments in high growth potential small cap securities whilst requiring the flexibility of a conservative portfolio of fixed income securities in order to capitalise and adapt to prevailing market conditions; and
- are willing to accept slightly higher risk in their investments than that normally associated with a general balanced fund in order to achieve long term capital growth and income.

INVESTMENT STRATEGY

- 30% - 70% of NAV: Investments in securities of companies with market capitalization of not more than RM750 million ("small cap securities").
- 30% - 70% of NAV: Investments in fixed income securities, money market instruments, cash and deposits with financial institutions.

This Fund aims to achieve maximum total returns through a combination of long term growth of capital and current income.

MANAGER'S COMMENTS

WHY GIFT TRUST?

- Invest in mid to small cap companies that offer high growth potential
- Flexibility to invest between Malaysia and regional markets to capture the best opportunities
- Flexibility to shift between equities (up to 70%) and fixed income (up to 30%) depending on market conditions

MARKET REVIEW

For the month, the FBM KLCI rose 0.5% to close at 1,883 points. The broader market outperformed as the FBM EMAS rose 0.8% to close at 13,050 points. Smaller caps outperformed as the FBM Small Cap rose 2.8% to 17,932 points. Among regional bourses, Japan, Thailand and India posted the biggest gains while Australia and Singapore were laggards.

On the local corporate front, IJM Corporation Berhad (IJM Corp) proposed to privatise IJM Land Berhad (IJM Land) by acquiring the remaining 35.9% of IJM Land shares which it does not own. Malaysian Resources Corporation Berhad (MRCB) and PKNS Holdings Sdn Bhd reached an out of court settlement on the dispute over the development of PJ Sentral. In another development, MRCB received a Letter of Award from Kwasa Land Sdn Bhd for the development of Project MX-1 of the Kwasa Damansara township.

Local government bonds ended mixed in June. On the local economic front, Malaysia's export grew 18.9% yoy in April 2014. Industrial production expanded by 4.2% yoy in April 2014. Inflation was at 3.2% yoy in June 2014. The 3-, 5- and 10- year benchmark yields rose by 1 to 2bps to 3.52%, 3.74% and 4.04% respectively while the 7- and 20- year benchmark yields declined by 2 to 18 bps to 3.92% and 4.42% respectively.

The financial markets will be watching the upcoming monetary policy committee meeting scheduled on the 10th of July. Given Bank Negara Malaysia (BNM) hawkish stance in its recent monetary policy statements, we believe that the Overnight Policy Rate (OPR) could be raised by 25bps in this meeting.

FUND REVIEW

GIFT's NAV posted a gain of 2.2%, underperforming its benchmark's (50% FBM Fledging Index + 50% 12-month fixed deposit) increase of 2.8%. The underperformance was mainly due to stock selection. The fund's top performing holdings were Malee Sampran, Power Root, and Bangkok Aviation Fuel while laggards were PIE, PT Multipolar, and PT Cardig Aero Services.

DISCLAIMER:

Based on the fund's portfolio returns as at 15 June 2014, the Volatility Factor (VF) for this fund is 13.0 and is classified as "Very High". (source: Lipper) "Very High" includes funds with VF that are above 13.1. (source: Lipper) The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 31 December 2013 which is calculated once every six months and is valid until its next calculation date, i.e. 30 June 2014.

A Product Highlights Sheet ("PHS") highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the PHS and the contents of the Master Prospectus dated 1 December 2013 and its supplementary(ies) (if any) ("the Master Prospectus") before investing. The Master Prospectus has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus. For more details, please call 1-800-88-3175 for a copy of the PHS and the Master Prospectus or collect one from any of our branches or authorised distributors.

The Manager wishes to highlight the specific risks for the Fund are liquidity of underlying investments, interest rate risk, credit / default risk, inflation / purchasing power risk, equity investment risks such as market risk and particular security risk. These risks and other general risks are elaborated in the Master Prospectus.

This factsheet is prepared for information purposes only. It does not have regard to the specific investment objectives, financial situation and the particular needs of any specific person who may receive it. Past performance is not necessarily a guide to future performance. Returns may vary from year to year.
