RHB-OSK INCOME FUND 2 (formerly known as OSK-UOB INCOME FUND)

This Fund aims to provide investors with higher than average income returns compared to fixed deposits over the medium to long term period through investments in a portfolio of predominantly quality fixed income securities with minimum risk to capital invested.

MANAGER'S COMMENTS

The local bond market bullish flattened in June with strengthening Ringgit and low market volatility prompted for yield pick-up trades. At close, the 3-, 5-, 7-, 10-, 15-, 20- and 30-year MGS were traded at 3.51% (May: 3.48%), 3.72% (3.72%), 3.91% (3.94%), 4.03% (4.03%), 4.33% (4.36%), 4.40% (4.59%) and 4.74% (4.89%) respectively. Similar to the strong performance of MGS, Government Investment Issues ("GII") also bullish flattened with 3-, 5-, 7-, 10-, 15-year and 20-year benchmark yields transacted at 3.65% (May: 3.67%), 3.88% (3.85%), 4.10% (4.12%), 4.24% (4.21%), 4.53% (4.50%) and 4.70% (4.85%) respectively.

The 3 auctions in June – reopening of 7-year GII (GII 03/21, RM3.0bil, average yield 4.112%), reopening of 3-year MGS (MGS 03/17, RM3.0bil, 3.486%) and reopening of 20-year GII (GII 08/33, RM1.5bil, 4.675%) received strong to moderate bid-to-cover ratio of 2.345x, 1.389x and 3.227x respectively.

On the domestic economic front, April trade surplus narrowed only slightly as exports outpaced imports. April exports surged 18.9% YoY (Mar: 8.3% YoY) partly on base effects, above consensus of 9.7% YoY. Imports also rose 5.0% YoY (Mar: 0.5% YoY) above consensus of -0.5% YoY. With April seasonally adjusted export levels 4% above 1Q2014 levels, the continued resilience of exports is in line with improving external demand. Also, April IP up sequentially to 4.2% YoY (Mar: 4.3% YoY), in line with market consensus. Combining the positive trade surplus with strong IP reported in April, accelerating growth momentum points to a strong start to 2Q2014 GDP. May CPI inflation edged down to 3.2% YoY (April: 3.4%). Lower YoY inflation was led by F&B, Utilities and Communication. Despite the weaker CPI level, MPC's concern is still on financial imbalances, which is likely to see the Central Bank to take interest rate action in the coming meeting.

DISCLAIMER:

Based on the fund's portfolio returns as at 15 June 2014, the Volatility Factor (VF) for this fund is 1.1 and is classified as "Very Low". (source: Lipper) "Very Low" includes funds with VF that are not more than 1.3 (source: Lipper). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 31 December 2013 which is calculated once every six months and is valid until its next calculation date, i.e. 30 June 2014.

A Product Highlights Sheet ("PHS") highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the PHS and the contents of the Master Prospectus dated 1 December 2013 and its supplementary(ies) (if any) ("the Master Prospectus") before investing. The Master Prospectus has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus. For more details, please call 1-800-88-3175 for a copy of the PHS and the Master Prospectus or collect one from any of our branches or authorised distributors.

The Manager wishes to highlight the specific risks of the Fund are higher level of risk than a portfolio diversifying its holdings across several asset classes, interest rate fluctuations, creditworthiness of the debt issuers, liquidity risk and risk of inflation. These risks and other general risks are elaborated in the Master Prospectus.
