MANAGER'S COMMENTS

WHY SMART TREASURE?

- Comprehensive exposure to market from small to large caps
- Large caps can provide relative stability and steadier growth while small caps can offer higher growth opportunities
- Flexibility to shift between equities and cash/fixed income (up to 30%)

MARKET REVIEW

In July, financial markets exhibit increase volatility as investors build in higher political risk premium amid on-going regional geo-political tension. Market sentiment and investors expectation turned cautious on the back of Ukraine crisis and potential US-EU led sanctions on Russia. FBM KLCI eased marginally, -0.6% mom to 1871pt while YTD still recorded flattish return, +0.24%. In the meantime, Small Cap Index remained robust and buoyant, outperform in July, +6.33% and +21.49% YTD, KLCI Fledgling Index +4.71% mom and +26.78% YTD.

FUND REVIEW

Smart Treasure's NAV posted a loss of 0.22%, underperforming its benchmark (FBM Emas Index) gain of 0.28%. The underperformance was mainly due to stock selection.

On sector basis, we continue to favor consumer and industrial sectors. Considering that the small caps have outperformed the bigger caps since last year, we believe careful stock selection would be the key determinant of outperformance going forward.

DISCLAIMER:

Based on the fund's portfolio returns as at 15 July 2014, the Volatility Factor (VF) for this fund is 11.7 and is classified as “High” (source: Lipper). “High” includes funds with VF that are above 10.6 but not more than 13.0 (source: Lipper). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 30 June 2014 which is calculated once every six months and is valid until its next calculation date, i.e. 31 December 2014.

A Product Highlights Sheet (“PHS”) highlighting the key features and risks of the Fund is available and investors have the right to request for a PHS. Investors are advised to obtain, read and understand the PHS and the contents of the Master Prospectus dated 15 June 2014 and its supplementary(ies) (if any) (“the Master Prospectus”) before investing. The Master Prospectus has been registered with the Securities Commission Malaysia who takes no responsibility for its contents. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus. For more details, please call 1-800-88-3175 for a copy of the PHS and the Master Prospectus or collect one from any of our branches or authorised distributors.

The Manager wishes to highlight the specific risks of the Fund are IPO risk and equity investment risks such as market risk and particular security risk. These risks and other general risks are elaborated in the Master Prospectus.

This factsheet is prepared for information purposes only. It does not have regard to the specific investment objectives, financial situation and the particular needs of any specific person who may receive it. Past performance is not necessarily a guide to future performance. Returns may vary from year to year.
