RHB-OSK SMART INCOME FUND (formerly known as OSK-UOB SMART INCOME FUND)

This Fund aims to provide investors with higher than average income returns compared to fixed deposits over the medium to long term period through an investment blend comprising primarily of quality fixed income securities and with the remaining investments in a strategically selected portfolio of companies with market capitalisation of not more than RM1 billion.

MANAGER'S COMMENTS

WHY SMART INCOME?

- Invest in mid to small cap companies that offer high growth potential
- Flexibility to shift between equities (up to 30%) and fixed income (up to 70%) depending on market conditions

MARKET REVIEW

For the month, the FBM KLCI gained 3.0% to close at 1,867 points. The broader market underperformed as the FBM EMAS rose 2.2% to close at 12,854 points. Smaller caps underperformed as the FBM Small Cap rose 0.4% to 15,694 points. Among regional bourses, Japan and Malaysia posted the biggest gains while Thailand and the Philippines were laggards.

On the local corporate front, Malaysia Airports Holdings agreed to raise its stake in Istanbul's Sahiba Gokcen International Airport AS to 60% by acquiring the 40% stake currently held by India's GMR Infrastructure Ltd. Boustead Holdings Berhad has proposed to list its plantation unit. Meanwhile, Gamuda Berhad has received acceptance from Permodalan Nasional Berhad and Amcorp Properties Berhad to buy their equity interest in tollroad concessionaire Kesas Holdings Berhad for RM560m.

Local government bonds ended mixed in December. With the exception of the 7-year MGS benchmark, most local government bonds ended lower on the back of the US Federal Reserve's announcement to reduce its asset purchase programme. Inflation inched up to 2.9% yoy in November 2013. The 3-, 5-, 10- and 20-year benchmark yields rose by 5 to 19bps to 3.34%, 3.66%, 4.13% and 4.64% respectively while the 7-year benchmark yield declined by 4bps to 3.99%.

Bank Negara Malaysia (BNM) governor Tan Sri Dr Zeti commented that the electricity tariff hike would have a temporary effect on inflation. Based on BNM's assessment, the electricity tariff hike may cause an additional rise in inflation by 0.4%, resulting in the inflation rate to surpass 3%. She commented that BNM will tolerate a higher rate of inflation if it is due to adjustment to cost, particularly if the adjustment is temporary in nature.

FUND REVIEW

Smart Income's NAV posted an increase of 0.2%, underperforming its benchmark's (12-month Fixed Deposit) return of 0.3%. The underperformance was mainly due to stock selection. The fund's top performing holding were Power Root, Bonia and Cypark while laggards were Time dotCom, Can-One and KBB.

DISCLAIMER:

Based on the fund's portfolio returns as at 15 December 2013, the Volatility Factor (VF) for this fund is 7.2 and is classified as "Low". (source: Lipper) "Low" includes funds with VF that are above 1.3 but not more than 8.0 (source: Lipper). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. The VC referred to was dated 30 June 2013 which is calculated once every six months and is valid until its next calculation date, i.e. 31 December 2013.

Investors are advised to obtain, read and understand the Product Highlights Sheet ("PHS") and the contents of the Master Prospectus dated 1 December 2013 and its supplementary(ies)(if any) ("the Master Prospectus"), which has been registered with the Securities Commission who takes no responsibility for its contents, before investing. Amongst others, investors should consider the fees and charges involved. Investors should also note that the price of units and distributions payable, if any, may go down as well as up. Where a distribution is declared, investors are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Any issue of units to which the Master Prospectus relates will only be made on receipt of a form of application referred to in the Master Prospectus. For more details, please call 1-800-88-3175 for a copy of the PHS and the Master Prospectus or collect one from any of our branches or authorised distributors.

The Manager wishes to highlight the specific risks of the Fund are interest rate risk, credit risk, liquidity risk of underlying investments, equity investment risks such as market risk, particular security risk and inflation/ purchasing power risk. These risks and other general risks are elaborated in the Master Prospectus.

This factsheet is prepared for information purposes only. It does not have regard to the specific investment objectives, financial situation and the particular needs of any specific person who may receive it. Past performance is not necessarily a guide to future performance. Returns may vary from year to year.
