1.2 Investment Objective, Strategy and Policies**1.2.1 Investment Objective**

This Fund aims to achieve medium to long term* capital appreciation through investments in Shariah-compliant securities of companies with high growth potential.

*Note: “medium to long term” in this context refers to a period between 3 – 7 years.

Any material change to the investment objective of this Fund requires the Unit Holders’ approval.

1.2.2 Investment Strategy

The Fund seeks to achieve its investment objective by investing primarily[^] in the Shariah-compliant securities of companies that are expected to benefit from the on-going development and growth of the ASEAN region (i.e. Malaysia, Singapore, Thailand, Philippines, Indonesia, Vietnam, Myanmar, Cambodia, Laos and Brunei) and opportunistically[^] from the on-going development and growth in Asia (i.e. India, China, Hong Kong, South Korea, Taiwan and Japan). In managing the Fund, the Manager will seek out companies that are exposed to the key development and growth trends that the Manager identifies as drivers of business and security markets performance.

Explanatory note:

^ “primarily” refers to at least 70% of Net Asset Value in the securities of companies that are expected to benefit from the on-going development and growth of the ASEAN region and “opportunistically” means investing up to 30% of Net Asset Value in the securities of companies which are exposed to the investment themes identified by the Manager that influence the performance of the Asian capital markets.

The Fund’s direct investment in the ASEAN countries are those of companies whose Shariah-compliant securities are listed on ASEAN markets and ASEAN companies that are listed on non-ASEAN markets such as US, London, Hong Kong, Taiwan, South Korea, China, Australia and Japan stock exchanges. These are companies that have at least 50% of its revenues derived from ASEAN countries and/or have at least 50% of its business operations located in the ASEAN countries. If these companies’ revenues derived from ASEAN countries and/or their business operation located in the ASEAN countries fall below this 50% threshold, the Manager will take the necessary steps to divest the Shariah-compliant securities of those companies. The Fund’s investments may also include Islamic collective investment schemes investing primarily in the ASEAN countries.

The Manager of the Fund expects that security market investment themes will evolve over time influenced by the on-going growth and development cycles and investor sentiment for the ASEAN region and in Asia. The Manager will use proprietary and/or secondary, fundamental research to identify the main economic and social trends expected to drive company profitability and security markets performance over the next 2 – 3 year time horizon and will invest in a diversified portfolio of the Shariah-compliant securities of such companies that are expected to benefit most from those themes and trends.

Over time, the main themes that influence the performance of ASEAN and Asian capital markets will likely change, reflecting the dynamic underlying economic and social development across the region and within individual countries. Themes may vary based on underlying economic development such as energy, transportation and communication infrastructure investment and intra-regional trade; social development such as rising middle class consumption and private savings accumulation and investment; capital market development such as privatisation; and investor themes such as high yield corporate bonds.

The Fund will focus on a minimum of 3 themes at any one time from the evolving ASEAN and Asian trends identified by the Manager as having strong potential to outperform the benchmark, FTSE Shariah ASEAN Index (Islamic).

In managing the Fund, the Manager will employ a multi-step investment process, combining a bottom-up investment process that involves rigorous company research with a top-down process to review asset allocation at both the regional/country and sector levels. Asset allocation and geographical weightings are derived after analysing macro-economic trends and country dynamics. Country and portfolio exposure limits are in place to mitigate the risks of the investments. The Manager believes long term investment performance can be achieved by employing a rigorous research process that enables them to identify companies that generate superior returns as well as by identifying companies that are undervalued. Superior returns here means companies that upon thorough fundamental research have a strong upside in terms of its share price that would contribute to a positive return to the portfolio that may lead to returns above the Fund’s benchmark.

Thus, this Fund's portfolio will be structured as follows:

70% - 98% of Net Asset Value

- Investments in Shariah-compliant equities and equity related securities.

2% - 30% of Net Asset Value

- Investments in liquid assets including Islamic money market instruments and Islamic deposits with financial institutions.

Provided always the above asset allocation is maintained, the range of the Fund's asset allocation will be reviewed from time to time depending on the judgment of the Manager as to the general market and economic conditions. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors, countries and asset classes / type of investments (i.e. Shariah-compliant equities and Islamic money market instruments). Islamic financial derivatives may also be used for currency hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in equity values and the available alternative investment may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration the reference benchmark as well as its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward profiles.

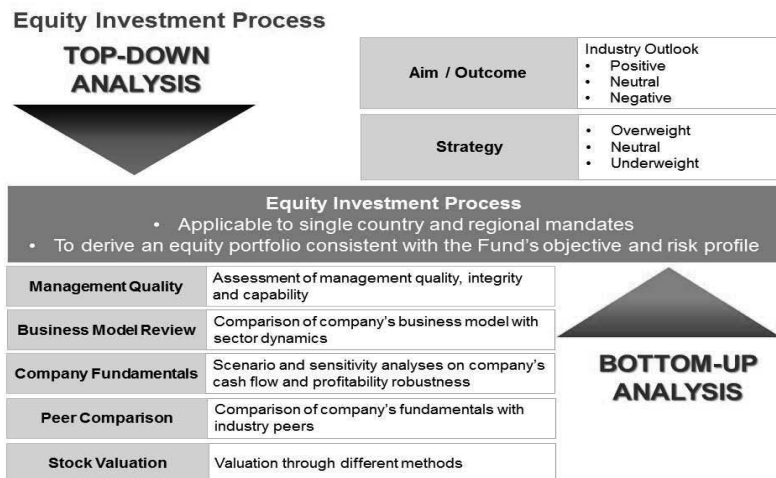

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's Shariah-compliant equity investments into other asset classes such as sukuk, Islamic money market instruments, cash and Islamic deposits with financial institutions, which are defensive in nature and comply with Shariah requirements.

The performance of this Fund is benchmarked against the FTSE Shariah ASEAN Index (Islamic). The benchmark chosen best represents the Fund's underlying investments and the geographical location of its investments. For ease of reference, investors may refer to www.ftse.com or Bloomberg L.P. for this indicator.

1.2.3 Investment Approach

The Manager's investment approach when making investments in the various assets will evolve around the following principles:-

Equities

Liquid assets

- 1) Interest/Profit Rate Anticipation – Forecast changes in interest/profit rates and yield curve shapes.
- 2) Market Timing – Time market entry to enhance yield.
- 3) Relative Return Analysis – Best risk-return trade-off within the financial institutions of same credit ratings.

To ensure compliance with Shariah requirements, the Fund is restricted to Placements of Cash that complies with Shariah principles and prohibited from investing in non-Islamic money market instruments.

1.2.4 Investment in Shariah-compliant Securities Not Traded in or under the Rules of an Eligible Market (“Unlisted Shariah-compliant Securities”)

The Manager will only make such investments that are consistent with the objective and enhance the performance of this Fund. The Fund's investments in unlisted Shariah-compliant securities (if any) shall always be subject to the restriction stipulated in section 1.3 (a). However, the exposure to investments in unlisted Shariah-compliant securities shall not include:

- (a) Shariah-compliant equities not listed for trading in a stock market of a stock exchange but have been approved for such listing and offered directly to the Fund by the issuer;
- (b) Sukuk traded on an organised over-the-counter market; and
- (c) Islamic structured products.

1.2.5 Islamic Collective Investment Schemes

The Manager will only make such investments that are consistent with the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the target fund is registered/authorized/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines on Unit Trust Funds issued by the Securities Commission. The Fund's Shariah-compliant investments in Islamic collective investment schemes (if any) shall always be made subject to the restrictions stipulated in section 1.3 (g) and (l).

1.2.6 Islamic Financial Derivatives

The Manager may participate in Islamic financial derivatives such as currency forwards, swaps or any other categories of financial derivatives which are structured in Shariah-compliant manner, permitted by the relevant authorities from time to time for hedging purposes, when appropriate. The Fund's participation in Islamic financial derivatives is to hedge the portfolio from exposure to foreign currency volatility. Hence, the benefit of any upside of currency movements is limited. The purpose is to protect the value of the portfolio. When participating in such instruments, the Manager will monitor the derivative valuation and credit ratings of the financial institutions as counterparty to the instruments, where applicable and take appropriate actions to mitigate any risk associated with such instruments. This may extend to unwinding of derivative instruments in the event where there is a need to terminate current position due to reversal in market movement, redemptions in Units or upon downgrade of the credit ratings of the financial institutions. The Fund's holding in Islamic financial derivatives (if any) shall always be subject to the restrictions stipulated in section 1.3 (f) and (h).

1.2.7 Foreign Shariah-compliant Securities

The Manager may invest up to 98% of Net Asset Value in Shariah-compliant securities of companies listed on or traded in foreign markets under the supervision of regulatory authorities who are ordinary or associate members of the International Organisation of Securities Commissions (IOSCO). The Fund will invest in Shariah-compliant securities of companies whose business are in ASEAN and Asian countries and whose Shariah-compliant securities are listed on or traded in ASEAN and Asian markets namely Singapore, Thailand, Philippines, Indonesia, Vietnam, India, China, Hong Kong, South Korea, Taiwan and Japan. The Fund's investments in Shariah-compliant foreign securities also include Shariah-compliant securities issued by companies with businesses in ASEAN and Asian countries that are not listed on or traded in ASEAN and Asian markets, such as US, United Kingdom and Australia.

In undertaking these foreign investments, the Manager will invest directly in the equities markets and may also invest through other Islamic collective investment schemes, (provided the investment mandate of the scheme complements this Fund's investment objective) where appropriate.

1.2.8 Shariah-compliant Liquid Assets

The Manager in structuring the Fund's portfolio will maintain a minimum liquid assets level of 2% of Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the Manager from lowering or raising the liquid assets level from the stipulated level to allow the Manager to react to the prevailing market conditions and to manage investment risk when circumstances warrant it.

This Fund shall not source for financing in connection with its activities or provide financing on any of its cash or investments unless permitted by the Guidelines on Unit Trust Funds and any practice notes issued by the Securities Commission from time to time or other relevant laws or regulations pertaining to unit trust funds. However, the Fund may obtain Islamic financing facility on a temporary basis (i.e. not more than one month) from financial institutions to meet redemption requests. Such financing shall not exceed ten (10) per cent of Net Asset Value at the time the financing facility is incurred.

1.2.9 Distribution Policy

Subject to the availability of income, distribution, if any will be declared annually.

1.3 Permitted Investments and Restrictions

This Fund may invest or participate in Shariah-compliant securities listed on the Bursa Malaysia or any other market considered as an Eligible Market, Shariah-compliant securities not listed in or traded under the rules of an Eligible Market ("unlisted Shariah-compliant securities"), Islamic collective investment schemes, Islamic financial derivatives, Shariah-compliant liquid assets (including Islamic money market instruments and Placements of Cash) and any other Shariah-compliant investments permitted by the SACSC and/or the Shariah Adviser from time to time. Consequently, all investments for this Fund are to be designated as Shariah-compliant and in this regard, the Shariah Adviser will advise on the selection of investments to ensure compliance with Shariah requirements.

The acquisition of such permitted investments is subject to the following restrictions:

However, a 5% allowance in excess of the limits or restrictions is permitted where the limit or restriction is breached through an appreciation or depreciation of the Net Asset Value (whether as a result of an appreciation or depreciation of the investment or as a result of repurchase of units of the Fund or payment made from the Fund). The Manager will not make any further acquisitions to which the relevant limit is breached, and the Manager will within a reasonable period of not more than three (3) months from the date of the breach take all necessary steps and actions to rectify the breach. Such limits and restrictions however, do not apply to Shariah-compliant securities and sukuk that are issued or guaranteed by the government or Bank Negara Malaysia.

1.4 Shariah Methodology and Shariah Investment Guidelines

In screening the investment activity of the Fund, the Shariah Adviser will ensure that at all times the investments of the Fund would be restricted to Shariah-compliant instruments. In rolling out the securities screening activity, the Shariah Adviser will adopt a combination of screening methodologies issued by SACSC, Otoritas Jasa Keuangan/ Financial Service Authority (OJK) and Accounting and Auditing Organisation for Islamic Financial Institutions (AAOIFI). SACSC is the authority advising the SC on Shariah matters pertaining to the Islamic capital market of Malaysia. OJK is the regulatory authority for the Indonesia capital markets. AAOIFI screening standard is commonly accepted for equity investments in member states of the Cooperation Council for the Arab States of the Gulf (GCC).

Notwithstanding anything stated herein and for avoidance of doubt, for investments in listed securities on Bursa Malaysia, the Fund will only invest in securities listed on the SACSC's list of Shariah-compliant securities. For securities or instruments that are not classified as Shariah-compliant by SACSC and Shariah Advisory Council of Bank Negara Malaysia, the Shariah Adviser will determine whether the securities are Shariah-compliant for investment by the Fund in accordance to the Shariah Adviser's screening methodologies.

The following is a non-exhaustive list of the combination of the aforementioned methodologies adopted by the Shariah Adviser and any changes thereafter by these bodies will be adopted by the Shariah Adviser.

1) Industry screens:

The Fund is prohibited from investing in companies whose core activities are of the following:

- (a) financial services based on riba (interest);
- (b) gambling and gaming activities;
- (c) production, processing and sale of alcoholic beverages and non-halal food or related products;
- (d) conventional insurance activities;
- (e) entertainment activities that are non-permissible according to Shariah;
- (f) manufacture or sale of tobacco-based products or related products;
- (g) stockbroking or share trading in Shariah non-compliant securities; and/or
- (h) weapons and defence.

2) Financial ratio screens:

In addition to the above, the investments of the Fund will also be determined according to the financial ratio screening. Financial ratios of the following screening principles must not exceed certain benchmarks**:

- (a) Total interest based debts compared to total assets.
- (b) Total interest based debts compared against market capitalization.
- (c) Total cash placed in interest bearing deposits plus interest bearing securities compared against market capitalization.
- (d) Total cash placed in interest bearing deposit compared against total assets.
- (e) The ratio of non-halal income is not more than 5% of the total revenue.

**These benchmarks may vary in accordance with the development of Islamic finance and the jurisdiction of respective screening authorities or the Islamic indices that are being referred to. Should any of the deductions fail to satisfy the benchmarks, the Shariah Adviser will not accord a Shariah-compliant status for the securities of such company.

3) Purification process of the Fund:

The portion of income attributed to impure income must be purified by the Fund so that impure income is not distributed to Unit Holders.

Impure income from business activities is calculated by using the investment purification method in line with the standard of the Accounting and Auditing Organisation for Islamic Financial Institutions (AAOIFI). The impure income has to be channelled to Baitulmal or any charitable organisations as advised by the Shariah Adviser.

Should there be a breach, the following rules on divestment of Shariah non-compliant investments apply:

a) Wrong investment

If the Manager mistakenly invests the Fund in Shariah non-compliant securities, the Manager needs to dispose off any Shariah non-compliant securities within one (1) month upon becoming aware of the status of the securities. Any gain made in the form of capital gain or dividend received during or after the disposal of the securities has to be channelled to baitulmal or charitable bodies as advised by the Shariah Adviser. The Fund has a right to retain only the original investment cost. However, if the investment sustained a loss, the Manager is to reimburse the Fund the original investment cost.

Note: original investment cost may include brokerage cost or other related transaction cost.

b) Reclassification of Shariah status of the Fund's investment

This refers to those securities which were earlier classified as Shariah-compliant securities but due to certain reasons, such as changes in the companies' operations, are subsequently considered Shariah non-compliant. In this regard, if on the date the securities turned Shariah non-compliant, the value of the securities held exceeds the original investment cost, the Fund must liquidate such Shariah non-compliant securities held by it. Any capital gains arising from the disposal of the Shariah non-compliant securities can be kept by the Fund. However, any excess capital gains derived from the disposal after the said date at a market price that is higher than the closing price on the said date should be channelled to baitulmal or charitable bodies as advised by the Shariah Adviser.

On the other hand, the Fund is allowed to hold its investment in the Shariah non-compliant securities if the market price of the said securities is below the original investment costs. It is also permissible for the Fund to keep the dividends received during the holding period until such time when the total amount of dividends received and the market value of the Shariah non-compliant securities held equal the original investment cost. At this stage, the Fund must dispose of its holding.

In addition, during the holding period, the Fund is allowed to subscribe for:

- (i) any issue of new securities by a company whose Shariah non-compliant securities are held by the Fund, for example rights issues, bonus issues, special issues and warrants (excluding securities whose nature is Shariah non-compliant e.g. irredeemable convertible unsecured loan stock (ICULS)); and
- (ii) securities of other companies offered by the company whose Shariah non-compliant securities are held by the Fund,

on condition that they expedite the disposal of the Shariah non-compliant securities. For securities of other companies {as stated in (ii) above}, they must be Shariah-compliant securities.

Zakat for the Fund

The Fund does not pay zakat on behalf of Unit Holders who are Muslim individuals and Islamic legal entities since doing so would not satisfy completely their zakat obligations. Such investors are thus advised to pay on their own behalf.

2. RISK FACTORS

2.1 General Risks of Investing in the Fund

General Risks

a) Management Risk

This refers to the expertise of the Manager in the day-to-day management of the Fund. The selection of the Fund's investments is a subjective process and depends on the expertise of a fund manager in carrying out the fund management function. Lack of expertise of the fund manager may adversely affect the returns from the Fund's investments and consequently, the Unit Holder's investment.

b) Redemption Risk

The ability of the Fund to honour requests for redemption in a timely manner is subject to the Fund's holding of adequate liquid assets and/or its ability to source financing on a temporary basis as permitted by the relevant laws. The Fund may seek an Islamic financing facility to meet the above requests. In the event there is insufficient liquid assets, the Manager may have to liquidate the Fund's investments at an unfavourable price.

c) Loan/Financing Risk

Investors should assess the inherent risk of investing with borrowed money or financing facility which should include the following:

- i) the ability to service the loan repayments or financing instalment and the effect of increase in interest rates or profit rates on the loan repayments or financing instalments; and
- ii) (in a case where Units are used as collateral to the loan or financing facility) the ability to provide additional collateral should Unit prices fall beyond a certain level, failing which, the investors' Units may be sold off to realise the proceeds towards settlement of the outstanding loan or financing facility taken.

[Please see the Unit Trust Loan Financing Risk Disclosure Statement in the application form. Should Muslim investors wish to finance the acquisitions of Islamic unit trust funds, they are advised to obtain one that is Shariah-compliant in nature.]

d) Risk of Non-Compliance

The risk arises should the Manager not follow the provisions set out in the Deed or the law that governs the Fund or its own internal procedures whether due to the Manager's oversight, or if the Manager acts fraudulently or dishonestly. Such non-compliance may result in the Fund

being mismanaged and may affect the Unit Holders' investments should the rectification of the non-compliance negatively affect the Unit Holder's investments in the Fund.

e) Returns are not Guaranteed

There is no guarantee on the investment returns to Unit Holders.

Investments Risks

a) Market Risk

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances may be a local or global event that can affect global markets as well as the markets where the Fund is invested in and subsequently, the value of the Fund's investments.

b) Counterparty and Issuer Risk

The possibility that the issuer of an Islamic money market instrument or the financial institution where Placements of Cash are made will not be able to make timely payments of profit and/or principal repayment when it becomes due. This may lead to a default in the payment of principal and/or profit and ultimately a reduction in the value of the Fund.

c) Liquidity Risk

Liquidity risk refers to the ease with which a Fund's investment can be sold at a favourable price. Should a Fund's investments become illiquid, the investments may be sold at an unfavourable price which may then lower the value of the Fund's investments and subsequently the value of Unit Holders' investments.

d) Derivative Risk

As the Fund participates in Islamic financial derivative instruments for hedging purposes, it will be subject to risks associated with such investments. The structure of the Islamic financial derivative as well as the underlying financial instruments must comply with the Shariah requirements. Participating in Islamic financial derivative instruments may require the deposit of initial margin in a Shariah-compliant manner and additional deposit of margin on short notice if the market moves against the hedging positions. If no provision is made for the required margin within the prescribed time, the Fund's participation may be liquidated at a loss. Therefore, it is essential that such participation in Islamic financial derivative instruments is monitored closely. If and when the Manager participates in Islamic financial derivatives, the Manager will monitor the Islamic financial derivative positions for the Fund. In addition, participation in Islamic financial derivatives is also subject to the possibility that the counterparty to the Islamic financial derivative may fail or default in its obligations under the Islamic financial derivative contract. Such failure or default by the counterparty whether in the payment of principal and/or profit from the Islamic financial derivative transaction may ultimately lead to a reduction in the value of the Fund.

2.2 Specific Risks when Investing in this Fund

a) Restrictive geographical market risk

As the Fund will invest in Shariah-compliant securities issued by companies whose businesses are in ASEAN and Asian countries, it may be subject to a higher level of risk than an equities portfolio which is not restricted to a particular geographical region or market. Thus, there is a

risk that the Fund will perform poorly during an economic downturn or in the event of adverse news affecting the said region or market.

b) Equity risk

The performance of the Shariah-compliant equities held by the Fund is dependent on company specific factors like the company's business situation. If the company-specific factors deteriorate, the price of the specific equity may drop significantly and permanently. Such event could possibly occur even in a positive equity market trend. The risk will be managed via portfolio diversification of the Fund's investments in terms of its exposure to equity from various industries, sectors and countries. In addition, where necessary, exposure to a particular equity will also be reduced in the event of an anticipated weakness in that particular equity.

c) Foreign investment risks such as currency risk and country risk

Currency risk is associated with investments that are quoted in foreign currency denomination. When a security is denominated in a currency which fluctuates unfavorably against the Fund's Base Currency and/or the currency denomination of the respective classes, the investment in the Fund may face currency loss in addition to the capital gains or losses. This may lead to a lower NAV.

As the Fund will be investing in foreign markets, the foreign investments portion of the Fund may be affected by risks specific to the country that the Fund invests in. Such risks include changes in the country's economic fundamentals, social and political stability, currency movements and foreign investments policies. These factors may impact the prices of the securities that the Fund invests in and ultimately lower the NAV. Further, there are countries which may require prior approvals before investments can be made in such countries. For example, if and when the Fund invests in countries such as China, Taiwan, South Korea and India, such countries require the application of an investment licence or registration of an investor code before investments can be made in these countries. As such, if investments in such countries are undertaken, there may be a risk that such registration or licence may be revoked or not renewed by the relevant authority and the Fund's investments in these countries may be affected. The effect on the Fund's investments will depend on the regulatory requirements of the respective countries. For example, if a country requires the Fund to obtain an investment licence which is subject to renewal and if such investment licence is not renewed in a timely manner, this may result in the Fund's investment account in that country being frozen by the regulator resulting in investment activities for the Fund in that country being suspended. To mitigate this, the Manager will monitor closely the adherence of investment regulatory requirements in such countries.

d) Reclassification of Shariah status risk

This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such equities in accordance with the Fund's Shariah investment guidelines.

e) Equity Related Securities Risk

The Fund may also invest in equity related securities such as warrants provided that the underlying securities comply with Shariah requirements. As warrants are linked to the particular equity securities from which they are derived, the warrants inherit the risks linked to that underlying equity security such as market risk, currency risk, country risk, industry risk and liquidity risk. Thus, the value of the investments in warrants is also subject to the day to day movement in the prices of their underlying equity securities. Warrants also have a limited

life and if they are not exercised at the maturity, they will expire. Warrants become worthless if they are not exercised before maturity, causing the value of the Fund's investments to fall. Like any other investments, the fall in the value of the Fund's investments will ultimately lower the Net Asset Value.

3. VALUATION OF ASSETS

The assets of the Fund must be valued at least once every Business Day. As certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia, the valuation of the Fund for a Business Day will be conducted by 5:00 p.m. (or such other time as may be determined by the Manager from time to time) on the following day in which the Manager is open for business.

Accordingly, the price of the Fund for a particular Business Day will not be published in the major newspapers on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated in the major newspapers.

Illustration

When markets close for trading on 3 January 2017 (Tuesday), the valuation date will be the next day in which the Manager is open for business, i.e. 4 January 2017 (Wednesday). Thus, the major newspapers publication date for the price as at 3 January 2017 (Tuesday) will be on 5 January 2017 (Thursday).

Investors may obtain the most current computed price by contacting the Manager directly at 03-9205 8000 [please refer to section 5.6 (g) (Availability of Information on Investment)].

In undertaking any of the Fund's investments, the Manager will ensure that all the assets of the Fund will be valued appropriately, that is, at market value, failing which, such assets will be valued at fair value and at all times in compliance with the relevant laws (including approved accounting standards).

Accordingly, where applicable:

- (i) Listed local and foreign Shariah-compliant securities will be valued daily based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

However, if:-

- (a) a valuation based on the market price does not represent the fair value of the Shariah-compliant securities, for example during abnormal market conditions; or
- (b) no market price is available, including in the event of a suspension in the quotation of Shariah-compliant securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee,

then the Shariah-compliant securities would be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.

- (ii) Investments in unlisted Shariah-compliant securities will be valued at the cost price of each investment until the securities of the investee companies are successfully listed on a recognised stock exchange, upon which quoted prices will be available and valuation will be based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.
- (iii) Islamic collective investment schemes which are quoted on an approved exchange shall be valued in the same manner as listed securities as described above. When investing in unlisted Islamic collective investment schemes, the value shall be determined by reference to that

manager's last published repurchase price per unit for that unlisted Islamic collective investment scheme.

- (iv) Exchange traded Islamic financial derivatives positions will be 'marked-to-market' at the close of each trading day.
- (v) Islamic deposits will be valued each day by reference to the principal value of such investments and the profits accrued thereon for the relevant period.
- (vi) Islamic money market instruments will be valued each day based on the accretion of discount or amortisation of premium on a yield to maturity basis.
- (vii) Foreign exchange translation of foreign investments for a particular Business Day is determined based on bid rate quoted by Bloomberg or Reuters at 4:00 p.m. (United Kingdom time) or such other time as may be prescribed from time to time by the relevant laws.

4. FEES, CHARGES AND EXPENSES

The cost to the investor of investing in the Fund is as follows:

4.1 Charges

The charges directly incurred by an investor when purchasing or redeeming Units are as follows:

(a) Sales Charge

The Manager will impose a sales charge which can be levied on an investor's investment amount / purchase amount, net of bank charges (if any) on each Class as follows:

Class	% of investment amount
USD-A1	None.
USD-A	1%.
USD-B	Up to 5%.
RM	Up to 5%.

An investor can expect differing sales charge to be levied when buying Units from the various distribution channels and within each distribution channel for Class USD-B and Class RM, subject to the maximum sales charge stipulated above. This is due to the different levels of services provided by each distribution channel and/or the size of the investment undertaken.

Illustration

If an investor purchased 20,000 Units at the Selling Price of RM 1.0000 for Class RM and 20,000 Units at the Selling Price of USD 1.0000 for Class USD-B from a distributor which levies a sales charge of 5%, he would have paid a sum of RM21,060.00 for Class RM and USD21,060.00 for Class USD-B which is made up of:-

	<u>Class RM</u>	<u>Class USD-B</u>
Investment amount	RM20,000.00	USD20,000.00
Sales charge at 5%	RM1,000.00	USD1,000.00
GST ¹ at 6% of the sales charge	RM60.00	USD60.00
Total amount paid by the investor	<u>RM21,060.00</u>	<u>USD21,060.00</u>

The investor will be allotted with $\frac{\text{RM}20,000.00}{\text{RM}1.0000^2}$ $\frac{\text{USD}20,000.00}{\text{USD}1.0000^2}$
 20,000 Units calculated as follows: $= 20,0000.00 \text{ Units}^3$ $= 20,0000.00 \text{ Units}^3$

Note:

¹The implementation of GST is effective from 1 April 2015 at the rate of 6% and the fees or charges payable is exclusive of GST.

²Unit price is rounded to the nearest 4 decimal places.

³Units computed are rounded to the nearest 2 decimal places.

From the sales charge received from investors, the Manager pays no more than the entire sales charge as mentioned above as selling commission to its distributors for the Fund.

(b) Repurchase Charge

The Manager will not impose any repurchase charge on investors redeeming their investments.

(c) Other Charges

(i) Switching of Units

This is not applicable as there is no switching facility available for the Fund.

(ii) Transfer of Units

USD-A1	Not applicable.
USD-A	Not applicable.
USD-B	USD 5.00 per transfer ¹ .
RM	RM 5.00 per transfer ¹ .

Transfer is allowed for the above Classes (except for Class USD-A1 and Class USD-A). Please refer to section 5.6 (e) for transaction details on any transfer of Units.

¹ The implementation of GST is effective from 1 April 2015 at the rate of 6% and the fees or charges payable is exclusive of GST.

4.2 Fees and Expenses

The fees and expenses indirectly incurred by an investor when investing in the Fund are as follows:

(a) Management Fee

The Manager is entitled to the following applicable management fee rate¹ that is payable for the respective Class based on the Net Asset Value of the respective Class calculated on a daily basis, before deducting the Manager's and Trustee's fees for that particular day:

USD-A1	Up to 0.75% of NAV per annum ¹
USD-A	1.25% of NAV per annum ¹

USD-B	1.80% of NAV per annum ¹
RM	1.80% of NAV per annum ¹

¹ The implementation of GST is effective from 1 April 2015 at the rate of 6% and the fees or charges payable is exclusive of GST.

(b) Trustee's Fee

The Trustee is entitled to a trustee fee¹ of up to zero point zero six per cent (0.06%) per annum of the Net Asset Value of the respective Class, calculated on a daily basis before deducting the Manager's and Trustee's fees for that particular day (excluding foreign custodian fees and charges).

¹ The implementation of GST is effective from 1 April 2015 at the rate of 6% and the fees or charges payable is exclusive of GST.

(c) Other Expenses Directly Related to the Fund

In administering the Fund, there are expenses directly related to the Fund. These expenses include the cost of the auditors' fees and other relevant professional fees, foreign custodial charges, cost of distribution of interim and annual reports, tax certificates, reinvestment statements and other notices to Unit Holders. In addition, there are expenses that are directly related and necessary to the business of the Fund as set out in the Deed, such as commissions or fees paid to brokers, other transaction costs and taxes, if any, that are also paid out of the Fund.

All formation and issue expenses of the Fund pursuant to this prospectus will be borne by the Manager.

4.3 Reduction or Waiver of Fees and Charges

The Manager may, for any reason at any time, waive or reduce the amount of its management fee only or other charges directly payable by the Unit Holder and/or investor in respect of the Fund, either generally (for all Unit Holders of a Class) or specifically (for any particular Unit Holder of a Class) and for any period or periods of time at its absolute discretion.

4.4 Policy on Rebates and Soft Commissions

It is the Manager's policy to credit all rebates to the account of the Fund.

However, goods and services ("soft commissions") provided by any broker or dealer may be retained by the Manager or the fund manager only if the goods and services are of demonstrable benefit to the Unit Holders and in the form of research and advisory services that assist in the decision making process relating to the Fund's investments, such as research materials and computer software, which are incidental to the investment management activities of the Fund and any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund.

4.5 Goods and Services Tax

All fees and charges payable to the Manager and the Trustee are subject to any applicable taxes and/or duties (including but not limited to GST) as may be imposed by the government from time to time.

There are fees and charges involved and investors are advised to consider them before investing in the Fund.

5. TRANSACTION INFORMATION

5.1 Pricing of Units

The Manager adopts a single pricing policy, i.e. the Selling Price and the Repurchase Price is the Net Asset Value per Unit of the respective Class.

5.2 Valuation of Units

The valuation of Units is based on the NAV of the respective Class of Units and is calculated at the end of Business Day. In line with the single pricing policy, the Selling Price and the Repurchase Price will be the Net Asset Value per Unit of the respective Class.

Calculation of Net Asset Value per Unit

The valuation of the Fund is conducted at least once every Business Day. NAV is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at the valuation point.

The valuation of the Fund is in the Base Currency i.e. USD. To determine the NAV of each Class, all the assets and liabilities of each Class will be converted to USD. The Net Asset Value per Unit of each Class will be the NAV attributable to a Class of Units divided by the total number of Units in circulation for that Class, at that valuation point.

5.3 Computation of Selling Price

The Selling Price shall be the Net Asset Value per Unit of the respective Class as at the next valuation point of the Fund's relevant Business Day after the request for Units is received by the Manager ("forward pricing"). A sales charge will be computed separately based on the investment amount / purchase amount, net of bank charges (if any).

If an investor invests RM20,000 and USD20,000 respectively, and purchased Units at the Selling Price of RM0.9899 for Class RM and USD1.8610 for Class USD-B (which is the Net Asset Value per Unit of the respective Class as at the next valuation point); and a distributor levies a sales charge of 5%, he would have paid a sum of RM21,060 for Class RM and USD21,060 for Class USD-B, which is made up of:-

	<u>Class RM</u>	<u>Class USD-B</u>

Total amount paid by the investor	RM21,060.00	USD21,060.00
The investor will be allotted with Units calculated as follows:	<u>RM20,000.00</u> RM0.9899 ²	<u>USD20,000.00</u> USD1.8610 ²
	= 20,204.06 Units ³	= 10,746.91 Units ³

²Unit price is rounded to the nearest 4 decimal places.

³Units computed are rounded to the nearest 2 decimal places.

5.4 Computation of Repurchase Price

The Repurchase Price shall be the Net Asset Value per Unit of the respective Class as at the next valuation point of the Fund's relevant Business Day after the request for Units is received by the Manager ("forward pricing"). The Manager does not charge any repurchase charge for this Fund.

Illustration

If an investor makes a redemption of RM20,000 and USD20,000 he would receive proceeds of redemption as follows:

	<u>Class RM</u>	<u>Class USD-B</u>
Redemption amount	RM20,000.00	USD20,000.00
Less: repurchase charge	Nil	Nil
Net amount payable to the investor	<u>RM20,000.00</u>	<u>USD20,000.00</u>

5.5 Pricing Error Policy

The Manager shall ensure that the Fund and the Units are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation of the Fund, any incorrect pricing of Units which is deemed to be significant will involve the reimbursement of money in the following manner:

- (a) by the Manager to the Fund, and/or to the Unit Holders and/or to the former Unit Holders; or
- (b) by the Fund to the Manager.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the Net Asset Value per Unit of the respective Class and the amount to be reimbursed is equivalent to RM10.00 (or its equivalent in foreign currencies) or more.

5.6 Transaction Details

All transactions in USD denominated Classes are to be settled in USD via bank transfers. This is applicable to investors investing in Class USD-A1, Class USD-A and Class USD-B whereas investors investing in RM Class will be required to settle in RM.

(a) How to Purchase and Redeem Units

When purchasing Units, investors must forward the following:

- 1) completed account application form and purchase/switch form;
- 2) necessary remittance; and
- 3) relevant supporting documents such as a photocopy of their identity card (for an individual applicant) or certified true copies of the certificate of incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant)

to the Manager's registered office or any of its branches, or to any of its authorized sales agents or participating institutional unit trust advisers (IUTAs) before their respective cut-off times.

The minimum initial investment and the minimum additional investment of this Fund for the respective Classes are as follows:

Class	Minimum initial investment	Minimum additional investment
USD-A1	USD5,000,000.00	USD1,000,000.00
USD-A	USD500,000.00	USD250,000.00
USD-B	USD1,000.00	USD 100.00
RM	RM1,000.00	RM100.00

However, the Manager may from time to time accept such other amount as it deems fit and appropriate.

Similarly, Units can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered office or any of its branches, or to any of its authorized sales agents or participating IUTAs on any day other than Saturdays, Sundays and public holidays before their respective cut-off times. All redemption requests will be processed in accordance with the redemption conditions for the Fund.

For partial redemption, the balance of Units after the redemption must be at least one thousand (1,000) Units or such other lower quantity as the Manager may from time to time accept (the "minimum investment balance"). There are no restrictions on the number of Units a Unit Holder can redeem out of his investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of Units if the balance of Units held after the redemption is less than the minimum investment balance.

(b) Cooling-off Period

The cooling-off right refers to the right of an individual investor to obtain a refund of the investor's investment if the investor so requests within the cooling-off period. The cooling-off right is only given to an individual investor, other than those listed below, who is investing in any unit trust fund managed by the Manager for the first time:

- (i) a staff of the Manager; or
- (ii) a person registered with a body approved by the SC to deal in unit trust funds.

The refund to the investor pursuant to the exercise of the investor's cooling-off right shall not be less than the sum of:

- a) the Selling Price on the day the Units were purchased; and
- b) the sales charge originally imposed on the day the Units were purchased.

The cooling-off period shall be within six (6) business days[#] which shall be effective from the date of receipt of the application by the Manager.

[#] These are the working days when the Manager is open for business.

The cooling-off right allows investors the opportunity to reverse an investment decision which could have been unduly influenced by certain external elements or factors.

Withdrawal proceeds will only be paid to the investors once the Manager has received cleared funds for the original investment. For investors who paid by cheque, the refund will be made upon clearance of the cheque.

(c) Where Units can be Purchased or Redeemed

Units can be purchased from the Manager's registered/principal office or from participating IUTAs and any other authorized distributors. Any redemption of Units can be forwarded to the Manager's participating IUTAs. For further information, please call us at 03-9205 8000 at any time during our office hours: Mondays through Fridays from 9.00 a.m. – 5.00 p.m. Alternatively, investors may e-mail their enquiries to rhbiiaa.enquiry@rhbgroup.com.

Application forms, redemption forms and the prospectus are also available from these distributors.

(d) How to Switch between Funds

Switching facility is not available for this Fund.

(e) How to Transfer Ownership of Units

Where allowed, investors may transfer their holdings of Units to another investor by forwarding the completed form of transfer to the Manager's registered/principal office, or participating IUTAs before their respective cut-off times.

If the transferee is a new investor, he must also forward the following:

- 1) completed application form; and
- 2) relevant supporting documents such as a photocopy of his identity card (for an individual applicant) or certified true copies of the certificate of incorporation or registration, memorandum and articles of association or constitution or by-laws, and relevant resolutions (for a corporate applicant).

However, the Manager may decline to register any partial transfer of Units if the registration would result in the transferor or the transferee holding less than one thousand (1000) Units or such other lower quantity as the Manager may from time to time decide (the minimum investment balance). The Manager may also refuse an entry of transfer during the fourteen (14) days preceding an income distribution date.

(f) Unclaimed Monies

All money payable to a Unit Holder may be paid by cheques. Dear Sirs

Re: Taxation of the Fund and Unit Holders

This letter has been prepared for inclusion in the prospectus dated 26 April 2017 in connection with the offer of units in the RHB Islamic ASEAN Megatrend Fund ("the Fund"):-

Taxation of the Fund

Income Tax

The Fund is treated as a unit trust for Malaysian tax purposes. The taxation of the Fund is therefore governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 ("the Act").

Any reference to interest in the Act shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

Subject to certain exemptions, the income of the Fund in respect of investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24% with effect from Year of Assessment ("YA") 2016. It is proposed in the 2017 Budget that the reduction in income tax ranging from 1% to 4% be given for YA 2017 and YA 2018 based on the percentage of increase in the chargeable income as compared to the immediate preceding YA.

Investment income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments (whether local or foreign) by the Fund will not be subject to tax in Malaysia.

Any income received by the Fund from a Sukuk Issue which has been issued by the Malaysia Global Sukuk Inc will be exempt from tax.

Any income received by the Fund from a Sukuk Ijarah, other than convertible loan stock, issued in any currency by 1Malaysia Sukuk Global Berhad will be exempt from tax.

Discounts earned by the Fund from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government of Malaysia; or
- debentures or sukuks, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Deductions in respect of the Fund's expenses such as manager's remuneration, maintenance of a register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage are generally allowed based on a prescribed formula subject to a minimum of 10 percent and a maximum of 25 percent of the total of these expenses.

Single-tier Malaysian dividends received by the Fund are exempted from tax and expenses incurred by the Fund in relation to dividend income (which is paid or credited under the single-tier system) are disregarded.

Gains or profits earned by the Fund from the following are exempt from tax:-

- any savings certificates issued by the Government of Malaysia; or
- securities or bonds issued or guaranteed by the Government of Malaysia; or
- debentures or sukuks, other than convertible loan stock, approved or authorised by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013¹; or
- any development financial institution regulated under the Development Financial Institutions Act 2002¹; or
- Sukuks originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorised by, or lodged with, the Securities Commission ("SC") or approved by the Labuan Financial Services Authority²; or

Note 1: Effective from YA 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with criteria as set out in the relevant guidelines of the Securities Commission.

Note 2: With effect from YA 2017, the income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions.

- A Sukuk Wakala, other than a convertible loan stock, issued in any currency by Wakala Global Sukuk Berhad; or
- A Sukuk Wakala issued in accordance with the principle of Wakala Bil Istithmar with the nominal value of up to one billion and five hundred million United States Dollars, other than a convertible loan stock, issued by the Malaysia Sovereign Sukuk Berhad.
- A Sukuk Wakala issued in accordance with the principle of Wakala with the nominal value up to one billion and five hundred million United States Dollars, other than convertible loan stock, issued by the Malaysia Sukuk Global Berhad (formerly known as 1Malaysia Sukuk Global Berhad).

Real Property Gains Tax (“RPGT”)

Gains on disposal of investments by the Fund will generally not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from the sale of Malaysian real properties or shares in Malaysian real property companies (as defined). The gains on the disposal of the chargeable assets would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

Goods and Services Tax (“GST”)

GST has been implemented in Malaysia with effect from 1 April 2015, at a standard rate of 6%. It replaced the Sales Tax and Service Tax.

The issue, holding or redemption of any unit under a trust fund is regarded as an exempt supply. The investment activities of the Fund such as buying and selling of securities are exempt supplies and thus not subject to GST. Thus, if the Fund is only making exempt supplies, it is not required to be registered for GST.

However, certain expenses incurred by the Fund such as fund manager’s fees, trustee fees and professional fees will be subject to GST if the service providers are GST registered. If the Fund is only making exempt supplies (and thus not GST registered), any input tax incurred by the Fund for the aforementioned expenses are not claimable.

Taxation of Unit Holders

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Fund, to the extent that this is distributed to them. The income distribution from the Fund may carry with it applicable tax credits proportionate to each unit holder’s share of the total taxable income in respect of the tax paid by the Fund. Unit holders will be entitled to utilise the tax credit as a set-off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders. No other withholding taxes will be imposed on the income distribution of the Fund.

With effect from YA 2016, corporate unit holders (resident or non resident in Malaysia), will be taxed at the corporate tax rate of 24%, on distributions of income from the Fund to the extent of an amount equivalent to their share of the total taxable income of the Fund. Resident corporate unit holders whose paid-up capital in the form of ordinary shares does not exceed RM2.5 million will be subject to a tax rate of 19% (effective from YA 2016) on chargeable income of up to RM500,000. The tax rate of 19% will be reduced to 18% with effect from YA 2017.

For chargeable income in excess of RM500,000, the tax rate of 24% (effective from YA 2016) is still applicable. However, the said tax rate of 19% on chargeable income of up to RM500,000 will not apply if more than 50% of the paid up capital in respect of ordinary shares of that company is directly

or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company. In the Budget 2017, it is proposed that the tax rate of 24% will be reduced from 1% to 4% for YA 2017 and YA 2018 based on the percentage of increase in the chargeable income as compared to the immediate preceding YA.

Individuals and other non-corporate unit holders who are resident in Malaysia are generally subject to income tax at scaled rates. The scaled tax rates range from 0% to 28% with effect from YA 2016.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, will be subject to Malaysian income tax at the rate of 28% with effect from YA 2016. Non resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

The distribution of single-tier dividends and other tax exempt income by the Fund will be exempted from tax in the hands of the unit holders in Malaysia. Distribution of foreign income will also be exempted from tax in the hands of the unit holders.

Units split by the Fund will be exempted from tax in Malaysia in the hands of the unit holders.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfers or redemptions of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

The following gains or income received by the unit holders are not subject to GST:-

- the distribution of income from the Fund to the unit holders which may comprise of dividends, interest income and gain from realisation of investments;
- distribution of foreign income from the Fund;
- unit split by the Fund and reinvestment of distribution; and
- gain made from selling or redemption of units.

However, the following expenses incurred by the unit holders should be subject to GST if the supplier is GST registered:-

- any fee based charges in relation to buying of the units such as sales charge; and
- switching and transfer charges for switching or transferring the units.

The tax position is based on our understanding and interpretation of the Malaysian tax laws and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

Ong Guan Heng
Executive Director

**UNIT TRUST LOAN FINANCING
RISK DISCLOSURE STATEMENT**

Investing in a Unit Trust Fund with Borrowed Money / Financing Is More Risky than
Investing with Your Own Savings

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

- (i) The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the potential for loss or gain on your investment.
- (ii) You should assess whether you have the ability to service the repayments on the proposed loan/financing. If your loan/financing is a variable rate loan/financing, and if interest rates/profit rise, your total repayment amount will be increased.
- (iii) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan/financing.
- (iv) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take the loan/financing. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan/financing.

- I/We shall procure any third party that processes Disclosed Data for or on behalf of me/us to agree in writing to the same terms that I/We agree in line with the Act and in this declaration.
- I/We shall immediately notify the Manager in the event of any claim or complaint from any data subject of Disclosed Data and/or where there has been an event of non-compliance with the Act by me/us, whether discovered by me/us or forming the subject of an investigation and/or action by the relevant authorities.
- I/We shall indemnify RHB Banking Group against all proceedings, costs, expenses, liabilities or damages arising from my/our failure to comply with the Act with respect to Disclosed Data and the terms of this declaration.
