PRODUCT HIGHLIGHTS SHEET

This Product Highlights Sheet only highlights the key features and risks of RHB Islamic Cash Management Fund. Investors are advised to request, read and understand the Fund’s prevailing prospectus and its supplementary(ies) (if any) before deciding to invest.

Name of Fund	RHB Islamic Cash Management Fund (“Fund”).	Fund Category	Money market (Shariah-compliant) fund.
Manager	RHB Asset Management Sdn Bhd.	Launch Date	30 June 2008.
Trustee	HSBC (Malaysia) Trustee Berhad.	Financial Year End	30 November.
External Investment Manager	RHB Islamic International Asset Management Berhad.		

PRODUCT SUITABILITY

This Fund is suitable for investors wanting to earn returns higher than savings deposits while maintaining a high degree of liquidity.

KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

Aims to provide liquidity and a regular stream of income by investing in Shariah-compliant money market instruments.

INVESTMENT STRATEGY

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- At least 90% of Net Asset Value (“NAV”) invested into Islamic money market instruments and Islamic deposits with licensed financial institutions that are not more than 365 days maturity.
- Up to 10% of NAV invested in Islamic money market instruments and Islamic deposits with licensed financial institutions that is more than 365 days but fewer than 732 days maturity.

The Fund is an Islamic money market fund whose investment strategy is to invest in a diversified portfolio of short term Islamic money market instruments and Islamic deposits with financial institutions. Although the Fund is actively managed, any such trading strategy will depend on the market opportunities and the anticipated redemption requests by the unit holders of the Fund (“Unit Holder(s”).

The minimum credit rating for the rated instruments to be invested by the Fund will be “A” by Malaysian Rating Corporation Berhad or equivalent rating by any other similar rating agencies. In the event of a credit downgrade of a particular instrument below the minimum stipulated, the External Investment Manager will endeavour to take the necessary steps to divest that instrument within a time frame deemed reasonable by the External Investment Manager. However, in order to best protect the interests of the Fund, the External Investment Manager has the discretion to take into consideration all relevant factors that affect the value of the investment before deciding on the manner and time frame of its liquidation.

The risk management strategies and techniques employed by the External Investment Manager include diversification of the Fund’s assets allocation in terms of its exposure to various classes and/or type of investment. The permitted investments and restrictions imposed by the Securities Commission also provide a risk management framework. Moreover, the External Investment Manager in making its investment decisions shall at all times comply with the investment restrictions, requirements as set out in the Deed and the principles of the Shariah. The Fund’s investment strategy takes into consideration the direct correlation between risk and return for any investment alternative. The Fund’s investment strategy requires the investment committee to:

- employ strategies for maximum capital protection[#] through diversification and risk acceptance strategies for optimal return on investment;
- oversee the asset allocation between various forms of investments made to meet the investment objectives of the Fund; and
- review the investment results on a monthly basis against the performance of benchmark indices.

Note: [#]Although the Fund’s investment strategy requires the investment committee to employ strategies for maximum capital protection, the Fund is not a capital guaranteed fund or a capital protected fund.

Results will be evaluated on a total rate of return basis. The investment committee also evaluates the Fund for compliance with its investment objective.

The above investment strategy of the Fund may be varied by the fund manager with the approval of the investment committee of the Fund from time to time with the knowledge of the Trustee. Such variation in investment strategy may be short term in nature and shall be regularized within three (3) months. The reason for such variation may be due to large redemptions or adverse mark-to-market valuation on the money market instruments. Depending on the prevailing circumstances, the Fund will adopt a suitable level of activeness and frequency in trading for

the purpose of meeting the Fund's objective.

To mitigate the risks confronting the Fund, the External Investment Manager will, amongst other things:

- constantly monitor market liquidity and pricing;
- adhere to the Fund's objectives and investment restrictions and limits; and
- constantly liaise with the investment committee of the Fund and follow the advice from the investment committee of the Fund.

BENCHMARK

Maybank Islamic Berhad's 1-month Islamic Fixed Deposit-i rate.

DISTRIBUTION

DISTRIBUTION POLICY - Income is paid monthly, depending on the level of income (if any) the Fund generates.

DISTRIBUTION MODE - Distribution (if any) will be automatically paid out to the Unit Holders via cheque, unless the Unit Holder specifically requests for the distribution to be reinvested into the Fund by selecting the appropriate option in the application form. Unit Holders who opt for their distribution to be reinvested into the Fund will have their distribution reinvested into the Fund based on the NAV per unit of the Business Day** on which the distribution is declared. No Sales Charge or costs shall be incurred or payable by the Unit Holders for the reinvestment.

Note: Distribution (if any) which is less than or equal to the amount of RM1.00, will be automatically reinvested into the Fund based on the NAV per unit seven (7) Business Days** after the ex-dividend date. No Sales Charge or costs shall be incurred or payable by the Unit Holders for the reinvestment.

** Note: Business Day refers to a day on which either the Bursa Malaysia is open for trading or banks in Kuala Lumpur are open for business.

KEY RISKS

INTEREST RATE RISK - Interest rate risk is crucial in this Fund since Islamic money market instruments and Islamic deposits portfolio management depends on forecasting interest rate movements. Even though the Fund does not invest in interest bearing instruments, the interest rate referred herein is to the general interest rate of the country which may affect the value of the investment of the Fund. The interest rate risk here refers to the general interest rate risk of the country which may affect the value of investment even if the Fund does not invest in interest bearing instruments.

CREDIT AND DEFAULT RISK - This risk refers to the possibility that the issuer of a particular investment will not be able to make timely or full payments of principal or income due on that investment. In the case of the Fund, the Manager will endeavour to mitigate this risk by selecting only issuers with prescribed and acceptable credit ratings. The minimum credit rating for rated instruments to be invested by the Fund shall be "A" by Malaysian Rating Corporation Berhad or equivalent rating by any other similar rating agencies. In the event of a credit downgrade of a particular instrument below the minimum stipulated, the Manager will endeavour to take the necessary steps to divest that instrument within a time frame deemed reasonable by the Manager. However, in order to best protect the interests of the Fund, the Manager has the discretion to take into consideration all relevant factors that affect the value of the investment before deciding on the manner and time frame of its liquidation.

INFLATION RISK - Inflation reduces the purchasing power of money. Therefore, in an inflationary environment, there is a possibility that income from Islamic money market instruments and Islamic deposits may not be able to keep up with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

SHARIAH SPECIFIC RISK - The risk that the investments do not conform to the principle of Shariah may result in those investments being not Shariah-compliant. Should the situation arise, the Manager will need to take the necessary steps to dispose of such investments in accordance with the rules of divestment of non Shariah-compliant investments. If this occurs, the Fund could suffer losses from the disposal and thus, adversely affecting the value of the Fund.

VALUATIONS AND EXITING FROM INVESTMENT

VALUATION OF ASSETS

The Fund must be valued at least once every Business Day**. Accordingly, the valuation of the Fund for a Business Day** will be conducted at the close of Bursa Malaysia for that Business Day**. Thus, the daily price of the Fund for a particular Business Day** will be published in the major newspapers on the next day. Investors may obtain the most current computed price by contacting the Manager directly or visiting our website, www.rhbgroup.com.

** Note: Business Day refers to a day on which either the Bursa Malaysia is open for trading or banks in Kuala Lumpur are open for business.

EXITING FROM THIS INVESTMENT

Units of the Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branch offices, or to any of its participating Institutional Unit Trust Advisers (IUTAs) or to any other authorised distributors before their respective cut-off times. The Manager does not impose any minimum amount for any repurchase transaction but subject to the minimum holding requirement. There are no restrictions on the number of units of the Fund a Unit Holder can redeem out of his investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of units if the balance of units held after the redemption is less than one hundred thousand (100,000) units for an institutional investor or less than fifty thousands (50,000) units for a retail investor or such other quantity as the Manager may from time to time decide (the "minimum holding"). For the avoidance of doubt, the Manager will deem an automatic request for a full repurchase of units to have been made by the Unit Holder should a request for partial redemption leave the balance of units held after the redemption less than the applicable minimum holding. Unit Holders may receive the repurchase proceeds on the following Business Day** upon receipt of the duly completed repurchase forms by the Manager. For EPF Unit Holders, the repurchase proceeds will be remitted to KWSP by crediting into the members' provident account.
