### PRODUCT SUITABILITY

This Fund is suitable for investors who:

- (i) wish to participate in the potential and investment opportunities in Shariah-compliant securities of the fast growing ASEAN economies; and
- (ii) are willing to accept higher risk in their investments in order to achieve medium to long term\* capital growth.

### KEY PRODUCT FEATURES

#### INVESTMENT OBJECTIVE

This Fund aims to achieve medium to long term\* capital appreciation through investments in Shariah-compliant securities of companies with high growth potential.

\*Note: "medium to long term" in this context refers to a period between 3 - 7 years.

#### INVESTMENT STRATEGY

The Fund seeks to achieve its investment objective by investing primarily<sup>^</sup> in the Shariah-compliant securities of companies that are expected to benefit from the on-going development and growth of the ASEAN region (i.e. Malaysia, Singapore, Thailand, Philippines, Indonesia, Vietnam, Myanmar, Cambodia, Laos and Brunei) and opportunistically<sup>^</sup> from the on-going development and growth in Asia (i.e. India, China, Hong Kong, South Korea, Taiwan and Japan). In managing the Fund, the Manager will seek out companies that are exposed to the key development and growth trends that the Manager identifies as drivers of business and security markets performance.

<sup>^</sup> "primarily" refers to at least 70% of Net Asset Value Value ("NAV") in the securities of companies that are expected to benefit from the on-going development and growth of the ASEAN region and "opportunistically" means investing up to 30% of NAV in the securities of companies which are exposed to the investment themes identified by the Manager that influence the performance of the Asian capital markets.

This Fund's portfolio will be structured as follows:

70% - 98% of NAV - Investments in Shariah-compliant equities and equity related securities.

2% - 30% of NAV - Investments in liquid assets including Islamic money market instruments and Islamic deposits with financial institutions.

#### BENCHMARK

FTSE Shariah ASEAN Index (Islamic).

#### DISTRIBUTION

**DISTRIBUTION POLICY** - Subject to the availability of income, distribution, if any will be declared annually.

**DISTRIBUTION MODE** - Distribution, if any, after deduction of taxation and expenses (i.e. net distribution), will be reinvested to purchase additional units based on the NAV per unit as at the second Business Day when units are quoted ex-entitlement. Allotment of such units shall be within two (2) weeks thereafter.

## KEY RISKS

**RESTRICTIVE GEOGRAPHICAL MARKET RISK** - As the Fund will invest in Shariah-compliant securities issued by companies whose businesses are in ASEAN and Asian countries, it may be subject to a higher level of risk than an equities portfolio which is not restricted to a particular geographical region or market. Thus, there is a risk that the Fund will perform poorly during an economic downturn or in the event of adverse news affecting the said region or market.

**EQUITY RISK** - The performance of the Shariah-compliant equities held by the Fund is dependent on company specific factors like the company's business situation. If the company-specific factors deteriorate, the price of the specific equity may drop significantly and permanently. Such event could possibly occur even in a positive equity market trend. The risk will be managed via portfolio diversification of the Fund's investments in terms of its exposure to equity from various industries, sectors and countries. In addition, where necessary, exposure to a particular equity will also be reduced in the event of an anticipated weakness in that particular equity.

**FOREIGN INVESTMENT RISKS SUCH AS CURRENCY RISK AND COUNTRY RISK** - Currency risk is associated with investments that are quoted in foreign currency denomination. When a security is denominated in a currency which fluctuates unfavorably against the Fund's base currency and/or the currency denomination of the respective Classes, the investment in the Fund may face currency loss in addition to the capital gains or losses. This may lead to a lower NAV. As the Fund will be investing in foreign markets, the foreign investments portion of the Fund may be affected by risks specific to the country that the Fund invests in. Such risks include changes in the country's economic fundamentals, social and political stability, currency movements and foreign investments policies. These factors may impact the prices of the securities that the Fund invests in and ultimately lower the NAV. Further, there are countries which may require prior approvals before investments can be made in such countries. For example, if and when the Fund invests in countries such as China, Taiwan, South Korea and India, such countries require the application of an investment licence or registration of an investor code before investments can be made in these countries. As such, if investments in such countries are undertaken, there may be a risk that such registration or licence may be revoked or not renewed by the relevant authority and the Fund's investments in these countries may be affected. The effect on the Fund's investments will depend on the regulatory requirements of the respective countries. For example, if a country requires the Fund to obtain an investment licence which is subject to renewal and if such investment licence is not renewed in a timely manner, this may result in the Fund's investment account in that country being frozen by the regulator resulting in investment activities for the Fund in that country being suspended. To mitigate this, the Manager will monitor closely the adherence of investment regulatory requirements in such countries.

**RECLASSIFICATION OF SHARIAH STATUS RISK** - This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such equities in accordance with the Fund's Shariah investment guidelines.

**EQUITY RELATED SECURITIES RISK** - The Fund may also invest in equity related securities such as warrants provided that the underlying securities comply with Shariah requirements. As warrants are linked to the particular equity securities from which they are derived, the warrants inherit the risks linked to that underlying equity security such as market risk, currency risk, country risk, industry risk and liquidity risk. Thus, the value of the investments in warrants is also subject to the day to day movement in the prices of their underlying equity securities. Warrants also have a limited life and if they are not exercised at the maturity, they will expire. Warrants become worthless if they are not exercised before maturity, causing the value of the Fund's investments to fall. Like any other investments, the fall in the value of the Fund's investments will ultimately lower the NAV.

## VALUATIONS AND EXITING FROM INVESTMENT

### VALUATION OF ASSETS

The assets of the Fund must be valued at least once every Business Day. As certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia, the valuation of the Fund for a Business Day will be conducted by 5:00 p.m. (or such other time as may be determined by the Manager from time to time) on the following day in which the Manager is open for business.

Accordingly, the price of the Fund for a particular Business Day will not be published in the major newspapers on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated in the major newspapers. Investors may obtain the most current computed price by contacting the Manager directly at 03-9205 8000.

### EXITING FROM THIS INVESTMENT

The repurchase price shall be the NAV per unit of the respective Class as at the next valuation point of the Fund's relevant Business Day after the request for units is received by the Manager ("forward pricing"). The Manager does not charge any repurchase charge for this Fund.

For partial redemption, the balance of units after the redemption must be at least one thousand (1,000) units or such other lower quantity as the Manager may from time to time accept (the "minimum investment balance"). There are no restrictions on the number of units a Unit Holder can redeem out of his investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of units if the balance of units held after the redemption is less than the minimum investment balance.

Units can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its authorized sales agents or participating IUTAs on any day other than Saturdays, Sundays and public holidays before their respective cut-off times.

Redemption monies to be paid within ten (10) days after receipt by the Manager of the request to repurchase.
