PRODUCT SUITABILITY

This Fund is suitable for investors who:

- (i) wish to participate in the high growth potential economies in the Asia ex-Japan region; and
- (ii) have an aggressive risk appetite in their Islamic investments.

KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

The Fund aims to achieve medium to long-term* capital appreciation by investing in Shariah-compliant equities and Shariah-compliant equity related securities.

Note: *"medium to long term" in this context refers to a period of between 3 - 7 years.

INVESTMENT STRATEGY

The Fund seeks to achieve its investment objective by investing in the Shariah-compliant securities of companies that are expected to benefit directly or indirectly from the on-going development and growth in the Asia ex-Japan region.

The Fund's portfolio will be structured as follows:

- 70% to 100% of Net Asset Value ("NAV") - Investments in Shariah-compliant equities and Shariah-compliant equities related securities¹.

The balance of the Fund's NAV may be invested in Islamic liquid assets including Islamic money market instruments, Islamic deposits with Islamic financial institutions and Islamic collective investment schemes.

¹ These are Shariah-compliant warrants and convertibles that are capable of being converted into new shares.

Provided always the above asset allocation is maintained, the range of the Fund's asset allocation will be reviewed from time to time depending on the judgement of the Manager as to the general market and economic conditions. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund may invest up to 100% of NAV in Shariah-compliant equities (such as equities, equity related securities, real estate investment trusts ("REITS") and exchange traded funds ("ETFs")) listed on or traded in Asia ex-Japan markets (including but without limitation, Malaysia, China, Hong Kong, India, Indonesia, South Korea, the Philippines, Singapore, Taiwan, Thailand) including Shariah-compliant securities of Asia ex-Japan companies[^] that are listed on or traded in non-Asia ex-Japan markets.

[^] These are companies with revenues derived from Asia ex-Japan countries and/or have business operations located in Asia ex-Japan countries.

The Fund may also invest in Islamic depository receipts [including American Depository Receipts (ADRs) and Global Depository Receipts (GDRs)] and Islamic preference shares.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors, countries and asset classes and/or type of investments (i.e. Shariah-compliant equities and Islamic money market instruments). The Manager may participate in Islamic financial derivatives for currency hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced following a prolonged rise in equity values and the other available alternative investment may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the SC. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration the reference benchmark as well as its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's NAV into other asset classes such as Islamic money market instruments, Islamic deposits with Islamic financial institutions, which are defensive in nature and comply with Shariah requirements.

BENCHMARK

The performance of this Fund is benchmarked against the FTSE Shariah Asia-Pacific ex Japan, Australia and New Zealand Index.

DISTRIBUTION

DISTRIBUTION POLICY – Distribution is incidental, subject to the availability of income at the end of the financial year.

DISTRIBUTION MODE - Distribution, if any, after deduction of taxation and expenses (i.e. net distributions), will be reinvested to purchase additional units based on the NAV per unit as at the second Business Day when units of the Fund are quoted ex-entitlement. Allotment of such units of the Fund shall be within two (2) weeks thereafter.

KEY RISKS

COUNTRY RISK - The Fund will be investing in foreign markets. The foreign investments portion of the Fund may be affected by risks specific to the country that the Fund invests in. Such risks include changes in the country's economic fundamentals, social and political stability, currency movements and foreign investments policies. These factors may impact the prices of the securities that the Fund invests in and ultimately lower the NAV.

CURRENCY RISK - This risk is associated with investments that are quoted in foreign currency denomination. When a security is denominated in a foreign currency which fluctuates unfavourably against the RM, the Fund may face currency loss. This may lead to a lower NAV expressed in RM. In addition, an investor investing into a class denominated in currencies other than in RM may also be subject to further currency risk as fluctuation to the exchange rate of the respective currency of that class against RM may impact the value of the NAV per unit expressed in the currency of the relevant class. The Fund may participate in Islamic currency hedging instruments to mitigate the currency risk, if necessary.

MARKET RISK - The economic and political conditions in developing and emerging markets differ from those in developed markets and offer less social, political and economic stability as compared to developed markets. Other risks in developing and emerging markets that can adversely impact the Fund may include: investment and repatriation restrictions, the potential for unusual volatility in developing and emerging markets is higher as compared to more industrialised nations, limited information to the investors and less stringent disclosure requirements, shallow and substantially smaller liquid securities markets than in more industrialised nations resulting in illiquid securities markets, certain local tax law considerations that may negatively impact the Fund's investment, limited regulation of the securities markets and the possibility of limited legal recourse for the Fund and the custodial and/or the settlement systems may not be fully developed. These risks are likely to exist to a greater or lesser degree in some of the markets that the Fund may invest in.

PARTICULAR SECURITY RISK - The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The success and failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities will cause the Fund's unit price to rise or fall accordingly.

RECLASSIFICATION OF SHARIAH STATUS RISK - This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such equities in accordance with the Fund's Shariah investment guidelines.

VALUATIONS AND EXITING FROM INVESTMENT

VALUATION OF ASSETS

The assets of the Fund must be valued at least once every Business Day, except during the Fund's initial offer period. As certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia, the valuation of the Fund for a Business Day will be conducted by 5:00 p.m. (or such other time as may be determined by the Manager from time to time) on the following day in which the Manager is open for business.

Accordingly, the price of the Fund for a particular Business Day will not be published in the major newspapers on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated in the major newspapers.

Investors may obtain the most current computed price by contacting the Manager at 03-9205 8000.

EXITING FROM THIS INVESTMENT

During the Fund's initial offer period, the repurchase price is fixed at the initial offer price of the RM class during the Fund's initial offer period of the RM class. After the Fund's initial offer period, the repurchase price shall be the NAV per unit of the RM class as at the next valuation point of the Fund's relevant Business Day after the request for repurchase is received by the Manager ("forward pricing"). The Manager does not charge any repurchase charge for this Fund.

For partial redemption, the balance of units after the redemption must be at least nine hundred (900) units or such other lower quantity as the Manager may from time to time accept (the "minimum investment balance"). There are no restrictions on the number of units a Unit Holder can redeem out of his investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of units if the balance of units held after the redemption is less than the minimum investment balance.

Units can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branch offices, or to any of its participating IUTAs or any other authorized distributors on any day other than Saturdays, Sundays and public holidays before their respective cut-off times. All redemption requests will be processed in accordance with the redemption conditions for the Fund. Redemption monies will be paid within ten (10) days after receipt by the Manager of the request to repurchase.
