The Securities Commission Malaysia makes no representation on the accuracy or completeness of this Product Highlights Sheet, and expressly disclaims any liability whatsoever arising from, or in reliance upon, the whole or any part of its contents.

PRODUCT HIGHLIGHTS SHEET

This Product Highlights Sheet only highlights the key features and risks of this unlisted capital market product. Investors are advised to request, read and understand the disclosure documents before deciding to invest.

BRIEF INFORMATION ON THE PRODUCT

1. What Is This Product About?

| | |
|---------------------|---|
| Product Type | Unlisted unit trust fund (open-ended) |
| Manager | Pacific Mutual Fund Bhd (336059-U) |
| Trustee | a) HSBC (Malaysia) Trustee Berhad (1281-T) (up to 30 September 2017) b) CIMB Commerce Trustee Berhad (313031-A) (effective 1 October 2017) |

PRODUCT SUITABILITY

2. Who Is This Product Suitable For?

An investor who is seeking capital growth and some income[□] over the medium to long term by investing in a globally diversified portfolio.

[□] *Income is in reference to the Fund's distribution, which could be in the form of cash or units.*

Unit prices and distributions payable, if any, may go down as well as up. The investor may not get back the full amount invested and the principal amount invested may be at risk.

KEY PRODUCT FEATURES

3. (a) What Am I Investing In?

| | |
|---------------------------|---|
| Fund Category | Equity |
| Fund Type | Growth and income |
| Base Currency | Ringgit Malaysia (RM) |
| Distribution | Investors may receive unit splits or income distribution once a year, but these are incidental. |
| Financial Year End | 30 September |
| Issuance Date | 20 July 2006 |
| Issuance Price | RM0.5000 |

INVESTMENT OBJECTIVE

The Fund aims to provide capital growth and some income[□] in the medium to long term by investing in a portfolio of global securities.

[□] *Income is in reference to the Fund's distribution, which could be in the form of cash or units.*

INVESTMENT POLICY AND STRATEGY

The Fund will invest in a diversified portfolio of Malaysian and foreign securities that consist of fixed income securities and money market instruments as well as equities and equity-related securities and collective investment schemes.

The Fund will invest in a portfolio of global securities that have good growth potential. From an equities universe that may meet the Fund's objective, we will undertake a broad-based analysis and classify them into the following before undertaking further analysis:

- **Strongly outperform:** Total return of the Fund is expected to outperform the total return of a relevant benchmark, by a wide margin over the coming 12 months, with shares rising in price on an absolute basis.
- **Outperform:** Total return of the Fund is expected to outperform the total return of a relevant benchmark over the coming 12 months, with shares rising in price on an absolute basis.
- **Neutral:** Total return of the Fund is expected to closely approximate the total return of a relevant benchmark over the coming 12 months, with shares generally rising in price on an absolute basis.
- **Underperform:** Total return of the Fund is expected to underperform the total return of a relevant benchmark over the coming 12 months, and the share price is not anticipated to show a gain.
- **Strongly underperform:** Total return of the Fund is expected to underperform the total return of a relevant benchmark by a wide margin over the coming 12 months, with shares falling in price on an absolute basis.

Equities that we consider as 'strongly outperform' and 'outperform' have historically provided favourable performance compared to market returns as measured by the relevant benchmarks for US, Europe and Asia. Hence, the Manager believes the Fund's investment objectives may be met by investing in such equities. However, no assurance can be given that this will be the case or that the Fund's investment objective will be met.

The Manager will place strong emphasis on bottom-up investing strategy, focusing on selecting equities with good growth potential that are available at a reasonable price and adding an overlay of tactical asset allocation. Broad economic issues, geographic exposures and sector and industry weightings will be considered in the construction of the Fund's portfolio, as a secondary emphasis.

The Fund may invest in equities and equity-related securities including preference shares, rights issues, warrants or covered warrants, convertible loan stocks, equity options or futures, depository receipts e.g. American Depository Receipts (ADR) or American Depository Shares (ADS), Thai Non-Voting Depository Receipts (NVDR), and listed structured products e.g. equity linked notes and index linked notes.

While the Fund invests 70% to 100% of its NAV in equity and equity-related securities, the Fund may invest the balance of its NAV that is not invested in equity and equity-related securities in the following securities/instruments:

- Fixed income.
- Collective investment scheme, exchange traded fund (ETF) and real estate investment trusts (REITs).
- Structured products such as bond linked notes, currency linked notes, interest rate linked notes, commodity (contracts) linked notes and credit linked notes.
- Money market/liquid assets.

The Fund is actively managed by the Manager to optimise returns and minimise risk to investors.

Asset Allocation

The Fund may invest up to 100% (minimum equity allocation is 70%) of its NAV in equities and equity-related securities listed on any major global stock exchange but this may be reviewed from time to time depending on the economic and stock market conditions. An internal allocation for cash and other liquid assets will be maintained to ensure that the Fund is able to meet redemption requests without jeopardising the Fund's performance.

While the maximum limit for equity investments is 100% of the Fund's NAV, actual asset allocation varies according to our investment outlook and investment strategies after taking into consideration the prevailing market conditions.

In the event of exceptional circumstances where equities markets are forecast to have protracted or extreme retracements, the Fund may, as a defensive posture, breach its minimum limit in equity holdings to protect the Fund's investments.

The balance of the Fund's NAV that is not invested in equities and equity-related securities, will be invested in fixed income securities and money market instruments, and potentially in collective investment schemes, ETF, REITs and structured products.

- **Equity Investment Strategy**

The Manager will select equities from our researched equities list that we have classified as 'strongly outperform', 'outperform' and 'neutral'. 'Strongly outperform' and 'outperform' rankings are given to equities believed to have the greatest potential to beat their benchmarks over the coming 12 months. If an equity security subsequently ranks lower than our 'neutral' classification, the Fund will dispose of it. Vice versa, if a previously lowly classified equity is upgraded to at least a 'neutral', the Fund will consider it as an investment prospect.

The selection process relies on a disciplined investment approach that combines fundamental analysis, (intrinsic and relative valuations) technical analysis, sector strategies, reasonable turnover and a "top-down" overlay. The rankings are based on detailed qualitative and quantitative analyses of equities and their total return potential relative to their respective benchmarks over the coming 12 months.

The Manager will conduct subsequent detailed fundamental analysis of each equity security to further narrow down the list of equities that best fit the Fund's investment objective and strategy.

- **Targeted Foreign Markets**

The targeted foreign markets in which the Fund may invest in listed and unlisted securities are Singapore, Thailand, Philippines, Indonesia, Hong Kong, China, Taiwan, South Korea, Japan, India, Sri Lanka, Australia, New Zealand, USA, Canada, UK, Ireland, France, Germany, Netherlands, Belgium, Spain, Italy, Norway, Denmark, Luxembourg, Switzerland, Finland and Sweden.

While the Fund may not invest directly in markets in Taiwan and India, the Fund may invest in collective investment schemes listed on or available in other permitted markets and whose underlying securities are in Taiwan and India. The Fund may also invest in listed and unlisted securities of other foreign markets not listed herein, where the regulatory authority is a member of the International Organization of Securities Commissions (IOSCO) and where applicable, this will be reported in the interim or annual report of the Fund.

For investments in China, the Fund's investments will only be confined to class "B" shares, whereby the purchase of these investments do not require a Qualified Foreign Institutional Investor ("QFII") Licence. The QFII Licence is applicable only to foreign investors who intend to buy and sell Yuan-denominated class "A" shares in China.

- **Fixed Income And Money Market Investment Strategy**

The Fund may invest in fixed income securities during periods when our investment strategy favour risk-adjusted returns in fixed income over equity securities.

Performance Benchmark

The benchmark for the Fund is a composite of 65% S&P 500 Index (SPX), 25% S&P Europe 350 Index (SPE) and 10% S&P Asia 50 Index (SPA50) and these data are derived, calculated and maintained by Pacific Mutual using publicly available S&P indices namely S&P 500 Index, S&P Europe 350 Index and S&P Asia 50 Index. The composite benchmark is reflective of the longer term focus of the Fund in the respective regions – it is also reflective of the relative equity market capitalisation of the respective regions. These indices are available from Bloomberg's website, www.bloomberg.com, and supporting information services and will be published by Pacific Mutual as a comparison against the Fund's total return at least on a monthly basis in our publications and on our website.

3. (b) Who Am I Investing With?

| | |
|---------------------------|--|
| Manager | Pacific Mutual Fund Bhd (336059-U) |
| Trustee | a) HSBC (Malaysia) Trustee Berhad (1281-T) (up to 30 September 2017) b) CIMB Commerce Trustee Berhad (313031-A) (effective 1 October 2017) |
| Trustee's Delegate | a) HSBC (Malaysia) Trustee Berhad (1281-T) (up to 30 September 2017): The Hong Kong And Shanghai Banking Corporation Limited (as custodian) and assets held through HSBC Nominees (Tempatan) Sdn Bhd (258854-D) b) CIMB Commerce Trustee Berhad (313031-A) (effective 1 October 2017): CIMB Bank Berhad (13491-P) |
| Auditors | Ernst & Young |
| Tax Advisers | Ernst & Young Tax Consultants Sdn Bhd (179793-K) |

4. What Are The Possible Outcomes Of My Investment?

- The quantum of potential returns of the Fund would depend on the Fund's asset allocation decisions and performance of the underlying investments of the Fund.
- This is a non-guaranteed Fund and the investor may not get back the full amount invested and the principal amount invested may be at risk. Returns are also not fixed or guaranteed.

KEY RISKS

5. What Are The Key Risks Associated With This Product?

SPECIFIC RISK OF THE FUND

Currency risk – Investing globally means assets are denominated in currencies other than Malaysian Ringgit. Hence, fluctuations in the exchange rates of these foreign currencies may have an impact on the Fund's income and asset valuations. Adverse fluctuations in exchange rates can result in a decrease in returns and loss of capital. This risk may be mitigated by hedging against foreign exchange rate movements.

PRINCIPAL RISKS OF THE FUND

- **Company specific risk** – This risk refers to the individual risk of the respective companies issuing securities. This risk could be a result of changes to the business performance of the company, consumer tastes and demand, lawsuits, competitive operating environment and management practices. Developments in a particular company which the Fund has invested in would result in fluctuations in the share price of that company and thus the value of the Fund's investments. This risk is mitigated by diversification in a portfolio comprised of stocks of many companies.

In addition, this risk may occur when an investee company's business or fundamentals deteriorate or if there is a change in management policy resulting in a downward revision or even removal of the company's dividend policy. Such events may result in an overall decrease in dividend income received by the Fund and possible capital loss due to a drop in the share price of a company that cuts or omits its dividend payments. This risk may be mitigated by investing mainly in companies with a consistent historical record of paying dividends, strong cash flow, or operating in fairly stable industries.

- **Country and/or foreign securities risk** – This risk refers to the risks of investing in foreign markets. Emerging markets may have relatively underdeveloped capital markets, less stringent regulatory and disclosure standards, concentration in only a few industries, greater adverse political, social and economic risks and general lack of liquidity of securities. The risk of expropriation, nationalisation, exchange control restrictions, confiscatory taxation and limitations on the use or removal of funds also exist in emerging markets. Emerging markets may also have less developed procedures for custody, settlement, clearing and registration of securities transactions. Developed markets while not possessing similar levels of risks as emerging markets, may experience risks such as: changes in economic fundamentals, social and political stability; monetary policy and currency fluctuations. This risk may be mitigated by conducting thorough research on the respective markets, their regulatory framework, economics, companies, politics and social conditions as well as minimising or omitting investments in markets that are economically or politically unstable or lack a regulatory financial framework and adequate investor protection legislation.
- **Liquidity risk** – This risk occurs in thinly traded or illiquid securities. If the Fund needs to sell a relatively large amount of such securities, the act itself may significantly depress the selling price resulting in a decrease in the value of the Fund's assets. The Fund is managed in such a way that a portion of the investments is in equity securities and money market instruments that are highly liquid and this allows the Fund to meet sizeable redemptions without jeopardising potential returns.
- **Market risk** – This risk refers to developments in the equity market environment which typically includes changes in regulations, politics, technology and the economy of the country. Market developments can result in equity market fluctuations which in turn affect the Fund's underlying investments and hence its unit price. In terms of the Fund's concentration in a single equity market*, this risk is reduced by undertaking active* asset allocation, where in periods of heightened risk, there will be greater allocation in fixed income securities / sukuk and Islamic money market instruments and cash. Where the Fund is invested in multiple markets, a higher, if not, full allocation will be in markets that have a track record of economic, political and regulatory stability – allocation between markets and asset classes will also help mitigate risk.

* This refers to a fund having the mandate to invest in only one country (i.e. Malaysian market). For example – in the event of a fall in Malaysian equities, a fund cannot diversify into equities of other countries to mitigate equity market risk but can shift (asset allocate) its investments to local fixed income securities / sukuk and Islamic money market instruments. The term 'active' refers to the fund manager periodically adjusting equity allocations (and by default fixed income securities / sukuk and money market allocations) depending on market situations rather than passively leaving allocations to fluctuate based solely on market prices.

The investment manager exercises diligence in minimising the above risks to the Fund. However, it is not always possible to cover all investment risks in spite of best efforts as financial markets can be highly unpredictable. Investors are encouraged to consult their advisers such as financial/tax consultants, lawyers or bankers for a further understanding of these risks.

FEES AND CHARGES

6. What Are The Fees And Charges Involved?

| | |
|------------------------------|---|
| Sales Charge | 5.50% of the Fund's NAV per unit. Investors may negotiate for a lower sales charge. |
| Annual Management Fee | Up to 1.70% p.a. of NAV of the Fund. The annual management fee is payable on a monthly basis. |
| Annual Trustee Fee | a) HSBC (Malaysia) Trustee Berhad (1281-T) (up to 30 September 2017): Up to 0.07% p.a. of the NAV of the Fund calculated and accrued on daily basis, subject to a minimum of RM18,000 p.a. Note that if the Trustee is made the counter party and/or security party for a hedge transaction, an additional 0.03% p.a. of the amount hedged or security value under the hedge, whichever is higher, is payable to the Trustee. b) CIMB Commerce Trustee Berhad (313031-A) (effective 1 October 2017): Up to 0.06% p.a. of the NAV of the Fund calculated and accrued on a daily basis, subject to a minimum of RM8,400 p.a. (excluding foreign custodian fee and charges). The annual trustee fee is payable on a monthly basis. |
| Redemption Fee | Nil |

| | |
|----------------------|---|
| Switching Fee | The Manager does not intend to charge any switching fee; however, under certain circumstances, unitholders performing a switching transaction will have to pay the applicable difference in sales charge between the funds to be switched from and the funds to be switched into. Please refer to the master prospectus for the terms and conditions of the switching facility of the Fund. |
| Transfer Fee | Nil |

Despite the maximum fees and charges permitted by the deed, all current fees and charges are as disclosed above.

All fees and charges quoted are subject to any applicable taxes (including but not limited to GST) and/or duties as may be imposed by the government or other authorities from time to time.

You should NOT make payment in cash to a unit trust consultant or issue a cheque in the name of a unit trust consultant.

VALUATIONS AND EXITING FROM INVESTMENT

7. How Often Are Valuations Available?

- This is a Fund with foreign investment exposure. The valuation of NAV of the Fund will be conducted on each business day after the close of the respective foreign stock exchanges on the same calendar day. Due to the different time zone of the foreign stock exchanges, the valuation point will be extended to 5.00 p.m. on the following business day. The daily unit price of the Fund will be published on the next business day after the valuation (T+2).
- Fund prices will be published on Pacific Mutual's website at www.pacificmutual.com.my.

8. How Can I Exit From This Investment And What Are The Risks And Costs Involved?

- Investors can exit from the investment by completing the transaction form. The duly completed and accepted original transaction form must reach Pacific Mutual's head office or its branches by 4.00 p.m. on any business day. Pacific Mutual will repurchase units at the Fund's NAV per unit calculated at the end of that business day.
- The investor will receive the prevailing price per unit.
- Transaction forms received after 4.00 p.m. will be treated as having been received on the next business day.
- Payments will be made to investors within 10 days (from the business day the redemption request is accepted).

Note: *If an investor is a first-time investor with Pacific Mutual, the investor is entitled to a cooling-off period of six business days. The refund for every unit with regards to the cooling-off is the sum of the NAV per unit on the day the units were purchased and, sales charge and GST on sales charge per unit originally imposed on the day the units were purchased. Essentially, you will receive a full refund of the initial investment paid by you within 10 days of receipt of the original notice of cooling-off by Pacific Mutual.*

However, this is not applicable to corporate/institutional investors, staff of Pacific Mutual and Lion Global Investors Limited (formerly known as Lion Capital Management Limited) and their immediate family members; and persons registered with a body approved by the Securities Commission Malaysia to deal in unit trusts.

FUND PERFORMANCE (for the financial year ended 30 September)

Source of fund performance: Lipper for Investment Management

Source of benchmark performance: Bloomberg

9. Portfolio Structure

| | 2016 | 2015 | 2014 |
|-------------------------------------|--|----------------|----------------|
| Quoted Equity Securities | 84.55% | 78.41% | 88.41% |
| Cash & Liquid Assets | 15.45% | 21.15% | 10.97% |
| Collective Investment Scheme | - | 0.44% | - |
| Warrants | - | - | 0.62% |
| Total | 100.00% | 100.00% | 100.00% |
| Remarks | <p>The quoted equity securities allocation of Pacific Global Stars Fund increased to 84.55% as at 30 September 2016 from 78.85% (inclusive of collective investment scheme) recorded in the financial year ended 2015 due to net equity purchases at the end of the review period.</p> <p>The quoted equity securities allocation of Pacific Global Stars Fund decreased to 78.85% (inclusive of collective investment scheme) as at 30 September 2015 from 88.41% recorded in the financial year ended 2014 due to net equity sales and fund inflows at the end of the review period.</p> | | |

11. Performance Chart

Total Annual Return

Average Annual Return

Basis of calculation and assumptions made in calculating the returns:

$$* \quad \text{Percentage growth} = \frac{\text{NAV}_t - \text{NAV}_{t-1}}{\text{NAV}_{t-1}}$$

where t = current year
 t-1 = previous year

12. Distribution

| | 2016 | 2015 | 2014 |
|-----------------------------------|------|------|------|
| Gross Distribution Per Unit (sen) | - | - | 2.00 |
| Net Distribution Per Unit (sen) | - | - | 1.93 |

Distribution is in the form of cash.

13. Unit Split

There were no unit splits declared by the Fund for its past three financial year-ends.

14. Portfolio Turnover Ratio (PTR)

| | 2016 | 2015 | 2014 |
|-------------|---|------|------|
| PTR (times) | 1.88 | 0.98 | 1.38 |
| Remarks | The PTR for the financial year ended 30 September 2016 was higher compared with the financial year ended 30 September 2015 due to the increase in investing activities. The PTR for the financial year ended 30 September 2015 was lower compared with the financial year ended 30 September 2014 due to the decrease in investing activities. | | |

Past performance of the Fund is not an indication of its future performance.

APPENDIX: GLOSSARY

business day(s)

A day on which the Bursa Malaysia is open for trading.

daily unit price / net asset value (NAV) per unit

The NAV of the Fund divided by the total number of units in circulation, at a particular valuation point.

equities/equity

Securities providing the investor ownership in companies. The term is used interchangeably with the term stocks.

fixed income / debt securities

Securities issued by corporations/institutions/governments/semi-government bodies that pay the investor a coupon/interest rate and which have a maturity date.

GST

Tax levied on goods and services pursuant to the Goods and Services Tax Act 2014.

net asset value (NAV)

The total value of the Fund's assets minus its liabilities at a valuation point.

sukuk

Refers to certificates of equal value which evidence undivided ownership or investment in the assets using Shariah principles and concepts endorsed by the Securities Commission Malaysia's Shariah Advisory Council.

short term / medium term / long term

Short term - below one year; medium term - one year to three years; long term - above three years.

master prospectus / prospectus

Prospectus in relation to the Fund(s) managed by Pacific Mutual.

Fund

Pacific Global Stars Fund
