PRODUCT HIGHLIGHTS SHEET

PHEIM INCOME FUND

BRIEF INFORMATION ON THE PRODUCT

1. What is this product about?

Pheim Income Fund aims to provide its Unit Holders with consistent income returns in the medium to longer term by investing primarily in medium to longer-term fixed income instruments and also equities and other high yielding instruments.

PRODUCT SUITABILITY

2. Who is this product suitable for?

This fund is primarily for investors who:

- are risk adverse investors
- looking for consistent income while taking lower risk compared to equity investments

KEY PRODUCT FEATURES

3. What am I investing in?

Fund Category	Bond Fund
Type of Fund	Income

Sub-Custodian (Local)	Maybank Custody Services
Sub-Custodian (Foreign)	Standard Chartered Bank Malaysia Berhad
Auditor	Folks DFK & Co
Taxation Consultant	Folks Taxation Sdn. Bhd.
Principal Bankers	Malayan Banking Bhd.

KEY RISKS

5. What are the key risks associated with this product?

5.1 Risk and Your Investment

The value of your investment will go up and down with the value of the Fund's assets. You may receive less money than what you have invested and there is no guarantee that you will receive any income distribution.

The risk that you take depends on many factors – for example, which class of assets did the Fund invest in, how long do you intend to invest and the timing of your investment.

5.2 Specific Risks Associated with the Investment Portfolio of the Funds

Market risk	The market price of securities owned by the Funds might go down or up, sometimes rapidly or unpredictably. Securities may decline in value due to factors affecting the securities market generally or particular industries represented in the securities market. At times, the market environment which typically includes changes in regulations, politics, and the economy of the country would affect the market value of securities. Market risk is also influenced by global economics and geopolitical developments. The Funds may mitigate the risk by engaging in derivatives contracts like futures and options to protect the value of underlying securities. In the event derivatives contracts are unavailable or prohibited, the Manager will sell down our equity investment and hold cash to preserve the capital during adverse market conditions. Since the major portions of the Funds' investment are in the equity securities, the Unit price of the Funds will fluctuate in line with the market performance. Equity securities generally have greater price volatility than fixed income securities.
Individual stock risk	The Fund's portfolio comprises a spread of counters. However, the weak performance of individual counters invested can affect the overall NAV of the Funds and therefore the price of the Units. This risk may be mitigated through the well-diversified nature of Funds' portfolio.
Currency risk	The value of foreign investments will reflect the currency movements. Fluctuations in the denominated currencies of the foreign shares and bonds will affect the price of the Units.
Country risk	The stock prices may be affected by the political and economic conditions of the country in which the stocks are listed. Unexpected events may stop the Manager from realising the full value of assets in those countries.
Liquidity risk	This risk occurs in thinly traded or illiquid securities. Should the Funds need to sell a relatively large amount of such securities, the act itself may significantly depress the selling price. The risk may be minimised by placing a prudent level of funds in short term deposits and by investing in stocks whose liquidity is adjudged to commensurate with the expected level of the Funds.
Interest rate risk	The risk refers to the effect of interest rate changes on the market value of a bond/performance of a sukuk portfolio. In the event of rising interest rates, prices of fixed income securities/demand for sukuk will decrease and vice versa. Meanwhile, debt securities/sukuk with longer maturity and lower coupon/profit rate are more sensitive to interest rate changes. This risk may be mitigated via the management of the duration structure of the fixed income securities/sukuk portfolio.
Credit/Default risk	This risk relates to Funds' investment in sukuk or debt-type investments such as bonds, debentures, fixed income instruments and/or sale of securities, money market instruments and deposit placements. The institution in which the Funds invest in may not be able to make the required interest/profit payments or repayment/payment of principal. The Funds could lose money if the issuer or guarantor of a fixed income security, or the counterpart to a derivatives contract, repurchase agreement or a loan of portfolio securities, is unable or unwilling to make timely principal and/or interest/profit payments, or to otherwise honour its obligations.

Derivatives/Structured Product Risk The Funds may invest in derivatives or structured products, where appropriate for hedging purposes. When the Funds participate in derivatives or structured products for hedging activities, any potential upsides of currency or interest rate or securities' price movements arising is limited as the objective is to protect the Fund's value. Participation in these financial instruments may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the hedging positions. If no provision is made for the required margin within the prescribed time, the position may be liquidated at a loss. Therefore, it is essential that such positions in derivatives or structured products are monitored closely. Such participation in derivatives or structured products is also exposed to the failure or default of the counterparty to these financial instruments which may adversely affect the Fund's value. Investing in derivatives or structured products may also result in the likelihood of high volatility in the NAV of the Fund.

FEES & CHARGES

6. What are the fees and charges involved?

Sales Charge	Nil
Repurchase Charge	Nil
Switching Fee	One (1) free switch per account per year.
Transfer Fee	RM50*
Annual management Fee	1.0% of the Fund's NAV*
Annual Trustee Fee	0.07% p.a. of the Fund's NAV subject to a minimum fee of RM18,000 (excluding foreign sub-custodian fee).*
Other Charges	Nil
Expenses indirectly related to the Fund	<ul style="list-style-type: none"> - auditor and other professional fees; - tax and duties imposed by the authorities; - Investment Committee Members' fee; - cost of convening meetings of Unit Holders other than those incurred by or for the benefit of the manager or trustee; - cost for modification of Deed save where such modification is for the benefit of the Manager and/or the Trustee; - cost of production and distribution of reports of the Fund, tax vouchers, dividend warrants and notices to Unit Holders; and - other fees/expenses permitted in the Deed.

**The rate and amount disclosed is exclusive of any GST. The Manager, the Trustee and other service providers may impose such GST in addition to any fees and/or charges as required by law, pursuant to the Goods and Services Tax Act 2014.*

INVESTORS SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT

FUND PERFORMANCE

7. Information on Fund Performance

PAST PERFORMANCE OF THE FUND IS NOT AN INDICATION OF ITS FUTURE PERFORMANCE

VALUATION AND EXISTING FROM INVESTMENT

8. How often are valuations available?

At the end of each Business Day, the Manager will value the Fund's investments to reflect the Fund's current market price. The NAV per Unit of the Fund will be calculated on a forward pricing basis, which means that it is calculated at the end of the next valuation point, after the application for investment or repurchase of units of the Fund is received by us.

The Fund's NAV per unit will be available on our website, www.pheimunitrusts.com.

9. How can I exit from this investment and what are the risks and costs involved?

Repurchase of Units or Redemption

You may repurchase all or part of your Units on any Business Day subject to a minimum repurchase amount of at least 500 Units or such other limit at our discretion (unless it is a full repurchase). There is no limit to the frequency of repurchase transactions. However, if the request for repurchase leaves a Unit Holder with less than 1,000 Units (minimum holdings), the Unit Holder may be required to make an application to the Manager to repurchase all of the Unit Holder's holdings in the respective Funds.

You can make a repurchase by completing the transaction form and submitting it through our agents or direct to our head office. Please ensure that the transaction form is signed in accordance with the signing instructions given to us to avoid delays in processing repurchase.

A valid repurchase request received before the cut-off time on any Business Day will be processed on the same day using the Unit price set at the close of the Business Day (forward pricing). If the said repurchase request is received after the cut-off time, the repurchase request will be processed on the next Business Day using the Unit price set at the close of that Business Day. If the application is received on a non Business Day, the repurchase will be processed on the next Business Day using the Unit price set at the close of that Business Day.

You will be paid within 10 days from the date we receive a complete repurchase request transaction form.

Cooling –off Rights

A cooling-off right refers to the right of an investor to obtain a refund of his investment in the Fund if the Unit Holder so requests within the cooling-off period. The cooling-off period of any funds is 6 Business Days commencing from the date of receipt of the complete application form by us. Only applicable for initial investment by investors in any funds managed by us for the first time only. The cooling-off right is not applicable to corporation or institution, our staff and persons registered with a body approved by the SC to deal in unit trusts.

The refund for every Unit held by you pursuant to the exercise of the cooling-off right shall be the sum of:

- a) the NAV per Unit on the day the Units were first purchased; and
- b) the sales charge per Unit originally imposed on the day the Units were purchased.

When a cooling-off right is exercised, the money will be refunded to the applicant within 10 days of receipt of the notice of cooling-off by the Manager.

CONTACT INFORMATION

10. Who should I contact for further information or to lodge a complaint?

1. For internal dispute resolution, you may contact:

The Manager	Pheim Unit Trusts Berhad (545919-A)
- Registered office and Head Office	7th Floor, Menara Hap Seng 1 & 3, Jalan P.Ramlee 50250 Kuala Lumpur
