### PRODUCT HIGHLIGHTS SHEET

**This Product Highlights Sheet only highlights the key features and risks of this unlisted capital market product. Investors are advised to request, read and understand the disclosure documents before deciding to invest.**

### BRIEF INFORMATION ON THE PRODUCT

#### 1. What Is This Product About?

<b>Product Type</b>	Unlisted unit trust fund (open-ended)
<b>Manager</b>	Pacific Mutual Fund Bhd (336059-U)
<b>Trustee</b>	CIMB Commerce Trustee Berhad (313031-A)

### PRODUCT SUITABILITY

#### 2. Who Is This Product Suitable For?

An investor who is seeking steady capital and income<sup>□</sup> growth of large companies whose current prices may fail to reflect their long-term values over the medium to long term.

<sup>□</sup> *Income is in reference to the Fund's distribution, which could be in the form of cash or units.*

***Unit prices and distributions payable, if any, may go down as well as up. The investor may not get back the full amount invested and the principal amount invested may be at risk.***

### KEY PRODUCT FEATURES

#### 3. (a) What Am I Investing In?

<b>Fund Category</b>	Equity
<b>Fund Type</b>	Growth and income
<b>Base Currency</b>	Ringgit Malaysia (RM)
<b>Distribution</b>	Distribution of income, if any, will be made once a year.
<b>Financial Year End</b>	30 June
<b>Issuance Date</b>	15 April 1999
<b>Issuance Price</b>	RM0.5000

**INVESTMENT OBJECTIVE**

The Fund aims to achieve long-term capital growth, with income<sup>□</sup> as its secondary objective, by investing mainly in fundamentally sound large market capitalisation companies and also any other investments as may be permitted by the Securities Commission from time to time.

□ *Income is in reference to the Fund's distribution, which could be in the form of cash or units.*

**INVESTMENT POLICY AND STRATEGY**

To attain the Fund's objective, we will construct a diversified investment portfolio that consists of fundamentally sound companies whose current prices may fail to reflect their long-term values. The Fund will target companies exhibiting fundamental strength with market capitalisation, at the time of investment, of at least RM750 million each.

**Asset Allocation**

The Fund may invest up to 100% (minimum equity allocation is 70%) of its NAV in equities and equity-related securities but this may be reviewed from time to time depending on the economic and stock market conditions. An internal allocation for cash and other liquid assets will be maintained to ensure that the Fund is able to meet redemption requests without jeopardising the Fund's performance.

While the maximum limit for equity investments is 100% of the Fund's NAV, actual asset allocation varies according to our investment outlook and investment strategies after taking into consideration the prevailing market conditions.

The balance of the Fund's NAV that is not invested in equities and equity-related securities, will be invested in fixed income securities and money market instruments.

- **Equity Investment Strategy**

We aim to identify companies with a market capitalisation of RM750 million and above and whose current prices may fail to reflect their longer-term value. Diversification into different industries will be implemented.

The investment strategy is based on a disciplined "top-down" approach to asset allocation and sector allocation, using macroeconomic analysis, market analysis and industry analysis. Stock selection techniques are based on a "bottom-up" approach using business analysis and security valuation analysis. There is significant overlap between the various disciplines governing these processes, with strong interaction between the determination of asset allocation and stock selection.

- **Fixed Income Investment Strategy**

Our strategy hinges on the need for a well-diversified portfolio and focuses on the credit qualities of securities in the portfolio. The fixed income portfolio construction process is research driven and based on macroeconomic analysis, interest rate analysis, credit analysis and yield spread analysis. Other than the development of a broad asset allocation model, contributions will be made via active management to capitalise on changes in interest rates, inter-sector yield spreads and yield spreads of specific debt securities.

**Performance Benchmark**

Since inception to 5 July 2009	Kuala Lumpur Composite Index (KLCI)
6 July 2009 onwards	FTSE Bursa Malaysia Top 100 Index (FBM 100)

The benchmark for the Fund or such other equivalent index as may be substituted by Bursa Malaysia Securities Berhad is widely used and publicly available from major newspapers on a daily basis. It will also be published as a comparison against the Fund's total return at least on a monthly basis in our publications and on our website.

In view of the cessation of Kuala Lumpur Composite Index (KLCI) on 6 July 2009, the Fund's benchmark was replaced with FTSE Bursa Malaysia Top 100 Index (FBM 100). The adoption of the new benchmark is based on the following rationales:

- It provides a more accurate base of comparison against the Fund's performance;
- It is more diversified with 100 constituents and the weight of the largest constituent is 8%; and
- It is a more appropriate benchmark in regards to the current Fund's objective and investment strategy.

**3. (b) Who Am I Investing With?**

<b>Manager</b>	Pacific Mutual Fund Bhd (336059-U)
<b>Trustee</b>	CIMB Commerce Trustee Berhad (313031-A)
<b>Trustee's Delegate</b>	CIMB Bank Berhad (13491-P)
<b>Auditors</b>	Ernst & Young
<b>Tax Advisers</b>	Ernst & Young Tax Consultants Sdn Bhd (179793-K)

**4. What Are The Possible Outcomes Of My Investment?**

- The quantum of potential returns of the Fund would depend on the Fund's asset allocation decisions and performance of the underlying investments of the Fund.
- This is a non-guaranteed Fund and the investor may not get back the full amount invested and the principal amount invested may be at risk. Returns are also not fixed or guaranteed.

## KEY RISKS

### 5. What Are The Key Risks Associated With This Product?

#### SPECIFIC RISK OF THE FUND

**Company specific risk** – This risk refers to the individual risk of the respective companies issuing securities. This risk could be a result of changes to the business performance of the company, consumer tastes and demand, lawsuits, competitive operating environment and management practices. Developments in a particular company which the Fund has invested in would result in fluctuations in the share price of that company and thus the value of the Fund's investments. This risk is mitigated by diversification in a portfolio comprised of stocks of many companies.

In addition, this risk may occur when an investee company's business or fundamentals deteriorate or if there is a change in management policy resulting in a downward revision or even removal of the company's dividend policy. Such events may result in an overall decrease in dividend income received by the Fund and possible capital loss due to a drop in the share price of a company that cuts or omits its dividend payments. This risk may be mitigated by investing mainly in companies with a consistent historical record of paying dividends, strong cash flow, or operating in fairly stable industries.

#### PRINCIPAL RISKS OF THE FUND

- **Liquidity risk** – This risk occurs in thinly traded or illiquid securities. If the Fund needs to sell a relatively large amount of such securities, the act itself may significantly depress the selling price resulting in a decrease in the value of the Fund's assets. The Fund is managed in such a way that a portion of the investments is in equity securities and money market instruments that are highly liquid and this allows the Fund to meet sizeable redemptions without jeopardising potential returns.
- **Market risk** – This risk refers to developments in the equity market environment which typically includes changes in regulations, politics, technology and the economy of the country. Market developments can result in equity market fluctuations which in turn affect the Fund's underlying investments and hence its unit price. In terms of the Fund's concentration in a single equity market\*, this risk is reduced by undertaking active\* asset allocation, where in periods of heightened risk, there will be greater allocation in fixed income securities / sukuk and Islamic money market instruments and cash.

\* This refers to the Fund having the mandate to invest in only one country (i.e. Malaysian market). For example – in the event of a fall in Malaysian equities, the Fund cannot diversify into equities of other countries to mitigate equity market risk but can shift (asset allocate) its investments to local fixed income securities / sukuk and Islamic money market instruments. The term 'active' refers to the fund manager periodically adjusting equity allocations (and by default fixed income securities / sukuk and money market allocations) depending on market situations rather than passively leaving allocations to fluctuate based solely on market prices.

***The investment manager exercises diligence in minimising the above risks to the Fund. However, it is not always possible to cover all investment risks in spite of best efforts as financial markets can be highly unpredictable. Investors are encouraged to consult their advisers such as financial/tax consultants, lawyers or bankers for a further understanding of these risks.***

## FEES AND CHARGES

### 6. What Are The Fees And Charges Involved?

<b>Sales Charge</b>	5.50% of the Fund's NAV per unit.  Investors may negotiate for a lower sales charge.
<b>Annual Management Fee</b>	Up to 1.50% p.a. of NAV of the Fund.  The annual management fee is payable on a monthly basis.
<b>Annual Trustee Fee</b>	Up to 0.06% p.a. of the NAV of the Fund calculated and accrued on a daily basis, subject to a minimum of RM12,000 p.a. (effective 2 May 2017).  The annual trustee fee is payable on a monthly basis.
<b>Redemption Fee</b>	Nil
<b>Switching Fee</b>	The Manager does not intend to charge any switching fee; however, under certain circumstances, unitholders performing a switching transaction will have to pay the applicable difference in sales charge between the funds to be switched from and the funds to be switched into. Please refer to the master prospectus for the terms and conditions of the switching facility of the Fund.
<b>Transfer Fee</b>	Nil

***Despite the maximum fees and charges permitted by the deed, all current fees and charges are as disclosed above.***

***All fees and charges quoted are subject to any applicable taxes (including but not limited to GST) and/or duties as may be imposed by the government or other authorities from time to time.***

**You should NOT make payment in cash to a unit trust consultant or issue a cheque in the name of a unit trust consultant.**

**VALUATIONS AND EXITING FROM INVESTMENT**
**7. How Often Are Valuations Available?**

- The valuation of NAV for the Fund will be conducted at the end of each business day. Daily prices of the Fund will be published on the next business day.
- Fund prices will be published on Pacific Mutual's website at [www.pacificmutual.com.my](http://www.pacificmutual.com.my).

**8. How Can I Exit From This Investment And What Are The Risks And Costs Involved?**

- Investors can exit from the investment by completing the transaction form. The duly completed and accepted original transaction form must reach Pacific Mutual's head office or its branches by 4.00 p.m. on any business day. Pacific Mutual will repurchase units at the Fund's NAV per unit calculated at the end of that business day.
- The investor will receive the prevailing price per unit.
- Transaction forms received after 4.00 p.m. will be treated as having been received on the next business day.
- Payments will be made to investors within 10 days (from the business day the redemption request is accepted).

**Note: If an investor is a first-time investor with Pacific Mutual, the investor is entitled to a cooling-off period of six business days. The refund for every unit with regards to the cooling-off is the sum of the NAV per unit on the day the units were purchased and, sales charge and GST on sales charge per unit originally imposed on the day the units were purchased. Essentially, you will receive a full refund of the initial investment paid by you within 10 days of receipt of the original notice of cooling-off by Pacific Mutual.**

**However, this is not applicable to corporate/institutional investors; staff of Pacific Mutual and Lion Global Investors Limited (formerly known as Lion Capital Management Limited) and their immediate family members; and persons registered with a body approved by the Securities Commission Malaysia to deal in unit trusts.**
