PRODUCT HIGHLIGHTS SHEET

RHB DANA ISLAM

Name of Fund	RHB Dana Islam ("Fund").
Manager	RHB Asset Management Sdn Bhd.
External Investment Manager	RHB Islamic International Asset Management Berhad
Shariah Adviser	RHB Islamic Bank Berhad
Trustee	HSBC (Malaysia) Trustee Berhad.
Fund Category	Equity (Shariah-compliant) fund.
Commencement Date	26 October 2001.
Financial Year End	31 March.

PRODUCT SUITABILITY

This Fund is suitable for investors who are looking for investments in a diversified portfolio of assets that comply with Shariah requirements. These investors are willing to accept moderate to high risk in their investments and prefer capital growth rather than income over a medium to long term* period.

*Note: "medium to long term" in this context refers to a period of between 3 – 7 years.

KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

This Fund aims to provide investors with above average capital growth over a medium to long term period* by investing in a carefully selected portfolio of stocks which complies with the Shariah principles.

*Note: "medium to long term" in this context refers to a period of between 3 – 7 years.

INVESTMENT STRATEGY

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

90% - 98% of Net Asset Value

- Investments in Shariah-compliant equity and equity related securities of companies that have good growth potential.

2% - 10% of Net Asset Value

- Investments in Shariah-compliant liquid assets comprising of cash and Islamic deposits with financial institutions, Islamic accepted bills, sukuk, Cagamas Sukuk, Government Investment Issues and any other Shariah-compliant instrument capable of being converted into cash within seven (7) days.

Subject to the range stipulated above, the asset allocation will be reviewed from time to time depending on the judgement of the External Investment Manager as to the general market and economic conditions. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

For investments in foreign markets, the External Investment Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the External Investment Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. Shariah-compliant equity, sukuk, Islamic money market instruments). Islamic financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the Shariah-compliant investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in Shariah-compliant equity value, and other available Shariah-compliant equity investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to these permitted investments and restrictions also helps the External Investment Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the External Investment Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The External Investment Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. However, any position if taken, will always comply with Shariah requirements. In such circumstances, the External Investment Manager may reallocate the Fund's Shariah-compliant equity investments into other asset classes such as sukuk, Islamic money market instruments and Islamic deposits with any financial institutions[^], which are defensive in nature and comply with Shariah requirements. In its reallocation, the level of Shariah-compliant equity investments would normally not be below 20% of the Net Asset Value.

[^] These are Islamic deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where applicable) these are current accounts, short term Islamic money market deposits and short term Islamic deposits with financial institutions.

BENCHMARK

FTSE Bursa Malaysia EMAS Shariah Index.

DISTRIBUTION	
Distribution Policy	Consistent with the Fund's objective to achieve capital growth, distributions will therefore be of secondary importance. Distributions, if any, after deduction of taxation and expenses, are generally declared annually and will be reinvested.
Distribution Mode	Distribution, if any, after deduction of taxation and expenses (i.e. net distribution), will be reinvested to purchase additional units of the Fund based on the Net Asset Value per unit as at the first Business Day when units in the Fund are quoted ex-entitlement. Allotment of such units shall be within two (2) weeks thereafter.

KEY RISKS

As the Fund invests only in securities of companies whose principal activities comply with Shariah requirements, it may be subject to a higher level of risk than a portfolio diversifying its holdings across several markets and economies. Furthermore, there is an inherent risk, the reclassification of Shariah status risk, where the currently held Shariah-compliant securities in the Fund may be re-designated to be Shariah non-compliant securities in the periodic review of the securities by the SACSC, the Shariah adviser, or the Shariah boards of the relevant Islamic indices. If this occurs, the value of the Fund may be adversely affected where the Manager will take the necessary steps to dispose of such securities. Any capital gains arising from the disposal of the Shariah non-compliant securities made at the time of the announcement can be kept by the Fund. However, any excess capital gains derived from the disposal after the announcement day at the market price that is higher than the closing price on the announcement day should be channelled to bahtulmal or charitable bodies as advised by the Shariah adviser. Other risks associated with investments in Shariah-compliant equity are as elaborated below:

Market risk	Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.
Particular security risk	The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities will cause the Fund's unit price to rise or fall accordingly.

As this Fund may invest up to 30% of its Net Asset Value in foreign markets, it may be subject to further risks, such as currency risk and country risk, when compared to a portfolio which concentrates its holdings in a single market or economy.

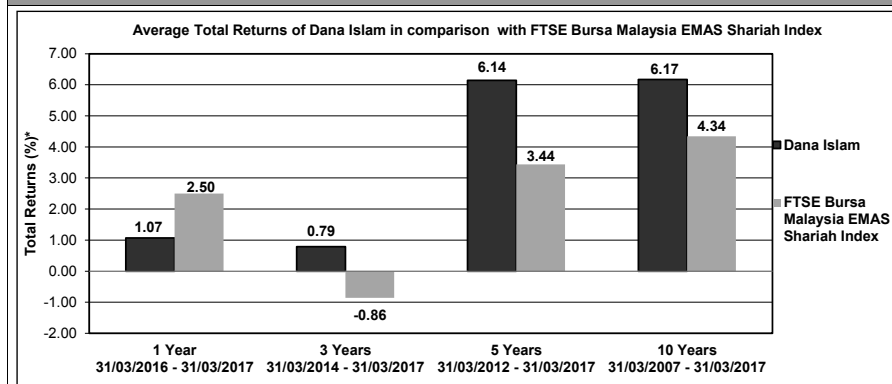

FUND PERFORMANCE

The Fund has been in operation since 26 October 2001 and its financial year end was previously 31 October. Effective year 2008, the Fund's financial year end has been changed to 31 March. For ease of comparison, the Fund's performance has been re-computed based on the new financial year end.

Following the cessation of the KLSE Syariah Index on October 2007, the Fund's benchmark was replaced with the FTSE Bursa Malaysia Emas Shariah Index and the benchmark performance has also been recomputed to reflect the new benchmark (where data is available).

The Fund's performances are as follows:

AVERAGE TOTAL RETURNS OF THE FUND

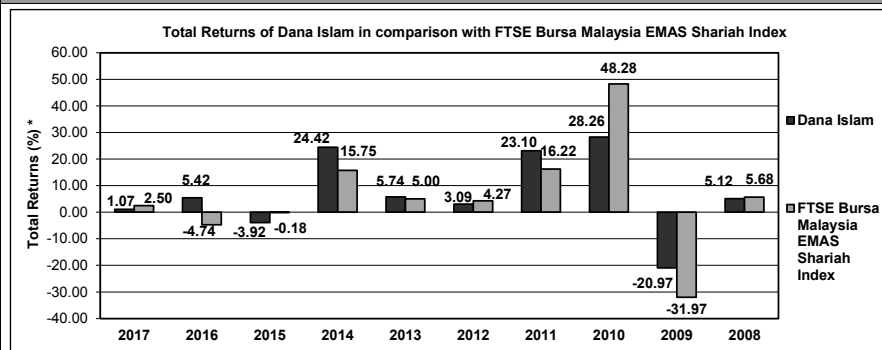

Source: Lipper IM.

*The abovementioned Fund performance is computed on Net Asset Value to Net Asset Value basis and has been adjusted to reflect distributions and unit splits, if any and are annualised.

The Fund recorded an annual gain of 1.07% in the last financial year whilst the benchmark registered an annual gain of 2.50%. On a longer term over a period of ten years, the Fund has recorded an annualised return of 6.17% in NAV terms whilst its benchmark recorded an annualised return of 4.34%. The Fund has thus achieved its objective of providing investors with long term capital growth.

ANNUAL TOTAL RETURNS OF THE FUND

* The abovementioned Fund performance is computed on Net Asset Value to Net Asset Value basis and has been adjusted to reflect distributions and unit splits, if any.

Over a ten-year period, the Fund outperformed the benchmark in five out of the ten financial years. The Fund's worst performance of -20.97% in 2009 was due to the difficult market conditions then prevailing culminating from the global financial crisis.

PORTFOLIO TURNOVER RATIO

Portfolio Turnover Ratio ("PTR")	Financial Year Ended 31 March		
	2017	2016	2015
	1.63 times	1.40 times	0.96 times

The PTR for the latest financial year was higher compared with the previous financial year as there were more investment activities carried out during the financial year.

ASSET ALLOCATION

As at the latest financial year end (i.e. 31 March 2017), the Fund was 91.31% invested in quoted Shariah-compliant securities with the remaining 8.69% invested in Islamic deposits or held as cash.

	As at 31/03/2017	As at 31/03/2016	As at 31/03/2015

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

VALUATIONS AND EXITING FROM INVESTMENT

VALUATION OF ASSETS

The Fund must be valued at least once every Business Day. However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia.

The valuation of the Fund for a Business Day will be conducted before 5:00 p.m. on the following day in which the Manager is open for business, when the closing prices of the foreign markets for that Business Day would be available.

As such, the daily price of the Fund for a particular Business Day will not be published in the major newspapers on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated in the major newspapers.

Investors may obtain the most current computed price by contacting the Manager directly or visiting our website, www.rhbgroup.com.

EXITING FROM THIS INVESTMENT

Units of the Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branch offices, or to any of its participating IUTAs or to any other authorised distributors before their respective cut-off times.

The redemption monies will be paid within ten (10) days after receipt by the Manager of the request to repurchase.

For partial redemption, the balance of units held after the redemption must be at least one hundred (100) units or such other lower quantity as the Manager may from time to time decide (the "minimum investment balance"). There are no restrictions on the number of units a Unit Holder can redeem out of his investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of units if the balance of units held after the redemption is less than the minimum investment balance.

For EPF Unit Holders, the repurchase proceeds will be remitted to KWSP by crediting into the members' provident account.
