KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

The Fund aims to provide income[^] and long-term* capital growth by investing in one target fund.

Note: [^] The income is in the form of Units, unless the Unit Holder specifically requests for the distribution to be paid out to the Unit Holder.

* “long term” in this context refers to a period of between 5 – 7 years.

INVESTMENT STRATEGY

The Fund will invest principally in the USD denominated class A shares of the Target Fund. The Target Fund is one of the sub-funds under the umbrella fund, Fidelity Funds. Fidelity Funds is an open-ended investment company established in Luxembourg as a Société d'Investissement à Capital Variable ("SICAV") and qualifies as an undertaking for collective investment in transferable securities ("UCITS") under Luxembourg laws. Fidelity Funds is managed by the management company, FIL Investment Management (Luxembourg) S.A. and its regulatory authority is the Commission de Surveillance du Secteur Financier (Luxembourg Financial Sector Supervising Authority) under Chapter 15 of the Luxembourg Law of 17 December 2010. The investment manager of the Target Fund is FIL Fund Management Limited (domiciled in Bermuda) and its regulatory authority is Bermuda Monetary Authority. The investment manager of the Target Fund is subject to the Bermuda Investment Business Act of 2003. The sub-investment manager of the Target Fund is FIL Investment Management (Hong Kong) Limited whose regulatory authority is the Securities and Futures Commission of Hong Kong under the Securities and Futures Ordinance (Cap.571 of the Laws of Hong Kong). Both the Target Fund and the USD denominated class A shares of the Target Fund were launched on 2 April 2007.

The investment objective of the Target Fund seeks a high level of current income and capital appreciation by investing primarily in high-yielding sub investment grade* securities of issuers, or in high-yielding securities of sub investment grade* issuers, all having their principal business activities in the Asian region. The type of debt securities in which the Target Fund will primarily invest will be subject to high risk and will not be required to meet a minimum rating standard. Not all securities will be rated for creditworthiness by an internationally recognized rating agency. The Target Fund may invest its net assets directly in onshore China fixed income securities** listed or traded on exchanges in China.

* Reference to sub investment grade securities or issuers shall mean securities or issuers with a rating of BB+ or less from Standard & Poor's or equivalent rating from an internationally recognised rating agency.

** The Target Fund's direct investments in onshore China fixed income securities listed or traded on exchanges in China will be made through the Qualified Foreign Institutional Investors ("QFII") quota of the Target Fund's sub-investment manager, FIL Investment Management (Hong Kong) Limited ("Fidelity Hong Kong").

Unit Holders are advised to read and understand the Target Fund's investment objective and policy disclosed in the Disclosure Documents.

Although the Fund is not actively managed, the investments of the Fund will be rebalanced from time to time to meet Unit sales and Unit redemptions transactions. This is to enable proper and efficient management of the Fund.

This Fund is a feeder fund that invests at least 95% of NAV in the Target Fund. The risk management strategies and techniques employed will be at the Target Fund level.

ASSET ALLOCATION

- Investments in the USD denominated class A shares of the Target Fund.

2% to 5% of NAV

BENCHMARK

BofA/ Merrill Lynch Blended Index: ACCY, 20% Level 4 Cap 3% Constrained.

The benchmark chosen best represents the investments of the Target Fund. An investor may refer to the Manager or to Bloomberg L.P. for this benchmark indicator.

The benchmark index is customized for the Target Fund by the index provider, Bank of America Merrill Lynch ("BofA/ Merrill Lynch"). It is based on the index provider's Asian Dollar High Yield Index ("ACCY") with sector exposure (in the index provider's terminology, sector classification is referred to as "Level 4") capped at 20% and issuer exposure capped at 3%. ACCY tracks the performance of sub-investment grade USD denominated sovereign, quasi-government, corporate, securitized and collateralized debt publicly issued in the US domestic and Eurobond markets by Asian issuers

Note: The risk profile of the Fund is different from the risk profile of the benchmark.

DISTRIBUTION

Distribution Policy

For distribution reinvestment, additional units will be reinvested based on the NAV per Unit as at the first Business Day when Units are quoted ex-entitlement. Allotment of such Units shall be within two (2) weeks thereafter. Distribution which is less than or equal to the amount of RM 300 will be automatically reinvested in additional Units based on the NAV per Unit as at the first Business Day when Units of the Fund are quoted ex-entitlement.

KEY RISKS

KEY RISKS OF THE FUND

Management risk

As the Fund invests at least 95% of its NAV in the Target Fund, it is subject to the management risk of the management company of the Target Fund. Poor management of the Target Fund by the target fund's management company will jeopardise the investments of the Fund in the Target Fund and in turn, the Unit Holders' investments through the risk of loss of capital invested in the Fund.

Currency risk	As units of the Fund are denominated in RM and the Fund will invest in the USD denominated shares of the Target Fund, the Fund is subject to currency risk. The fluctuation in foreign exchange rates between the currencies RM (i.e. the base currency for the Fund) and USD (i.e. the currency denomination of the shares of the Target Fund) may cause the value of the Fund's investment in the shares of the Target Fund to diminish or increase which in turn would affect the value of Unit Holders' investments in the Fund.
Country risk	As the Target Fund is domiciled in Luxembourg, the Target Fund is subject to country risk. The Fund's investments in the Target Fund may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in Luxembourg.
Pricing and valuation risk	The Fund's assets will comprise at least 95% of NAV in USD denominated class A shares of the Target Fund where a valuation price will be obtained from the Target Fund's corporate representative and distributor, Fidelity Singapore while the remaining portfolio of the Fund are in liquid assets including money market instruments and Placements of Cash. The risk arises if there are errors of pricing from Fidelity Singapore or should the valuation of the Target Fund be suspended or deferred or should there be any restriction on subscription of shares of the Target Fund. Should any of these events occur, the pricing and valuation of the Fund will likewise be suspended. And in some cases, the Fund's redemption dealing may also be affected and time to payment of a Unit Holder's redemption request may be delayed. In any of these events, the Manager will notify and keep Unit Holders informed of the situation.

KEY RISKS OF TARGET FUND

- Bonds, Debt Instruments & Fixed Income (including High Yielding Securities)
- Lower Rated/ Unrated Securities
- Qualified Foreign Institutional Investors ("QFII") Risks
- Emerging and frontier markets risk
- Currency risk
- Distribution out of capital risk
- Securitised or structured debt instruments
- Derivatives related risks (market risk, liquidity risk, counterparty credit risk, settlement risk, fund management risk and other risks)
- Risks relating to specific derivative instruments (exchange traded and OTC options, credit default swaps, interest rate swaps, bond futures and interest rate futures, inflation index swaps and forward contracts)

The risks of the Target Fund are elaborated in the Disclosure Documents.

Repurchase charge	None.
Switching fee ¹	A switching fee of RM 25.00 will be imposed and deducted from the redemption amount of the Units to be switched for a switch between funds that impose a similar sales charge or a switch to a fund that impose a lower sales charge. Unit Holders switching to a fund that imposes a higher sales charge will pay the difference in sales charge which is deductible from the redemption amount of the Units of the Fund to be switched from. The Manager however, reserves the right to vary this fee or to vary the terms of the switching facility.
Transfer fee ¹	RM 5.00 per transfer.
Annual management fee ¹	1.50% per annum of NAV calculated on a daily basis before deducting the Manager's fee and Trustee's fee for that particular day. A portion of this fee is paid to the Target Fund's management company, FIL Investment Management (Luxembourg) S.A. As the Fund invests in shares of the Target Fund, any management fee charged to the Target Fund by the Target Fund's manager in relation to the Fund's investments in the Target Fund will be fully refunded to this Fund. Accordingly, there is <u>NO DOUBLE CHARGING OF MANAGEMENT FEE</u> . This means that Unit Holders will incur <u>ONLY ONE MANAGEMENT FEE and ONLY AT THE FUND'S LEVEL</u> , i.e. at one point five per cent (1.50%) per annum of NAV.
Annual trustee fee ¹	0.06% per annum of NAV before deducting the Manager's and Trustee's fees for that particular day (excluding foreign custodian fees and charges).
Expenses directly related to the Fund	Auditors' fees, other relevant professional fees, custodial charges, cost of distribution of quarterly and annual reports and other notices to Unit Holders, tax certificates, reinvestment statements or distribution cheques (where applicable), other transaction costs and taxes will be charged to the Fund.
Other expenses indirectly paid by an investor when investing in the Fund	None levied by the Manager. However, as this Fund will invest in the Target Fund, there are fees indirectly incurred by this Fund i.e. annual depositary fee and annual agency and services fee which are incurred at the Target Fund level. The annual depositary fee of the Target Fund is between 0.003% to 0.35% of the net asset value of the Target Fund (excluding transaction charges, reasonable disbursements and out-of-pocket expenses) and the annual agency and services fee of the Target Fund is up to 0.35% of the net asset value of the Target Fund (excluding reasonable out-of-pocket expenses).

VALUATION AND EXITING FROM THIS INVESTMENT

VALUATION OF ASSETS

The Fund must be valued at least once every Business Day. However, the Target Fund in which the Fund invests in performs its valuation for its relevant business day on the day following its relevant business day. Accordingly, the valuation of the Fund for the relevant Business Day will be conducted before 5.00 p.m. on the following day in which the Manager is open for business, when the valuation of the Target Fund would have been obtained from Fidelity Singapore.

As such, the daily price of the Fund for a particular Business Day will not be published in the media on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated in the media.

Investors may however obtain the most current computed price by contacting the Manager directly or visiting our website, <http://www.rhbgroup.com>

EXITING FROM THIS INVESTMENT

The repurchase price shall be the NAV per Unit as at the next valuation point of the relevant Business Day ("forward pricing") after the repurchase request is received by the Manager.

A repurchase charge may be computed separately based on the withdrawal amount/repurchase amount. The minimum redemption Units of the Fund is 10,000 Units or such other lower quantity as the Manager may from time to time decide and for any partial redemption, the balance of Units of the Fund after the redemption must be 10,000 units or such other quantity as the Manager may from time to time decide (the "minimum holding at all times").

Units of the Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its authorized sales agents or participating Corporate Unit Trust Advisers (CUTAs) or Institutional Unit Trust Advisers (IUTAs) on any day other than Saturdays, Sundays and public holidays before their respective cut-off times.

The NAV is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at the valuation point. The NAV per Unit is determined when the NAV is divided by the total number of the Units in circulation at that valuation point.

Redemption monies in the base currency of the Fund (i.e. RM) are to be paid within ten (10) business days[#] after receipt by the Manager of the request to repurchase and are payable to the Unit Holders' bank account. However, the time taken to pay the redemption proceeds to investors may be extended or delayed if the Target Fund is suspended^{##} and/or the redemption from the Target Fund is deferred^{###}. Should this occur, the Manager will pay the redemption proceeds to investors within ten (10) business days[#] after receipt by the Manager of the redemption proceeds from the management company of the Target Fund.

[#]These are the working days when the Manager is open for business.

^{###}For information concerning suspension or deferment of redemption by the Target Fund, see "Temporary suspension and restrictions of certain dealings with the Target fund" in the Disclosure Documents.
