PRODUCT HIGHLIGHTS SHEET

RHB CASH MANAGEMENT FUND 1

Name of Fund	RHB Cash Management Fund 1.
Manager	RHB Asset Management Sdn Bhd.
Trustee	HSBC (Malaysia) Trustee Berhad.
Fund Category	Money market fund.
Commencement Date	23 August 2007.
Financial Year End	31 July.

PRODUCT SUITABILITY

This Fund is suitable for investors who wants to earn returns higher than savings deposits while maintaining a high degree of liquidity.

KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

To provide liquidity and regular income for investors through investments primarily in the money market.

INVESTMENT STRATEGY

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

- Up to 100% of NAV will be invested in money market instruments and/or liquid assets.

The investment strategy is to invest in a diversified portfolio of short term money market instruments, depending on the interest rate environment and the anticipated redemption requests by the Unit Holders.

The risk management strategies and technique employed by the Manager include diversification of the Fund's assets allocation in terms of its exposure to various classes and/or type of investment. The permitted investments and restrictions imposed by the Securities Commission also provide a risk management framework. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions and requirements as set out in the deed.

The minimum credit rating for the rated instruments to be invested by the Fund will be BBB3 or P3 by RAM or equivalent rating by any other similar rating agencies. In the event of a credit downgrade of a particular instrument below the minimum stipulated, the Manager will endeavour to take the necessary steps to divest that instrument within a time frame deemed reasonable by the Manager. However, in order to best protect the interests of the Fund, the Manager has the discretion to take into consideration all relevant factors that affect the value of the investment before deciding on the manner and time frame of its liquidation.

BENCHMARK

Maybank's basic savings rate.

DISTRIBUTION

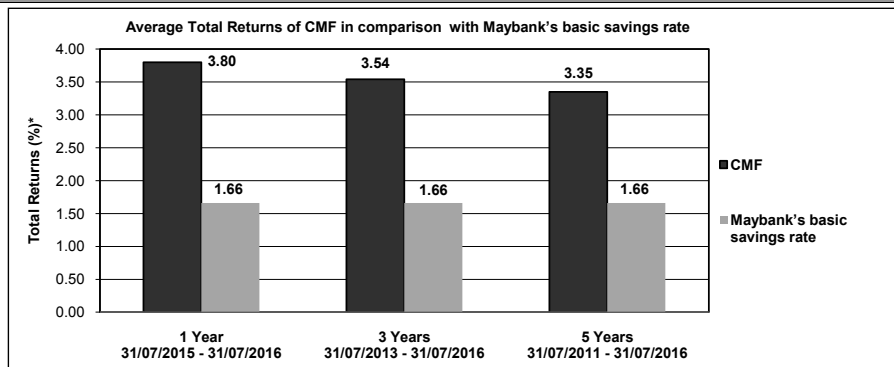

Distribution Policy	Income is paid monthly, depending on the level of income (if any) the Fund generates.
Distribution Mode	<p>Distribution (if any) will be automatically paid out to the Unit Holders via cheque, unless the Unit Holder specifically requests for the distribution to be reinvested into the Fund by selecting the appropriate option in the application form. Unit Holders who opt for their distribution to be reinvested into the Fund will have their distribution reinvested into the Fund based on the Net Asset Value per unit of the Business Day on which the distribution is declared. No sales charge or costs shall be incurred or payable by the Unit Holders for the reinvestment.</p> <p>Note: Distribution (if any) which is less than or equal to the amount of RM1.00, will be automatically reinvested into the Fund based on the Net Asset Value per unit seven (7) Business Days after the dividend date. No sales charge or costs shall be incurred or payable by the Unit Holders for the reinvestment.</p>

KEY RISKS

Interest rate risk	Interest rate risk is crucial in this Fund since money market instruments and deposits portfolio management depends on forecasting interest rate movements. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured money market instruments and deposits depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.
Inflation risk	Inflation reduces the purchasing power of money. Therefore in an inflationary environment, there is a possibility that income from money market instruments and deposits may not be able to keep up with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

VALUATIONS AND EXITING FROM INVESTMENT

VALUATION OF ASSETS

The Fund must be valued at least once every Business Day.

Accordingly, the valuation of the Fund for a Business Day will be conducted at the close of Bursa Malaysia for that Business Day. Thus, the daily price of the Fund for a particular Business Day will be published in the major newspapers on the next day.

Investors may obtain the most current computed price by contacting the Manager directly or visiting our website, www.rhbgroup.com.

EXITING FROM THIS INVESTMENT

Units of the Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branch offices, or to any of its participating Institutional Unit Trust Advisers (IUTAs) or to any other authorised distributors before their respective cut-off times.

The Manager does not impose any minimum amount for any repurchase transaction but subject to the minimum holding requirement.

There are no restrictions on the number of units of the Fund a Unit Holder can redeem out of his investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of units if the balance of units held after the redemption is less than one hundred thousand (100,000) units for an institutional investor or less than fifty thousands (50,000) units for a retail investor or such other quantity as the Manager may from time to time decide (the "minimum holding"). For the avoidance of doubt, the Manager will deem an automatic request for a full repurchase of units to have been made by the Unit Holder should a request for partial redemption leave the balance of units held after the redemption less than the applicable minimum holding.

Unit Holders may receive the repurchase proceeds on the following Business Day upon receipt of the duly completed repurchase forms by the Manager.

For EPF Unit Holders, the repurchase proceeds will be remitted to KWSP by crediting into the members' provident account.
