PRODUCT HIGHLIGHTS SHEET

RHB EMERGING MARKETS BOND FUND

Name of Fund	RHB Emerging Markets Bond Fund ("Fund").
Manager	RHB Asset Management Sdn Bhd.
Trustee	HSBC (Malaysia) Trustee Berhad.
Fund Category	Feeder fund.
Commencement Date	3 January 2012.
Financial Year End	28 / 29 February.

PRODUCT SUITABILITY

This Fund is suitable for investors who:

- (i) seek income[^] and potential capital appreciation over the longer term;
- (ii) have medium to high risk appetite; and
- (iii) seek returns in emerging markets debt investments and products.

Note: [^]The income is in the form of units. Please refer to the Fund's distribution mode.

KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

The Fund aims to provide investors with income[^] and potential capital appreciation by investing in one target fund, i.e. the United Emerging Markets Bond Fund.

Note: [^]The income is in the form of units. Please refer to the Fund's distribution mode.

INVESTMENT STRATEGY

The Fund will invest principally in the sub-fund of the United Emerging Markets Portfolios that is the United Emerging Markets Bond Fund ("UEM Bond Fund") denominated in Singapore dollars and managed by UOB Asset Management Ltd, Singapore ("UOBAM"). The UEM Bond Fund is an open-ended collective investment scheme domiciled in Singapore and was launched in July 2001. Both UOBAM and UEM Bond Fund are regulated by the Monetary Authority of Singapore under the Securities and Futures Act (Chapter 289), Singapore. The Fund aims to achieve its objective of providing income[^] through the distributions received from the target fund, the UEM Bond Fund, whereas the potential capital appreciation (if any) will be from the price appreciation of the target fund, the UEM Bond Fund. Investors should note that the income[^] referred to here is in the form of units. Please refer to the Fund's distribution mode.

Its asset allocation is as follows:

At least 95% of Net Asset Value - Investments in the units of United Emerging Markets Bond Fund.

2% - 5% of Net Asset Value - Investments in liquid assets including money market instruments and deposits with financial institutions.

Although the Fund is passively managed, the investments in the Fund will be rebalanced from time to time to meet sales and redemptions transactions and to enable the proper and efficient management of the Fund.

The Manager does not adopt a temporary defensive position for the Fund in response to adverse market, economic, political, or any other conditions as such defensive strategies are expected to be implemented at the target fund level, i.e. UEM Bond Fund, when deemed necessary by UEM Bond Fund's manager. The Manager does not adopt any temporary defensive positions for the Fund as this will allow the Fund to best track the performance of UEM Bond Fund. It also follows that if UEM Bond Fund fails to adopt a successful defensive position in response to adverse market and economic conditions, there is a risk that the Fund will mirror UEM Bond Fund's negative performance, if any. Also, investors should note that at all times the Fund is always subject to currency risk.

This Fund is a feeder fund that invests at least 95% of its Net Asset Value in UEM Bond Fund. The risk management strategies and techniques employed will be at the UEM Bond Fund level together with its investment strategy that involves diversification of investments in emerging markets debt instruments and products. Notwithstanding anything contained herein, the Manager may, in consultation with the Trustee and with the Unit Holders' approval, replace UEM Bond Fund with another fund of a similar objective if, in the Manager's opinion, UEM Bond Fund no longer meets this Fund's investment objective, or when acting in the interest of the Unit Holders.

BENCHMARK

JP Morgan Emerging Markets Bond Index Global Diversified Index (RM).

Note: The risk profile of the Fund is different from the risk profile of the benchmark.

DISTRIBUTION

Distribution Policy	The Fund will declare distributions, if any, to Unit Holders depending on the level of income generated at each relevant period. Distributions, if any, after deduction of taxation and expenses (i.e. net distributions) are generally declared quarterly.
Distribution Mode	Distributions, if any, after deduction of taxation and expenses (i.e. net distribution), will be reinvested to purchase additional units of the Fund based on the Net Asset Value per unit as at the first Business Day when units in the Fund are quoted ex-entitlement. Allotment of such units shall be within two (2) weeks thereafter.

KEY RISKS

As this Fund invests at least 95% of its Net Asset Value in the target fund, UEM Bond Fund, it is subject to the management risk of the management company and investment manager of UEM Bond Fund, and amongst others, the lack of market economy of UEM Bond Fund which is elaborated below. Poor management of UEM Bond Fund will jeopardise the investment of this Fund in UEM Bond Fund and in turn, the Unit Holders' investment through the risk of reduced returns and in some cases loss of capital invested in this Fund.

Due to the specific risks of the investments at the target fund, i.e. UEM Bond Fund, investors investing in this Fund should note that the Fund is only suitable for investors who are able to bear the loss of a substantial portion or even all of the money they invest in the Fund, who understand the high degree of risk involved and believe that the investment is suitable based upon their investment objectives and financial needs. Investors are therefore advised to seek independent professional advice on the implications of investing in the Fund.

In addition, as UEM Bond Fund is domiciled in Singapore and denominated in Singapore dollars, this Fund may be subject to currency and country risk. Changes in rates of exchange between currencies may cause the value of this Fund's investment in UEM Bond Fund to diminish or increase which in turn will affect the value of Unit Holders' investments. The Fund's investments in UEM Bond Fund may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in Singapore.

Furthermore, investments of UEM Bond Fund are subject to the following risks:

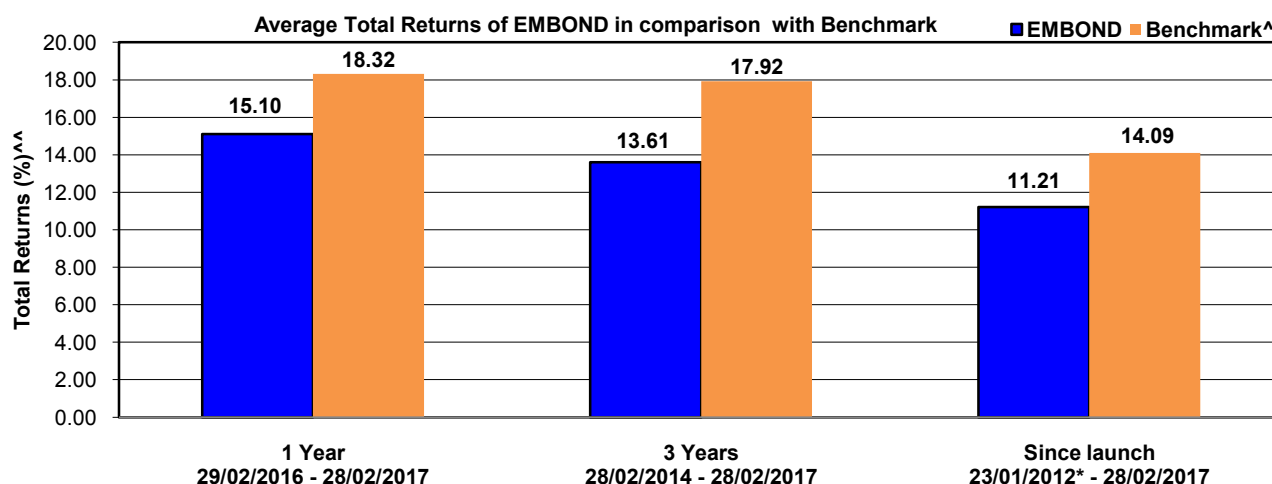

Described below are certain risk factors, including risk factors peculiar to investing in Emerging Markets. These require consideration of matters not usually associated with investing in securities of issuers in the developed capital markets of Organisation for Economic Co-operation and Development (OECD) countries. The economic and political conditions in Emerging Markets differ from those in developed markets, and offer less social, political and economic stability. The absence in many cases, until relatively recently, of any move towards capital markets structures or to a free market economy means investing in these countries is more risky than investing in more developed markets. These risks are likely to exist to a greater or lesser degree in most of the markets in which the target fund, UEM Bond Fund may invest. "Emerging Market" or "Emerging Markets" shall refer to any country: (i) considered middle income or low income (or sub-categories or gradations thereof) by the World Bank; (ii) classified as an emerging market and/or developing economy by the International Monetary Fund; (iii) included in any emerging or emerging market index constructed by any major index provider (including, without limitation, Morgan Stanley Capital International (MSCI), JP Morgan, S&P Dow Jones and FTSE); or (iv) reasonably considered to be an emerging market by the UEM Bond Fund's manager from time to time.

VALUATIONS AND EXITING FROM INVESTMENT

VALUATION OF ASSETS

The Fund must be valued at least once every Business Day. However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia. Accordingly, the valuation of the Fund for a Business Day will be conducted before 5.00 p.m. on the following day in which the Manager is open for business, when the closing prices of the foreign markets for that Business Day would be available.

As such, the daily price of the Fund for a particular Business Day will not be published in the major newspapers on the next day in which the Manager is open for business but will instead be published the next following day (i.e. the price will be two (2) days old). This will be specifically indicated in the major newspapers. Investors may however obtain the most current computed price by contacting the Manager directly or visiting our website, www.rhbgroup.com.

EXITING FROM THIS INVESTMENT

Units of the Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branch offices, or to any of its authorised sales agents or participating IUTAs before their respective cut-off times. For partial redemption, the balance of units of the Fund held after the redemption must be at least one hundred (100) units or such other lower quantity as the Manager may from time to time decide (the "minimum investment balance"). There are no restrictions on the number of units a Unit Holder can redeem out of his investments or the frequency of redemptions in a year. However, the Manager shall not be bound to comply with any request for redemption of units if the balance of units held after the redemption is less than the minimum investment balance.

The redemption monies will be paid within ten (10) days after receipt by the Manager of the request to repurchase.
