KEY PRODUCT FEATURES

INVESTMENT OBJECTIVE

The Fund aims to achieve regular income^A and long term* capital growth by investing in one target fund, i.e. RHB Singapore Income Fund.

Note: ^A"income" is in the form of Units.

**"long term" in this context refers to a period of between 5 – 7 years.

INVESTMENT STRATEGY	
<p>The Fund will invest principally in the class SGD units of the Target Fund denominated in SGD, managed by RHBAM Singapore. The Target Fund is an open-ended unit trust domiciled in Singapore and was constituted on 11 August 2015. RHBAM Singapore is regulated by the Monetary Authority of Singapore and the Target Fund is authorised under the Securities and Futures Act (Chapter 289), Singapore. The investment objective of the Target Fund is to achieve regular dividend payments and long term* capital growth through investment in companies listed on the Singapore Exchange and companies with main business or assets in Singapore that are listed on other stock exchange(s).</p> <p>*Note: "long term" in this context refers to a period of between 5 – 7 years.</p> <p>Although the Fund is not actively managed, the investments of the Fund will be rebalanced from time to time to meet Unit sales and Unit redemption transactions. This is to enable the proper and efficient management of the Fund.</p> <p>This Fund is a feeder fund that invests at least 95% of NAV in the Target Fund. The risk management strategies and techniques employed will be at the Target Fund level.</p> <p>Unit Holders are advised to read and understand the Target Fund's investment objective, focus and approach disclosed in the Disclosure Documents.</p>	
ASSET ALLOCATION	
<p>At least 95% of NAV</p> <ul style="list-style-type: none"> - Investments in the units of the Target Fund. <p>2% to 5% of NAV</p> <ul style="list-style-type: none"> - Investments in liquid assets including money market instruments and Placements of Cash. 	
BENCHMARK	
<p>FTSE Straits Times Index.</p> <p>The benchmark chosen best represents the investments of the Target Fund. An investor may refer to the Manager for this benchmark indicator.</p> <p>Note: The risk profile of the Fund is different from the risk profile of the benchmark.</p>	
DISTRIBUTION	
Distribution Policy	<p>Subject to the level of income, distributions, if any, after deduction of taxation and expenses (i.e. net distributions) are declared quarterly.</p> <p>Any distribution made, will be out of the Fund's realised gain or realised income.</p>
Distribution Mode	<p>Distributions, if any, after deduction of taxation and expenses (i.e. net distributions) will be reinvested to purchase additional Units based on the NAV per Unit as at the first Business Day when Units are quoted ex-entitlement. Allotment of such Units shall be within two (2) weeks thereafter.</p>
KEY RISKS	
KEY RISKS OF THE FUND	
Management risk	<p>As the Fund invests at least 95% of NAV in the Target Fund, it is subject to the management risk of the management company and investment managers of the Target Fund. Poor management of the Target Fund by the Target Fund's management company will jeopardise the investments of the Fund in the Target Fund and in turn, the Unit Holders' investments through the risk of reduced returns and in some cases loss of capital invested in the Fund.</p>
Liquidity risk	<p>The Fund is also exposed to liquidity risk as there is no secondary market for the Target Fund. Investments in the Target Fund can only be liquidated with the manager of the Target Fund or its appointed agents.</p>
Currency risk	<p>As the base currency of the Fund is in RM and the Fund will invest in the SGD denominated units of the Target Fund, the Fund is subject to currency risk. The impact of the exchange rate movement between the base currency of the Fund (RM) and the currency of the Target Fund (SGD) may result in a depreciation of the value of the investments as expressed in the base currency of the Fund, which in turn would affect the value of Unit Holders' investments in the Fund.</p>
Country risk	<p>As the Target Fund is domiciled in Singapore, the Target Fund is subject to country risk. The Fund's investments in the Target Fund may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in Singapore. This in turn may cause the NAV to fall.</p>
KEY RISKS OF THE TARGET FUND - RHB SINGAPORE INCOME FUND	
<ul style="list-style-type: none"> • Market risk • Country risk • Equity risk • Liquidity risk • Interest rate risk • Credit and default risk • Exceptional market conditions • Derivatives risk • Realisation risk <p>The risks of the Target Fund are elaborated in the Disclosure Documents.</p>

VALUATIONS AND EXITING FROM THIS INVESTMENT

VALUATION OF ASSETS

The Fund must be valued at least once every Business Day. However, the Target Fund in which the Fund invests in performs its valuation for its relevant business day on the day following its relevant business day. Accordingly, the valuation of the Fund for the relevant Business Day will be conducted before 5.00 p.m. on the following day in which the Manager is open for business, when the valuation of the Target Fund would have been obtained from RHBAM Singapore.

As such, the daily price of the Fund for a particular Business Day will not be published in the media on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated in the media.

Investors may however obtain the most current computed price by contacting the Manager directly or visiting our website, www.rhbgroup.com

EXITING FROM THIS INVESTMENT

The repurchase price shall be the NAV per Unit of the respective Class as at the next valuation point of the relevant Business Day ("forward pricing") after the repurchase request is received by the Manager.

A repurchase charge may be computed separately based on the withdrawal amount/repurchase amount. The minimum redemption Units for both the RM Class and the SGD Class is 1,000 Units or such other lower quantity as the Manager may from time to time decide and for any partial redemption, the balance of Units after the redemption must be 1,000 Units or such other quantity as the Manager may from time to time decide (the "minimum holding at all times").

Units can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its authorized sales agents or participating CUTAs or IUTAs on any day other than Saturdays, Sundays and public holidays before their

respective cut-off times.

The NAV is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at the valuation point. The NAV per Unit is determined when the NAV is divided by the total number of Units in circulation at that valuation point.

Redemption monies in the base currency of the Fund (i.e. RM) are to be paid within ten (10) business days⁸ after receipt by the Manager of the request to repurchase and are payable to the Unit Holders' bank account. However, the time taken to pay the redemption proceeds to investors may be extended or delayed if the Target Fund is suspended⁹ and/or the redemption from the Target Fund is deferred¹⁰. Should this occur, the Manager will pay the redemption proceeds to investors within ten (10) business days⁸ after receipt by the Manager of the redemption proceeds from the manager of the Target Fund.

⁸These are the working days when the Manager is open for business.

⁹For information concerning suspension or deferment of redemption by the Target Fund, see "Suspension of dealings in the Target Fund" and "Realisation of units in the Target Fund" in the Disclosure Documents.
